Griffith AND Turner Co.

SUPPLIES

GENERAL OFFICES, 205-215 N. PACA ST.

BRANCH HOUSE, 366 N. GAY ST.

BALTIMORE, MD.

Prospective Customers who are not rated in the Commercial agencies will save time in having their goods shipped by accompanying their Orders either with the Cash or satisfactory references. Baltimore references preferred.

NOTICE.—We make a specialty of quoting on complete outfits. **SEND FOR PRICES.**

FILLING ORDERS.—Every order is filled and forwarded as promptly as possible, but if not duly received, please notify us and we will make every effort to trace it without delay. Do not fail to sign your name and give full address.

PACKING AND SHIPPING.—We make no charge for boxes or packing of retail orders, and deliver all goods to any railroad or steamboat free of charge.

We charge for cotton bags as follows: Peck and half bushel, cents each; 1 bushel, cents each; 2 bushels, cents each.

HOW TO REMIT.—Remittances should be made by draft, Express Money Order, P. O. Money Order or Registered Letter.

We deliver by **PARCEL POST FREE** to any Postoffice in the United States all cash orders for Flower and Garden Seeds at Catalog prices, except Peas, Beans, Corn and Field Seeds. No seed delivered free unless order is accompanied with the cash. For postage on Peas, Beans, Corn, Field Seeds and All Merchandise, consult table below.

ON EVERY ORDER be sure to **SIGN YOUR NAME** and give your address **PLAINLY**, as we frequently receive orders lacking either or both; also give full shipping instructions. State if by freight or express and give route. This saves delay.

PRICES TO MARKET GARDENERS.—Market gardeners and all purchasers of Seeds in large quantities should submit us a list of their wants and we will name them special prices.

PARCEL POST RATES.

INSECTICIDES
CANNOT
BE SENT BY
PARCEL
POST

TO COUNTRY MERCHANTS.

WE PUT UP VEGETABLE SEEDS in papers for the Country Trade in quantities to suit purchasers.

Our seeds are select and tested, and give satisfaction wherever used.

Beans, Peas, Corn, etc., in bulk, at lowest wholesale rates.

Write for special quotations in quantities.

Should you have placed your order for small papers for this year, we will be pleased to fill any shortage you may have, and solicit your patronage for another season

OUR SEEDS are the **BEST** that can be obtained anywhere, because we are as careful in our selection as it is possible for anyone to be, and are constantly on the lookout for the best of everything, but will not put on the market anything until it has been thoroughly tried and proved.

No matter what others may ask for their seeds, better quality cannot be obtained anywhere, as our constantly and rapidly increasing trade does and will testify.

Our Seeds are **ALL TESTED** thoroughly before being placed on the market.

If for any reason you change your postoffice address, please advise us, giving your old address as well as your new one, stating which is the old and new one.

By writing out your order on the Order Sheet sent with each Catalogue you will greatly facilitate our work. Extra Order Sheets sent on application. Be sure to sign your name in full, giving postoffice and shipping point. If you have rural delivery, give name and number of route. If you want goods shipped by boat or railroad, state which you prefer, and what line to send by.

WEIGHT OF AGRICULTURAL SEEDS, PER BUSHEL, AND QUANTITY USUALLY SOWN PER ACRE.

BEST GOODS

No. 35

LOW PRICES

ARTICHOKES.—This is a very nice vegetable to eat. Some prefer it cooked like asparagus—that is, take the flower head before it begins to open and cook much the same way.

Sow in March in hotbed and when danger of frost is over transplant in very rich, well-drained soil in rows four feet apart and two feet apart in the row. The plants can be raised in seed beds out of doors, but in that case will not be likely to produce heads the first year. Late in the fall cut off the old tops and thoroughly protect the crowns with leaves or straw to prevent severe freezing.

The second year thin the starting shoots to three of the best, which will commence to form heads about June 1st. The plants may also be blanched by cutting back the stems close to the ground in June, the rapidly growing shoots which then start up may be tied and blanched like celery. As artichoke plants do not yield satisfactorily after three or four years, it is best to start a new plantation every three years.

LARGE GREEN GLOBE.—A favorite French vegetable of medium height with rather deep green leaves. The buds or flower-heads are green, nearly round or somewhat elongated. **Pkt., 5c. Oz., 40c.**

ASPARAGUS

Palmetto Asparagus.

This is one of the earliest spring vegetables, and should be in universal use. Many persons think it is difficult to grow, but we consider this a mistake, and believe it can be produced as cheaply and easily as any on the list. Sow the seed in the seed bed late in the fall or the early spring, as soon as the ground can be worked, in drills one foot apart, covering the seed about one inch deep. When the plants are four or five inches high, great care should be taken to keep the bed free of weeds. One ounce of seed will sow forty feet of row.

PALMETTO.—A very early maturing variety, producing an abundance of very large, deep green shoots. **Pkt., 5c. Oz., 10c. ¼ lb., 20c. Lb., 60c. 5 lbs., \$3.00.**

MAMMOTH WHITE.—Produces large, white shoots six inches above the surface; fine quality. **Pkt., 5c. Oz., 10c. ¼ lb., 20c. Lb., 60c.**

BARR'S MAMMOTH.—The stalks are very large, and retain their thickness completely up to the top of the shoots; light in color. **Pkt., 5c. Oz., 10c. ¼ lb., 20c. Lb., 60c. 5 lbs., \$3.00.**

CONOVER'S COLOSSAL.—A mammoth, green sort of the largest size and of good quality. One of the best known and most generally cultivated varieties. **Pkt., 5c. Oz., 10c. ¼ lb., 20c. Lb., 60c. 5 lbs., \$3.00.**

GIANT ARGENTEUIL.—A French variety. Stalks large and thick. **Pkt., 5c. Oz., 10c. ¼ lb., 20c. Lb., 60c.**

ASPARAGUS ROOTS.—A saving of one to two years is effected by planting roots. A bed 12x40 feet, requiring about 100 roots, should give a sufficient supply for an ordinary family. 7,260 roots will plant an acre. Select good loamy soil, plow deep, put in good quantity of manure and 100 pounds kainit to 1,000 square feet of bed. Incorporate thoroughly, make a trench eight inches deep, set plants nine inches apart. In field culture rows are placed four feet apart.

Asparagus Roots.

	Per 100	Per 1000		Per 100	Per 1000
Barr's Mammoth.....	\$1.25	\$10.00	Palmetto (Green).....	\$1.25	\$10.00
Colossal (Green).....	1.25	10.00			

Prices, by Express, Not Prepaid.

ASPARAGUS KNIFE

Made of solid steel; see the cutting point. **Price, 50c. each.**

RAFFIA

The best material for tying plants, vines, etc. **Per pound, 25c.**

ASPARAGUS BUNCHER

This Asparagus Buncher is adjustable with patented clamp. **Price, \$3.75 each.**

ALL PRICES IN CATALOG SUBJECT TO CHANGE WITHOUT NOTICE.

BEANS

Dwarf or Bush-Wax Podded

Select light, warm soil and plant when danger from frost is past in the Spring, in drills 2 to 2½ feet apart, dropping the beans about 6 to 8 inches apart in the drills, and cover 2 inches deep. A succession of sowings can be made from the first week in May until August.

Add 6 cents per pound on all Beans if to be sent by mail. For larger quantities see table on page 2. **Crop very short, order early.**

IMPROVED RUSTPROOF GOLDEN WAX.

This is the earliest, handsomest and hardiest of all the Wax Beans. The pods are straight, long and thicker than the ordinary Golden Wax, much superior in quality, absolutely rustproof and sure to become a favorite Wax Bean; in fact, it has already gained great popularity with growers.

Plnt, 25c. Quart, 45c. Peck, \$2.75. Bushel, \$11.00.

GOLDEN-EYED WAX.

This Bush Bean is very early; the vine grows vigorously to about one and a half feet high, holding pods off the ground. The pods are handsome, long, straight and flat, remarkably free from rust.

Plnt, 25c. Quart, 45c. Peck, \$2.75. Bushel, \$11.00.

DAVIS' KIDNEY WHITE WAX.

Vigorous grower, bears abundantly; long, white handsome pods, which are crisp and tender if gathered when young.

Plnt, 25c. Quart, 45c. Peck, \$2.75. Bushel, \$11.00.

DWARF PROLIFIC BLACK WAX.

Yellow pod, a very superior snap sort, ripening among the first earlies and having the best characteristics. Very tender.

Plnt, 25c. Quart, 45c. Peck, \$2.75. Bushel, \$11.00.

HODSON WAX.

The most vigorous wax-podded bean yet introduced. The yield of large, handsome pods is enormous. Its dense foliage protects the pods, so that their color is clear creamy white. Pods very long, straight or slightly curved, flat, but fleshy, quite stringless and of very good quality. While late in maturing, the remarkable vigor of the plant is a safeguard against blight and other diseases.

Plnt, 25c. Quart, 45c. Peck, \$2.75. Bushel, \$11.00.

CURRIE'S RUSTPROOF GOLDEN WAX.

NEW BALTIMORE STRINGLESS WAX.

Black seeded, early; thick flat yellow pod. No strings. Have appearance of Currie's Rustproof Wax, but are better cropper, and absence of strings make them much more desirable for canning and other uses.

Plnt, 25c. Quart, 45c. Peck, \$2.75. Bushel, \$11.00.

CURRIE'S RUSTPROOF BLACK WAX.

For earliness and freedom from rust it is at the head of the Wax Bean family. Habit, upright and robust, holding the pods well from the ground. Pods long, straight, flat and very meaty, of a beautiful color; quality not surpassed, and for productiveness it is unequalled.

Plnt, 25c. Quart, 45c. Peck, \$2.75. Bushel, \$11.00.

WARDWELL'S KIDNEY WAX BEAN.

This is one of the best wax sorts. The vines are remarkably vigorous, hardy and productive. The pods are very large, smooth, showy, tender, perfectly stringless and of unusually fine quality.

Plnt, 25c. Quart, 45c. Peck, \$2.75. Bushel, \$11.00.

NEW PENCIL POD WAX BEAN.

Very early and productive. Pods long, straight and handsome; color, light golden yellow; strong and vigorous bush. One of the best varieties. ½

Plnt, 25c. Quart, 45c. Peck, \$2.75. Bushel, \$11.00.

BEANS—GREEN-PODDED BUSH

The green podded dwarf sorts are perhaps the most important class of garden beans and are probably more extensively used for snaps than the wax podded varieties, although the latter are considered by many as the more attractive in appearance. The green podded sorts are as a rule the more productive, being less sensitive to unfavorable conditions of soil and climate and of late years have been less susceptible to bean diseases.

**G. & T.'S IMPROVED
EXTRA EARLY RED
VALENTINE
BEANS.**

Red Valentine and has that beautiful silvery green color in the pods that is so much desired.

Pint, 25c. Quart, 45c. Peck, \$2.75. Bushel, \$11.00.

REFUGEE, or 1000 TO 1.

A medium to late variety, very productive and largely grown for pickling; handsome and tender pods.

Pint, 25c. Quart, 45c. Peck, \$2.75. Bushel, \$11.00.

GREEN-PODDED STRINGLESS REFUGEE.

Medium-early, round-podded green stringless; exceptionally good cropper. Fine for canning and table use. Newest thing in Green Pod Stringless Beans.

Pint, 25c. Quart, 45c. Peck, \$3.00. Bushel, \$12.00.

BURPEE'S NEW STRINGLESS GREEN POD.

One of the earliest varieties, pods round and full, absolutely stringless and of beautiful fleshy appearance; quality excellent. The only green pod bean of which the pods never develop any strings.

Pint, 25c. Quart, 45c. Peck, \$2.75. Bushel, \$11.00.

**BURPEE'S STRINGLESS
GREEN POD BEANS.**

GIANT STRINGLESS GREEN POD.

Resembles very much the old Valentine. The plants are of strong growth, very productive; pods 5 inches long, light green, slightly curved, very meaty, brittle and stringless at all stages and of mild flavor. **Pint, 25c. Quart, 45c. Peck, \$2.75. Bushel, \$11.00.**

LONG YELLOW SIX WEEKS.

The plants of this hardy variety, large, vigorous, erect and very productive. The leaves are large. The pods are long, about six inches, straight, flat, handsome, rather light green and when young are of good quality for snaps. **Pint, 25c. Quart, 45c. Peck, \$2.75. Bushel, \$11.00.**

DWARF HORTICULTURAL (Cherry).

Very green podded sort, used as a shell bean, and for this purpose is one of the finest in general use; long a favorite with those who use a shell bean in a green state. **Pint, 25c. Quart, 45c. Peck, \$2.75. Bushel, \$11.00.**

BEST OF ALL.

One of the most valuable green podded sorts for family or market use. Pods are six inches long, very fleshy, succulent, stringless, of rich flavor; produced early and abundantly. **Pint, 25c. Quart, 45c. Peck, \$2.75. Bushel, \$11.00.**

WHITE MARROWFAT.

Extensively grown for sale as a dry bean for winter use. **Pt., 25c. Qt., 45c. Pk., \$2.00. Bu., \$8.00.**

WHITE NAVY, or SMALL PEA BEAN.

A well-known variety for field culture; very prolific. **Pt., 25c. Qt., 45c. Pk., \$2.00. Bu., \$8.00.**

BUSH LIMA BEANS

Plant in drills two to three feet apart, dropping the beans three to four inches apart and covering one and one-half to two inches deep. If planted in hills, make the hills two to three feet apart one way and two to two and one-half feet the other and plant four beans in a hill. Hoe often but only when the leaves are dry.

BURPEE'S BUSH LIMA.

Set the poles 3 to 4 feet apart and plant 6 to 8 beans, with the eyes downward, around each pole thinning to 4 healthy plants when they are up. They require the same soil and treatment as the dwarf varieties.

POLE LIMAS

When Beans are sent by mail add, for postage, 6c. per pound. For larger quantities refer to table on page 2.

FORDHOOK BUSH LIMA.—An improved dwarf Lima of the Kumerle type. The plant is vigorous and erect growing, bearing well about the ground. The pods are produced in large clusters, each containing three to five large beans of exceptionally fine quality. Much more productive than Kumerle and matures earlier. We consider this a decided acquisition to the dwarf Lima, possibly the best of the class. Pt., 30c. Qt., 60c. Peck, \$4.00. Bushel, \$15.00.

BURPEE'S IMPROVED BUSH LIMA.—Will outyield Burpee's Bush Lima by fully one-third. This greater yield is due to the increased size of both pod and beans. The dried beans are very handsome, and generally show a greenish-white coloring, while dried beans of the Burpee Bush Lima, like those of the Large Pole Lima, are pure white. Pint, 30c. Quart, 60c. Peck, \$4.00. Bushel, \$15.00.

BURPEE'S BUSH LIMA.—Bushes grow 18 to 20 inches high, stout growth and always erect, yet branching so vigorously that each plant develops into a magnificent circular bush 2 to 3 feet in diameter; an immense yielder, each bush bearing 50 to 200 handsome, large pods, well filled. Pint, 30c. Quart, 60c. Peck, \$4.00. Bushel, \$15.00.

KUMERLE, or DREER'S BUSH LIMA.—Dwarf variety of Dreer's Improved Lima, which has been fixed in its character of a bush bean; very prolific, single plants often producing 150 to 200 pods. Equal in quality and tenderness to Dreer's Pole Lima.

Pint, 30c. Quart, 60c. Peck, \$4.00. Bushel, \$15.00.

DREER'S WONDER BUSH LIMA.—Very desirable on account of earliness, productiveness; of strong, upright growth, and are completely covered with large pods, many of which contain four beans, which are fully as large as the Pole Limas. The beans are flat in shape and of excellent quality.

Pint, 30c. Quart, 60c. Peck, \$4.00. Bushel, \$15.00.

HENDERSON BUSH LIMA.—These are very valuable, because they do not need poles, and, being so dwarf, can be planted close together. They are very early and prolific, continuing to bear until frost. Pint, 30c. Quart, 60c. Peck, \$3.75. Bushel, \$14.00.

CARPENTERIA POLE LIMA.—The newest large pole Lima; enormously prolific; early green and delicious flavor.

Pint, 30c. Quart, 60c. Peck, \$4.00. Bushel, \$15.00.

HENDERSON'S EARLY LEVIATHAN.—This is the very earliest. It will not only give large Lima beans earlier than any other strain, but it is also much more productive, both early and throughout the season. It is a strong grower, clinging well to the poles, and is a sure cropper. The pods hang out from the foliage in large clusters and contain three or four and sometimes five large beans to the pod. Pint, 30c. Quart, 60c. Peck, \$4.00. Bushel, \$15.00.

KING OF THE GARDEN LIMA.—This bean has met with enormous sales the past few seasons. They are vigorous growers, setting their beans early at bottom of pole, producing continuously to the end of the season. They are more prolific than the ordinary Lima, bearing pods 5 to 7 inches long, in clusters of 4 and 5, with 5 or 6 beans in a pod.

Pint, 30c. Quart, 60c. Peck, \$4.00. Bushel, \$15.00.

EXTRA LARGE WHITE LIMA.—This is a splendid sort, and takes a leading place with growers, because of its many excellent qualities. As a shell bean surpasses all in quality, and is the favorite with most people.

Pint, 30c. Quart, 60c. Peck, \$4.00. Bushel, \$15.00.

FORD'S MAMMOTH POLE LIMA BEAN.—The pods grow to an average length of 8 inches, are produced in great clusters, with from 5 to 7 beans per pod of most excellent quality for using either green or dry. The vines grow vigorously, setting the beans early at the bottom of the pole, and continue in bearing up to frost. Pt., 30c. Qt., 60c. Pk., \$4.00. Bu., \$15.00.

EXTRA EARLY JERSEY LIMA.—This variety is two weeks earlier than other sorts; the pods are large and numerous, making it a very profitable sort to grow. Pint, 30c. Quart, 60c. Peck, \$4.00. Bushel, \$15.00.

DREER'S IMPROVED OR CHALLENGE POLE BEAN.—This popular bean is considered by many growers superior to all others in quality and productiveness. When green it is as large as the Large Lima, thicker, sweeter and more tender and nutritious, remaining green in the pod for a long time after maturing. Pint, 30c. Quart, 60c. Peck, \$4.00. Bushel, \$16.00.

CAROLINA OR SIEVA.—A seedling variety of large White Lima, with small pods, usually about 2 inches long. A little earlier and harder. Pint, 30c. Quart, 60c. Peck, \$3.75. Bushel, \$15.00.

BEANS—POLE OR RUNNING

These are of strong running growth, and need stout poles on which to climb. They require a longer season in which to mature than do the bush varieties, but by reason of their stronger growth are more productive, and growing on poles are more easily gathered.

MARYLAND WHITE.—This new White Pole Bean is destined to take its place as one of the best beans ever grown for general purposes. Its thick, meaty, green pods are very tender, rich in flavor, and produced in great abundance. It is equally valuable as a snap or shell bean. **Plant 30c. Quart, 60c. Peck, \$4.00. Bushel, \$15.00.**

LAZY WIFE.—Large pale green pods, very thick meated, stringless, rich, tender and buttery; ripens early; clings well to the pole; enormously productive; splendid either as a snap or shell bean. **Plant, 30c. Quart, 60c. Peck, \$4.00. Bushel, \$15.00.**

KENTUCKY WONDER, OR OLD HOMESTEAD.—A very prolific sort, bearing its pods in large clusters; pods green, often reaching 9 to 10 inches in length, nearly round when young, and very crisp. **Plant, 30c. Quart, 60c. Peck, \$4.00. Bushel, \$14.00.**

SPECKLED HORTICULTURAL, OR WREN'S EGG.—An old favorite for both snap-shorts and dry beans. **Plant, 30c. Quart, 60c. Peck, \$4.00. Bushel, \$14.00.**

Kentucky Wonder Pole Beans.

BORECOLE

This is often called Broccoli by market gardeners, but belongs to the Kale family. Very spreading in habit and beautifully curled.

Seed should be sown in May and transplanted in July, in the open field and treated same as Savoy Cabbage. **Pkts. 5c. and 10c. Oz., 15c. ¼ lb., 50c. Lb., \$1.75.**

BROCCOLI

1 Ounce of Seed to 100 Yards of Row.

The heads resemble somewhat a coarse cauliflower and the culture is the same as for that vegetable. Broccoli is well adapted only to those sections where the season is long, cool and rather moist. One of the most valuable features is that it withstands greater extremes of temperature than cauliflower.

EARLY PURPLE CAPE.—Large, compact. **Pkt., 10c. Oz., 50c.**

LARGE EARLY WHITE.—Head white, like cauliflower; the best.

Pkt., 10c. Oz., 50c.

BORECOLE.

BROCCOLI.

SWISS CHARD

(Sea Kale or Spinach Beet.)

This kind of beet is grown exclusively for the use of the home garden, and is superior to those of other beets for use as greens.

Later in the season the wax-like leaf stems are cooked like asparagus or are pickled. This variety we offer has large, broad, undulated leaves, and remarkably broad stalks and midribs or chards. It is well worthy of a place in the home garden as well as for market use.

Pkt., 5c. Oz., 15c. ¼ Lb., 30c. Lb., \$1.00

BRUSSELS SPROUTS

1 Ounce of Seed to 100 Yards of Row.

Brussels Sprouts are used in the fall and early winter and by some considered more tender and delicious than any cabbage. The plant resembles the cabbage, the edible part being the numerous very small heads or sprouts an inch or two in diameter formed on the stalk at each leaf joint. The culture is the same in all essentials as for cabbage, except the leaves should be broken down in the fall to give the little heads more room to grow.

Pkts., 5c. and 10c. Oz., 20c. ¼ lb., 60c. Lb., \$2.00.

Swiss Chard.

Brussels Sprouts.

BEETS

One Ounce of Seed Will Sow One Hundred Feet of Drill

Select a deep, rich sandy loam and manure with well decomposed compost or a good chemical fertilizer. Sow in drills, 14 to 16 inches apart, and cover 1 inch deep. When the young plants appear, thin to 4 or 5 inches apart. For early use, sow as soon as the ground can be worked in the spring; for autumn use, about the middle of May, and for winter use, during June or July, according to the variety—the long varieties requiring more time to mature than the round, early kinds.

Crosby's
Improved
Egyptian.

**EGYPTIAN BEET.
CROSBY'S IMPROVED.**

A very superior strain of the well-known Egyptian, carefully selected, blood color, quick, rapid growth. The shape is very desirable, as shown in the accompanying photograph, being not so round as the Eclipse, or quite so flat as the ordinary Egyptian. It may be sown outside as late as July. **Pkt., 5c. Oz., 10c. ¼ Lb., 25c. Lb., 75c.**

BASSANO, OR EXTRA EARLY TURNIP.

Flesh white and rose; very sweet and tender. **Pkt., 5c. Oz., 10c. ¼ Lb., 25c. Lb., 75c.**

EXTRA EARLY EGYPTIAN.

This is a flat Beet, very early and deep red color. Owing to the small top it can be planted very close. **Pkt., 5c. Oz., 10c. ¼ Lb., 25c. Lb., 75c.**

G. & T. CO.'S EARLY MARKET.

Its qualities are extra early, dark red color, fineness of shape and small top. One of the most attractive varieties grown, and is especially desirable for hotbeds on account of its small top and close-growing habit. **Pkt., 5c. Oz., 10c. ¼ Lb., 25c. Lb., 75c.**

Eclipse Beet.

ECLIPSE BEET.

This extra early Beet is remarkable for its fine quality and rapid growth; is of deep red color and handsome shape. As an early market sort it is unrivaled. It is to a large extent superseding the Egyptian, being earlier in development, more attractive in appearance, and of superior quality for the table. **Pkt., 5c. ¼ Lb., 25c. Lb., 75c.**

EDMAND'S RED TURNIP.

The most uniform of all Turnip Beets. It is of handsome round shape, good marketable size and deep blood color. It has a small top, and may be planted close. **Pkt., 5c. Oz., 15c. ¼ Lb., 25c. Lb., 75c.**

DETROIT DARK RED TURNIP BEET.

This is one of the finest formed and handsomest-colored Beets on the market. It is unsurpassed in the uniformity and beauty of the crop. It is exceedingly early, and produces more marketable specimens on the same acreage than any other variety. **Pkt., 5c. Oz., 10c. ¼ Lb., 25c. Lb., 75c.**

G. & T. CO.'S EARLY BLOOD TURNIP BEETS.

This is our **Special Stock** of Early Blood Turnip Beet, which we have been growing for a number of years, and which the market gardeners of Baltimore and other places prefer. It is of dark red color, handsome shape and early. **Pkt., 5c. Oz., 15c. ¼ Lb., 25c. Lb., 75c.**

LARGE LONG BLOOD.

A large and desirable late variety of deep red color. **Pkt., 5c. Oz., 10c. ¼ Lb., 25c. Lb., 75c.**

MANGEL WURZEL BEETS FOR STOCK

SOW 4 POUNDS TO THE ACRE.

Stock Beets grow larger than any other Beets, and hence require more room. They should be sown from April to June, in drills 2½ feet apart, and the plants thinned to 12 to 15 inches in the row. The attention of farmers to the growing of Beets for stock feeding has rapidly increased, but it should be grown more generously, and will show the results in the health and condition of the stock. It supplies good, rich food for cattle during the winter.

LONG RED MANGOLD WURZEL.

The well-known, large, long, variety, grows well out of ground. Color light red. Very productive. **Pkt., 5c. ¼ Lb., 15c. Lb., 45c.**

GOLDEN TANKARD MANGOLD.

The best type of Mangold—small top, smooth, rich skin, broad shoulders, very solid fleshed, golden stemmed, heavy producer. **Pkt., 5c. ¼ Lb., 15c. Lb., 45c.**

WHITE SUGAR BEET.

A large-growing sort, and used for feeding stock. **Pkt., 5c. ¼ Lb., 15c. Lb., 45c.**

CHAMPION YELLOW INTERMEDIATE OR GATE-POST MANGOLD.

One of the very finest Mangolds ever introduced, giving unbound satisfaction wherever grown. With good cultivation will crop at the rate of 200 bushels per acre. **Pkt., 5c. ¼ Lb., 15c. Lb., 45c.**

Golden Tankard Mangold.

CABBAGE

One Ounce of Seed to 100 Feet of Row.

EARLY CABBAGES.

Cabbage will thrive on any good corn land, though the stronger the soil the better they will develop. New land is preferable. Plow deep and manure very liberally, as cabbage is a strong feeder, and will repay for the care bestowed upon it. The early sorts bear planting from eighteen inches to two feet apart in the rows, with the rows from two to two and a half feet apart. The larger varieties to be from two to four feet apart in the rows, with the rows from two and a half to four feet apart, the distance varying with the size. It does not pay to buy cheap cabbage seed. Ours are American grown, and from the best stock in the country. For early use, sow in a hotbed in February or March, and transplant to a cold-frame as soon as large enough. In April the plants may be set out in the rows. For late crop, sow in nursery bed in May or June, and transplant as soon as the plants are five or six inches high. The ground should be thoroughly cultivated every week until the plants meet in the rows.

SELECT EARLY JERSEY WAKEFIELD

American Grown.

The very best early Cabbage, and grown more extensively by market gardeners than any other variety. It is early, the heads are pyramidal in shape, very large and solid, and having but few outside leaves, the plants can be set close together. We secured our seed from a grower of the best Wakefield Cabbage in the country, and it is giving good results wherever it is used, so much so that our sales of this sort are rapidly increasing each year. The demand for this sort has brought on the market inferior stock at a low price; but when select stock, such as we offer, is used it cannot fail to give satisfaction. **Pkts., 5c. and 10c. Oz., 20c. ¼ Lb., 75c. Lb., \$2.50.**

CHARLESTON, OR LARGE WAKEFIELD

American Grown.

This is now a very popular market cabbage, fully meeting the demand for a cabbage having all the characteristics of the Jersey Wakefield, but larger. It is five to six days later than Early Jersey Wakefield. The heads are fully one-half larger and quite solid. It is very compact in growth, and can be easily planted in rows, two feet apart and twenty inches in rows. One great advantage is, it does not burst open when ripe, like many other early sorts, and consequently can be left standing on the ground a long while without injury until a favorable opportunity for cutting. No market or private gardener desiring a cabbage of this kind should fail to plant this valuable sort.

Pkts., 5c. and 10c. Oz., 20c. ¼ Lb., 75c. Lb., \$2.50.

LARGE OR CHARLESTON WAKEFIELD.

KING OF EARLIES.—Our own introduction; American grown. An extra early variety, fully a week ahead of all other varieties in forming marketable heads; the heads are tall and slim and of rather small size, formed like a Wakefield. Habit, vigorous; short stem and proof against sun. **Pkts., 5c. and 10c. Oz., 20c. ¼ Lb., 75c. Lb., \$2.50.**

EXTRA EARLY EXPRESS.—Heads are comparatively thicker and less pointed than Jersey Wakefield and slightly earlier. Heads softer, but stands shipping better. **Pkts., 5c. and 10c. Oz., 20c. ¼ Lb., 75c. Lb., \$2.50.**

EARLY WINNINGSTADT.—Head large, cone-shaped and solid. An old and popular sort. **Pkts., 5c. and 10c. Oz., 20c. ¼ Lb., 75c. Lb., \$2.50.**

LARGE EARLY YORK.—(American Grown)—One of the earliest. Forms a medium size, pointed head. **Pkts., 5c. and 10c. Oz., 20c. ¼ Lb., 75c. Lb., \$2.50.**

COPENHAGEN MARKET.—A new round head, solid cabbage, recently introduced from Denmark. It is without doubt the finest large round-headed early cabbage in cultivation. The type is thoroughly fixed and the heads mature uniformly, which enables the crop to be harvested at one time, so that the ground can be cleared in two cuttings.

It matures as early as the Charleston Wakefield, and will give a heavier yield per acre. In an average season heads will weigh about 8 pounds or more each.

The leaves are light green in color, tightly folded, which produces a short stem plant. We consider it the finest flat-head variety for spring or summer. Our seed comes from the originator direct.

Pkts., 5c. and 10c. Oz., 30c. ¼ Lb., 90c. Lb., \$3.00.

Copenhagen Market Cabbage, New From Denmark

CABBAGE—CONTINUED

NEW EARLY—American Grown.

This is one of the finest large early cabbages grown. Forms solid, compact heads, and leaves close to the head, thus allowing many more cabbages to be grown on the acre than any other sort. One of its most striking features is its earliness. Its heads so rapidly that the worms can't hurt it.

Pkts., 5c. and 10c. Oz., 20c. ¼ Lb., 75c. Lb., \$2.50.

SUCCESSION CABBAGE.—A fine early variety, coming in a few days later than Early Summer, but it is immeasurably superior to that variety; it is nearly double the size, and is absolutely true to its type under all conditions. In addition to this, it has no tendency whatever to run to seed. It is one of the finest sorts in existence today; whether for medium early, main crop or late use, it has no superior. It is so finely bred and so true to type that in a field of twenty acres every head appears alike. We can recommend it either for the market gardener, trucker or private planter, as it is a perfect cabbage in every respect, not only being of the largest size; but of handsome color and of the finest quality. It is probably the safest variety for an amateur to plant, as it does well at all seasons, and one is almost sure of getting a crop, no matter when it is planted.

Pkts., 5c. and 10c. Oz., 20c. ¼ Lb., 75c. Lb., \$2.50.

EARLY SUMMER CABBAGE.—American grown. One of the earliest of the summer varieties. Heads large and flat; short stemmed, few outside leaves, uniform in character, and about 10 days later than the Wakefield. It is very popular with the truckers.

Pkts., 5c. and 10c. Oz., 20c. ¼ Lb., 75c. Lb., \$2.50.

LOUISVILLE DRUMHEAD.—American grown. This is the most popular intermediate or second early with market gardeners around Louisville and the Southwest. It comes off medium early, withstands heat to a remarkable extent, heads large, solid and uniform in size and color. We can recommend this sort very highly for the Southern and Middle States.

Pkts., 5c. and 10c. Oz., 20c. ¼ Lb., 75c. Lb., \$2.50.

FOTTLER'S EARLY DRUMHEAD OR SHORT STEM BRUNSWICK CABBAGE.—In its improved type, this is a very fine summer or early fall variety. Good both for intermediate and winter use.

Pkts., 5c. and 10c. Oz., 20c. ¼ Lb., 75c. Lb., \$2.50.

ALL HEAD EARLY

ALL-HEAD EARLY—American Grown, is the largest of all early Cabbages, fully one-third larger than the Early Summer. It is the nearest approach to a thoroughbred cabbage of any variety, both in size and uniform development. As the All-Head comes in quicker than any of the other flat cabbages, it is consequently more tender. It is also valuable for a late or winter Cabbage.

Pkts., 5c. and 10c. Oz., 20c. ¼ Lb., 75c. Lb., \$2.50.

EARLY DWARF FLAT DUTCH

American Grown.

An old standard variety which stands the sun and produces fine, large heads, coming in soon after the Wakefield.

Pkts., 5c. and 10c. Oz., 20c. ¼ Lb., 75c. Lb., \$2.50.

SUCCESSION CABBAGE.

ALL-HEAD EARLY CABBAGE.

ALL SEASON—American Grown

This forms a fine, large head, of superior quality, nearly as early as the Early Summer. Suitable for planting at any season.

Pkts., 5c. and 10c. Oz., 20c. ¼ Lb., 75c. Lb., \$2.50.

SUREHEAD—American Grown

This popular cabbage is rightfully named Surehead, as it never fails to make a fine, large, solid head, with few outer leaves. It is a strong, vigorous grower, and very uniform in size and color. Always brings the highest price in our markets.

Pkts., 5c. and 10c. Oz., 20c. ¼ Lb., 75c. Lb., \$2.50.

LATE OR AUTUMN CABBAGE

BOSS FLAT DUTCH—LATE CABBAGE.

PREMIUM LARGE FLAT DUTCH—LATE CABBAGE.

BOSS FLAT DUTCH CABBAGE—

PREMIUM LARGE LATE FLAT DUTCH CABBAGE—

American Grown.

Large and excellent for winter; very extensively grown. The head is broad, thick and flat, well covered in by leaves lapping across the center, outside leaves feathered to the base of the leaf stem.

Pkts., 5c. and 10c. Oz., 20c. $\frac{1}{4}$ Lb., 75c. Lb., \$2.50.

ENKHUIZEN GLORY.

ENKHUIZEN GLORY CABBAGE

A most valuable second-early Cabbage that is becoming immensely popular. It produces fine marketable heads fully as early as our famous Allhead Early—but round or ball-like in form. The heads are very solid, with but few outer leaves—and of such compact growth as to permit quite close planting, thus increasing the yield. The heads are of medium size, tender and of fine flavor. They keep well when put away and consequently Enkhuizen Glory is valuable also for sowing later in the season for early winter use. Plants set out in mid-summer will produce fine heads before cold weather. The seed we offer has been grown by the originator in Holland and will yield heads that will delight the most critical planters.

Pkts., 5c. and 10c. Oz., 20c. $\frac{1}{4}$ Lb., 75c. Lb., \$2.50.

DANISH BALL HEAD

This most excellent variety of cabbage, coming from Denmark, has grown very rapidly into favor with both market and private gardeners. It is a large, round, solid heading, medium early variety; a very sure header, having few loose leaves, consequently can be planted very close together. Although a medium early, can also be grown for a fall and winter crop, being one of the best keepers. Very popular in Philadelphia, New York and Boston markets.

Pkts., 5c. and 10c. Oz., 20c. $\frac{1}{4}$ Lb., 75c. Lb., \$2.75.

DANISH BALL HEAD CABBAGE.

LARGE LATE AMERICAN DRUMHEAD—American Grown

One of the largest, most solid and best keeping late varieties. This variety seldom fails to head, and is of good quality. Pkts., 5c. and 10c. Oz., 20c. $\frac{1}{4}$ Lb., 75c. Lb., \$2.50.

WORLD-BEATER OR AUTUMN KING

This is a very superior late cabbage. The large, broad heads are very thick through, slightly rounded at the top, fine grained and tender, has a short stalk, green color, and one of the best keepers we know, and is a rapid grower. Pkts., 5c. and 10c. Oz., 20c. $\frac{1}{4}$ Lb., 75c. Lb., \$2.50.

RED DUTCH

The head is round, large, solid and a deep red color, the best of the red cabbages. Pkts., 5c. and 10c. Oz., 20c. $\frac{1}{4}$ Lb., 75c. Lb., \$2.50.

LATE CABBAGES---CONTINUED

DRUMHEAD SAVOY.

PERFECTION DRUMHEAD SAVOY

AMERICAN GROWN.

This is without any exception the finest stock of Savoy cabbage to be found anywhere. The heads are large and solid, the leaves beautifully curled, and in tenderness and flavor it is almost equal to cauliflower, while its keeping quality is first class. To say that our market gardeners are pleased with it is putting it mild; they are enthusiastic over it, as they find it so much superior to the old-time Savoy. It is specially adapted to private use, as when grown in the fall and allowed to be touched by frost it is one of the most delicious

Packets, 5c. and 10c. Oz., 20c. ¼ Lb., 75c. Lb., \$2.50.

GEORGIA COLLARDS

Called the Cabbage Collard on account of its close bunching growth. The plant produces center leaves generally perfectly white, though sometimes dashed with pink. It is a very delicate vegetable and of the finest quality.

Packets, 5c. and 10c. ¼ Lb., 30c. Lb., 75c.

G. & T. CO.'S LARGE GILT EDGE SNOWBALL CAULIFLOWER

Is without exception one of the finest sorts now in cultivation. It is very early. Nearly every plant will, under proper cultivation, form a perfect snow-white head, and its close growing, compact habit enables the grower to plant one-third more on the same space of ground than other varieties. In fact, it is, and deserves to be, the standard with the market gardener and amateur.

Packets, 25c. and 50c. ½ oz., 90c. Oz., \$1.50.
¼ Lb., \$5.00.

EXTRA EARLY SNOWBALL.—Our stock of this well-known variety is unexcelled. It is one of the best sorts for open ground or forcing under glass.

Packets, 25c. and 50c. ½ oz., 75c. Oz., \$1.50.

G. & T. CO.'S "DROUTH-RESISTING."—Produces large white solid heads, maturing about a week later than our large Gilt Edge Snowball. The best for hot, dry weather.

Packets, 25c. and 50c. ½ oz., 90c. Oz., \$1.50.
¼ lb., \$5.00.

G. & T. CO.'S SELECT EARLY DWARF ER-FURT.—Long the standard of highest excellence, and still holding its own with a great many people.

Packets, 25c. and 50c. ¼ oz., 50c. Oz., \$1.50.

Culture.—The same as for Cabbage, except that extra manure and plenty of water will pay upon Cauliflower. If the soil be dry, water frequently, and if the plants could have a heavy mulch of hay from drouth. The early kinds should be strong enough to plant out not later than the middle of April; the late kinds may be planted out same time as for Cabbage.

or straw, it would keep the soil moist, and the plants would not suffer enough to plant out not later than the middle of April; the late kinds may

CORN SALAD

Three Ounces of Seed to 100 Feet of Row.

A favorite salad plant, and very hardy. Sow in August or September, and protect with leaves during the winter; it can be gathered in the spring very early. Sown in April, it is soon ready for use. The leaves are sometimes boiled and served as spinach.

Pkt., 5c. Oz., 10c. ¼ Lb., 20c.
Lb., 75c.

CRESS, OR PEPPER GRASS

Used as a small salad. Sow very thickly in shallow drills, on a smooth surface, at short intervals throughout the season.

CURLED.—Pkt., 5c. Oz., 10c. ¼ lb., 25c. Lb., 75c.

WATER CRESS.—Water Cress may be grown along the margin of running streams, ditches or ponds, and has a ready sale in the hotels and markets.

Pkts., 5c. and 10c. Oz., 30c. ¼ Lb., 75c. Lb., \$2.50.

ALL PRICES SUBJECT TO CHANGE WITHOUT NOTICE.

G. & T.CO.'S

CARROTS

1 OZ. OF SEED TO
100 FEET OF ROW

Carrots thrive best in rather a light, rich loam. The ground should be well manured with fine, well-rotted or composted manure, and be thoroughly worked quite deep. Sow from middle of April to middle of May, in rows 14 inches apart, and thin the plants to 5 or 6 inches in the row. For late crops sow in June or July. An important point is to tread the rows firmly after sowing. For field culture, Carrots should be sown in drills 3 to 3½ feet apart, so as to cultivate with horse.

OXHEART OR GUERANDE.

Oxheart or Guerande

One of the heaviest yielders and the best for stiff and heavy soils where the long varieties would fail. The roots are often 3 to 3½ inches thick at the top; nearly oval in shape; the flesh is bright orange, fine grained and sweet. Of the finest table quality and equally good for stock.

Pkt., 5c. Oz., 10c. ¼ lb., 25c. Lb., 75c.

CHANTENAY

CHANTENAY.

A most excellent, medium early, half long variety. It is one of the best in quality for the market and home garden, while its great productiveness and the ease with which it can be harvested make it desirable as a field sort. The tops are medium sized with small neck. The mature roots are thick, five and one-half to six inches in length, uniformly half long or stump rooted but tapering slightly, smooth, deep orange-red in color. The flesh is very crisp and tender. Although a medium early sort the roots are suitable for use nearly as early as any. The variety is extensively used for bunching.

Pkt., 5c. Oz., 10c. ¼ lb., 25c. Lb., 75c.

EARLY SCARLET HORN

The earliest variety in our list. Blunt-pointed, about 3 inches long, 1½ inches thick, very fine grained, sweet flavored; deep rich orange color. Fine for bunching.

Pkt., 5c. Oz., 10c. ¼ lb., 25c. Lb., 75c.

HALF LONG DANVERS

A decided acquisition of the half-long type, broad-shouldered, cylindrical, admirable in color, fixed in habits, a wonderful producer. It is a first-class Carrot for all soils.

Pkt., 5c. Oz., 10c. ¼ lb., 20c. Lb., 60c.

IMPROVED LONG ORANGE

Deep orange color, long, smooth, fine for either garden or field culture. All who have cattle should raise a surplus of this Carrot for feeding milch cows during winter. It increases the flow of milk and imparts to the butter a delicious flavor and a rich golden color.

Pkt., 5c. Oz., 10c. ¼ lb., 20c. Lb., 60c.

SCARLET INTERMEDIATE

A fine handsome Carrot, in form midway between the Long Orange and Early Scarlet Horn. The roots are smooth and handsome, deep orange color, medium length tapering to a blunt point. The flesh is sweet, crisp and tender.

Pkt., 5c. Oz., 10c. ¼ lb., 25c. Lb., 75c.

DANVERS.

IMPROVED LONG ORANGE.

1 Oz. Will Produce 2000 Plants.

CELERY

CELERY

Requires water, and lots of it, from the time the seed is sown in boxes in March until it is pulled in the autumn or winter. The seed is slow to germinate, and the soil where it is planted needs to be kept very wet.

Plant seed in hotbed or very early in open ground. Transplant 4 inches apart when 3 inches high in rich soil, finely pulverized; water and protect until well rooted. In June or July transplant into rows 3 to 4 feet apart, either on surface or well-manured trenches a foot in depth, half filled with well-rotted manure. Set the plants from 6 to 8 inches apart. To blanch, draw earth around the plants from time to time, taking care not to cover the top of the center shoots.

FRENCH GOLDEN SELF-BLANCHING

This cannot be too highly recommended, as after being thoroughly tested it has fulfilled all that has been claimed for it. It is decidedly the very best and most profitable Celery in cultivation; it is very early and entirely self-blanching. The beautiful appearance of the plant, its close habit, compact growth, straight, vigorous stalks, solid, crisp, brittle ribs, fine quality and delicious flavor commend it to all lovers of Celery. No variety can surpass it, indeed, equal the Paris Golden Self-Blanching in its striking appearance and delicious flavor. Our stock of this variety has been giving the market gardeners the very best results for several years.

Pkts., 5c. and 10c. Oz., 50c. $\frac{1}{4}$ Lb., \$1.50. Lb., \$5.00.

FRENCH GOLDEN SELF-BLANCHING CELERY.

IMPROVED BOSTON MARKET

This is a decided improvement on the old Boston Market, being earlier, larger in size and of more vigorous growth.

Pkts., 5c. and 10c. Oz., 20c. $\frac{1}{4}$ lb., 50c. Lb., \$1.75.

WHITE PLUME

An early, handsome, self-bleaching variety, growing in popularity every year. Like the Golden Self-Blanching, it requires very little earthing up to blanch it, and as a Celery for fall and early winter use it is unsurpassed.

Pkts., 5c. and 10c. Oz., 20c. $\frac{1}{4}$ lb., 60c. Lb., \$2.00

WHITE SOLID

A large standard sort. One of the large growing sorts.

Pkts., 5c. and 10c. Oz., 20c. $\frac{1}{4}$ lb., 50c. Lb., \$1.75.

CELERY SEED FOR FLAVORING

This seed is used for flavoring pickles, soups, etc.

Pkt., 5c. $\frac{1}{4}$ lb., 25c. $\frac{1}{2}$ lb., 40c. Lb., 75c.

WHITE PLUME CELERY.

CELERY—CONTINUED

1 Oz. Will Produce 2000 Plants.

WINTER QUEEN CELERY.

GOLDEN HEART, OR GOLDEN DWARF CELERY.

GIANT PASCAL CELERY.

A selection from the well-known Self-Blanching Celery. It partakes of the best qualities of that variety, is somewhat larger, and an excellent keeper. It is of fine nutty flavor, being entirely free from any bitter taste. It grows about 2 feet high. The stalks are very broad, thick and crisp; the width and thickness of these are distinctive features of this variety.

Pkts., 5c. and 10c. Oz., 20c. $\frac{1}{4}$ lb., 50c. Lb., \$1.75.

GOLDEN HEART, OR GOLDEN DWARF CELERY.

This old standard variety still holds a high place in the estimation of market gardeners, and is largely used, always giving satisfaction. A showy sort, solid, of fine flavor and a good keeper.

Pkts., 5c. and 10c. Oz., 20c. $\frac{1}{4}$ lb., 50c. Lb., \$1.75.

WINTER QUEEN CELERY.

It is, without doubt, the most valuable variety of Celery for winter and spring use ever introduced. It is also much stouter, thicker and heavier, with double the amount of heart of any known Celery. The plant is beautiful in appearance, of close habit and compact growth, and blanches to a beautiful cream white. Ribs perfectly solid, crisp and of delicious nutty flavor.

Pkt., 10c. Oz., 20c. $\frac{1}{4}$ lb., 50c. Lb., \$1.75.

NEW YORK GIANT SELF-BLANCHING CELERY.

A fine large, white self-blanching celery. It is extra early, and if sown in early spring can be had for market in August. We consider it the best white variety for the early fall trade; has a vigorous growth and attains a very large size; is crisp, tender, brittle and very sweet, with a nutty flavor superior to any of the old kinds.

Pkts., 5c. and 10c. Oz., 30c. $\frac{1}{4}$ lb., 60c. Lb., \$2.00.

CELERIAC

OR TURNIP ROOTED CELERY.

LARGE SMOOTH PRAGUE.

The largest, smoothest and best of the Celeriacs. Pkts., 5c. and 10c. Oz., 15c. $\frac{1}{4}$ lb., 50c. Lb., \$1.75.

NEW APPLE SHAPE.

Small foliage, large, round and smooth. Pkts., 5c. and 10c. Oz., 15c. $\frac{1}{4}$ lb., 50c. Lb., \$1.75.

Large Smooth Prague.

CORN FOR TABLE USE

56 POUNDS PER BUSHEL.

WHEN CORN IS WANTED BY MAIL, ADD 6 CENTS PER POUND TO PAY POSTAGE.

CULTURE.—Sugar Corn may be planted in rows 3 to 4 feet apart, and the seeds placed about 8 inches apart, in the rows, or planted in hills 3 to 4 feet apart each way, according to variety grown, or richness of soil. Do not let more than three plants remain in each hill. It can be planted in this vicinity from first of May to last of July for succession of crop. By planting every two weeks a family may have a good corn throughout the whole season.

Not a Sugar Corn, but are used for very early planting and will mature nice roasting ears before the sweet corn.

Extra Early
Baltimore

FIRST EARLY VARIETIES

FIRST EXTRA EARLY VARIETIES.

Extra Early
Adams.

EXTRA EARLY BALTIMORE.—The hardiest and earliest variety for table use; it can be planted earlier than any other, but is not a sweet corn; white indented grains and short ears. **Pint, 15c. Quart, 25c. Peck, \$1.50. Bushel, \$6.00.**

EXTRA EARLY ADAMS.—Extremely hardy and early; one of the best for early planting. **Pint, 15c. Quart, 25c. Peck, \$1.50. Bushel, \$6.00.**

EARLY ADAMS.—A favorite in the South. **Pint, 15c. Quart, 25c. Peck, \$1.50. Bushel, \$6.00.**

NINETY-DAY CORN (Red Cob).—This is an elegant corn for truckers and market gardeners, as it is as good a seller as green corn, and if not used as green corn makes a good variety for feeding purposes. It may be planted for early crop, and at intervals until the middle of July. Many truckers use it for their late planting, as it produces a very sure crop. **Quart, 15c. Peck, \$1.00. Bushel, \$3.50.**

SWEET OR SUGAR CORN

EXTRA EARLY VARIETIES. (Bushel Sweet Corn, 42 Lbs.).

DE LUE'S GOLDEN GIANT SUGAR CORN

DE LUE'S GOLDEN GIANT SUGAR CORN is the result of fourteen years of selection from the product of the **Howling Mob** crossed with **Golden Bantam** and combines all the good points of both parents. Because of its excellent qualities it was awarded the only medal given by the Massachusetts Horticultural Society in 67 years, and has since been given three first prizes by the same society.

The stalks grow 4B feet to 6 feet tall and very near the ground; about one-third are purple in stalk leaf and husk. They carry two or three good ears, 7-9 inches long; cob of small diameter, with 12-20 rows of long, deep kernels of deep orange color. The husk is very heavy, affording the end protection from worm and bird.

Customers of the last three years report that it is the sweetest and most tender and juicy of all sweet corns, and that it is in some cases one to two weeks earlier than Bantam, besides being three times as large.

It excels all other early varieties in size, productiveness and quality, and all the late varieties in quality and early maturity.

It is the one corn for the home or market gardener who wants the greatest amount of highest quality corn in the shortest period of time from the smallest piece of land.

Our seed is grown and packed by the originator. **Price—2 oz., 25c. 4 oz., 35c. 8 oz., 50c. 16 oz., 75c.**

NEW GOLDEN BANTAM SUGAR CORN.—The earliest and best of sugar corns. It is of golden color and delicious flavor, with the sweetness of honey; can be planted earlier than the other varieties of true sweet corn, as it is very hardy. The stalks are dwarf in habit, growing about four feet high, producing two or three good ears five to six inches long, well set from the ground. **Pint, 15c. Quart, 25c.**

Comparative Size of Golden Bantam and New Golden Giant Sugar Corn.

PREMO.—The best early sweet corn on the market. A genuine sweet corn as early as the Adams Extra Early, and larger than any other early variety. The quality is the best, ears measuring 7 to 9 inches long, being well filled to the end; generally bearing two ears to the stalk. **Pint, 15c. Quart, 25c. Peck, \$1.50.**

CORY.—An early variety red cob. **Pt., 15c. Qt., 25c.**

FIRST OF ALL.—A selection from the Cory, the ears about the same size as the Cory, lighter in color and earlier. **Pint, 15c. Quart, 25c.**

WHITE CORY.—An early variety, with good-sized ears and large kernels. **Pint, 15c. Quart, 25c.**

STABLER'S EARLY.—Of larger size than usual for the early kinds. It is remarkable for the fine flavor and sweetness, and is a desirable gardeners' and canning variety. **Pint, 15c. Quart, 25c.**

CROSBY'S EXTRA EARLY.—An early market variety, very productive; ears rather short and rich, sugary flavor. **Pint, 15c. Quart, 25c.**

EARLY MINNESOTA SUGAR.—One of the first early among sugar corn. **Pint, 15c. Quart, 25c.**

BLACK MEXICAN SUGAR.—The black corn is especially rich in sugary qualities. **Pint, 15c. Quart, 25c.**

CAUTION.—Sweet Corn in bulk, even after being thoroughly cured, will often gather moisture and spoil, particularly if it has been exposed to a low temperature. To prevent this it should be taken out of the bag as soon as received and spread in a dry place.

ALL PRICES IN CATALOG SUBJECT TO CHANGE WITHOUT NOTICE.

Sweet or Sugar Corn for Table Use

CAUTION.—Sweet corn in bulk, even after being thoroughly cured, will often gather moisture and spoil, particularly if it has been exposed to a low temperature. To prevent this it should be taken out of the bag as soon as received and spread in a dry place.

EARLY SHEFFIELD.—Plant as early as Adams. Makes strong vigorous growth with abundant foliage, growing about 5 feet and bearing usually 2 ears of handsome appearance. **Pt., 15c. Qt., 25c. Pk., \$1.50. Bu.,**

METROPOLITAN.—Extra early, ripens a few days later than Cory, but produces larger ears. **Pt., 15c. Qt., 25c. Pk., \$1.50.**

MAIN CROP VARIETIES

COUNTRY GENTLEMAN CORN.—This is the sweetest and most deliciously flavored of all sugar corn. It is the finest variety for the table, and will delight the most fastidious epicure. It produces three to four ears to the stalk, and retains its greenness longer than other sorts. **Pint, 15c. Quart, 25c. Peck, \$1.25. Bushel, \$4.50.**

STOWELL'S EVERGREEN.—So well known that it scarcely needs description. Excellent; keeps green till cold weather; ears large; one of the best. **Pint, 15c. Quart, 25c. Peck, \$1.25. Bushel, \$4.50.**

TRUCKERS' EARLY SUGAR CORN.—This is the most desirable variety of sugar corn for truckers and gardeners to plant early. As its many excellent qualities are becoming generally known, it has come to be one of the standard sorts. It is ten days earlier than Evergreen, very productive, growing two to four ears to the stalk. The ears set low, are large and well filled, the grain long and narrow, similar to Evergreen, but smaller. It is one of the most productive varieties in cultivation. **Pint, 15c. Quart, 25c. Peck, \$1.25. Bushel, \$4.50.**

LATE MAMMOTH.—The largest variety grown; very fine for market purposes. **Pint, 15c. Quart, 25c. Peck, \$1.25. Bushel, \$4.50.**

EGYPTIAN, OR WASHINGTON MARKET.—A large variety, somewhat resembling the Evergreen; flavor peculiarly rich and sweet, and of superior quality; fine for market. **Pt., 15c. Qt., 25c.**

ZIGZAG EVERGREEN.—This is one of the sweetest and best late sweet corn, not even excepting the celebrated Country Gentleman and Shoe Peg. The ears resemble Stowell's Evergreen in size and shape, except that the kernels are placed irregularly or zigzag upon the cob, which is always an indication of great sweetness in any variety of sugar corn. **Pint, 15c. Quart, 25c.**

EARLY MAMMOTH.—A splendid market sort, producing large, handsome ears; grain large, white and sweet; fills out well at the end. **Pint, 15c. Quart, 25c. Peck, \$1.25.**

WHITE EVERGREEN.—Has ears as large as Stowell's, is five days earlier; grains pure white. A valuable acquisition for the gardener and canner. **Pint, 15c. Quart, 25c. Peck, \$1.25.**

STOWELL'S EVERGREEN.

BUSHEL SWEET CORN CONSISTS OF 42 POUNDS.

ASK FOR PRICES IN QUANTITY.

1 Oz. Will Plant 50 Hills.
2 Lbs. Will Plant an Acre.

CUCUMBER CULTURE

For very early Cucumbers sow the first of April in a hotbed upon pieces of sod (grass side down), so that they can be readily transplanted to the open ground in rich soil when danger of frost is over, or protect by hand-glasses. The vines require a warm location for early Cucumbers. Plant after the ground has become warm in hills 4 feet apart for the smaller varieties, and 5 feet for the larger sort. For pickling sow from middle of June to last of July. Manure with ashes, fertilizer or some well-rotted compost, working the manure just under the surface. Sprinkle the vines with slug-shot, plaster or air-slaked lime to protect from bugs. The Cucumbers should be gathered when large enough for use, whether required or not; if left to ripen, it destroys their productiveness.

IMPROVED BALTIMORE WHITE SPINE.

EARLY FORTUNE CUCUMBER.

JERSEY PICKLING.

IMPROVED LONG GREEN.

IMPROVED BALTIMORE WHITE SPINE

This is the best Cucumber for early planting, because it will retain its green color longer than any other sort. It is of good size and shape, and the popular variety with truckers around Baltimore and Norfolk, as well as the growers from Virginia to Florida. **Pkt., 5c. Oz., 15c. ¼ lb., 30c. lb., \$1.00.**

EXTRA EARLY WHITE SPINE.—A strain of White Spine which has been improved through careful selection, with a view to use for forcing in hothouses and frames; also elegant for field culture. Our stock produces handsome, dark-colored fruits, which retain their color longer than other sorts. **Pkt., 5c. Oz., 15c. ¼ lb., 30c. lb., \$1.00.**

ARLINGTON WHITE SPINE.—A favorite extra early variety, of desirable size, handsome shape, dark green color, holding its color longer than most others. Good shipper and sells well. **Pkt., 5c. Oz., 15c. ¼ lb., 30c. lb., \$1.00.**

EARLY FORTUNE CUCUMBER.—One of the earliest and best dark green White Spine Cucumbers. Extremely early, and beautiful shape. Good for market gardeners, truckers or private family; in fact, any one who likes a dark green white spine cucumber it cannot help but please. Fine for Southern growers, as it stands shipping remarkably well. **Pkt., 5c. Oz., 15c. ¼ lb., 30c. ½ lb., 50c. lb., \$1.00.**

JERSEY PICKLING.—This is the most popular sort with the market gardeners around Baltimore and Philadelphia for pickling. Said to green better than any other variety. **Pkt., 5c. Oz., 15c. ¼ lb., 30c. lb., 75c.**

IMPROVED LONG GREEN

The skin is of a deep green, and the flesh is solid, crisp and of fine quality. We have the very best strains of this variety and recommend it as much the best cucumber of all, and the variety every one should plant. The best known and most popular variety for general use. Is vigorous and productive, and forms fruit fit for use almost as early as the shorter varieties. The mature fruit is almost 12 inches long. **Pkt., 5c. Oz., 15c. ¼ lb., 35c. lb., \$1.25.**

CHICAGO PICKLING.

Very Popular with Chicago Market Gardeners, and Extensively Grown in That Vicinity. Fruit medium length, pointed at each end, with very large and prominent spines; color deep green. **Pkt., 5c. Oz., 15c. ¼ lb., 30c. lb., 75c.**

BURR, OR WEST INDIA GHERKIN.

An extremely small fruited variety, grown exclusively for pickles. It has no value for slicing. Is very prickly, but tender and crisp if pickled when young. Seed germinates slowly. **Pkt., 5c. Oz., 20c. ¼ lb., 40c. lb., \$1.50.**

ALL PRICES IN CATALOG SUBJECT TO CHANGE WITHOUT NOTICE.

CUCUMBERS—CONTINUED

Early Green Prolific

A very productive variety, having fruits of good length and handsome form. Desirable for producing pickles of medium size and fine quality when sliced for the table.

Pkt., 5c. Oz., 15c. $\frac{1}{4}$ lb., 30c. Lb., 75c.

Ever-Bearing Cucumber

This variety is unique, and will prove valuable both for the table and for pickling. Is of small size, very early, enormously productive and extremely valuable as a green pickler. The peculiar merit of this new Cucumber is that the vines continue to flower and produce fruit until killed by frost, whether the ripe Cucumbers are picked off or not, in which respect it differs from all other sorts in cultivation.

Pkt., 5c. Oz., 15c. $\frac{1}{4}$ lb., 30c. Lb., \$1.00.

CUMBERLAND

A new and distinct variety. Said to have originated from crossing the Parisian Pickling and the Early White Spine. It certainly has the good qualities of each of these sorts. The fruits are large, symmetrical, dark green, covered with innumerable small white spines, and are of prime quality for slicing. The vine is vigorous, wonderfully prolific, and continues in bearing much longer than most sorts.

Pkt., 5c. Oz., 15c. $\frac{1}{4}$ lb., 30c. Lb., \$1.00.

EARLY CLUSTER

A short, prickly variety, bearing in clusters near the root. A good bearer. Pkt., 5c. Oz., 15c. $\frac{1}{4}$ lb., 30c. Lb., \$1.00.

JAPANESE CLIMBING CUCUMBER

It bears abundantly throughout the season, while the climbing habit enables the hanging fruit to grow perfectly straight, from 12 to 16 inches in length; the Cucumbers are thick, tender and of delicate flavor; flesh white, skin dark green, turning to brown, and netted when ripe.

Pkt., 10c. Oz., 15c. $\frac{1}{4}$ lb., 40c.

TELEGRAPH (ENGLISH FORCING)

Should be grown in hotbeds where the temperature does not fall below 65 degrees at night. Pkt., 25c.

Green Curled Endive

Is One of the Best Salads for Fall and Winter Use. One Ounce of Seed to 150 Feet of Row.

For early use, sow as soon as the ground can be worked in the spring, in drills 15 inches apart, and then thin plants to 6 or 8 inches in the row. To blanch the leaves, gather them carefully together when perfectly dry and tie them with matting or soft fibrous material. Another method is to invert flower pots over the plant. The leaves are very highly esteemed for use as salads.

Green Curled

The best sort in use. Useful as a salad, and also used for garnishing.

Pkt., 5c. Oz., 15c. $\frac{1}{4}$ lb., 30c. Lb., \$1.00.

GREEN CURLED ENDIVE.

BALTIMORE

EGG PLANT

EGG PLANT

CULTURE.—Sow the seed in hot-beds early in March. When three inches high pot the young plants, using small pots, and plunge them in the same bed so that the plants may become stocky. They can be planted out from the pots when the season becomes sufficiently warm in May or June, or they can be transplanted into a second bed to make them strong until the weather is warm enough to transplant about three feet apart each way in thoroughly-worked and well-enriched soil. Draw the earth up to the stems when about a foot high. Egg Plant Seed will not vegetate freely without a strong, uniform heat, and if the plants get the least chilled in the earlier stages of growth they seldom recover. Therefore, repeated sowings are sometimes necessary. Care should be observed in cutting the fruit so as not to disturb the roots of the plants. **One ounce will produce about 1000 plants.**

BLACK BEAUTY EGG PLANT.—The earliest of all large fruited Egg Plants, and produces fruit quite as large as the **NEW YORK PURPLE** in 10 days' less time. The fruit is symmetrical in shape, of uniform size, of a dark rich purple color, which does not fade or change to lighter color at blossom end like some other varieties. Just the variety for the market gardener and trucker for early spring trade. **Pkt., 10c. Oz., 40c. ¼ lb., \$1.50. Lb., \$5.00.**

NEW YORK IMPROVED LARGE PURPLE EGG PLANT.—This market garden variety has plants of strong growth, and is very productive, producing plants of large size and fruits of smooth, deep purple color until frost. **Pkts., 5c. and 10c. Oz., 40c. ¼ lb., \$1.50. Lb., \$5.50.**

THE FLORIDA HIGH-BUSH EGG PLANT.—Is in great demand by Southern truckers. It has very vigorous growth and remarkably hardy. The plant grows very erect and holds the fruits clear of the ground. **Pkts., 5c. and 10c. Oz., 40c. ¼ lb., \$1.50. Lb., \$5.00.**

BALTIMORE EGG PLANT.—This is decidedly the best and most profitable Egg Plant in cultivation. It is large thornless, of beautiful shape and handsome purple color. We have never seen finer specimens of Egg Plant than those grown from our seed. When inspecting the field of Egg Plants growing for seed we were surprised at the regular size and uniform, handsome color of the fruit all over the field.

Pkt., 10c. Oz., 40c. ¼ lb., \$1.50. Lb., \$5.50.

EXTRA CURLED NEW AMERICAN KALE.

KALE

One Ounce of Seed Will Sow a Drill of About 200 Feet.

The Kales are more hardy than cabbage, and make excellent greens for winter and spring use, and are improved by frost. For early spring use, sow broadcast in September and protect during winter. It must also be sown in April or May for later use.

DWARF GREEN GERMAN KALE.—This variety sow in September broadcast, and gather in early spring, like spinach. It may also be sown early in the spring for later use. **Pkt. 5c. ¼ lb., 20c. Lb., 50c.**

EXTRA CURLED NEW AMERICAN KALE.—This is an extra curled, long-standing variety of a beautiful green color; stands the winter well, and will stand longer in the spring before going to seed than any other variety. **Pkt., 5c. ¼ lb., 20c. Lb., 50c.**

NEW IMPERIAL CURLED LONG-STANDING KALE.—**Pkt., 5c. Oz., 10c. ¼ lb., 20c. Lb., 60c.**

NORFOLK.—A variety used by the truckers of Norfolk for shipment North. Light green color and leaves much curled. **Pkt., 5c. Oz., 10c. ¼ lb., 25c. Lb., 90c.**

KOHLRABI

1 OZ. OF SEED TO 100 FEET OF ROW.

White Vienna

**BULB LIGHT GREEN.
FLESH WHITE.
VERY RAPID IN GROWTH
EARLY MATURITY.
FINE IN TEXTURE, and
SYMMETRICAL IN FORM.
SUPERIOR.**

Pkts., 5c. and 10c. Oz., 20c. ¼ lb., 40c. Lb., \$1.50.

IMPROVED KOHLRABI.—**Pkts., 5c. and 10c. Oz., 15c. ¼ lb., 40c. ½ lb., 75c. Lb., \$1.50.**

LEEK

1 OZ. OF SEED TO 150 FEET OF ROW.

Select good Onion soil, manure liberally, plant in April in drills 6 to 8 inches deep, and 18 inches apart, and thin to 9 inches apart in the drill. Gradually draw the earth around the plants until the drills are filled level with the surface. Draw for use in October. To be used in soups or boiled as Asparagus.

EXTRA LARGE MAMMOTH.—A large and strong plant; hardy. The best variety for general culture. **Pkt., 5c. Oz., 20c. ¼ lb., 40c. Lb., \$1.50.**

MUSSELBURGH.—**Oz., 20c. ¼ lb., 40c. Lb., \$1.50.**

LARGE ROUEN.—**Pkts., 5c. and 10c. Oz., 20c. ¼ lb., 40c. Lb., \$1.50.**

LETTUCE

Lettuce requires a rich and rather moist soil. The rows should be about 12 inches apart, and the plants thinned to 10 or 12 inches apart for the leading varieties. The more rapid the growth, the better the quality. Some varieties are peculiarly adapted for early culture, others for summer growth.

G. & T. CO.'S WHITE SEED SUMMER LETTUCE

The Best Summer Lettuce Ever Introduced.—This variety, introduced by us recently, has exceeded our expectation. Those who purchased it were delighted with their crops, and came back for more seed. This Lettuce will stand the summer heat better than most sorts, and makes magnificent heads. We expect this sort to grow in favor wherever known. It has a beautiful green color; head solid; light leaves, nicely crinkled; very tender, and of most excellent flavor. **Pkt., 5c. Oz., 20c. ¼ Lb., 40c. Lb., \$1.25.**

G. & T. CO.'S SUMMER LETTUCE (Black Seed).

This Lettuce is becoming very popular among gardeners for summer use. It produces a splendid large, solid head, of the Cabbage type, remaining a long time in prime condition without going to seed; in fact, it is often necessary for the seed growers to slit open the head in order to allow the seed stalk a chance to develop. It is of a light green color, fine quality, crisp, tender, and nearly every plant will make a fine, solid head in the hottest weather, when other varieties refuse even to grow. **Pkts., 5c. and 10c. Oz., 20c. ¼ lb., 40c. Lb., \$1.25.**

IMPROVED NEW YORK, OR "WONDERFUL."

Plants of extra large growth, producing heads of immense size under favorable conditions. Inner portion is beautifully blanched and stands for a considerable time before running to seed. Outer leaves a deep, rich green. **Pkts., 5c. and 10c. Oz., 20c. ¼ Lb., 70c. Lb., \$2.50.**

CALIFORNIA CREAM BUTTER LETTUCE.

This is fairly well known, and has given good results with the growers. **Pkts., 5c. and 10c. Oz., 20c. ¼ lb., 40c. Lb., \$1.25.**

MAY KING

A very early new variety, forming fine hard heads within a few weeks after planting. It is medium sized, light green, with buttery but crisp heads. There is just a faint tint of brown on the head.

We have had no end of praise from our friends and customers who have tried this variety. It is essentially a spring sort, and does well all summer. Being of rapid growth and quick heading, it is especially recommended for home garden, and is universally esteemed. **Pkt., 5c. Oz., 20c. ¼ Lb., 40c. Lb., \$1.25.**

"ICEBERG" LETTUCE.

The heads are large, crisp, solid and tender. **Pkts., 5c. and 10c. Oz., 20c. ¼ lb., 40c. Lb., \$1.25.**

EARLY PRIZE HEAD (Seed White)

A large, clustering, non-heading lettuce, most excellent for the home garden and undoubtedly the most easily grown variety in cultivation. It is too tender, however, to stand shipping or handling on the market. The leaves are finely curled and crumpled, bright green tinged with brownish red, and are very crisp, tender and sweet. **Pkt., 5c. Oz., 20c. 2 Oz., 25c. ¼ lb., 40c. Lb., \$1.25.**

EARLY WHITE CABBAGE, OR BUTTER.

A broad-leaved, vigorous-heading sort; white, showy and desirable. **Pkt., 5c. Oz., 20c. ¼ lb., 40c. Lb., \$1.25.**

EARLY CURLED SIMPSON.

Black seed. Very early; excellent for salads; forms a compact mass of leaves. **Pkts., 5c. and 10c. Oz., 20c. ¼ lb., 40c. Lb., \$1.25.**

TENNIS BALL.

Black seed. A favorite forcing variety; a very hard head. **Pkts., 5c. and 10c. Oz., 20c. ¼ lb., 40c. Lb., \$1.25.**

ROMAINE OR WHITE PARIS COS

The best of the Cos or celery varieties. Forms a large light-green plant with the head well folded and quite solid. Cos lettuce is also called Romaine, and is very popular with our foreign population, for it is highly prized in England and France, while little known to our own people. **Pkt., 5c. Oz., 20c. ¼ lb., 40c. Lb., \$1.25.**

U. S. SUMMER LETTUCE.

ROMAINE, OR WHITE PARIS COS LETTUCE.

LETTUCE---Continued

BALTIMORE CABBAGE LETTUCE

G. & T. CO.'S TRUE STOCK.
Large Heads, Beautiful Heads, Solid Heads;
Stands Heat Well. Best of all for
FALL PLANTING.

This new Lettuce, which we introduced a few years ago, and claimed to be one of the best ever put on the market, and which produced such a sensation among the large growers who tried it, still holds a high place among lettuce. As soon as the growers discovered its merits they came for more seed, and recommended it to all their friends; these, in turn, were delighted with their crops, as the result more than justified all we claimed for it. A grower at Gardenville, Md., says: "I had 3000 heads of your Baltimore Cabbage Lettuce, and they all headed but one; they are slow to run to seed." The heads are large and solid; color pretty light green, and very slow to seed; in fact, it is just what the truckers and gardeners want. A large trucker in New Jersey writes: "The Baltimore Cabbage Lettuce I had of you was certainly very fine." **Pkts., 5c. and 10c. Oz., 20c. ¼ lb., 40c. Lb., \$1.25.**

LARGE LOAF LETTUCE.

This is so well known to truckers and gardeners around Baltimore and Norfolk that for them it scarcely needs description. For the benefit of those who are not acquainted with it, would say it makes large, compact heads, is of beautiful light green color, very tender and crisp. This is unsurpassed for frame use, and is also an excellent outdoor lettuce for fall or early spring. **Pkt., 5c. Oz., 20c. ¼ lb., 40c. Lb., \$1.25.**

BALTIMORE CABBAGE LETTUCE.

MAMMOTH BLACK-SEEDED BUTTER LETTUCE.

A strain of large, smooth-leaved, head lettuce, forming very large, solid cabbage-like heads of thick, brittle leaves, the inner ones becoming very white, tender and fine flavored.

Pkts., 5c. and 10c. Oz., 20c. ¼ lb., 40c. Lb., \$1.25.

BALTIMORE OAK LEAF.

This lettuce will resist the heat of summer and stand longer before running to seed than any variety we have ever known. It makes a large, solid head, and is very popular with those who know it.

Pkts., 10c. Oz., 20c. ¼ lb., 50c. Lb., \$1.50.

BIG HEAD LETTUCE.

The "Big Head" is certain to please market gardeners and truckers, because it always produces large, salable heads. It is very solid and crisp, of tender quality, which makes it attractive. **Pkts., 5c. and 10c. Oz., 20c. ¼ lb., 40c. Lb., \$1.25.**

HANSON.

A variation of the Indiana, forming a half-closed head.

Pkts., 5c. and 10c. Oz., 20c. ¼ lb., 40c. Lb., \$1.25.

BOSTON MARKET.

White seed. A celebrated variety in New England, of good heading habit; small, early and compact; quite desirable.

Pkts., 5c. and 10c. Oz., 20c. ¼ lb., 40c. Lb., \$1.25.

GRAND RAPIDS.

This variety is largely grown for shipment, and is considered by many the best loose-headed Lettuce for forcing under glass. Leaves medium size, of light, yellowish green color, much crimped and frilled, thin, but of very upright growth; crisp, tender and of good quality. Owing to its upright habit, it may be planted very closely. It is of extremely rapid growth; not very liable to rot; will stand without spoiling a week to ten days after it is fit to cut, and retains its freshness a long time after cutting.

Pkts., 5c. and 10c. Oz., 20c. ¼ lb., 40c. Lb., \$1.25.

DEFIANCE.

Stands summer heat better than any other variety; one of the finest large-growing varieties. It forms very large, solid heads, so firm they have to be cut open to allow the flower heads to come through.

Pkts., 5c. and 10c. Oz., 20c. ¼ lb., 40c. Lb., \$1.25.

SALAMANDER (Black Seed).

An excellent sort for spring or summer use; forms good-sized heads of excellent quality.

Pkts., 5c. and 10c. Oz., 20c. ¼ lb., 30c. Lb., \$1.00.

BIG BOSTON.

The same in color, shape and general appearance as the Boston Market, double the size. A most desirable sort either for forcing in cold frames or planting in open ground. Is popular with truckers, as it makes large, solid, salable heads. Very highly recommended by those who have tried it.

Pkts., 5c. and 10c. Oz., 20c. ¼ lb., 40c. Lb., \$1.25.

LARGE LOAF LETTUCE.

BIG BOSTON.

Muskmelon

**NEW
MARYLAND**

CULTURE.—One ounce of seed to 50 hills. Sow about the last of spring or the first of summer in hills of light, rich, sandy soil, 4 feet apart, allowing but three plants to grow in each hill; after they have grown about a foot long, pinch off the points of shoots, which causes the vines not only to become stronger, but makes them produce lateral branches and prove more productive and mature earlier. It should not be grown near squashes, cucumbers or pumpkins, as the flavor will be affected in consequence.

NEW MARYLAND CANTALOUPE.—The latest acquisition to our collection of muskmelons. It is earlier, larger and cuts better than the Rocky Ford. Flesh is green, of fine flavor and heavily netted, making it the most attractive melon on the market. A sure moneymaker. Our truckers around Baltimore will have no other after planting our New Maryland. **Pkt., 5c. Oz., 15c. ¼ lb., 40c. Lb., \$1.25.**

ROCKY FORD MELON

This has become one of the most popular of small or basket melons, largely owing to the fact that growers in the **Rocky Ford** region pack and ship their fruit in a most attractive manner. The fruit is oval, slightly ribbed, densely covered with coarse netting. Flesh thick, green, very sweet and high-flavored.

We have an exceptionally fine stock of this variety grown from choice selected specimens. **Pkt., 5c. Oz., 15c. ¼ lb., 35c. Lb., \$1.00.**

Baltimore Nutmeg Cantaloupe

The Old Standard Variety That Has Found Favor Wherever Grown.

The stock seed of this splendid melon was secured from a trucker who enjoys the reputation for raising the finest Cantaloupes that come to the Baltimore market. The writer also tested the fruit, and found it to be of excellent flavor. It is green-fleshed, and the rind is handsomely netted. It is well known and popular with the truckers and market gardeners of Baltimore, Washington, Norfolk and other places—in fact, it is a leading sort all over the country. **Pkt., 5c. Oz., 15c. ¼ lb., 35c. Lb., \$1.00.**

IMPROVED JENNY LIND.

A small, early variety of surpassing good quality, highly recommended for family garden. We consider this the most delicious Cantaloupe we have ever eaten, and while the fruit is small, it is an abundant bearer. A market gardener having this sort for sale would in a short time have no difficulty in disposing of all he could raise. **Pkt., 5c. Oz., 15c. ¼ lb., 35c. Lb., \$1.00.**

EARLY NETTED GEM.

EXTENSIVELY grown, and many prefer it to all others for table use. Grows remarkably uniform; thick meated; flesh light green in color, and of fine, luscious flavor; skin green, regularly ribbed and thickly netted; very productive and extra early in ripening; will keep for nearly a week after picking, and is especially suited for shipping in baskets or crates. **Pkts., 5c. and 15c. ¼ lb., 35c. Lb., \$1.00.**

ROCKY FORD CANTALOUPE.

BALTIMORE NUTMEG.

EMERALD GEM.

Meat, salmon color, exceedingly sweet and delicious; very early and prolific. One of the best for family use. Its appearance is not attractive, but try it, and you will want it again. **Pkt., 5c. Oz., 15c. ¼ lb., 35c. Lb., \$1.00.**

OSAGE, OR MILLER'S CREAM.

Most delicious. The flesh is a rich salmon color, very thick, sweet and rich; rind very thin and finely netted. **Pkt., 5c. Oz., 15c. ¼ lb., 35c. Lb., \$1.00.**

MUSKMELONS--CONTINUED

KNIGHT CANTALOUPE

A NEW EARLY CANTALOUPE OF SUPERB QUALITY AND AT THE SAME TIME MAKES AN EXCELLENT MARKET OR SHIPPING MELON

KNIGHT CANTALOUPE

This new Cantaloupe has been grown in Anne Arundel county for the past several years, and has created a furor with our truckers, on account of its earliness, productiveness, uniformity in shape and appearance and its fine table qualities. It matures about a week earlier than the regular Rocky Ford, is larger in size and makes a most attractive and salable melon. It has thick, green flesh, shading to orange at the center. The fruits are oblong in shape, well ribbed and well netted. It is a leader, both for planting for home use and market and for shipping. Its early maturity, together with its fine qualities, are strong points in its favor. **Pkt., 5c. Oz., 15c. ¼ lb., 40c. Lb., \$1.25.**

PAUL ROSE

PAUL ROSE.—In this new sort are combined all the good qualities of the Netted Gem and the Osage, the varieties from which it originated. The fruit is oval, about 5 inches in diameter, and in shape and general appearance similar to the well-known Netted Gem or Rocky Ford. The firm flesh is a rich orange-red color, like that of the Osage, but even sweeter and higher flavored, retaining its good qualities quite to the rind. We think it really has no equal as a market melon for professional melon-growers, and it is one of the very best sorts for the home garden. **Pkt., 5c. Oz., 15c. ¼ lb., 35c. Lb., \$1.00.**

ANNE ARUNDEL CANTALOUPE

(Original Stock.)

This handsome melon, introduced by us several years ago, was for years a special favorite with a number of the leading growers of Anne Arundel county, Maryland. This county is justly celebrated as growing the finest Cantaloupes in the country. We might almost say the finest in the world. Knowing its value, we selected the stock and placed it before our customers. It has met every promise we made for it upon its introduction. **Pkt., 5c. Oz., 15c. ¼ lb., 35c. Lb., \$1.00.**

EDEN GEM OR NETTED ROCK

One of the handsomest melons in our list. Splendid shape and thorough netting and absence of deep spaces between the ribs, indicating strong shipping properties. The flesh is unusually thick, the seed cavity very small, the flavor exquisite. A heavy yielder, the melons very uniform, but few run too large, and still fewer too small. For shipping we recommend it highly; also for home growers. **Pkt., 5c. Oz., 15c. ¼ lb., 40c. Lb., \$1.25.**

Netted Rock or Eden Gem Cantaloupe.

NORFOLK BUTTON

An improved strain of Early Jenny Lind, having a nub or button on the blossom end, which gives it a distinction over all other varieties. It is very early, of remarkably fine texture and delicious flavor, and produces fruits of the finest quality. It is extra fine for both home and market use. We are putting the above on the market for the first time, and have but a limited supply of seed. Those who wish to secure a trial order will do well by placing their order at once. **Pkts., 5c. and 15c. ¼ lb., 35c. Lb., \$1.00.**

EXTRA EARLY HACKENSACK

Netted green flesh and excellent; very showy market variety and an excellent keeper. Ten days earlier than the Old Hackensack. **Pkt., 5c. Oz., 15c. ¼ lb., 35c. Lb., \$1.00.**

LONG ISLAND BEAUTY—Pkt., 5c. Oz., 15c. ¼ lb., 35c.

WATERMELONS

LORD BALTIMORE.

CULTURE.—One ounce of seed to 30 hills. Watermelons require a rich, sandy soil for best development. Cultivate the same as for cantaloupes, except that the hills should be eight or ten feet apart.

Lord Baltimore

It is very early, of oblong shape, and the flesh is of handsome crimson color, deliciously sweet and extending close up to the rind. It has a thin, hard rind, beautifully mottled light and dark green. Its perfect shape, faultless color, fine texture and excellent flavor combine to make it one of the very best melons that grows. It is a good shipper, and beats all others as a seller.

Pkt., 5c. Oz., 10c. $\frac{1}{4}$ Lb., 25c. Lb., 90c.

FLORIDA FAVORITE.

FLORIDA FAVORITE

This we consider one of the richest and sweetest flavored melons grown, of medium size and prolific. The best of all for family garden. It is now very popular with the truckers and melon-growers of Maryland and Virginia, and sells readily in the Baltimore markets.

Pkt., 5c. Oz., 10c. $\frac{1}{4}$ Lb., 20c. Lb., 75c.

McIVER'S SUGAR WATERMELON.

In outward appearance it somewhat resembles the old Rattlesnake. The quality is much superior. It is an extremely productive and hardy variety.

Pkt., 5c. Oz., 10c. $\frac{1}{4}$ Lb., 20c. Lb., 75c.

FORDHOOK EARLY.

This is a very early variety, growing to a good size; color, medium green; form, nearly round; seeds, white; flesh, bright red and very sweet.

Pkt., 5c. Oz., 10c. $\frac{1}{4}$ Lb., 20c. Lb., 75c.

BLACK BOULDER.

It is enormously productive, reaching a mammoth size, with rich, dark green skin. It cuts equal to any melon we have ever eaten, and its shipping qualities are phenomenal, no other melon equaling it in tough skin and rind; in this respect even superior to the Kolb Gem.

Pkt., 5c. Oz., 10c. $\frac{1}{4}$ Lb., 20c. Lb., 75c.

DARK ICING.

An extra early and extra good melon for home use and nearby market. One of the most delicious of melons; rich red and sugary to the very thin rind.

Pkt., 5c. Oz., 10c. $\frac{1}{4}$ Lb., 20c. Lb., 75c.

TRIUMPH WATERMELON

Is very prolific, very early and of uniformly large size. The rind, like Duke Jones, is of dark green color; the seed is exactly the same color as that of Kolb Gem.

Pkt., 5c. Oz., 10c. $\frac{1}{4}$ Lb., 20c. Lb., 75c.

GRAY MONARCH. OR LONG WHITE ICING.

This distinct melon is without a doubt one of the largest of all, frequently attaining a weight of 70 pounds and over. The skin is a mottled gray color, shape long, flesh bright crimson, and of sweet, delicious flavor. It is also a fine shipper, carrying well long distances and bringing very high prices.

Pkt., 5c. Oz., 10c. $\frac{1}{4}$ lb., 25c. Lb., 90c.

DUKE JONES WATERMELON

In shape the **DUKE JONES** resembles very closely the Kolb Gem. The rind is darker green in color, with indistinct irregular stripes of dark and light green alternating; in general appearance it is a dark green melon. It averages very large in size, comparatively no small melons; is very productive; it is also very early in maturing.

Pkt., 5c. Oz., 10c. $\frac{1}{4}$ Lb., 20c. Lb., 75c.

DUKE JONES.

WATERMELONS---CONTINUED

TOM WATSON (NEW)

TOM WATSON.

A recent introduction. A large oblong melon, dark green skin, with thin, tough rind, which gives it excellent shipping qualities. Melons are produced from 18 to 24 inches long and from 8 to 12 inches in diameter. Flesh, deep red, crisp, melting and of the finest flavor. Heart large, with little or no core. One of the best eating melons known.

Pkts., 5c. and 10c. $\frac{1}{4}$ Lb., 20c. Lb., 75c.

RATTLESNAKE WATERMELON.

Large, oblong, striped and mottled; flesh bright red; a good shipper; a favorite variety in the South.

Pkts., 5c. and 10c. $\frac{1}{4}$ Lb., 20c. Lb., 75c.

DIXIE.

It is earlier and larger than the well-known and popular Kolb Gem, and in color a darker green, with beautiful stripes, making it one of the handsomest melons on the market. Flesh deep red, sugary and melting.

Pkt., 5c. Oz., 10c. $\frac{1}{4}$ Lb., 20c. Lb., 75c.

SWEETHEART.

An entirely distinct and handsome new Watermelon. Vine vigorous and productive, ripening early. Fruit large, oval, very heavy, uniformly mottled light and dark green. Flesh bright red, solid and very sweet.

Pkt., 5c. Oz., 10c. $\frac{1}{4}$ Lb., 20c. Lb., 75c.

KLECKLEY'S SWEETS.

Skin dark green, thin rind, flesh scarlet, very solid, firm and most luscious quality for the home market or family garden. It is decidedly one of the best.

Pkt., 5c. Oz., 10c. $\frac{1}{4}$ lb., 30c. Lb., 90c.

BLUE GEM.

This splendid Melon resembles the Kolb Gem in shape, and is one of the very best shippers and table melon; is of a dark bluish color, with small grayish stripes. Is much superior to the Kolb Gem. Very productive, and is handsome and showy.

A grower in Dixie (Georgia) says: "If you want a shipper that will go around the world, you can safely select the **BLUE GEM**."

Pkt., 5c. Oz., 10c. $\frac{1}{4}$ Lb., 20c. Lb., 75c.

KOLB'S GEM.—This is one of the argest, most productive, best keeping and best shipping watermelons grown. Sells readily at the highest market prices. In fact, it is so well known that it speaks for itself. Our stock of this comes direct from the original grower. Special prices on large quantities.

Pkt., 5c. Oz., 10c. $\frac{1}{4}$ Lb., 20c. Lb., 75c.

BLACK STRIPED KOLB GEM WATERMELON.—The size of this fruit is uniformly large; shape, oval; color, a rich dark green, with fine stripes of lighter shade; much darker and richer than the old well-known Kolb Gem. The exceptionally strong rind makes it an excellent shipper.

Pkt., 5c. Oz., 10c. $\frac{1}{4}$ Lb., 20c. Lb., 75c.

CITRON—For Preserves. Fruit round and handsome. Used in making preserves only.

Pkts., 5c. and 10c. $\frac{1}{4}$ lb., 35c. Lb., \$1.00.

GEORGIA RATTLESNAKE.

NEW WATERMELON—"IRISH GREY."

IRISH GREY

The newest and best in watermelons, recently introduced. Considered by the best growers and shippers to excell all other varieties. Fine flavor, red to rind, dark tough skin; long keeper and excellent shipper.

Pkt., 5c. Oz., 10c. $\frac{1}{4}$ Lb., 30c. Lb., \$1.00.

ENGLISH MILL TRACK MUSHROOM SPAWN

Lb., 25c. By Mail, 30c. Lb., Postpaid. 10 Lbs., \$2.50. 100 Lbs., \$20.00, by Freight or Express.

CULTIVATION

The cultivation of the Mushroom is a very simple matter and requires only ordinary intelligence and care. The materials needed are fresh horse manure, good soil and live spawn. The manure should not be too short, as it does not combine the necessary qualities. Long strawy litter, plentifully mixed with short manure, makes by far the best beds, as it does not heat too violently, decomposes slowly and retains its heat for a long period. Put in a heap and turn every three or four days to permit the escape of noxious gases and prevent burning. When ready for use it should be as hot as can be borne comfortably by the hand, and should also be moist. Make the beds 3 feet wide at the base, 2½ feet high, and of any desired length. The manure, when in proper condition, should be quickly handled to prevent the loss of heat, and be beaten down to make the heap firm and compact, and covered with long litter. The bed should within a few days warm to a temperature of 110 to 120 degrees. Never spawn a bed when the heat is rising, but always on the decline and under 90 degrees. Have a ground thermometer, and keep it plunged in the bed; by pulling it out and looking at it you can ascertain exactly the temperature of the bed. Should the temperature not exceed 100 or 110 degrees, no alarm should be felt, for if the manure was fresh it will likely produce a good crop. When the heat has decreased to 90 degrees, the bed is ready to receive the spawn, which is done by raising the manure with the hand and inserting pieces of spawn 2 inches square and 9 inches apart each way. At the expiration of a few days the bed may be covered with soil to the depth of about 2 inches. If in a closed cellar or mushroom house, wait about ten days, but if in open shed five days will do. If the soil is poor, add a liberal quantity of bone meal. It requires a period of 5 to 7 weeks before they are ready for use.

Two pounds of spawn are sufficient for a bed 3 feet by 6 feet.

Mushrooms can be readily grown in cellars, stables, sheds or pits. Many are successively grown on a shelf in an ordinary cellar, and yield sufficient crops to compensate the grower for his effort. The space under greenhouse benches or stagings will suit them exactly, using materials in the same manner as described.

MUSHROOMS ON PASTURE LAND OR LAWN.

About the first of June take pieces of spawn an inch square and lift the sod with a trowel or spade just sufficient to get a spawn under it, and then press the soil down hard. Set the spawn 1 to 2 feet apart. In a favorable season a crop may be expected in 3 or 4 months from the time of planting.

OKRA, or GUMBO

Select warm location and rich soil, and plant when the ground becomes warm, in rows three feet apart, thinning plants a foot apart in the row. As the seeds are liable to rot in cool weather, they should be sown thickly. The pods are used to thicken soup, being gathered when young. It is one of the most wholesome vegetables in use.

DWARF OKRA.

This is the preferred kind with the growers; is of dwarf habit and very productive. Pkt., 5c. Oz., 10c. ¼ Lb., 20c. Lb., 60c.

WHITE VELVET.

It is very distinct, and the pods are perfectly round and smooth, of an attractive white velvet appearance, and of superior flavor and tenderness. The pods are of extra large size, and produced in great abundance.

Pkt., 5c. Oz., 10c. ¼ Lb., 20c. Lb., 60c.

ONION SETS

CULTIVATION FOR SETS.

Have a clean and very rich soil, which should be thoroughly cultivated, or it will not do well enough to pay for the trouble. The most successful growers work their ground several times in the fall to kill out the weeds and get ground in nice condition. Use well-rotted manure freely, and be sure to get the seeds in as early as possible in the spring, no matter if it is ever so cold or unpleasant, and keep the soil mellow and clear of weeds, and if seed is good you will have a large crop of onion sets. On no other condition can you hope for success. Disturb the roots of the onion as little as possible, either in thinning or hoeing, and never hoe earth toward them to cover or hill, as we do most other things.

Sow the seed in drills about 12 inches apart. It will require from 40 to 60 pounds of seed to sow an acre.

WHITE—Qt., 25c.; mailed, 35c. YELLOW—Qt., 20c.; mailed 30c. Ask for prices on sets by the bushel. It requires 10 to 15-bushel sets to plant one acre.

VEGETABLE ROOTS

ASPARAGUS ROOTS.

A saving of one to two years is effected by planting roots. A bed 12x40 feet, requiring about 100 roots, should give a sufficient supply for an ordinary family; 7,260 roots will plant an acre. Select good, loamy soil, plow deep, put in good quantity of manure and 100 pounds of kainit to 1,000 square feet of bed. Incorporate thoroughly, make a trench 8 inches deep, set plants 9 inches apart. In field culture rows are placed 4 feet apart.

Barr's Mammoth—Per 100, \$1.25. Per 1,000, \$10.00.
Palmetto—Per 100, \$1.25. Per 1,000, \$10.00.

Colossal—Per 100, \$1.25. Per 1,000, \$10.00.

HORSE RADISH ROOTS.

The land should be rich, well manured, plowed deeply, harrowed and free from lumps. Plant in a roomy space by itself. Make rows 15 inches apart, set plants 12 inches from each other. Plant shoots about five inches long, making holes for same with a stick, and set them about two inches under the soil. Have the shoots cut squarely across the bottom, but cut slanting at the top, in order that one side may be a little longer than the other. Keep free from weeds for the first and second seasons, after which the Horse Radish will take care of itself. Dozen, 20c. By Mail, 25c. Per 100, \$1.00. By Mail, \$1.25. Per 1,000, \$8.00. By Express, not Prepaid.

RHUBARB, OR PIE-PLANT.

This very desirable vegetable comes early in the spring. The large stems of the leaves are used for pie-making and stewing. A deep, rich soil is indispensable to secure large, heavy stalks. Plant in rows 4 feet apart, with the plants 3 feet distant. Set so that the crowns are about an inch below the surface. Top-dress annually in the fall with stable manure, and fork under in the spring. 20c. Each. By Mail, 25c. Dozen, \$2.00. By Express, not Prepaid.

ALL PRICES SUBJECT TO CHANGE WITHOUT NOTICE.

ONION SEED

CULTIVATION TO GROW LARGE ONIONS FROM SEED.—The seed should be sown as early as possible in the spring, as they grow much better during the cool weather, and should make most of their growth before the hot weather sets in. Sow 5 pounds of seed to the acre for large onions.

THE NEW ONION CULTURE.—Sow the seed in hotbed and transplant early as possible to open ground. They can be grown very successfully by this plan.

WHITE SILVERSKIN, or PORTUGAL.—A good variety for family use, skin and flesh pure white, mild flavor and flat shape. The best white onion to grow largely for sets. Pkts., 5c. and 10c. Oz., 20c. $\frac{1}{4}$ Lb., 50c. Lb., \$1.50.

WHITE PEARL ONION.—Earliest of all, growing with all the rapidity of a summer radish. Pearly white, waxy and transparent. Form flat and broad, flavor very mild, and it can be eaten raw almost like an apple. On rich soil it will grow very large. This is an elegant sort to sow for large onions, because of its rapid growth and fine quality. Pkt., 5c. Oz., 20c. $\frac{1}{4}$ Lb., 75c. Lb., \$2.50.

AUSTRALIAN BROWN—A Valuable Long-Keeping Onion.—This new Onion, introduced into the United States a few years since, has met with wonderful success, and is pronounced the best keeper of all onions. The outside skin is of a deep amber brown, distinct from all other onions, extremely hard and firm, of fine flavor, and will keep almost indefinitely. Australian Brown is the only onion Australian growers will plant. Pkts., 5c. and 10c. Oz., 20c. $\frac{1}{4}$ Lb., 40c. Lb., \$1.25.

WETHERSFIELD LARGE RED.—Well-known and favorite sort. A large yielder and good keeper. Pkt., 5c. Oz., 20c. $\frac{1}{4}$ Lb., 40c. Lb., \$1.25.

WHITE S. S. ONION.

YELLOW DUTCH, or STRASBURG.

YELLOW DUTCH, or STRASBURG.—The most popular and best variety for set purposes. Is similar to the Yellow Danvers. Flat in shape, color and size, but as a set onion it has the quality of ripening down earlier and more uniformly. Pkt., 5c. Oz., 20c. $\frac{1}{4}$ Lb., 40c. Lb., \$1.00

YELLOW GLOBE DANVERS.—A very handsome, round, yellow onion; a large yielder and splendid keeper; the preferred sort with market gardeners and large growers all over the country. We unhesitatingly recommend it for growing either sets or large onions. Pkt., 5c. Oz., 20c. $\frac{1}{4}$ Lb., 40c. Lb., \$1.00.

YELLOW FLAT DANVERS.—A good onion, both for the home garden and for market—combining reliability in ripening with large yield. It ripens more surely in moist locations than do the globe-shaped varieties, as well as earlier. The thin-necked flattened bulbs are quite thick through; light yellow skin; fine-grained, mild, white flesh. Pkt., 5c. Oz., 20c. $\frac{1}{4}$ Lb., 40c. Lb., \$1.00.

YELLOW DANVERS ONION.

ONIONS--CONTINUED

PRIZE-TAKER.—This is the large, beautiful onion that is seen every fall offered for sale at the fruit stores in Baltimore and other large cities. It has a rich straw color, and is of enormous size. Although of such large size, it is very hardy and an excellent keeper. The flavor is mild and delicate, making the Prize-taker a favorite variety for salads. By sowing this sort early you can raise a large crop of large onions the first season with very little trouble. All that is necessary is good ground, proper cultivation, and not to have them too thick. Those of our growers who have tried this variety have had remarkably fine success. **Pkt., 5c. Oz., 20c, ¼ Lb., 60c. Lb., \$1.50.**

PARSNIP

The Parsnip will nourish best and give the longest, largest and smoothest roots in a very deep, rich soil—one that has been made rich from manure the previous year. Fresh manure makes the roots somewhat ill-shaped. Sow as early in the spring as the ground can be made ready, pretty thickly in drills from 12 to 18 inches apart, and about an inch deep. Thin the plants to five or six inches apart.

HOLLOW CROWN OR SUGAR

The Hollow Crown is superior in quality to all other varieties, and the preferred kind with Baltimore gardeners. The roots are smooth, tender, handsome shape and early. We have the finest stock of Hollow Crown Parsnips that we know of in this country. **Pkts., 5c. and 10c. ¼ Lb., 20c. ½ Lb., 30c. Lb., 50c.**

PRIZE-TAKER ONION.

MUSTARD

GIANT CURLED.—Highly esteemed in the South, where the seed is sown in the fall and used in the spring as a salad. Our stock is the true curled leaf, and produces plants two feet high and of greater breadth, forming enormous bunches.

Pkt., 5c. Oz., 10c. ¼ Lb., 15c. Lb., 50c.
WHITE MUSTARD.—¼ Lb., 10c. Lb., 35c.

NASTURTIUM

Plant in May, the climbing varieties to cover arbor or fence, and the dwarf for beds or hanging baskets. The leaves are used for salad, and the seeds, when soft enough to be penetrated by the nail, for pickles.

TALL.—Pkt., 5c. Oz., 10c. ¼ Lb., 25c. Lb., 75c.

DWARF.—Pkt., 5c. Oz., 10c. ¼ Lb., 30c. Lb., \$1.00.

PARSLEY

SELECT rich soil; sow the seed in drills one foot apart, covering half an inch deep. It would be well to firm the soil with the foot after sowing the seed. As the seed is usually from 15 to 25 days in germinating, it will be necessary to sow early. Thin plants to 4 inches apart when 2 inches high. The beauty of the plant may be increased by several successive transplantings. It is used principally for flavoring soups, etc., and for garnishing in its natural state.

DWARF EXTRA CURLED.—The most beautiful and valuable variety in use; handsome bright green color; finely crimped, beautifully curled.

Pkt., 5c. Oz., 10c. ¼ Lb., 20c. Lb., 60c.

MOSS CURLED.—A very select crimped variety.

Pkt., 5c. Oz., 10c. ¼ Lb., 20c. Lb., 60c.

PEAS

NOTICE.—In ordering Peas to be sent by mail, please add 6c. per pound to pay postage. For larger quantities see table on page 1.

The dwarf varieties should be liberally manured; the tall sorts will run too much to vine if heavily manured, it being better to depend on the richness of the land that was previously in good condition. Plant the dwarf in rows two feet apart; those varieties attaining a height of from two to three feet in rows three feet apart, and the rows of the tallest sort four feet apart. Bushing the tall kind when six inches high, on poles set every six or eight feet, with twine fastened to them about four inches apart, will answer finely.

G. & T. Co.'s First Early Peas

This is the earliest of all and the most profitable early market Pea, because of its early maturity, uniformity of growth, and ripening and its productiveness. It ripens up so evenly as only to require about two pickings to secure the crop. It is grown from selected stock, under our own supervision, and the greatest care is exercised to keep it up to the highest standard of quality. It is a great favorite with the truckers, and is largely used by private families. Our sales of this sort increase annually.

Pint, 20c. Quart, 35c. Peck, \$2.00. Bushel, \$7.50.

NEW LARGE PODDED ALASKA.—In general habit and growth resembles the well-known Alaska. Ripening about three days later, but with much longer and thicker pods. Handsomely shaped, of a beautiful dark green color, which is retained long after other varieties have lost their usefulness. The seed is somewhat wrinkled and dented. We strongly recommend this new Pea to gardeners, truckers and shippers as a most productive and large extra early variety.

Pint, 20c. Quart, 35c. Peck, \$2.50. Bushel, \$9.00.

ALASKA.—Our best rogued and hand-picked stock. Height, 26 inches. The earliest Blue Pea; very uniform in growth and time of ripening. The dark green color of pods makes this a most desirable sort for canners and shippers, as it can be carried long distances without losing color.

Pint, 20c. Quart, 35c. Peck, \$2.50. Bushel, \$7.50.

Early Bird Peas

Recently introduced. Hardy, prolific, early. Earlier than Alaska or First and Best. Large podded and very prolific. Fine luscious flavor. Hardiness unsurpassed.

Pint, 25c. Quart, 40c. Peck, \$2.50. Bushel, \$10.00.

FIRST AND BEST.—Height, 2½ feet. Grown with special care. One of the earliest varieties.

Pint, 20c. Quart, 35c. Peck, \$2.00. Bushel, \$7.50.

BOUNTIFUL.—Ripening about three to four days later than extra early sorts. Much longer and thicker pods. Beautifully shaped, dark green color which is retained after earlier varieties have turned grey. Seed dented and we recommend this pea to all market gardeners and truckers.

Pint, 25c. Quart, 30c. Peck, \$2.50. Bushel, \$9.00.

PEDIGREE EXTRA EARLY.—Introduced several years ago, has steadily increased in favor until now the truckers all want it. Early as Alaska, large pods, white seeded, very prolific. All mature at one time and can be gathered in one picking.

Pint, 20c. Quart, 35c. Peck, \$2.00. Bushel, \$7.50.

Prolific Early Market

New. Recently introduced. The finest, largest and most prolific extra early variety. Larger than Alaska, nearly as early, quite prolific. Handsome pods, which command the highest prices. Just the pea for the trucker, market gardener and family garden.

Pint, 20c. Quart, 35c. Peck, \$2.50. Bushel, \$9.00.

Large Podded Extra Early Sugar Variety

MARYLAND PRIDE PEAS.

Introduced by us last season for the first time, giving universal satisfaction to the market gardeners and shippers. Pods large, of a deep green color and nearly as early as Alaska.

Pint, 20c. Quart, 40c. Peck, \$3.00. Bushel, \$10.00.

THOMAS LAXTON.

Habit and growth same as GRADUS, but pods are a deeper green color, square at the ends, having fine flavor.

Pint, 20c. Quart, 40c. Peck, \$3.00. Bushel, \$10.00.

GRADUS, OR PROSPERITY—Pale Green Wrinkled.

The most attractive novelty of recent years. Large, handsome pods, well filled, ripening with the earliest and of vigorous habit.

Pint, 20c. Quart, 40c. Peck, \$3.00. Bushel, \$10.00.

EXTRA EARLY ALASKA PEAS.

MARYLAND PRICE PEAS.

NOTT'S EXCELSIOR.

GARDENER'S FAVORITE.

PEAS—CONTINUED **DWARF EXTRA EARLY VARIETY** **Nott's Excelsior**

It is the best of dwarf wrinkled extra early of recent introduction. The vines are larger and more vigorous than the American Wonder, while the pods are fully one-third larger containing 6 to 8 fine, large Peas, packed so closely together in the pods that the Peas are always more square than round. The pods are always well filled with Peas, which in sweetness and quality have no superior.

Pint, 20c. Quart, 40c. Peck, \$3.00. Bushel, \$11.00.

American Wonder

Very luscious in flavor. Try it. Height, 12 inches. The earliest wrinkled Pea; very productive and sweet. Better suited to the private than to the market garden.

Pint, 20c. Quart, 40c. Peck, \$3.00. Bushel, \$11.00.

Premium Gem

Height, 15 inches. An improvement upon the Little Gem. A splendid wrinkled dwarf Pea; very luscious in flavor.

Pint, 20c. Quart, 40c. Peck, \$3.00. Bushel, \$11.00.

McLean's Little Gem

Similar to Premium Gem, but more straggling in growth; pods not so well filled; height, 18 inches; seed, green, wrinkled.

Pint, 20c. Quart, 40c. Peck, \$3.00. Bushel, \$11.00.

Second Early Half Dwarf Wrinkled Varieties

GARDENER'S FAVORITE.

Height, 30 to 36 inches. A wrinkled variety named and introduced by us, and which is constantly gaining friends; of most delicious flavor; prolific bearer, specially suited for the market garden trade. It is also attracting considerable attention with some of our leading canners, as when packed they find the quality to be superior to any other sort.

Pint, 20c. Quart, 40c. Peck, \$3.00. Bushel, \$11.00.

ADVANCER.

Height, 2½ feet. A green wrinkled variety; introduced some years ago, and has always given satisfaction.

Pint, 20c. Quart, 40c. Peck, \$3.00. Bushel, \$11.00.

EVERBEARING.

Vines are about 2 feet high, of a branching character, forming as many as 10 stalks from a single root stalk. Peas large and of fine quality.

Pint, 20c. Quart, 40c. Peck, \$3.00. Bushel, \$11.00.

ABUNDANCE.

Height, 30 to 36 inches. An excellent half-dwarf, medium early wrinkled variety; pods 3½ inches long, containing 6 to 8 large Peas of excellent quality.

Pint, 20c. Quart, 40c. Peck, \$3.00. Bushel, \$11.00.

PRIDE OF THE MARKET.

A medium early dwarf Pea of vigorous habit and very productive. The pods are large, of a medium green color, and contain 7 to 9 Peas of fine quality; 1½ feet high.

Pint, 20c. Quart, 40c. Peck, \$3.00. Bushel, \$11.00.

HORSFORD'S MARKET GARDEN.

Height, ½ feet. A medium early wrinkled variety; highly recommended.

Pint, 20c. Quart, 40c. Peck, \$3.00. Bushel, \$11.00.

IMPROVED STRATAGEM.

Height, 2½ feet. A large wrinkled blue Pea of excellent quality; very long, large filled pods. More regular in its growth than the ordinary Stratagem, and in every way superior.

Pint, 20c. Quart, 40c. Peck, \$3.00. Bushel, \$11.00.

DWARF GREEN WRINKLED MARROW.

An excellent new wrinkled variety. Large pods and very productive.

Pint, 20c. Quart, 40c. Peck, \$3.00. Bushel, \$11.00.

ALL PRICES IN CATALOG SUBJECT TO CHANGE WITHOUT NOTICE.

PEAS—CONTINUED

MEDIUM AND LATE VARIETIES

HEROINE PEAS.

HEROINE PEA.—A medium early, green, wrinkled Pea, and one of the best of recent introduction; large, curved, showy pods; an immense cropper; Peas of finest quality. Height, 2 to 2½ feet.

Pint, 20c. Quart, 40c. Peck, \$3.00. Bushel, \$11.00.

CHAMPION OF ENGLAND.—Height, 4 feet. An, old favorite, rich flavored and very productive.

Pint, 20c. Quart, 40c. Peck, \$3.00. Bushel, \$11.00.

MELTING SUGAR (Edible Pods).—This variety is ahead of all other Sugar Peas, not only in size of pod and prolific bearing, but also for its delicious flavor. It grows to the height of 5 feet, bears a profusion of very large, broad handsome light green pods, which are so brittle that they snap without any strings.

Pint, 20c. Quart, 40c. Peck, —. Bushel, —.

TALL GRAY SUGAR (Edible Pods).—Cooked in the pods same as Snap Beans.

Pint, 20c. Quart, 40c. Peck, —. Bushel, —.

DWARF GRAY SUGAR (Edible Pods).—Quite a favorite.

Pint, 20c. Quart, 40c. Peck, —. Bushel, —.

TELEPHONE.—Height, 3 to 4 feet. Large wrinkled seeds; pods large and well filled.

Pint, 20c. Quart, 40c. Peck, \$3.00. Bushel, \$11.00.

TELEGRAPH, or LONG ISLAND MAMMOTH.—Resembles the Telephone in every respect, except they are a deeper shade of green. Pods are very attractive in appearance.

Pint, 20c. Quart, 40c. Peck, —. Bushel, —.

IMPROVED SUGAR MARROWFAT PEAS (Genuine Stock).—Height, 3½ feet. Grows a strong vine, bears in abundance large, filled pods. The truckers' favorite.

Pint, 20c. Quart, 35c. Peck, \$2.00. Bushel, \$7.50.

ADMIRAL DEWEY.—Here we have a most excellent Pea, with large, handsome pods; Peas of the highest quality. More dwarf than the Stratagem and about a week earlier in maturing, regular and uniform in growth; vines stocky, healthy and of vigorous growth; pods long, frequently containing 10 peas, of tender and delicious flavor. Don't fail to try it.

Pint, 20c. Quart, 40c. Peck, \$3.00. Bushel, \$11.00.

FRENCH CANNER.—Height, 3½ feet. The celebrated Pea used in France by the canners. It is wonderfully prolific, bearing an abundance of long pods, containing 7 to 9 peas of excellent flavor.

Pint, 20c. Quart, 35c. Peck, \$2.00. Bushel, \$7.50.

IMPROVED SUGAR MARROWFAT PEAS.

HERBS

A well assorted selection of the various kinds of herbs should have a place in every garden. Their value in seasoning and flavoring is well known and appreciated. Sow in spring in shallow drills, one foot apart, and when well up thin out or transplant to a proper distance. Care should be taken to harvest on a dry day just before they fully blossom.

PEPPER OR CAPSICUM

Is cultivated mainly for pickles; used as a seasoning in many ways; sometimes medicinally. Sow seed early in hotbed, if possible; if not, select a warm place in the garden for seed bed; sow as soon as the soil is warm. Transplant when 3 or 4 inches high, in rows 18 inches apart.

LARGE BELL OR BULL NOSE.—Plant vigorous, compact, very productive, ripening its crop uniformly and early. Fruit large, with thick, mild flesh, of excellent quality for use in salads and pickles; color bright red when ripe. **Pkts., 5c. Oz., 35c. ¼ Lb., \$1.25. Lb., \$4.50.**

RUBY KING.—An improved American variety often four to six inches in length and quite symmetrical in shape. It is very bright colored and the flesh is sweet and mild flavored. **Pkts., 5c. and 10c. Oz., 35c. ¼ Lb., \$1.25. Lb., \$4.50.**

SWEET MOUNTAIN.—Plants very vigorous, of compact, upright growth. The fruit does not ripen until very late. It is very large and long, often eight inches or more in length by two in diameter; very smooth and handsome, being when fully mature of a rich red color. Flesh very thick, sweet and mildly flavored. **Pkts., 5c. and 10c. Oz., 35c. ¼ Lb., \$1.25. Lb., \$4.50.**

CHINESE GIANT.—Double the size of Ruby King; the finest mild Red Pepper grown. It is very productive, having a magnificent appearance, which makes it sell readily. **Pkt., 10c. Oz., 40c. ¼ Lb., \$1.50.**

LONG RED CAYENNE.—A well known variety, having a slender, twisted and pointed pod about four inches long, and when ripe, bright red in color. Extremely strong and pungent flesh. **Pkts., 5c. and 10c. Oz., 35c. ¼ Lb., \$1.25.**

RED CHERRY.—Plant tall, bearing a profusion of round, bright red fruit which are very pungent when ripe. The plant, when in fruit, is very ornamental. **Pkts., 5c. and 10c. Oz., 35c.**

RED CHILI.—Used in the manufacture of pepper sauce. The bright, rich red pods are about two inches long, one-third to one-half inch in diameter at the base, tapering to a sharp point and exceedingly pungent when ripe. **Pkts., 5c. and 10c. Oz., 35c.**

PUMPKIN

Plant in May, in hills 8 feet apart. Allot 10 seed to each hill, as bugs often destroy the young plants, but only allow 2 or 3 healthy plants to remain in each hill. They are usually planted in fields with corn or potatoes.

G. & T. CO.'S MARYLAND SWEET POTATO

This is the best table Pumpkin in cultivation. In shape and size it somewhat resembles the Cashaw, but much more beautiful in color, being a handsome green and white striped. The flesh is a rich yellow color, solid, fine grained, very thick; flavor delicious. **Pkt., 5c. Oz., 15c. ¼ lb., 40c. Lb., \$1.25.**

LARGE CHEESE, OR KENTUCKY FIELD.—A very large, flattened pumpkin, averaging about two feet through. When ripened the skin is a rich cream color. Flesh yellow and of fine quality. **Pkt., 5c. Oz., 15c. ¼ Lb., 25c. Lb., 75c.**

TENNESSEE SWEET POTATO.—A splendid pie and cooking pumpkin. They grow pear-shaped, of medium size, slightly ribbed; skin is creamy white, lightly striped with green; flesh very thick, creamy white, dry and fine-grained, keeping well until late in the spring. When cooked resembles sweet potatoes, but much more delicious in taste. **Pkt., 5c. Oz., 15c. ¼ lb., 25c. Lb., \$1.00.**

CONNECTICUT FIELD

A fine, large, orange-colored variety used for field culture and stock feeding. The skin is smooth and ribbed and the flesh is brittle and sweet. **Oz., 15c. ¼ Lb., 25c. Lb., 75c.**

YELLOW CASHAW, OR CROOKNECK.—Solid flesh, fine and sweet; keeps well. **Pkt., 5c. Oz., 15c. ¼ Lb., 25c. Lb., 75c.**

SALSIFY OR VEGETABLE OYSTER

Sow in early spring in light, rich soil in drills 14 inches apart and thin the plants to six inches in the row. The roots will be ready for use in October and will sustain no injury by being left in the ground during the winter.

SANDWICH ISLAND MAMMOTH.—This new Salsify grows fully twice the size of the old sort, and is superior in quality. Invaluable to market gardeners. **Pkt., 5c. Oz., 15c. ¼ Lb., 40c. Lb., \$1.50.**

LARGE WHITE.—The old well-known variety. **Pkts., 5c. and 10c. ¼ Lb., 40c. Lb., \$1.50.**

ALL PRICES SUBJECT TO CHANGE WITHOUT NOTICE.

G. & T. CO.'S

MARYLAND SWEET POTATO.

SALSIFY.

RADISH

ONE OUNCE
WILL SOW
100 FEET
OF DRILL

For an early supply sow in hotbed in February. For a succe-
sive supply sow from middle of March to September. Radishes
thrive best in light, rich, sandy loam. The radish must make a
rapid growth to be fit for use; it will then be crisp and tender and
of a mild flavor. If it grows slowly, it will be hard, fibrous and
disagreeably pungent.

EARLY SCARLET, OR PRUSSIAN GLOBE RADISH.—This is the very best forcing variety; is sown largely by market gardeners and truckers, and they are delighted with it. It is of a globular shape and brilliant, beautiful crimson color, short top, and will stand a large amount of heat without becoming pithy. **Pkt., 5c. Oz., 10c. ¼ lb., 20c. Lb., 60c.**

FRENCH BREAKFAST.—of oval form; color scarlet, white tipped. **Pkt., 5c. Oz., 10c. ¼ lb., 20c. Lb., 60c.**

EARLIEST WHITE TURNIP.—For forcing. This and the Red Turnip bunch together very nicely. **Pkt., 5c. Oz., 10c. ¼ lb., 20c. Lb., 60c.**

EARLY RED TURNIP.—Turnip shaped; red skin; for forcing. Sometimes called Red Button Radish. **Pkt., 5c. ¼ lb., 20. Lb., 60c.**

SCARLET OLIVE-SHAPED RADISH.—A showy half-long variety of pretty shape and bunches beautifully. **Pkt., 5c. Oz., 10c. ¼ lb., 20c. Lb., 60c**

WHITE BOX.—Perfectly round, smooth skin, pure white, free from any sharpness or bitterness. A remarkably quick grower, with small top. For forcing, it is in every way superior. **Pkt., 5c. Oz., 10c. ¼ lb., 20c. Lb., 60c.**

EARLY WHITE TIPPED SCARLET.—An excellent variety for forcing, with very short leaves; bright scarlet in color, with a white tip. **Pkt., 5c. Oz., 10c. ¼ lb., 20c. Lb., 60c.**

SUMMER VARIETIES

WHITE STRASBURG.—This is becoming one of the most popular summer sorts; it is of handsome tapering shape, skin pure white; very tender. **Pkt., 5c. Oz., 10c. ¼ lb., 20c. Lb., 60c.**

GIANT STUTTGART.—A splendid new variety, of excellent quality; withstands summer heat. **Pkt., 5c. Oz., 10c. ¼ lb., 20c. Lb., 60c.**

CHARTIER.—A good variety for private or market garden purposes. Stands long before going to seed, and is tender and crisp. **Pkt., 5c. Oz., 10c. ¼ lb., 20c. Lb., 60c.**

DELICACY.—Resembles White Strasburg, being more evenly shaped and smaller topped; grows into full size and perfection during the hottest months. **Pkt., 5c. Oz., 10c. ¼ lb., 20c. Lb., 60c.**

GOLDEN GLOBE.—An excellent summer Radish; slow to run to seed; shape globular, bright yellow color and mild flavor. **Pkt., 5c. Oz., 10c. ¼ lb., 20c. Lb., 60c.**

White
Strasburg
Radish.

LONG VARIETIES

CINCINNATI MARKET NEW GLASS RADISH. **Pkt., 5c. Oz., 10c. ¼ lb., 20c. Lb., 50c.**

WHITE VIENNA, OR LADY FINGER.—This is unquestionably the finest long white Radish. Of most handsome shape, color a beautiful snow white. It is of very rapid growth, and remarkably crisp, brittle and tender; equally desirable for the market or home garden. **Pkt., 5c. Oz., 10c. ¼ lb., 20c. Lb., 60c.**

LONG SCARLET (Finest Grown).—Very attractive and sells readily. Owing to its handsome shape, brilliant color and fine qualities, it commands a higher price and more ready sale than the ordinary Long Scarlet as genreally sold. **Pkt., 5c. Oz., 10c. ¼ lb., 20c. Lb., 50c.**

ALL PRICES IN CATALOG SUBJECT TO CHANGE WITHOUT NOTICE.

RADISH—CONTINUED

WINTER VARIETIES

WHITE CHINESE WINTER, OR CELESTIAL—This excellent variety is sold also as Chinese White Winter. The roots are long, cylindrical, with beautiful white skin and flesh, the whitest and usually the least pungent of the winter varieties. When fully mature the roots are six to nine inches long by about two and one-half to three and one-half inches in diameter. The flesh is compact and crisp. **Pkt., 5c. Oz., 15c. ¼ lb., 20c. Lb., 60c.**

CHINESE ROSE WINTER—Remarkably fine for winter use. The best of the winter sorts. **Pkt., 5c. Oz., 10c. ¼ lb., 25c. Lb., 60c.**

LONG BLACK SPANISH—A large winter variety; one of the hardest, with dark green leaves, firm in texture, keeping until spring. **Pkt., 5c. Oz., 10c. ¼ lb., 20c. Lb., 75c.**

LONG WHITE SPANISH (Winter)—Fine keeping quality. **Pkt., 5c. Oz., 10c. ¼ lb., 20c. Lb., 75c.**

ROUND WHITE SPANISH—A good fall or winter variety. **Pkt., 5c. Oz., 10c. ¼ lb., 20c. Lb., 75c.**

ROUND BLACK SPANISH—A fine globe-shaped Radish; very popular with the Germans, known as Rettig; good quality. **Pkt., 5c. Oz., 10c. ¼ lb., 20c. Lb., 75c.**

RHUBARB OR PIE PLANT

ONE OUNCE OF SEED TO 125 FEET OF DRILL.

CULTURE—Good plants are easily grown in any good garden soil. Sow seed thinly in shallow drills a foot apart, thin to 4 or 5 inches. Keep soil loose and free from weeds. The plants are liable to vary considerably. Pick out the strongest and best. In fall or spring following, transplant to the permanent bed, 4 feet apart each way, in deep, warm and very rich soil. The more manure the better stalks. For winter forcing take up two-year roots in fall, leave out to freeze, then bed close together on cellar bottom or under greenhouse bench in the dark. **Pkts., 5c. and 10c. Oz., 15c. ¼ lb., 25c. Lb., 90c.**

RHUBARB ROOTS

20c. each.

Dozen, \$2.00.

Chinese Winter Radish.

Long Black Spanish Radish.

SPINACH

This is quite an important crop with market gardeners, and one easily managed. For summer use, sow early in spring, in drills eight inches to one foot apart, covering the seed one inch deep. Select rich soil and manure liberally. A succession may be obtained by sowing at intervals of two weeks through the season. For very early spring sow in August, and protect the plants through the winter by a thick covering of clean straw or some other similar light covering. Spinach is used principally as greens for boiling, and is very highly esteemed for this purpose.

BLOOMSDALE SAVOY—The variety most generally used in the East and especially throughout the South for shipping. Leaves large, round and thick, very much savoyed and rich deep green. One of the earliest varieties. Seed round. **Pkt., 5c. ¼ lb., 15c. Lb., 40c.**

G. & T. CO.'S EXTRA CURLED AMERICAN-GROWN BLOOMSDALE SAVOY SPINACH—This is grown especially for us, and is without exception the best type of Savoy Spinach in existence. It is beautifully curled and wrinkled, the leaves large, thick and heavy, produced in great numbers, and stands handling and transportation better than any other sort; in fact, we hardly think we could say too much about this valuable acquisition to the spinach family. Sold only in sealed bags. **Pkt., 5c. ¼ lb., 15c. Lb., 40c.**

NEW ZEALAND—This endures heat and is best for summer. **Pkt., 10c. Oz., 15c. ¼ lb., 30c. Lb., \$1.00.**

Bloomsdale—Savoy Spinach

SPINACH--CONTINUED

LONG STANDING—Best for spring sowing, as it is very slow to seed. The leaves are large, round, unusually thick, curled and of dark green color. **Pkt., 5c.; ¼ Lb., 15c.; Lb., 40c.**

LARGE ROUND-LEAVED VIROFLAY—A new sort, with very large, thick leaves. **Pkt., 5c.; ¼ Lb., 15c.; Lb., 40c.**

VICTORIA SPINACH—This new spinach comes to us with the highest recommendations from the growers. The foliage is heavy, the broad, dark green leaves being of the true Savoy appearance and of the finest quality; but the most remarkable feature that will make it of special value, both for market and family gardens, is the fact that it is in prime condition from two weeks to three weeks after all other varieties of spinach have run to seed. **Pkt., 5c.; ¼ Lb., 15c.; Lb., 40c.**

Long Standing Spinach.

WRITE FOR SPECIAL PRICES IN QUANTITIES.

Squash

The Squashes are all quite tender, and therefore no progress can be made in starting them until the weather becomes somewhat warm and settled. Plant in hills five feet apart each way for the bush varieties, and eight feet for the running varieties; put eight seeds to the hill, but don't allow over three to stand.

EARLY WHITE BUSH SCALLOP—A desirable and marketable sort. Best known and most productive of all the summer sorts. **Pkt., 5c. Oz., 15c. ¼ Lb., 40c. Lb., \$1.25.**

SUMMER CROOK NECK (Early)—Fine flavor; a desirable table sort. **Pkt., 5c. Oz., 15c. ¼ Lb., 40c. Lb., \$1.25.**

WINTER CROOK NECK—Flesh red, fine flavor; largely grown for winter use. **Pkt., 5c. Oz., 15c. ¼ Lb., 40c. Lb., \$1.25.**

HUBBARD—The most popular winter squash. Fruit is oblong and pointed, heavily warted, dark green in color, with orange-colored flesh. Is remarkable for its keeping qualities.

Pkt., 5c.; Oz., 15c.; ¼ Lb., 40c.; Lb., \$1.50.

BOSTON MARROW—A popular variety, with large, oval fruit. Skin bright reddish orange with light cream netting. Flesh orange. Fine grained and of excellent quality. This is the most popular variety for canning. The fruit makes a rich orange-red, and delicious flavored dish.

Pkt., 5c. Oz., 15c. ¼ Lb., 30c. Lb., 90c.

TOMATO

BONNY BEST
TAKEN FROM
PHOTOGRAPH.

ONE CLUSTER.

ONE-THIRD
NATURAL SIZE

EXTRA EARLY RED

VARIETIES

For early fruit sow the seed in March or April, in the hotbed or in pots in a sunny exposure in the house. When the plants are about three or four inches high they should be set out four or five inches apart in another hotbed or cold frame or removed into small pots, allowing a single plant to a pot. Expose to the air as much as possible to harden, and about the middle of May set the plants in the open ground at a distance of four or five feet each way. Water freely at the time of transplanting, and shelter from the sun for a few days until the plants are established. Sufficient plants for a small garden, may be had by sowing a few seeds in a shallow box or flower pot and placing in a sunny window in the house. Cultivate thoroughly as long as the vines will permit.

Tomatoes will admit of training to stakes or trellis of various kinds, and the fruit is very much improved both in appearance and quality. This mode of cultivation is now quite common among gardeners who grow for early market. The usual method is to set one strong plant to a stake, using stakes

five to seven feet in height, tying the plant up with wool or other strong, soft twine, pruning out quite freely as the vines advance in growth. By adopting this method the plants may be set much closer than in the ordinary way.

BONNY BEST TOMATO

As its name signifies, it is the best extra early tomato yet introduced. Is fully ten days earlier than Chalk's Early Jewel, and within a day or two, if not quite as early as Spark's Earliana. Truckers who tested it claim it is as early as Earliana.

It is a vigorous grower, very prolific, with dense foliage, which protects the fruits from hot sun when other varieties like the Earliana have scalded fruits. The fruit is even size, smooth, round, red, of delicious flavor, ripening to stem.

It does not have the green surface like the Earliana and other extra early varieties. Pkts., 5c. and 10c. Oz., 35c. ¼ lb., \$1.25. Lb., \$4.00.

EARLY I. X. L. TOMATO.—Earliest, largest, most prolific. Pkts., 10c. Oz., 35c. ¼ lb., \$1.25. Lb., \$4.00.

CHALK'S EARLY JEWEL.—Deep-fruited and solid. The growth is very compact. Fruit of uniformly good size; very solid; brightest scarlet, ripening up to the stem without cracks or green core; sweet flavor.

Pkts., 5c. and 10c. Oz., 35c. ¼ lb., \$1.25. Lb., \$4.00.

NEW SUCCESS.—A magnificent new scarlet fruited Tomato of the finest quality, handsome appearance, large size and great productiveness.

Pkts., 5c. and 10c. Oz., 35c. ¼ lb., \$1.25. Lb., \$4.00.

EARLY RED VARIETIES

EXTRA EARLY RUBY

While not as early as the Sparks' Earliana by a week or ten days, it is far superior in quality, size, shape, flavor and productiveness. In color, ruby red, nearly globe-shaped; solid flesh throughout, and with very few seeds and free from acidity; it makes a splendid main crop variety; a great keeper and shipper. Pkt., 10c. Oz., 35c. $\frac{1}{4}$ lb., \$1.25. Lb., \$4.00.

JOHN BAER.—New, early and prolific. Fine flavor and shape; quite as early as Bonny Best.

Pkts., 5c. and 10c. Oz., 40c. $\frac{1}{4}$ lb., \$1.25. Lb., \$4.00.

SPARKS' EARLIANA.—The earliest bright red Tomato; very large, smooth, color bright red; solid and excellent for slicing. The plants are of moderate growth, well set with fruits, nearly all of which ripen extremely early in the season. Grows in clusters; of medium size; smooth, solid, solid center, small seed cells, slightly acid.

Pkts., 5c. and 10c. Oz., 35c. $\frac{1}{4}$ lb., \$1.25. Lb., \$3.75.

Extra Early Purple Varieties

BEAUTY.—For early market and shipping this cannot be excelled, because of its solidity and toughness of skin. Color is a rich, glossy crimson, with a slight tinge of purple. It is well known and very largely used by our gardeners.

Pkts., 5c. and 10c. Oz., 25c. $\frac{1}{4}$ lb., 75c. Lb., \$2.75.

DWARF CHAMPION.—Dwarf, upright growth; smooth purple fruit.

Pkts., 5c. and 10c. Oz., 35c. $\frac{1}{4}$ lb., \$1.25. Lb., \$4.75.

PRIZETAKER.—Early; large; handsome; deep crimson; slight tinge of purple.

Pkts., 5c. and 10c. Oz., 25c. $\frac{1}{4}$ lb., 75c. Lb., \$2.75.

Medium Early Purple Varieties

PRIZEWINNER.—Purple; early; prince of market Tomatoes; color resembles Beauty, but larger; solid; one of the best keepers and shippers; smooth; well adapted for late crop.

Pkt., 10c. Oz., 25c. $\frac{1}{4}$ lb., 75c. Lb., \$2.75.

PONDEROSA.—Remarkable for size; fruits heavy; deep red; flesh thick, solid and fine quality.

Pkts., 10c. Oz., 35c. $\frac{1}{4}$ lb., \$1.25.

ACME.—Purple; early; medium; pink-purplish; slightly oval. Pkts., 5c. and 10c. Oz., 25c. $\frac{1}{4}$ lb., 75c.

Small Fruited Varieties

LORILLARD.—Best for greenhouse forcing; bright, glossy red; very smooth. Pkt., 10c.

PEAR-SHAPED RED.—Pkts., 5c. and 10c. Oz., 35c. $\frac{1}{4}$ lb., \$1.25.

PEAR-SHAPED YELLOW.—Used for preserves and pickles. Pkts., 5c. and 10c. Oz., 35c. $\frac{1}{4}$ lb., \$1.25.

YELLOW PLUM.—Color bright yellow; excellent for preserving. Pkt., 5c. Oz., 35c. $\frac{1}{4}$ lb., \$1.25.

MAIN CROP

Griffith & Turner Co.'s World's Fair

The great canner. The six great points of this great canner—solidity, symmetry, handsome, bright red, ripens uniform, free from rot. Its shipping and keeping qualities are unexcelled.

The planters now demand this great Tomato, notwithstanding the fact that there are many much-newer varieties. Yet it has been so successful that it is preferred above all others. The fruit is particularly solid and of fine flavor, good size, smooth, and certainly very attractive.

Pkts., 5c. and 10c. Oz., 25c. $\frac{1}{4}$ lb., 75c. Lb., \$3.00.

MAIN CROP VARIETIES

THE NEW STONE TOMATO.—Ripens for main crop; is very large and of bright scarlet color; very smooth, with occasionally a specimen very slightly octagon-shaped, ripening evenly to the stem without a crack; exceedingly solid and firm-fleshed (as its name indicates). It is an excellent shipper; fine for canning; a good keeper; not subject to rot.

Pkts., 5c. and 10c. Oz., 25c. $\frac{1}{4}$ Lb., 75c. Lb., \$2.75.

"GREATER BALTIMORE" TOMATO.—Makes a fine crop.

Pkt., 10c. Oz., 25c. $\frac{1}{4}$ Lb., 75c. Lb., \$2.75.

LIVINGSTON'S FAVORITE.—Bright red, smooth Tomato of good size.

Pkts., 5c. and 10c. Oz., 25c. $\frac{1}{4}$ Lb., 75c. Lb., \$2.75.

PARAGON.—Well-known standard bright red Tomato.

Pkts., 5c. and 10c. Oz., 25c. $\frac{1}{4}$ Lb., 75c. Lb., \$2.75.

ROYAL RED.—New: resembles Favorite in form and color; good main crop variety.

Pkts., 5c. and 10c. Oz., 25c. $\frac{1}{4}$ Lb., 75c. Lb., \$2.75.

NEW QUEEN TOMATOES.—Fruit somewhat resembles Paragon in appearance. This sort is well known and a favorite among canners, but it is not as deep red in color nor as weighty and solid as our World's Fair.

Pkts., 5c. and 10c. Oz., 20c. $\frac{1}{4}$ Lb., 75c. Lb., \$2.75.

RED ROCK

One of the finest for canning, being extraordinarily solid, smooth and red. No other variety has any better qualities than the Red Rock. Of fine flavor, very meaty and wonderfully free from acid. A heavy producer and good shipper. We think it is the coming Tomato for main crop and canners' use. Pkts., 5c. and 10c. Oz., 25c. $\frac{1}{4}$ Lb., 75c. Lb., \$2.75.

WISDOM.—Recently introduced. Medium, early; good cropper, fine size and flavor. Good for early or late planting.

Pkts., 5c. and 10c. Oz., 40c. $\frac{1}{4}$ Lb., \$1.25. Lb., \$5.00.

MATCHLESS.—The color is rich red. The skin is so tough that it makes a splendid keeper and shipper, and is less liable to crack in wet weather than any other large Tomato. Unsurpassed for market or table; strong grower and very productive, bearing with undiminished vigor until frost. The fruit is free from core and the seed spaces comparative small.

Pkts., 5c. and 10c. Oz., 20c. $\frac{1}{4}$ Lb., 75c. Lb., \$2.75.

BRINTON'S BEST.—One of the leading sorts for second early and late use; the fruit is large, handsome and a splendid keeper. A great favorite with canners and truckers.

Pkts., 5c. and 10c. Oz., 20c. $\frac{1}{4}$ Lb., 75c. Lb., \$2.75.

KELLY RED TOMATO.—This splendid Red Tomato originated in Anne Arundel County, Md., and through its superior qualities it has become the Tomato most largely used in that section. It is large, meaty, an abundant yielder, and withstands unfavorable conditions remarkably well.

Pkts., 5c. and 10c. Oz., 20c. $\frac{1}{4}$ Lb., 75c. Lb., \$3.50.

TURNIP

Improved Purple or Red Top Globe Turnip.

This excellent table variety is globular in shape, of good size and very attractive appearance. The roots are large, purple or dark red above ground, white below. The flesh is white, fine grained and tender. The roots when in best condition for the table are about three inches in diameter, but can be grown much larger for stock feeding. This sort keeps well for so early a variety, and is one of the best for market use. It is also known as Red Top White Globe.

Pkt., 5c. $\frac{1}{4}$ Lb., 20c. $\frac{1}{2}$ Lb., 30c. Lb., 50c.

For early use, sow the small sorts as soon as the ground can be worked in the spring, in drills 14 inches apart, the Rutabagas 30 inches. As the seed is very fine, it should be covered but slightly, excepting in very dry weather. Select light, and if possible, new soil and manure with plaster and ashes or phosphates. Should the young plants be troubled with insects, a sprinkling of slug shot will be beneficial. For fall and winter use the early kinds should be sown, from the middle of July to the middle of August, and the Rutabagas from the middle of June to the first of July, using from one to one and a half pounds of seed to the acre.

Red or Purple Top Flat Strap-Leaved Turnip.

A very early strap-leaved variety, very extensively used for the table. The leaves are few, entire, upright in growth. The roots are flat, of medium size, purple or dark red above ground, white below. The flesh is white, fine grained and tender. Roots when in best condition for table use are about two and one-half inches in diameter, but can be grown much larger for stock feeding. This sort is also known as Early Red Top, Strap-Leaved. Pkt., 5c. $\frac{1}{4}$ Lb., 20c. $\frac{1}{2}$ Lb., 30c. 1 Lb., 50c.

YELLOW ABERDEEN, or SCOTCH YELLOW—This is a highly approved Cattle Turnip, attaining a large size. It is solid, nutritious, a good keeper, and in every respect reliable.

Pkt., 5c. $\frac{1}{4}$ Lb., 20c. $\frac{1}{2}$ Lb., 30c. Lb., 50c.

LARGE AMBER, or YELLOW GLOBE—Grows to a large size; flesh yellow, firm and fine-grained. Excellent for either table use or feeding stock. Pkt., 5c. $\frac{1}{4}$ Lb., 20c. $\frac{1}{2}$ Lb., 30c. Lb., 50c.

SEVEN TOP—For greens and salads. Used largely in the Southern States. Pkt., 5c. $\frac{1}{4}$ Lb., 20c. $\frac{1}{2}$ Lb., 30c. Lb., 50c.

EXTRA EARLY PURPLE TOP MILAN—The earliest and handsomest Flat Turnip in cultivation; none equal to it for spring sowing. Pkt., 5c. $\frac{1}{4}$ Lb., 30c. $\frac{1}{2}$ Lb., 60c. Lb., \$1.00

WHITE FLAT (Strap Leaf)—Differs from Red Top only in color. Pkt., 5c. $\frac{1}{4}$ Lb., 20c. $\frac{1}{2}$ Lb., 30c. Lb., 50c.

EARLY WHITE EGG—A new variety of rapid growth; egg-shaped and white, as its name indicates. Pkt., 5c. $\frac{1}{4}$ Lb., 20c. $\frac{1}{2}$ Lb., 30c. Lb., 50c.

COW HORN (Large Croppers)—This variety is pure white, excepting a dash of green at the crown, and in shape is long, like the carrot. Oz., 15c. $\frac{1}{4}$ Lb., 20c. $\frac{1}{2}$ Lb., 30c. Lb., 50c.

SOUTHERN PRIZE—True strain of the favorite Turnip for greens in Virginia and the Carolinas. Valued also for its bulk. Oz., 15c. $\frac{1}{4}$ Lb., 20c. Lb., 50c.

G. & T. Co.'s Improved Purple Top Rutabaga.

RUTABAGAS OR SWEDES

The Swede Turnips, or Rutabagas, grow much larger in size, and are of greater value for stock feeding than ordinary turnips. Every farmer and stock-raiser should grow Rutabagas and Stock Beets for winter feeding.

GRIFFITH & TURNER CO.'S IMPROVED PURPLE TOP—Yellow-fleshed. A standard field variety for stock and fine for family use. This splendid Swede is the hardiest, most productive and most nutritious variety in cultivation. Pkt., 5c. $\frac{1}{4}$ Lb., 20c. Lb., 50c.

PURPLE TOP RUTABAGAS—An old standard sort of good quality. Pkt., 5c. $\frac{1}{4}$ Lb., 20c. $\frac{1}{2}$ Lb., 30c. Lb., 50c.

G. & T. CO.'S WHITE ROCK—Though sometimes called a turnip, this is more like a rutabaga. The root is large, both skin and flesh very white, and is one of the best varieties we have for table use. An excellent keeper and a desirable sort for market gardeners. Pkt., 5c. $\frac{1}{4}$ Lb., 20c. $\frac{1}{2}$ Lb., 30c. Lb., 50c.

Extra Early Prize Potatoes.

POTATOES

MAINE OR NORTHERN GROWN

ALL POTATOES SOLD BY WEIGHT ONLY

Owing to fluctuations in market for potatoes, ask for prices in quantity.

A Bushel Consists of 60 Pounds.

The soil best suited to the Potato is a rich, sandy loam; but it seems to thrive in almost any soil or climate. The Potato being a gross feeder requires a liberal application of manure. If stable manure is to be used it should be well-rotted, and not allowed to come in contact with the tubers. On no other crop are the results from the use of phosphates so manifest as on the Potato. Almost invariably the tubers are smoother, brighter and freer from rust and the destructive influence of wire worms. **GRIFFITH & TURNER CO.'S PLANT FOOD** is especially adapted for Potatoes, as it promotes growth and at the same time prevents disease. Plant as early in the spring as the ground can be thoroughly worked in rows three feet apart and one foot in the rows, covering in light, warm soil about four inches, and in cold, wet ground three inches deep; draw the earth to the plants as they advance in growth. The soil should be constantly stirred through the season to prevent the surface from baking.

IRISH COBLER (A New Sort).—Very productive, matures early, shape chunky, eyes strong and deep set, skin betted, flesh white, quality very superior. After years' experience we find that it is a very superior variety. Don't fail to get it.

15 lbs. @ 5c. lb.

Irish Cobbler Potatoes.

PROSPERITY.—A middle-crop variety, one of the handsomest large Potatoes ever produced. The yield is immense, and even under unfavorable circumstances can be relied on; flesh very white; cooks dry and mealy.

15 lbs. @ 5c. lb.

RURAL NEW YORKER, No. 2.—A valuable variety of large size, very smooth and a great cropper; in quality unexcelled. This variety is yearly becoming more popular as the best late long keeper, and we recommend it highly.

15 lbs. @ 5c. lb.

NEW QUEEN.—A grand Potato of recent introduction, closely resembling Beauty of Hebron in appearance, color, size and shape, but is 7 to 10 days earlier and a heavy yielder. Our seed of this variety comes from Maine, where it originated, and is pure and true to name.

15 lbs. @ 5c. lb.

GREEN MOUNTAIN.—A fine late sort.

15 lbs. @ 5c. lb.

SWEET POTATOES

CHOICE JERSEY SWEETS AT MARKET PRICES DURING SEASON. WRITE FOR QUOTATIONS.

ASK FOR PRICES IN LARGE QUANTITIES.

ALL PRICES IN CATALOG SUBJECT TO CHANGE WITHOUT NOTICE.

G. & T. CO.'S EXTRA EARLY PRIZE.—This potato is in all respects a very superior early sort. It proved to be early and productive; also found its eating qualities first class. We consider it the best early Potato on the market today.

15 lbs. @ 5c. lb.

WHITE BLISS TRIUMPH, or PRIDE OF THE SOUTH.—Extra early round white; identical with the Red Bliss, only different in color. A very fine variety for early market or family garden.

15 lbs. @ 5c. lb.

RED BLISS TRIUMPH.—This beautiful variety combines the wonderful productiveness of the Peerless with all the good qualities of the Early Rose; is much more productive and matures its crop at least a week in advance of the Early Rose.

15 lbs. @ 5c. lb.

EARLY OHIO.—This is very early and productive, of fine quality and an excellent keeper.

15 lbs. @ 5c. lb.

MAINE, or HOULTON EARLY ROSE.—The Early Rose led the list for over 30 years, and is today one of the best early market potatoes. Our stock of this is grown on new land, near Houlton, Maine; is rugged and pure, and produces as good crops as those which made the Early Rose famous in its early years. Remember, that this stock is not to be confounded with the old run-out Rose grown in other sections.

15 lbs. @ 5c. lb.

EARLY NORTHER.—This superb Potato originated at Caribou, Maine. It resembles the Early Rose in shape and color, matures earlier than the Rose, and is much more productive. Under our own observation the past season it yielded more than the Rose, matured earlier, and was in all respects superior.

15 lbs. @ 5c. lb.

EARLY BOVEE.—One of the earliest varieties; good size, very smooth; uniform, perfect shape; eyes shallow; light skin and white flesh. Cooks dry and floury; of superb quality; a great yielder and healthy grower.

15 lbs. @ 5c. lb.

CROWN JEWEL.—Very early and prolific; skin pinkish white. One of the best for early market. It is planted very largely in this vicinity and the South.

15 lbs. @ 5c. lb.

BEAUTY OF HEBRON.—Very rapid and vigorous grower, ripening as early as Early Rose, which it resembles, but frequently exceeds in productiveness and excellence for table use, either baked or boiled.

15 lbs. @ 5c. lb.

YELLOW FIELD CORN

CHESTNUT GROVE YELLOW CORN—This corn was grown on Chestnut Grove Farm, Baltimore County, and the average yield from the whole crop was 20 1-16 barrels to the acre. The ears are large, deep, medium-sized grain, and of beautiful color. **Qt., 20c. Pk., \$1.00. Bu., \$2.50.**

NEW MARYLAND YELLOW DENT—The grains are unusually deep, ears large, stalks grow from 7 to 10 feet high, does not exhaust soil so much, and will stand drought better than a large stalk, and will yield 5 to 10 bushels per acre more than any other corn generally planted. **Qt., 20c. Pk., 75c. Bu., \$2.50.**

IMPROVED EARLY LEAMING—Bred and tested for 10 years. Pedigree stock. An early selected variety of yellow corn; small grains, weighty and productive. Highly esteemed in Maryland and Pennsylvania. One of the earliest varieties of yellow corn in cultivation. **Qt., 20c. Pk., 75c. Bu., \$2.50.**

G. & T. CO.'S IMPROVED GOLD-EN BEAUTY—A large, broad-grained yellow corn, with ears of perfect shape and small cob. The richness of color and the quality of grain make it a very superior variety. **Qt., 20c. Pk., 75c. Bu., \$2.50.**

90-DAY YELLOW—This is an excellent quick-growing variety. May be planted after peas are taken off, and make a good crop. Largely used by truckers around Baltimore. **Qt., 20c. Pk., 75c. Bu., \$2.50.**

REID'S YELLOW DENT CORN—Matures in 100 to 105 days. Has a rich yellow color, very solid heavy ears from 8 to 12 inches long, with 16 to 18 rows of grain. The grains are deep on a small red cob. Fodder from 7 to 8½ feet high, and produces a great many stalks with two ears. A fine early corn. **Qt., 20c. Pk., 75c. Bu., \$2.50.**

SMOKY YELLOW DENT—The earliest dent Corn today; a good yielder and entirely free from disease. It is the most beautifully colored up corn in cultivation. Sides of grain red, with white cap. Grows strong, quick and has splendid seven to eight foot fodder. Will mature in 75 to 80 days. —Price—**Qt., 20c. Pk., \$1.00. Bu., \$3.00.**

Maryland Yellow Dent Corn.

Improved Yellow Leaming.

Golden Beauty (Yellow).

GRIFFITH & TURNERS CO.'S CHESTNUT YELLOW CORN

WHITE FIELD CORN

G. & T. CO.'S IMPROVED MARYLAND WHITE DENT CORN.—After years of careful selection we have secured this improved White Field Corn; grows good-sized ears and makes splendid meal. Produces better crops on average land than most any other variety. **Qt., 20c. Pk., 75c. Bu., \$2.50.**

BOONE COUNTY WHITE.—We believe this to be the best all around White Corn in existence. It is a heavy yielder; has large ears, deep grain, small cob and produces good-sized fodder, free from barren stalks. Matures in 110 to 115 days. **Prices: Qt., 20c. Pk., 75c. Bu., \$2.50.**

HICKORY KING WHITE CORN.—Produces very large broad, flat, white dent grains, which are closely placed on a very slender cob. **Qt., 20c. Pk., 75c. Bu., \$2.50.**

90-DAY CORN (White with Red Cob).—This is an elegant corn for truckers and market gardeners, as it is as good a seller as green corn. Is suitable for either early or late crop. **Qt., 20c. Pk., 75c. Bu., \$2.50.**

WHITE ENSILAGE CORN.—Specially adapted for ensilage. **Bushel, \$3.25.**

POPCORN POPPERS.—25c. each.

Maryland White Dent Corn.

JOHNSON COUNTY WHITE CORN.

A favorite white corn in the Western Corn Belt. Ears are a little longer than the Boone Co. White, but about the same diameter. Good, deep grain on small, white cobs, and not quite so indented as the Boone Co. It will shell from six to seven bushels per barrel.

We recommend it as a fine general main crop sort. Will mature in about 120 days. Has abundant foliage, which makes it also valuable for ensilage purposes.

Quart, 20c. Peck, \$1.00. Bushel, \$3.25. 10-bushel lots and over, \$3.00.

SEED OATS

IMPROVED WHITE TARTAR.

The most remarkable Oats now under cultivation. Our customers say they will sow no others. These grand Oats outyield all others. The very best for all-round purposes. Greatest yielding variety in existence and rust-proof. Succeeds well on all soils. Straw is of golden yellow color, while the grains are white, with a slight golden cast. Withstands stormy weather. A measured bushel weighs from 36 to 42 lbs. Would highly recommend these Oats to all our customers. Change your seed this season. **Bushel of 32 lbs. Write for price.**

WHITE SEED OATS

For spring sowing. 32 pounds to the bushel. Extra heavy fancy White Oats. Ask for prices.

WINTER TURF OATS

Perfectly hardy in the Southern and Middle States, standing the winter nearly as well as wheat. Yields, on good land, from 50 to 70 bushels to the acre, of fine, heavy grain weighing from 30 to 40 pounds to the measured bushel. Furnishes excellent fall, winter and early spring grazing, without injury to the grain crop. Write for prices first of August.

SEED WHEAT AND RYE

We can offer choice stocks of Seed Wheat and Rye, re-cleaned and at reasonable prices. Write us August 1 for special prices for fall sowing.

SEED BUCKWHEAT

JAPANESE.—The best sort. The plants are large and vigorous, maturing their seed early and resisting drought and blight remarkably well, while the grain is much larger and at the same time has a thinner hull than the common or the Silver Hull. Owing to its branching character, only one-half the seed is required per acre, while the straw is much stiffer and stands up better. We recommend this especially for well-drained or sandy land and the dry climate of the Western plains. **Peck, 75c.**

SILVER HULL.—Same price as above.

BARLEY

BEARDLESS FALL BARLEY.—A fall variety without beards. Ask for prices.

BEARDED FALL BARLEY.—A heavy yielder, much better than spring sown. Sow in September for best results. Ask for prices.

WRITE FOR PRICES OF FIELD SEEDS IN QUANTITY.

HIGH-GRADE GRASS SEEDS

TIMOTHY.

RED TOP GRASS.

TIMOTHY (Phleum pratense.)

This makes one of the most popular, nutritious and salable of hay grasses. It is best adapted for sowing on clay or heavy loams, low lands or in mountainous districts, although it will do well on any good stiff loamy soils, provided moisture is abundant. It does not succeed nearly as well, however, as Orchard. Tall Meadow Oat or Herd's Grass on soils of a sandy or light loamy texture, and is not of as much value for pasturage as other grasses. The stand of Timothy will also be injured if grazed or cut too closely. The yield of hay on good ground is from one and a half to three tons per acre. The best clover to sow with timothy is either the Sapling or Alsike, as they mature and ripen with timothy. **Pound, 15c. Peck, \$1.00. Bushel of 45 lbs., \$3.90.**

RED TOP, OR HERD'S GRASS (Agrostis vulgaris).

This grass makes excellent pasturage and good crop of fine quality hay, and succeeds on a greater variety of soils than any other grass in general use, giving very good results on light soils and the very best results on heavier, moist or low ground soils.

It is rather late in starting in the spring and matures its crop at the same time as Timothy. Is excellently adapted for seeding with Timothy for hay, and furnishes excellent pasturage afterwards. When it gets well established it will gradually supplant other grasses. The grades of seed usually sold are:

CHAFF RED TOP.—Seed in chaff. Sow 4 to 6 bushels to the acre, 10 lbs. to bushel. **Price, 50c. bushel.**

UNHULLED RED TOP.—Seed in hull, but free of chaff and impurities. Sow 2 to 3 bushels to the acre; 14 lbs. to the bushel. **Price, 1b., 15c.; bus., \$1.75; 100 lbs., 12c. lb.**

FANCY CLEANED RED TOP.—Hulled seed, free from all impurities. We would advise our customers to sow the Extra Cleaned Unhulled or Fancy Cleaned seed.

Fancy Cleaned Red Top.—Sow 12 to 15 lbs. to the acre. **Price, 30c. lb. \$25.00 per 100 lbs. Bushel of 32 lbs., \$8.00**

RHODE ISLAND BENT GRASS (Agrotis canina).—A very fine variety for lawns. **Lb., 60c.**

SHEEP FESCUE (Festuca ovina).—It is a densely tufted perennial grass for dry, sandy and rocky soil where scarcely any other species will grow. It roots deeply, and forms a dense, short tuft, suitable for lawns and pleasure grounds where the soil is sandy. It affords wholesome food for all cattle, especially sheep. Specially recommended for pasturage mixtures. Sow about 30 pounds per acre. **Lb., 50c. Bushel of 12 lbs., \$6.00.**

ITALIAN RYE GRASS.—Is an annual, and should be sown every year at the rate of 50 pounds per acre. It can be sown during August, September or October. It should be mown as early as the blossoms appear, or the hay will not be so good, and it can be cut every month from early spring if the soil and weather are suitable. **Bus., 20 Lbs. Lb., 20c. 10 Lbs., \$1.50. Per 100 lbs., \$11.00.**

ENGLISH RYE GRASS (Lolium perenne).—This makes a quick growth very early in the spring, and is adapted for cool, moist locations. 24 lbs. to the bushel; 60 lbs. to the acre. **Lb., 20c. Bushel, \$3.00.**

CRESTED DOG'S TAIL (Cynosurus cristatus).—Should enter in moderate quantity in permanent pasture mixtures, and in larger quantities for lawns, as it possesses in a marked degree all the desirable features of a good lawn grass. 21 lbs. to bushel. **Lb., 60c. 10 lbs., \$5.00.**

WOOD MEADOW (Poa nemoralis).—An early nutritive grass; thrives better under trees than other grasses. Is also an excellent pasture grass. **Lb., —. 14 lbs. to bushel.**

SWEET VERNAL (Anthoxanthum odoratum).—True perennial; emits an agreeable odor, which it imparts to the hay. **Lb., —.**

KENTUCKY BLUE GRASS.—It is rather sensitive to heat, but not so to cold weather, and on this account does its best in the fall, winter and spring. It grows slowly at first, forms a very compact turf, making a fine pasturage when once established. It is much the best, however, to combine other grasses with it for either lawn or pasturage. Sow in the spring or fall. **Fancy, triple-cleaned. Per lb., 50c. Bus. of 14 lbs., \$7.00.**

ORCHARD GRASS (Dactylis glomerata).—One of the best and most reliable grasses for the Middle and Southern States, either for hay or pasturage. It succeeds well on nearly all soils, but does best on upland, loamy or moderately stiff soils. It starts early in the spring and continues well into winter. It is of quick growth and relished by stock, especially when young, and bears close grazing. It makes excellent hay, and gives the very best results mixed and grown with Tall Meadow Oat Grass and Red Clover, as suggested under the head of Tall Meadow Oat Grass. It should be cut when in blossom, as the hay is injured if the seed is allowed to ripen. It can be sown in the spring or fall either with grain or alone. Sow 3 bushels per acre if sown alone, or with Red Clover, one and one-half bushels of Orchard and seven pounds of Clover are the quantities usually sown. **Price, 30c. lb. Bus. of 14 lbs., \$3.50.**

TALL MEADOW OAT GRASS (Avena elatior).—Most valuable for pastures on account of its early and luxuriant growth; it produces an abundant supply of foliage, which is relished by cattle, early and late. For hay it may be cut twice a year, and for green soiling it may be cut four or five times in favorable seasons. It is very hardy and withstands extreme drought and heat and cold. Height, 2 to 4 feet. 50 pounds to the acre. (10 pounds to bushel.) **Lb., 50c. 100 lbs., —.**

CREeping BENT GRASS (Agrotis stolonifera).—Excellent for lawns; succeeds well in all conditions; makes a low, velvety growth. **Lb., 60c. Bus. (20 lbs.), —.**

MEADOW FOXTAIL (Alopecurus pratensis).—Closely resembles Timothy in growth, but has a soft, feathery head. It is a valuable pasture grass by reason of its rapid growth. About 7 pounds to the bushel; 3 bushels to the acre. **Lb., 75c. Bushel, —.**

MEADOW FESCUE, RANDALL, or ENGLISH BLUE GRASS (Festuca pratensis).—This should be very much more largely used than at present. It makes a very good hay and pasturage grass, and is particularly valuable for fall and winter pasturage, as it remains green throughout the winter. It is very popular in Southwest Virginia, East Tennessee and the Mountainous districts of North Carolina, where it is very highly appreciated as a large-yielding, nutritious pasturage and hay grass. It succeeds well in nearly all sections of the South, and should be very largely used in pasturage and hay mixtures, being specially suitable for sowing with Red Top and Timothy for hay, or with these and Orchard and Tall Meadow Oat for permanent pasturage. Sow either in the spring or fall at the rate of 50 pounds to the acre. Thrives better under trees than other grasses. 22 lbs. to bus. **Lb., 35c. 100 lbs., —.**

AWNLESS BROME GRASS (Bromus inermis).—Comparatively a new grass in this country, but in Hungary (Europe), its principal home, it is the chief meadow grass of the sandy moorlands. It grows coarse, resembling Orchard Grass; prefers light, dry soil. It roots deeply, and stands protracted droughts well, and will thrive upon soils too poor and dry to grow anything else but broom sedge; hence is valuable for such situations, both for grazing and hay, and especially in mixtures with other grasses. It has, however, been talked up very much in the agricultural press, especially in the West, and is worthy of extended trial. Sow at the rate of from 35 to 40 pounds per acre when sown by itself, either in the spring or fall. **Lb., —. Bushel of 14 lbs., —.**

KENTUCKY BLUE GRASS.

ORCHARD GRASS.

Grass Mixture for Hay and Permanent pastures

Prepared especially to meet the demand for a mixture that will be desirable for cutting for Hay or to use for Pasture, and contains such grasses as are best adapted for these purposes. In ordering, please state whether you want a mixture for upland or low ground.

MIXTURE FOR UPLAND.—14 lbs. to the bushel, 3 bushels to the acre. Per bushel, \$4.00; 10 bushels for \$37.50.
MIXTURE FOR LOWLAND.—14 lbs. to the bushel, 3 bushels to the acre. Per bushel, \$4.50; 10 bushels for \$42.50.

Grass and Clover Seed Mixtures, for Moving the Hay, But Can Be Grazed

We have in the following mixtures combined grasses suitable for the various soils for which they are recommended. They are composed of grasses which will give an even growth for mowing for hay. We have also combined them so as to give a splendid pasture from early spring until late fall if desired. The different mixtures are prepared from seeds of the finest quality, and only those are used best adapted to the soils and situation for which they are intended.

MIXTURE No. 1.—For Moist Bottom Lands. Sow 25 lbs. to the acre. Price, Lb., 30c. 10 lbs. and over, 28c. per lb.
MIXTURE No. 2.—For Light, Dry, Gravelly or Sandy Soils. Sow 35 lbs. to the acre. Price, Lb., 30c. 10 lbs. and over, 28c. per pound.

CLOVERS

ALSIKE CLOVER. CRIMSON CLOVER. WHITE CLOVER. RED CLOVER. LUCERNE OR ALFALFA CLOVER.

RECLEARED RED CLOVER.—We take great pains to supply an extra quality of Red Clover at a reasonable price. Farmers should not sow a poor quality of Clover Seed. We have however, cheaper grades for those who wish them. 30c. lb.

ALSIKE OR SWEDISH CLOVER.—Hardest of all the Clovers, and on rich, moist soils yields an enormous quantity of hay or pasturage. Valuable for sowing with other Clovers or grasses, as it forms a thick bottom and increases the yield of hay. Sow, either fall or spring, 6 pounds per acre when used alone. Lb., 30c.

WHITE DUTCH CLOVER.—Thrives most everywhere. The best to sow with lawn grass and valuable to sow with blue grass for permanent pastures. $\frac{1}{4}$ lb., 15c. $\frac{1}{2}$ lb., 25c. 1 lb., 50c. By mail, lb., 55c. 10 lbs., by express, not prepaid, \$5.50.

LUCERNE OR ALFALFA CLOVER.—One of the most valuable among Clovers, resisting drought and remaining green when other sorts are dried up. Sow on rich, moist loam or sandy soil. Prepare the land thoroughly and sow, either fall or spring, 20 pounds to the acre. Lb., 30c.

Special prices in large quantities on application.
CRIMSON CLOVER (The Great Nitrogen Gatherer).—The best crop for hay, silage and green manuring—all winter and spring pasturage. For hay it must be cut before it comes into full bloom, as otherwise it may cause hair-balls to form in the animal's stomach. It is used on poor and rich land. It is seeded in this country in June, July, August, September and October, and will produce an enormous crop early in the following spring, suitable either for consumption as green food or for hay. 15 to 20 pounds should be sown to the acre, according to the quality of the ground. 15c. per lb. Write for prices in quantity.

WRITE FOR SPECIAL PRICES ON ABOVE.

ALL PRICES IN CATALOG SUBJECT TO CHANGE WITHOUT NOTICE.

LAWN GRASS SEED

THE LAWN

PREPARATION AND CARE OF LAWNS

THE ground should be thoroughly drained and well enriched before sowing. Work the soil until well pulverized, and have the surface as smooth as possible, so that the grass may present an even appearance. After sowing, cover seed lightly and follow with roller. The best results are obtained by using plenty of seed, four bushels to the acre being about the right quantity. One quart is sufficient for 300 square feet. Let the grass obtain a good start before cutting, and then it should be trimmed with a lawn-mower about every ten days. Old lawns may be improved and renewed by the application of fertilizers and seeding about half the quantity of seed required for new lawns. This should be done whenever they show any thin places.

GRIFFITH & TURNER CO.'S EVERGREEN LAWN GRASS

This is a first-class mixture prepared by ourselves, and containing nothing but choice seeds—just the thing for tennis, croquet and ball grounds, remaining green and fresh during the hot summer months. Widely known and extensively used on the finest private and public grounds around Baltimore, Washington and elsewhere with the most satisfactory results. Nothing adds to the attractiveness of suburban homes more than a well-kept, closely-cut, velvety lawn; hence the importance of securing the best seeds. This we offer to the attractiveness of suburban homes more than a well-kept, closely-cut, velvety lawn; hence the importance of securing the best seeds. This we offer

in our selected Evergreen Lawn Mixture, containing different varieties that grow and flourish at different months of the year, so that a rich, green, velvety lawn is constantly maintained. It is adapted to the small grass plots of city homes. Pint, 20c. Quart, 30c.; by mail, 35c. ½-Peck, 90c. Peck, \$1.75. Bushel of 20 pounds, \$7.00. By freight or express not prepaid.

PARK LAWN GRASS

This mixture does not contain so much of the high-priced grasses as our Evergreen Lawn Grass, but it is superior to many of the cheap grades offered, and will make a very nice lawn. Quart, 30c. Peck, \$1.50. Bushel of 16 Pounds, \$6.00.

GRIFFITH & TURNER CO.'S GOLF LINK MIXTURE

There being a growing demand for a grass mixture suitable for golf and cricket grounds, we have made a study of the grasses best adapted to these purposes, and have been mixed in proper proportions to give desired results. Many of the public and private grounds around Baltimore and other places have been sown with our mixtures, and the grounds have won the admiration of thousands of visitors. It is highly essential that golf and cricket grounds should be mowed closer than ordinary lawns. 14 pounds to bushel. Bushel, \$7.00. 10-Bushel Lots, \$6.50 Bushel.

SHADY NOOK GRASS

On nearly all lawns there are bare spots under the shade of trees. With this mixture the above can easily be corrected. It is a combination of grasses which are found growing in the woods in their natural state. Ground that has been densely shaded by trees is frequently "sour" and is apt to be covered with moss. In such cases apply slacked lime at the rate of one bushel per thousand square feet, but the moss should be first removed with a rake. Price: Lb., 35c. 5 lbs., \$1.75. Bushel of 20 lbs., \$7.00. Add 8c. for postage

"TERRACE" SOD MIXTURE

A special mixture of grasses best suited for sowing on terraces, railroad embankments and side hills—grasses that produce strong, spreading roots, thus preventing heavy rains from washing them out; that will withstand drought and exposure, thrive on shallow soils, and at the same time produce a rich, velvety green turf throughout the season. Qt., 60c. Peck, \$2.40. Bushel of 20 lbs., \$10.00.

WHITE DUTCH CLOVER TRIFOLIUM REPENS

The best variety for lawns, as it forms a close herbage and remains green throughout the season. It is also valuable when mixed with grass seeds for pasture. Sow in spring at the rate of 6 pounds per acre when sown alone; half the quantity when sown with other grasses. Pound, 50c. By mail, 55c. 10 pounds, by express, not prepaid, \$5.50.

FORAGE AND SILO SEEDS

SHOULD BE SOWN IN THIS LATITUDE, NOT BEFORE MAY 15th, AS THE SEED WILL NOT STAND COOL, WET WEATHER.

COW PEAS

COW PEAS

The great soil enricher. Makes poor land rich and good land better. They also make good green forage for ensilage, and the best quality of Hay when cut and cured.

The sowing of **COW PEAS** is one of the cheapest as well as the best means of improving the soil. They can be turned down for green manuring, or, if allowed to ripen, cut Peas off and cure for hay; turn down roots, which will give as good results as when whole plant is used. For ensilage they are unsurpassed, being more nutritious than green corn, but when used for this purpose, would advise sowing Sugar Cane or Sorghum in connection with them. The two combined will make one of the very richest feeds. Ask for prices.

BLACK—This is the standard variety, and the one most largely grown in this immediate section. It is very prolific, makes a fine growth, both of vine and leaves, and a good yield of peas. It is a splendid land improver, and most valuable as a forage crop, and makes an enormous yield of rich, nutritious feed.

WHIPPORWILL—A favorite, early, upright-growing variety, more largely used and sold than any other kind. Has brown speckled seed, which are easily gathered. Makes a good growth of vine, which can be easily cut and cured as dry forage. We recommend this where an early variety of good growth and height is desired.

WONDERFUL, OR UNKNOWN—This makes an enormous and remarkable growth of vines, but requires the full growing season to make its crop. In yield and growth of vines it surpasses any of the varieties of Cow Peas, and it produces very largely of the shelled peas. This variety should be planted in May in order to come to full maturity.

NEW ERA—An early maturing variety which has proved very popular and satisfactory. It is upright growing, quick to mature, and remarkably prolific of peas. Rather small vine, which cures easily, making splendid dry forage. The seed are smaller in size than the ordinary cow pea, so that it does not require as many to seed an acre; from three-fourths to one bushel per acre will give ample seeding. **PRICES ON APPLICATION.**

SORGHUM, OR SUGAR CANE, FOR FODDER

EARLY AMBER grows 10 to 12 feet high, and yields large crops of fodder, which is relished by all kinds of stock. It will produce two cuttings during the summer. Sow 3 or 4 quarts per acre in drills and cultivate same as corn. For hay, sow one bushel per acre broadcast. **Pound, 16c. Peck, ———.**

EARLY ORANGE has a large, strong growth, but requires longer time to mature than the Early Amber. Very popular in the South, where there are the long seasons. **Prices same as Early Amber.**

SOJA BEANS

The great drought-resisting forage crop; unsurpassed in nutritive value for feeding; also makes a splendid soil improver. Sow broadcast one-half bushel to the acre, or it may be planted in drills three feet apart and one foot between plants. Price on application.

MAMMOTH YELLOW SOJAS

The largest-growing and most popular of soja beans for forage purposes. A little later in maturity than other kinds, but makes larger yields, both of forage and seed. Especially valuable for the South.

HOLLYBROOK EARLY SOJAS

Makes a quicker growth and matures their crop two to three weeks earlier than the mammoth Yellow Soja. It makes a large yield, both of forage and peas, and the added advantage of its earliness makes it a most distinct and valuable acquisition. It is a sure cropper and a vigorous, quick-growing variety. Sown as a forage or hay crop, it is much easier to cure and handle, and makes even a more nutritious crop than cow-peas.

WILSON BLACK SOJAS

One of the best, in our opinion, for the Northern States, where a quick early variety is desired. Average height on good land is 2½ to 3 feet. A prolific variety, and requires about 90 days to be ready to cut for hay.

KAFFIR CORN

The heads contain small white seeds, which make an excellent flour. They are greedily eaten by horses and cattle, and make fine feed for poultry, either fed in the grain or ground and cooked. Use 4 to 5 lbs. to acre.

EARLY AMBER CANE

SOJA BEANS

GENUINE KAFFIR CORN

ASK FOR QUOTATIONS ON ABOVE.

GERMAN MILLET.

GERMAN MILLET

GERMAN MILLET.—A fine, quick-growing summer Hay crop. Produces splendid crops of fine nutritious hay. Grows quickly and easily cured. Should be sown thick, not less than one bushel per acre. Cut while in flower. Do not wait until seed becomes hard in head. If allowed to get too ripe stalks get hard and do not make as good quality of hay as when cut at proper time. It should be sown any time after middle of May up to first of August. Should not be sown too early, as seed will not germinate until soil and weather is warm. A crop will mature in seven to eight weeks in ordinary warm growing weather. Price, **Lb., 10c. Peck, —.** Ask for price by the bushel.

HUNGARIAN MILLET

HUNGARIAN MILLET is of the same family as German Millet, but is not used as extensively, as it requires stronger soil. However, it makes a very fine quality of hay, and like German Millet is fairly good substitute for Timothy. Hungarian Millet can be sown at the same time as German. Price, **Lb., 10c. Peck, —.** Ask for price by bushel.

CANADA FIELD PEAS

Sown in February, March or April, with a small quantity of oats, they make large yield of forage. Sow 1 to 1½ bushels per acre broadcast with half bushel of oats. Cut for hay before the peas mature.

Write for Special prices if a quantity is required.

BROOM CORN

50 Pounds to Bushel.

To grow Broom Corn successfully the ground should be rich and well prepared. Plant seeds in rows 3 feet apart by 18 inches. The plants should be cultivated as soon as they are out of the ground. Harvesting should be done when the seed is in a soft, milky condition.

IMPROVED EVERGREEN.—This is the favorite sort; has a fine brush, yields well and keeps green. Height, 8 to 9 feet. **Lb., 25c., postpaid. 10 lbs. @ 20c. lb.**

RUSSIAN SUNFLOWER

Growing to double the size of the common sunflower and the yield of seed is twice as great. It is highly recommended for poultry—the best egg-producing food known. **Lb., 15c.**

DWARF ESSEX RAPE

It can be sown all through the season; being perfectly hardy, withstands the drought, and well produce a crop in any soil by sowing broadcast at the rate of 5 lbs. to the acre, or 2 to 3 lbs. in drills. It is unequaled as a pasture for sheep, and as a fattening food for all kinds of live stock it is without a rival. **Lb., 15c.; by express, 10 lbs. and over, 12c. lb., not prepaid; \$12.00 per 100 lbs.** If wanted by mail, add 8 cents for postage.

VETCHES.

VETCHES OR TARES

SPRING VETCHES (*vicia sativa*).—Closely associated with peas in character. Highly valuable for soiling or for green manuring. Sometimes grown with oats for mowing and feeding to stock. Use 40 to 60 lbs. to the acre. Sow in spring while ground is cool and moist, or in early autumn. **Pound, 11c. Peck of 15 Pounds, —.**

WINTER VETCHES (*Vicia villosa*).—Also called Sand Vetch or Hairy Vetch. Recommended for fall sowing with rye, as in many localities in the North it is hardy, remaining green all winter. A valuable food for stock in early spring. Use 30 to 50 lbs. per acre. **Pound, 15c.**

TEOSINTE

A most valuable and enormous-yielding cutting forage crop, but should be planted very early to succeed well. Good to use as green food, and also makes an excellent fodder. It branches as many as 50 stalks from one seed. Plant in May or June in rows 4 to 5 feet apart each way. **Oz., 10c. ¼ lb., 35c. Lb., \$1.25, postpaid.**

FLAXSEED.—**Lb., 15c. 3 lbs., 40c.**

PRICES SUBJECT TO CHANGE. ASK FOR QUOTATIONS ON QUANTITIES.

FLOWER SEEDS

ORDER BY NUMBERS

GENERAL DIRECTIONS FOR CULTIVATION.

Hardy Flower Seeds should be sown in the open, after danger of frost is past, in well-worked and moist soil. Seeds of medium size, put at depth of one-quarter to one-half inch. Very fine seeds, press into the soil, and cover slightly with a little sand or sphagnum moss. If seed is not deep, water frequently. When up, transplant from two to twelve inches apart, according to variety of plants. Do not leave too thick, as the plants will be weak and spindling. Keep weeds out of the flower beds. Annuals may be planted in early spring, and bloom the first season only. Biennials bloom the second year from seed and then die. Perennials bloom the second year from seed, and plants live to bloom during successive years.

Varities marked ("A") stand for Annuals. Marked ("B") Biennials. Marked ("P") Perennials.

33. SEMPLE'S BRANCHING ASTER, MIXED (A).—A choice strain of American-grown Asters, which has, by careful selection, been brought to a high degree of excellence.

Packet, 10 cents.

34. BRANCHING ASTER (A) (White).—Very choice. Packet, 10 cents.

35. BACHELOR'S BUTTON, or BLUE BOTTLE (A) (Centaurea Cyanus).—A very old favorite garden annual, with handsome flowers of various colors. It does best if sown in a hot-bed; half-hardy annuals; two feet. Packet, 5 cents.

40. DOUBLE BALSAMS, CAMELIA FLOWERED (A) (Lady Slipper, or Forget-Me-Not).—The well-known Balsams are one of the finest summer blooming annuals, free bloomers and highly colored. By transplanting them once or twice, the flowers are apt to be more double. Packet, 5 cents.

41. BALSAM, PERFECTION WHITE (A).—This resembles the mixed Balsams in shape, but the flowers are of a pure white, and is the variety usually grown by florists. Packet, 10 cents.

45. CANDYTUFF, MIXED (A).—Well-known favorite, hardy annuals; very pretty in beds or masses; useful for bouquets. Seeds may be sown in the fall for early flowering.

Packet, 5 cents.

46. CANDYTUFF, WHITE (A).—Treated and used same as the mixed. Packet, 5 cents.

53. CALENDULA, DOUBLE (A).—Very profuse dwarf bushy annuals, blooming continuously and profusely until frost; of easy culture, and suitable for summer garden or for growing in pots in winter. Packet, 5 cents.

55. CANNA, MIXED (Extra Choice) (A).—The Cannas are desirable not only for the beauty of their spikes of scarlet flowers, but for their highly ornamental leaves. They make superb beds for the lawn. Soak the seeds thoroughly before planting, and keep in a warm spot. Very slow to germinate. Packet, 5 cents.

60. CANTERBURY BELLS, SINGLE MIXED (Campanula) (A).—A highly attractive class of plants, combining richness of color with stately growth; valuable for beds and borders. Sow early and transplant in light, rich soil. Packet, 5 cents.

61. CANTERBURY BELLS, DOUBLE MIXED (P). Packet 5 cents

ASTERS

Sow seed in March and April in cold-frame or boxes in the house, covering them ¼ inch deep, and when plants have three or four leaves transplant about 18 inches apart each way into well-prepared beds

25. ASTERS, CHOICE (A).—Choice mixed varieties. Well-known and beautiful flowers; should be in every garden. Packet, 5 cents.

27. ASTER, TRUFFAUT'S PERFECTION (A).—A very favorite class; thrifty, upright growers; flowers large, almost perfectly round, with incurved petals. Packet, 10 cents.

30. VICTORIA ASTER (A).—The most beautiful of all Asters, bearing flowers of all colors and shades; the colors include many extremely delicate and gorgeous shades. Very double and four inches across; height, 15 to 18 inches. Packet, 10 cents.

31. COMET ASTER (A).—This class of Asters has long, slender and curled petals, forming loose yet dense flowers of semi-globe shape, 3½ to 4½ inches in diameter, which resemble the Japanese Chrysanthemum. Packet, 10 cents.

68. CENTAUREA CANDIDISSIMA.—Silver white; leaves broadly cut. Packet, 5 cents.

70. CHRYSANTHEMUMS, SINGLE, MIXED (A).—Showy and effective garden favorites extensively grown for cut flowers. The hardy annuals are summer flowering border plants; good for pot culture and quite distinct from the autumn flowering varieties. Packet, 5 cents.

71. CHRYSANTHEMUMS FRUTESCENS (A).—(The Marguerite, or Paris Daisy).—Immense quantities are grown by French florists, and find a ready sale. It produces freely its white, star-like flowers under the most favorable conditions. Packet, 10 cents.

76. CINERARIA HYBRIDA (P).—Large flowering prize varieties; very attractive, free blooming plants, producing large and brilliant flowers. Packet, 25 cents.

77. CINERARIA HYBRIDA DWARF (P).—Large flowered, dwarf prize varieties; splendid strain. Packet, 25 cents.

1. AGERATUM, MIXED (A).—Suitable for beds, and especially nice for cut flowers and bouquets. Packet, 5c.

10. ALYSSUM (A).—The Sweet Alyssum has pretty little white flowers, useful in making small bouquets, and its fragrance, while sufficiently pronounced, is very delicate. The Alyssum grows freely from seed, blooms the whole season. Packet, 5c.

11. ALYSSUM (A) (Tom Thumb).—Of dwarf, compact habit, each plant covering a circle from 15 to 30 inches. It will bloom when small and remain covered with bloom from spring to autumn. Packet, 5c.

20. AMARANTHUS, MIXED (A).—Showy blooming plants, with long racemes of curious looking flowers and brilliant foliage; half hardy annuals. Packet, 5 cents.

21. AMARANTHUS, TRI-COLOR (Joseph's Coat) (A).—Red, Yellow and Green foliage; 2 feet. Packet, 5c.

22. AMARANTHUS CAUDATUS (Love Lies Bleeding) (A).—Graceful and handsome flowers of blood-red hue. Packet, 5 cents.

24. ANTIRRHINUM, DOUBLE MIXED (P).—One of the most useful and showy border plants. The recently improved varieties have large, finely shaped flowers of brilliant colors. Perennial. Packet, 5 cents.

FLOWER SEEDS THAT GROW

60. CLARKIA, MIXED (A).—An old favorite hardy annual plant, growing in any garden soil and producing freely its cheerful flowers early in the season; 1½ feet. Packet, 5c.

85. COCKSCOMBS (Celosia Cristata) (A).—Very popular annuals of the easiest culture, highly ornamental for decoration of the greenhouse, drawing-room and garden. Half-hardy annual. Packet, 5c.

86. COCKSCOMBS, GLASGOW PRIZE (A).—Immense, showy, dark crimson combs. Pkt., 10c.

88. COWSLIP (P).—Beautiful hardy spring flowers of different colors. Packet, 10c.

90. CONVULVULUS, TRI-COLOR MINOR (Dwarf Morning Glory) (A).—A beautiful class of hardy annuals, affording a large, showy mass of flowers from July to October. Packet, 5c.

93. COREOPSIS (Calliopsis) (P).—Very handsome and showy plants, with numerous flowers of brilliant colors, and of long duration in bloom. Packet, 5c.

93a. COREOPSIS LANCEOLATA (P).—IMPROVED (California Sunbeams).—This is one of the finest of hardy plants, with large, showy, bright golden-yellow flowers, freely produced on long stalks, from June till frost; excellent for cutting; will thrive in almost any situation. Pkt., 5c.

COSMOS

COSMOS. One of the very finest late summer and fall flowers; excellent cut flowers. The bushes grow tall, six to eight feet, and are loaded with large showy blossoms, in white, pink or crimson. Cosmos should be in every garden. Sow the seed early and transplant, or later in spring where it is to remain. Hardy annual.

94. Early Flowering Dawn (A).—White, slightly tinted with pink. Packet, 10c.

95. COSMOS, Mixed (A).—Pkt., 5c. Oz., 25c.

95a. COSMOS, Pink (A).—Pkt., 5c.

95b. COSMOS, White (A).—Pkt., 5 cents.

95c. COSMOS, Crimson (A).—Packet, 5c.

95d. NEW MARGUERITE COSMOS (A).—One of the prettiest and daintiest varieties imaginable. Packet, 10c.

97. DAISY, MIXED (P).—Well-known favorites, admirably adapted for edgings, borders and low beds, and it is also suited for growing in pots. Although they are perennials, they will flower the same season if seed is sown early in the house. Packet, 10c.

98. DAISY, LONGFELLOW (P).—This is a very pretty, large, double pink variety. Pkt., 10c.

99. DAISY, SNOWBALL (P).—An unusually large-flowered variety, and produces very double, pure white flowers. Packet, 10c.

100. DAHLIA, SINGLE MIXED (A).—Large, showy single flowers. Packet, 5c.

100a. DAHLIA, CACTUS (A).—A most curious and desirable variety of many colors. Pkt., 5c.

103. FEVERFEW (GOLDEN FEATHER) (Pyrethrum Aureum) (F).—A highly ornamental golden-yellow foliage plant, unexcelled for bedding. Hardy perennial; 1½ feet. Packet, 5c.

105. FORGET-ME-NOTS (Myosotis) (P).—Neat and beautiful little plants, with star-like flowers, succeeding best in a shady, moist situation; half-hardy perennials; blooming the first year from seed, if sown early. Packet, 5c.

106. FOXGLOVE (DIGITALIS) (P).—A handsome and highly ornamental, hardy perennial plant of stately growth; fine for shrubberies and other half-hardy places. Packet, 5c.

107. GERANIUM (New Zonale) (A).—A grand strain of Geraniums, containing all shades of colors. Packet, 10c.

108. GODETIA—Finest Mixed (A).—Fine, protuse blooming, hardy annuals. Packet, 5c.

109. GAILLARDIA (A).—Very attractive plants, producing a profusion of bloom the entire summer and autumn. Half-hardy annuals. Packet, 5c.

110. GILIA MIXED (A).—Very pretty dwarf plants, early, free blooming, fine for massing and rock work. Hardy annuals. Packet, 5c.

112. HELIOTROPE (A).—These are deliciously fragrant flowers, remaining in bloom a long time; fine for pot culture or bedding; half-hardy annuals. Pkt., 5c.

130. MARVEL OF PERU, or FOUR O'CLOCK (Mirabilis Jalapa) (A).—Very pretty annual of vigorous growth. The flowers are brilliant, singularly mixed and varied on the same plant. Two feet. Packet, 5c.

131. MATTHIOLA BICORNIS (A).—Flowers dull purplish-lilac, but well worth growing for the charming fragrance which it emits during the evening. Packet, 5c.

133. MESEMBRYANTHEMUM CHRYSALINUM (Ice Plant) (A).—Dwarf spreading plants of great beauty, blooming the entire summer, succeeding best in dry, sandy or loamy soil, and in a warm locality. Half-hardy annuals. Pkt., 5c.

134. MIMULUS—The beautiful Monkey Flower. Packet, 5c.

MIGNONETTE.—The delightful fragrance of the Mignonette makes it a universal favorite. Sow seed in the fall for early blossoms in the spring. Valuable for potting, bedding or for border.

135. MIGNONETTE—SWEET (Reseda Odorata)—A well-known and universal garden favorite, and one that requires no extra instructions for growing. Hardy annuals. Pkt., 5c. Oz., 20c.

115. HOLLYHOCK, CHATERS SUPERB MIXED (P).—This is one of the oldest inhabitants of our gardens; now ranks as one of the finest autumn flowers. Pkt., 5c.

116. HOLLYHOCK, CHATERS DOUBLE WHITE (P).—Packet, 10c.

120.—LARKSPUR (Delphinium) (A).—One of the most showy and useful plants, possessing almost every requisite for adornment of the garden. Packet, 5c.

121. LARKSPUR EMPEROR (P).—Of symmetrical bushy habit, with a profusion of brilliant dark-blue, red-striped and tri-colored flowers. Packet, 5c.

LOBELIA

A beautiful and popular flower, very desirable for pot culture, beds or hanging baskets because of its trailing habits. Grows easily and does well in beds and rockeries. Bears a profusion of blue and white flowers.

122. MIXED VARIETIES (A).—Pkt., 5c.

123. CRYSTAL PALACE COMPACTA (A).—Rich deep blue. The finest for bedding. Packet, 10c.

125. MARIGOLD, DOUBLE AFRICAN (A).—A well-known free-flowering plant, of easy culture, with rich and beautiful double various-colored flowers. Pkt., 5c.

126. MARIGOLD, DOUBLE FRENCH (A).—Of compact habit, with numerous bright, showy flowers. Very fine. Packet, 5c.

136. MIGNONETTE—PYRAMIDAL—Large flowered. The largest flowered of all Mignonettes. Annual.

Packet, 5c.

137. MACHET—True dwarf-growing variety; enormous spikes of beautiful, deep reddish crimson flowers; height 1 foot. Packet, 10c.

138. MIGNONETTE VICTORIA (A).—A splendid new, compact-growing variety of dense pyramidal, growing about six inches high. The flowers are of a brilliant red, and are suitable for pot or garden. Packet, 10c.

139. ALLEN'S DEFIANCE (A).—When grown under favorable conditions, and with proper care, spikes will not only be of remarkable size—from 12 to 15 inches long—but deliciously fragrant; much more so than any other variety. Packet, 10c.

140. GOLDEN MACHET MIGNONETTE (A).—Distinct new variety of the well-known Machet of the same compact and robust habit, but differing from the type by its massive spikes of golden-yellow blossoms. Packet, 5c.

CHOICE FLOWER SEEDS

NASTURTIIUM

142. **DWARF MIXED.**—The dwarf variety of Nasturtium is among the most useful and beautiful of annuals for bedding, massing, etc., owing to their compact growth, richness of color and profusion of bloom; mixed colors. **Packet 5c. Oz., 15c.**

143. **DWARF NASTURTIIUM—AURORA.**—Blush white and salmon, blotched with garnet. **Packet, 5c. Oz., 15c.**

144. **DWARF NASTURTIIUM—BEAUTY.**—Bright scarlet, striped with yellow. **Packet, 5c. Oz., 20c.**

145. **DWARF NASTURTIIUM (Empress of India).**—Very dark foliage, with deep crimson flowers. **Packet, 5c. Oz., 20c.**

146. **DWARF NASTURTIIUM (Golden King).**—Brilliant yellow. **Packet, 5c. Oz., 20c.**

147. **DWARF NASTURTIIUM (King of Tom Thumb).**—Brilliant yellow flowers, blotched with maroon. **Packet, 5c. Oz., 20c.**

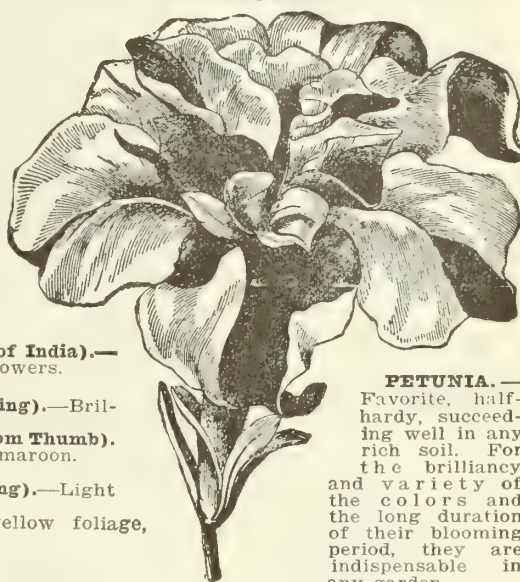

148. **DWARF NASTURTIIUM (Ruby King).**—Light ruby red. **Packet, 5c. Oz., 20c.**

149. **DWARF NASTURTIIUM (Cloth of Gold).**—Golden yellow foliage, light scarlet flowers. **Packet, 5c. Oz., 20c.**

150. **KING THEODORE—DWARF.**—Black-brown foliage. **Packet, 5c. Oz., 20c.**

NASTURTIIUM.

PETUNIAS.

PETUNIA.—Favorite, half-hardy, succeeding well in any rich soil. For the brilliancy and variety of the colors and the long duration of their blooming period, they are indispensable in any garden.

PHLOX DRUMMONDII

175. **PHLOX DRUMMONDII (A).**—A most brilliant and beautiful hardy annual, about one foot high, well adapted for bedding, making a dazzling show through the whole season. It succeeds well on almost any soil. **Pkt., 5c.**

176. **PHLOX DRUMMONDII—(Nana Compacta) (A).**—Very fine mixed. This new strain is of dwarf, compact habit, and makes desirable pot plants; also excellent for ribbon lines and massing. **Packet, 10 cents.**

180. **PINK CARNATION, or PICOTEE. (Choicest Double Mixed Dianthus Caryophyllus).**—Carnation and Picotee Pinks are generally favorites for their delicious fragrance, richness of colors and profuse bloom. Perennial. **Packet, 10 cents.**

181. **PINK CARNATION (Riviera Market, or Gillaud).**—This is the only variety that will produce flowers the first season. They will thrive either in open ground or pots. **Packet, 25c.**

182. **PINK CARNATION (Marguerite) (P).**—Will produce flowers in a few weeks from seed. Profuse bloomers, producing very double flowers of all shades of red, pink, white and variegated. Will bloom all summer until frost, or indoors in winter in pots. **Packet, 10 c.**

185. **PINK—CHINA (Dianthus Chinensis) (P).**—Free bloomers, and a general favorite for bouquets; also a useful bedding plant. **Packet, 5c.**

195. **PORTULACA (Mexican Rose) (A).**—One of the finest hardy annual plants, of easy culture, thriving best in rather rich, light loam or sandy soil; the single-flowering varieties are large and brilliant, of the richest shades of color, and produced throughout the summer in great profusion; fine for massing in beds or edgings of rock work. **Packet, 5c.**

196. **DOUBLE PORTULACA (A).**—**Packet, 10c.**

165. **FINE MIXED.**—Good mixture of small free-blooming colors. **Packet, 5c.**

167. **DOUBLE PETUNIA.**—About 30 per cent. will produce double flowers. **Packet, 25c.**

168. **PETUNIA—Double-Fringed Mixed.**—The flowers of this sort being double, together with being fringed, are very beautiful. **Packet, 25c.**

200. **POPPY-CARNATION (Papaver) (A).**—A showy and easily cultivated hardy annual, with large brilliant colored flowers, growing freely in any garden soil. **Packet, 5c.**

201. **POPPY—PEONY FLOWERED (A).**—A magnificent species, large, showy, double globule flowers, resembling Peonies in shape. **Packet, 5c.**

202. **SHIRLEY POPPY (A).**—These beautiful Poppies are generally single or semi-double. The colors, extending from one extreme to the other, are so varied that scarcely two are alike, while many are striped and blotched. The blooms, if cut when young, will stand for two or three days. **Packet, 5c.**

203. **TULIP POPPY (A).**—A magnificent species. The plants attain a height of 14 to 16 inches, and produce from about 50 to 60 flowers of the brightest scarlet. **Packet, 5c.**

204. **ICELAND POPPIES, MIXED (A).**—Although hardy perennials, these Poppies bloom the first season from spring-sown seed. **Packet, 5c.**

212. **RICINUS, CAMBOGIENSIS (A).**—Ornamental plants of stately growth and picturesque foliage; fine for lawns, massing or center plants for ribbon beds; half-hardy annuals. **Pkt., 5c.**

212½. **RICINUS ZANZIBARIENSIS, MIXED (A).**—Their immense leaves and gigantic plants exceed all other varieties. **Packet, 5c.**

213. **SCABIOSA—GRANDIFLORA (P).**—A wonderful improvement over the old variety; bears beautifully formed flowers 3 inches

OXALIS

153. Pretty little half-trailing annuals for hanging baskets. Mixed annual sorts. **Packet, 10c.**

PANSIES--Annuals

Thrive best in a moist, shady location, and in rich, loamy soil. Seed should be sown in the autumn for early spring blossoms, or can be sown early in the year for good flowers late in the spring. The plants must be transplanted twice in order to get the largest flowers; once from the seed box to a chosen bed, and again to the open garden.

155. **HEARTSEASE**—Mixed. An old but universally admired plant, producing an endless variety of color. They may be treated as annuals. **Packet, 5c.**

156. **GIANT TRIMARDEAU**—Remarkable for the extra large size of the flower and an endless variety of beautiful shades. **Packet, 10c.**

157. **G. & T. CO.'S EXTRA MIXED**—This mixture, containing the finest blotched varieties, is grown and selected with special care, and has given the most satisfactory results to both florists and amateurs in the past. **Packet, 15c.**

HIGH-GRADE FLOWER SEEDS

215. SCARLET SAGE (*Salvia Splendens*) (A)—Tall, erect, green foliage. A favorite greenhouse and bedding plant, bearing long spikes of flowers in great profusion from July to October; half-hardy perennial, blooming the first year from seed. Three feet. **Packet, 5c.**

220. SENSITIVE PLANT (*Mimosa*)—Curious and interesting plants, with pinkish-white flowers; the leaves close in and droop when touched or shaken; tender annual. **Packet, 5c.**

230. TEN WEEKS STOCKS (*Gilliflower*)—A world-wide favorite, brilliant and varied in color, equally well-adapted for massing, bedding, edging or pot culture. Very profuse bloomers. Should be grown in rich soil. **Packet, 5c.**

231. STOCKS—SNOWFLAKE IMPROVED—A beautiful dwarf-growing variety; very large, double, snow-white flowers. Our seed of this variety is grown by a specialist, and will produce a large percentage of double flowers. **Pkt., 10c.**

237. SWEET ROCKET (*Hesperis*) (A)—Very pleasing, early spring flowering, profuse blooming plants, with fragrant flowers, growing freely in any light, rich soil. **Packet, 5c.**

240. SWEET WILLIAM (*Dianthus Barbatus*) (P)—A well-known free flowering, popular favorite; the great improvements upon the old varieties made within the last few years have rendered it still more desirable. Hardy perennials. **Packet, 5c.**

243. SWEET VIOLET (A)—Deservedly much in demand, because of their profusion of bloom and delicate, sweet odor. **Packet, 10c.**

245. MAMMOTH VERBENA (A)—One of the most popular and useful bedding plants. Verbenas delight in sunny situation, rich soil and thorough cultivation. **Packet, 5 cents.**

250. VINCA ROSA (A)—Rose with dark eye. **Packet, 5 cents.**

251. VINCA ALBA (A)—White, with crimson eye. **Packet, 5 cents.**

255. WALLFLOWER, DOUBLE (A)—Well known, deliciously fragrant plants, with large spikes of double flowers, similar to the Gilliflower. Succeed in light, rich soil, in a moist atmosphere. Perennials. **Packet, 10 cents.**

258. ZINNIA ELEGANS (Youth and Old Age (A)—This is one of the most brilliant of annuals, and has long been a general favorite. The flowers are large, finely formed in great variety of colors, and continue to bloom the entire season. Half-hardy annuals. **Packet, 5 cents.**

Salvia Splendens.

259. ZINNIAS CURLED AND CRESTED (A)—New, odd and superb. Petals twisted, curled and crested into fantastic contortions and graceful forms. A magnificent variety of colors. **Packet, 5 cents.**

260. ZINNIA—DOUBLE POMPON (A)—Long, coneshaped flowers, very fine. **Packet, 5 cents.**

ZINNIA—CRIMSON—Packet, 10 cents.

ZINNIA—WHITE—Packet, 10 cents.

GENERAL LIST OF CLIMBERS

270. BALSAM APPLE (*Momordica*) (A)—Very curious trailing vines, with ornamental foliage; fruit golden yellow; when ripe, opens, showing the seeds and its brilliant carmine interior. **Packet, 5c.**

272. BALLOON VINE (*Love in a Puff*) (A)—A rapid growing plant; succeeds best in light soil and warm situation; flowers white; half-hardy annual. **Packet, 5c.**

275. CANARY BIRD FLOWER (*Peregrinum*) (A)—With yellow, canary-like flowers; very ornamental and beautiful foliage; half-hardy. **Packet, 5c.**

276. COBEA SCANDENS (P)—A beautiful, rapid-growing climber, with handsome foliage and large bell-shaped flowers; blue; half-hardy perennial; grows 20 to 30 feet high. **Packet, 10c.**

278. CYPRESS VINE, RED (*Ipomea Quamoclit*) (A)—One of our most popular vines, with very delicate fern-like foliage, and masses of beautiful, small, star-shaped flowers. Sow last of May; 15 feet. **Packet, 5c.**

279. CYPRESS VINE, WHITE (A)—Usually grown with the red, making a handsome effect. **Packet, 5c.**

282. MAURANDIA (*Barclayana*) (A)—These charming climbers cannot be too highly praised for their beautiful flowers and foliage. They are admirably adapted for hanging baskets, vases or trellis work. **Packet, 5c.**

285. MIXED GOURD (*Cucurbita*) (A)—Packet, 5c.

286. NEST EGG GOURD (A)—White fruit, shaped like an egg. Used as a substitute for nest eggs. **Packet, 5c.**

287. DISHCLOTH GOURD—Many women prefer a dishcloth made of this Gourd to anything else, as it is always sweet and clean as long as any part of it is left. **Packet, 5c.**

288. DIPPER GOURD (A)—Makes an excellent dipper. **Packet, 5c.**

290. MOCK ORANGE (P)—Fruit shaped like an orange. **Packet, 5c.**

291. CALABASH OR PIPE GOURD—Odd-shaped fruit, which is used to an advantage in making pipes. **Packet, 5c.**

295. HEAVENLY BLUE IPOMEA (A)—The flowers are in large, airy clusters, and of that lovely hue so rarely seen. Flowers four to five inches across. **Packet, 5c.**

300. MORNING GLORY (*Convolvulus Major*)—One of the most free-flowering and rapidly-growing plant in cultivation, thriving in almost any situation. The beauty and delicacy of their brilliant flowers are unsurpassed; hardy annuals. **Packet, 5c.**

302. GIANT JAPANESE MORNING GLORY—Packet, 10c.

305. MOON FLOWER (*Ipomoea Noctiflora*)—Charming and popular blooming climbers; of rapid growth and showy effects; warm, rich soil, with a sunny exposure, suits them. **Packet, 5c.**

320. SCARLET RUNNERS—Very handsome climbing Beans, with bright scarlet flowers. **Packet, 5c.**

326. SMILAX—Charming climber for greenhouses or window gardens. **Packet, 5c.**

GOURDS

SWEET PEAS

GRANDIFLORA

SWEET PEAS should be sown in drills latter part of November for fall planting, or as early as possible in spring, in rich, friable soil. Prepare the bed thoroughly, working in a quantity of well-rotted manure, if it can be done, making a furrow four to six inches deep. In this sow the seed and cover two inches deep. As soon as the plants begin to show through, fill in the furrow. This will secure a deep planting without the bad effect of deep covering of the seed at first, and so enable the plant to bloom continuously through the heat of summer. As fast as the flowers come into full bloom or fade they should be cut off, for if the pods are allowed to form the plants will stop blooming.

377. G. & T. CO.'S EXTRA FINE MIXED—Consists of the very choicest varieties mixed in the newest colors and shades. Packet, 5c. Oz., 10c. ¼ Lb., 25c. ½ Lb., 50c. 1 Lb., 90c. Postage, 6c. per lb. extra.

379. SUPERB SPENCER MIXTURE—This mixture contains practically all the true Spencer varieties. Per oz., 15c.; ¼ Lb., 50c.; 1 Lb., \$1.50.

355. BLANCHE BURPEE—Pure white.

356. JANET SCOTT—Grand deep rich pink.

360. COUNTESS OF RADNOR—Light mauve standard; lavender wings.

373. DOROTHY ECKFORD—White; large bell-shaped flowers.

369. KING EDWARD VII—Bright red or crimson scarlet.

Price: Per pkt., 5c.; oz., 10c.; ¼ lb., 25c.; ½ lb., 50c.; 1 lb., \$1.00. Postage, 6c. per lb. extra.

BULBS FOR SPRING PLANTING GLADIOLI

GLADIOLI are the most attractive and useful for cut flowers of all summer-flowering bulbs. Use any good soil, hoe and loosen it to keep down the weeds, and with ordinary rainfalls they will flower by July 1. Plant at 10-day intervals for succession of blooms from July to October. In cutting Gladioli for the house, it is best to cut the spikes as soon as the first one or two lower flowers are open. The remainder will open in the house.

AMERICA—This is one of the finest Gladioli ever produced, and ranks as the best sort for cutting, as well as all-around purposes. The color is a very beautiful soft pink, the coloring and texture resembling those of the Orchid. Each, 6c.; dozen, 60c.; 100, \$5.00.

AUGUSTA—A lovely and useful variety, pure white with blue anthers. 6c. each; 60c. per dozen; \$5.00 per 100.

GLADIOLI

CHICAGO WHITE—White, lavender marking in throat. Each 6c. Dozen, 60c. Per 100, \$5.00.

HALLEY—Predominating color, delicate salmon pink, with slight roseate tinge, though the lower petals bear a creamy blotch with a stripe of bright red through the centre, the whole producing a wonderful effect. Each, 6c. Dozen, 50c. Per 100, \$5.00.

MRS. FRANCIS KING—Long strong stalks, bearing flowers of vermilion-scarlet color. Very effective for cutting. Each, 6c. Dozen, 60c. Per 100, \$5.00.

MIXED (All Colors).—Dozen, 50c.; \$4.00 per 100. If wanted by mail, add 10c. per dozen for postage.

CALADIUMS

ELEPHANT EAR.

The Caladium Esculentum is one of the handsomest of the ornamental-leaved plants. It will grow in any good garden soil. Plant where it will obtain plenty of water and an abundance of rich compost. Roots planted in the spring will make good growth in the summer, and in the fall store in a cellar.

FIRST SIZE BULBS (7 and 9 inches)—Each, 8c.; dozen, 90c.

LARGE BULBS (9 and 11 inches)—Each, 15c.; dozen, \$1.50.

EXTRA LARGE BULBS (11 inches and upwards)—Each, 20c.; dozen, 12.00.

If by mail, add single bulbs, 5c. Dozen, 15c.

TUBEROSES

One of the most fragrant and popular of the summer flowering bulbs. May be started early in hotbeds or pots, or planted in open ground after the first day of May.

EXCELSIOR PEARL—Double white; dwarf. Each, 5c.; dozen, 50c. Per 100, \$4.00.

If by mail, add dozen, 10c.

MADEIRA VINE ROOTS

Each.....10c. Dozen.....\$1.00
(By Mail, add 3c. each.)

STRAWBERRY PLANTS

Directions for Culture

Strawberries require well-tilled soil; the plants should be set 15 inches apart, in rows 2 feet wide. Firm the plants well in the soil and keep thoroughly cultivated.

In early winter when the ground is frozen, cover the whole with long straw, which should be removed from the plant in the spring, but allowed to remain on the ground as a mulch, to keep the berries clean next summer. When strawberries are moved in the fall, they should be left until October or the first of November.

EARLY OZARK—Early.
KLONDYKE—Medium Early.
SENATOR DUNLAP—Medium Early.

GLEN MARY—Mid-season.
TENNESSEE PROLIFIC—Mid-season.
GANDY—Late.
WM. BELT—Late.

\$1.75 per 100, postpaid.

PROGRESSIVE—EVERBEARING—\$3.50 per 100, postpaid.

VEGETABLE PLANTS

SWEET POTATO—75c. per 100; \$3.00 per 500; \$6.00 per 1000. By express, not prepaid. Add 10c. per 100 if by mail.

TOMATO—Ready April 1. Seed-bed plants of Bonnie Best, Earliana, Chalk's Jewel, Dwarf Champion, Ponderosa and Main Crop Varieties at 75c. per 100; \$2.50 per 500; \$5.00 per 1000. Main crop varieties, Field Grown, ready May 25. 50c. per 100; \$2.00 per 500; \$4.00 per 1000. By express, not prepaid. Add 10c. per 100 if by mail.

FROST-PROOF CABBAGE PLANTS

WILL MATURE HEADS TWO TO THREE WEEKS EARLIER THAN YOUR HOME-GROWN PLANTS.

VARIETIES:

Early Jersey Wakefield, Charleston Wakefield, Succession and Early Flat Dutch

These plants are grown in the open field during the fall and winter months, which causes them to make a slow, tough, hardy growth—so hardy that the outer leaves turn to a reddish brown. They can be shipped to distant points without danger of spoiling, and should be planted in the open ground from four to five weeks earlier than frame plants.

They will stand a temperature of 10 to 15 degrees above zero without injury. Will do very much better planted early, as they will take root and start to grow as soon as warm weather sets in.

Orders filled from January 1 until April 1. We do not advise planting later than this time.

Prices by Parcel Post, postage paid. In lots of 100, 200, 300, or 400 plants at 50c. per 100 plants; 500 plants for \$1.75; 1,000 or more at \$3.25 per 1,000 plants.

Orders are filled by the 100, not 250 or 350. These prices are for even quantities of one variety to package; if you ordered 200 of one variety and 300 of another variety you would pay at the 100 rate.

Prices by Express, buyer paying express charges. In lots of 1,000 to 4,000 plants at \$2.25 per 1,000; 5,000 or more at \$2.00 per 1,000. Plants packed for express shipment, 1,000 or 2,000 plants of a variety to package, they weigh about 25 pounds per thousand plants, packed for shipment. For the past two years the Express service has been congested, and the deliveries slow and unsatisfactory. We therefore advise Parcel Post shipments.

TERMS, CASH WITH ORDER, PLEASE. No Plants Shipped C. O. D.

ALL PRICES SUBJECT TO CHANGE WITHOUT NOTICE.

CANNAS

SELECT BEDDING VARIETIES

SUBJECT TO OUTTURN OF CROP.
 FROM 3-IN. POTS. READY ABOUT APRIL 15th.

NURSERY DEPARTMENT

Before planting fruit trees, the soil (excepting new ground) should be made mellow by repeated plowing. When trees are received the root should be covered with a blanket, sack or straw until they reach their destination; the bundle should then be opened, and the trees separated from the moss in which they are packed; if the roots have become dry, from too long exposure, straw should be spread on the ground, the trees laid upon it, then covered entirely, roots and tops, with straw, and the whole well watered. In this condition they should remain for forty-eight hours, when they will be found as fresh as when first found in the nursery. Where only a few trees are to be planted, and the soil has not been sub-soiled, or where trees are to be planted in sod, then the holes ought to be at least four feet wide and eighteen to twenty inches deep, the sub-soil thrown back, and the holes filled up to a proper depth to receive the tree with fine top soil.

PRICES ON NURSERY STOCK ON APPLICATION.

SUMMER APPLES.

YELLOW TRANSPARENT—Early and prolific; clear white skin, changing to yellow. July.

BENONI—Very early, skin dark rich red; flesh white; juicy, slightly tart.

AUTUMN APPLES.

GRAVENSTEIN—Orange-yellow, overlaid with broken striped of light and dark red. Flesh yellowish. One of the finest fall apples. Fruit produced freely. September to October.

SUMMER RAMBO—One of the best. Smooth skin, streaked dull yellowish; red, rich, spicy; sub-acid flavor. October to January.

SMOKEHOUSE—Large fruited, striped red on yellow ground; sub-acid; productive and good for culinary purposes. September to October.

WINTER APPLES.

BLACK BEN DAVIS—Red all over. Medium to large. Flesh white. Tree strong growing and very productive. Fruit will keep until late in season.

STAYMAN'S WINESAP—Superior to old Winesap; large, bright red, very productive, adapting itself to different soils. Good marketing variety.

STARK'S DELICIOUS—Brilliant dark red, shading to yellow at blossom end. Flesh white and tender. Large size.

GRIMES GOLDEN—Yellow sub-acid; spicy and rich fruit. January to March.

JONATHAN—Small, with yellow skin, almost covered red; fine flavor; popular everywhere. November to April.

YORK IMPERIAL—Medium size, skin greenish-yellow, nearly covered with bright red; tender flesh, crisp and juicy; good bearer and keeper. February to April.

ROME BEAUTY—Large, yellow, striped and mixed with light red; flesh yellow, breaking coarse-grained, sub-acid; valuable for market on account of its productiveness, size and beauty, as well as for certain bearing. November to January. Can always be depended on for a full crop.

CRAB-APPLES.

HYSLOP—Fruit large for its class; produced in clusters; dark rich red, covered with thick blue bloom; good for culinary purposes and for cider.

TRANSCENDENT—Golden yellow, with beautiful rich crimson cheek; flesh creamy yellow; crisp, sub-acid, pleasant and agreeable. Tree a rapid grower and productive. September.

PEARS.

BARTLETT (Summer)—Yellow, with soft blush, fine-grained, sweet and juicy; good bearer. July and August.

KOONCE (Summer)—Handsome fruit, good bearer, frost-proof and free from blight.

KIEFFER—Standard winter variety. Large and juicy.

SECKEL (Autumn)—Rich quality, hardy and productive. September to October.

PEACHES.

CARMAN—Large and round with pale yellow skin, red blush on sunny side; white flesh, superior flavor. Middle of July.

ELBERTA—An exceedingly large high-colored Peach. A cross between Crawford's and Chinese Cling. Juicy, well flavored. Said to be finest yellow freestone in existence. Ripens early in August.

CRAWFORD EARLY—A magnificent large yellow Peach, of good quality. Popular and productive; flesh very juicy, rich, slightly sub-acid, of good flavor; freestone; valuable for market. First of August.

CRAWFORD LATE—A superb fruit of large size; skin yellow, with broad dark red cheek; flesh deep yellow, but red at stone, juicy and melting, with very rich and excellent vinous flavor. One of the best yellow and admirable market fruit; freestone. August 15th.

SMOCK—Rather large yellow, with red cheek; flesh yellow, red at stone; very productive; not of high excellence but valuable as a market variety. Most extensively grown in Delaware and Maryland. Middle to last of September.

CHERRIES (Sweet).

BLACK TARTARIAN—Fruit large size, sweet and productive. June.

GOV. WOOD—Fruit large, yellow-shaded red; juicy and sweet. June.

NAPOLEON—One of the best, well-flavored; pale yellow turning amber in the shade; richly dotted with deep red, and with fine marbled dark crimson cheek; flesh firm and juicy. June.

CHERRIES (Sour).

MORELLO—Above medium size, skin dark red, becoming nearly black; flesh juicy, sub-acid, rich. July.

MONTMORANCY—Large red acid Cherry; very prolific and hardy.

RICHMOND—Medium size, red, flesh melting, juicy and at maturity a rich acid flavor. Very productive and fine for cooking. Commences ripening about last of May, and hangs long on tree.

PLUMS.

ABUNDANCE—Lemon-yellow ground, nearly overspread with Cherry, with heavy bloom; flesh yellow and very juicy; sub-acid, with Apricot flavor; highly perfumed, stone small; tree hardy; bears regularly; early heavy bearer. August 1st.

LOMBARD—Medium size, skin delicate violet, dotted thick red; flesh deep yellow, juicy and pleasant. One of the hardiest and most productive. Succeeds well anywhere.

SHROPSHIRE DAMSON—An improvement on the common Damson, being largest of its class; dark purple; highly esteemed for preserving; enormously productive. September.

QUINCES.

ORANGE (Apple Quince)—Bright pale orange; surface only moderately fuzzy. Fruit variable in size and shape, but in ideal of original form; is distinctly flattened at both ends, like an apple. Ripens after mid-autumn, and keeps until February under good conditions.

CHAMPION—Greenish-yellow; large fruit, flesh tender, delicate flavor; good keeper. Late.

GRAPES.

CONCORD—Vigorous growing vine and enormously productive. Comparatively free from disease; bunches large, compact; berries, large round black, with a blue bloom. Profitable market sort.

MOORES (Early)—Bunch medium; berry large black, with blue bloom. Extremely hardy; for market.

NIAGARA—Large bunch, of greenish white berry, turning to light yellow; thin skin, but tough. Is tender and sweet. Ripens with Concord.

RASPBERRIES.

GREGG—Large firm fruit, sweet and rich; strong grower and ripens late. Black and juicy.

KANSAS BLACK CAP—Firm and of fine quality; strong and hardy. Second-early.

MILLER RED—Bright red, does not fade; fruit ripens early and has very small core. Heavy bearer; best shipper.

BLACKBERRIES.

ELDORADO—Berries very large; jet black, sweet melting, no hard core. Splendid keeper and shipper.

LUCRETIA—This is a trailing blackberry or dewberry; a good grower and productive. Fruit large and of good flavor.

GOOSEBERRIES.

DOWNING—Seedling of Houghton. Upright vigorous growing plant. Fruit larger than its parent; color whitish green; flesh rather soft, juicy and very good; productive; valuable for market.

HOUGHTON—Small fruit, but juicy and sweet. Valuable for market.

CURRANTS.

FAY'S PROLIFIC—Strong grower, wonderfully productive, and comes to bearing young; fruit large, bright red and good quality.

BOOKS ON HORTICULTURE, AGRICULTURE AND KINDRED SUBJECTS

"FARMERS' CYCLOPEDIA OF LIVE STOCK."

A compendium of the science, economics and practice of stock raising, dairying and poultry farming, comprising the origin, anatomy, physiology, breeding, feeding, diseases, management, marketing and slaughtering of farm stock and the utilization of animal products. Many superb illustrations. A very valuable reference book. By Earley Vernon Wilcox, Ph. D., Clarence Beaman Smith, M. S. Color plates and illustrations. Cloth, handsome and durable, gold stamping.....\$5.50

AGRICULTURE AND FARMING.

- FARMERS' CYCLOPEDIA OF AGRICULTURE. By Messrs. Wilcox and Smith, Experiment Station Editors in U. S. Dept. of Agriculture. 6000 topics. 700 pages. 500 illustrations. Cloth bound.....4.50
- THE BOOK OF ALFALFA. F. D. Coburn. This is by far the most authoritative, complete and valuable work on this forage crop ever published.....3.00
- ALFALFA. By F. D. Coburn. Its growth, use and feeding value......90
- BOOK OF WHEAT (new.) By P. T. Dondlinger. A complete study of everything pertaining to wheat. New, authoritative and up to date.....2.00

Farming opportunities, the marketing of produce, the raising of vegetables, fruit and poultry, dairy products, and all phases of agriculture are discussed by an expert. It is the most helpful book on farming ever published. The book is packed with new, practical money-making ideas. 314 pages. Cloth.....1.25

CARBOLA

Saves Time and Labor
Gives Better Results

CARBOLA is a white paint in powder form combined with a disinfectant many times stronger than pure carbolic acid. It is non-poisonous and non-caustic. It kills lice, mites, fly eggs, etc., and helps prevent the start and spread of contagious diseases that affect man, beast and fowl. **CARBOLA** is two things in one—a paint that disinfects or a disinfectant that paints. It dries a clear snow white. It saves labor, time and money. It paints and disinfects at one operation in the same time and with the same labor required to paint or disinfect only.

CARBOLA is recommended for use instead of whitewash in every place where whitewash ordinarily is used.

Garages	Warehouses	Outbuildings
Factories	Cellars	Tree Trunks

It is recommended for use instead of whitewash and disinfectants in

Stables	Rabbit Hutches	Hog Pens
Kennels	Barns	Dairy Buildings
Poultry Houses	Creameries	

It is recommended for use as a disinfectant.

BLACKMAN'S SALT BRICKS

Easiest and best way to give medicine to stock. It salts them too.

Blackman's Medicated Salt Brick, originated by a noted Veterinary Surgeon, insures stock getting the needed medicine without trouble or loss of time to their owners. When dropped in the feed-box, the brick is licked by the animal as needed, just as people use salt with their meals. Contains Copper as for Worms, Sulphur for the Blood, Saltpetre for the Kidneys, Nux Vomica, a Tonic, and Pure Dairy Salt. It is a wonderful improvement over the old plan. **Why not try it?**
DOZEN.....\$3.00

RAX SCIENTIFIC RAT AND MICE DESTROYER

Rax is a bacteriological preparation, containing Pure Cultures of an active Virus, which has a **deadly effect on Mice, Rats and Field Mice**, but is **harmless to all other animals**.

Thus Rax is **not a poison** and may be used without the precaution necessary in handling other rat exterminators.

Rats and Mice having eaten the bait prepared with Rax **become gradually sick and die** within ten to fourteen days. While infected they **communicate the Virus** to other rats and mice coming in contact with them or their haunts. They **never die inside the buildings**, as they become very feverish and seek the open to get fresh air and water.

Rax has no equal as a destroyer of Rats and Mice. Directions with every package. Price, 75c. By Parcel Post, 85c.

RAT-SNAP! NO DANGER IN HANDLING—BUT DO NOT EAT A FEW POINTERS ABOUT RAT SNAP.

By a new scientific discovery there is **NO SMELL** after rats and mice eat **Rat-Snap**. By the most careful study of the habits and tastes of rats and mice, **Rat-Snap** is so prepared that rats and mice crave it. It is a dessert for them—the last they eat. They leave all other foods for it, while in the cases of home prepared mixtures they will not touch them at all.

Rat-Snap may be dropped in holes or along cellar walls—in fact, all out-of-the-way places. In linen closets without soiling anything.

Keep away from chickens and stock. When used around chickens, ducks, etc., place in holes and cover with a stone.

PACKAGES.....15c. and 25c.

INOCULATE YOUR ALFALFA, CLOVERS, COW PEAS, SOY BEANS, VETCHES, AND ALL OTHER LEGUME CROPS WITH

Mulford Cultures

FOR LEGUMES

SMALL COST

LARGE RETURNS

EASY TO USE

NO LABOR EXPENSE

Uninoculated ALFALFA Inoculated.
Photographed on same scale. Plant on left
not inoculated—Plant on right inoculated
with **Mulford Culture for Alfalfa**. All
other conditions identical.

The Contrast Speaks for Itself

MULFORD CULTURES contain pure, tested strains of active, vigorous nitrogen fixing bacteria, for inoculating seeds of legumes or soil. Enormous numbers of these very valuable and desirable bacteria are thus available to you in every package of Mulford Culture and may readily be applied to your seed. The sealed bottle insures purity.

INCREASE YOUR CROPS IMPROVE YOUR SOIL

LEGUMES OFFER THE BEST-KNOWN MEANS of maintaining soil fertility and and rejuvenating overcropped and worn-out fields. They add both humus and nitrogen to your soil and thus increase your yield of wheat, cotton, corn and other non-legume crops.

THE U. S. DEPARTMENT OF AGRICULTURE and many State Agricultural Experiment Stations recommend inoculation of legumes with nitrogen-fixing bacteria to induce a prompt "catch" and increase your yield.

MULFORD CULTURES ARE SCIENTIFICALLY PREPARED and tested by experts, in the biological laboratories of H. K. Mulford Co., Philadelphia, U. S. A., with the same degree of care as Mulford Antitoxins, Serums, Vaccines, etc., which are standard all over the world.

Always specify on your order what crop you want to inoculate, as there is a different strain of bacteria for each legume.

Why buy expensive commercial nitrates when you can grow legume crops and thus increase your yield and at the same time increase the nitrates and enrich and renovate your soil, by Nature's own method?

FREE DESCRIPTIVE LITERATURE SENT UPON REQUEST.

FARMOGERM

HIGH-BRED NITROGEN-GATHERING BACTERIA

**GIVES NITRATES TO PLANTS,
INCREASES THE GROWTH,
AND ENRICHES THE SOIL**

Grow legumes to build up worn-out lands. These crops add humus and nitrogen and make available for plant food the potash and phosphates that are in the soil. All legumes, when properly inoculated, will greatly benefit other crops growing with them, and further deposit large amounts of nitrogen in the soil for future crops. Use only the pure culture of recognized standards.

FARMOGERM

Will greatly increase your yield and at the same time reduce your Fertilizer bills.

FARMOGERM is prepared for the following legumes: Alfalfa, Crimson, Sweet, White, Red and Alsike Clovers, Cow Peas, Soy Beans, Spring Vetch, Winter Vetch, Canada Field Peas, Sweet Peas, Garden Peas, Lima Beans and Garden Peas.

Per Pound.....25c.

MASTICA

Mastica.—For glazing greenhouses, sashes, new and old. It is elastic, adhesive and easily applied. It is not affected by dampness, heat or cold. "Mastica," when applied, in a few hours forms a skin or film on the entire mass, hermetically sealing the substance and preventing the evaporation of the liquids, and remains in a soft, pliable and elastic condition for years. "Mastica" is of great value in going over old houses with a putty bulb or machine on the outside of sash, as it makes it perfectly tight and saves the expense of relaying the glass.

1-Gallon Cans.....\$2.50

MASTICA GLAZING MACHINE

OUR SPECIAL PRICE.....\$3.00

PERMANITE

For glazing greenhouses new or old, and stopping leaks in gutters, making them permanently tight.

Can be easily applied with Permanite applying machine. This article is used by many of the largest greenhouse construction companies, where the best is demanded.

Leggett's Champion Dry Powder Duster

For farm, garden, vineyard, tobacco fields, etc. Adjustable to any width of row. Many thousands in use. Distributes Paris Green, London Purple, Hellebore, Sulphur, Lime, Dry Bordeaux Mixture, Dry Bordeaux Mixture and Paris Green Compound, Spanish Pink, Pyrethrum Powder, etc.

Dusts potato vines as fast as you walk, two rows at a time. Illustration below shows tubing and nozzles. Anyone can use it. Weighs, cased for shipping, 17 lbs.

This Machine keeps the Polson at a Safe Distance from the Operator.

Our Special Price, \$14.00

CHAMPION NO. 2

\$15.00

LITTLE GIANT POWDER DUSTER

This Duster is somewhat like the Champion Duster, except it is lighter and has a smaller capacity. A fine machine for use on small places. And will do the work well. It is nicely made and very strong. Illustration below shows pipes and nozzle.

OUR SPECIAL PRICE.....\$11.00

LITTLE GIANT POWDER DUSTER, \$11.00

AUTO-SPRAY No. 5

GENERAL PURPOSE HAND PUMP.

Fig. 468 Pat. Pending.

This pump is the idela all-purpose hand sprayer. Its field is practically unlimited, as it may be used for spraying trees, vines, garden truck, potatoes and any field crops. It also can be used for handling whitewash, disinfectants, etc.

It is made entirely of brass, doing away with all danger of corrosion. All of the parts are made on screw machine and for that reason are interchangeable.

The pump is double-acting. This feature makes the spray continuous. Anyone who has used a single acting pump of this kind will immediately recognize the advantage in a pump that works on both the up and down stroke.

The pump cylinder is small in diameter and for that reason the operator can generate a high pressure with little labor. In an actual test this pump generated a pressure of 180 lbs. per square inch with ordinary effort.

The pump itself is so constructed that it can be taken apart.

OUR SPECIAL PRICE.....\$5.00

THE ACME POWDER GUN

Consists of a tight valveless bellows equipped with a distributing tube or nozzle, a funnel, a spreader for diffusing the spray and an elbow for placing the spray on the underside of the leaves. Handles of convenient length and bellows of fine russet leather. A very practical and convenient way of applying Paris Green, Lice Killers, Insect Powder, etc. Parcel post weight 2 pounds. **OUR SPECIAL PRICE, \$1.50.**

Midget Tin House Sprayer

Smiliar to Tin Can Sprayer, only smaller. Holds half pint. Indispensable in every household. Just the thing for disinfecting sick rooms, drains, vaults, kennels, etc. Also rose bushes or any small shrubbery. Will successfully apply non-sedimental liquids. Parcel post weight, 1 pound. **Price, 35 cents.**

Gritco Tin Can Sprayer

For spraying insecticides on plants and flowers, disinfectants in sick rooms, kennels, cellars, drains, vaults, poultry houses, etc.

Tank, 4 inches in diameter, 4 inches deep; air chamber, 1 1/2 inches long, 1 1/4 inches in diameter. Coppered steel plunger rod. Made of heavy tin plate. Each one tested for leaks and sprays. Capacity, one quart. Parcel post weight, 2 pounds.

OUR SPECIAL PRICE.....50c.

AUTO COMPRESSED AIR SPRAYER

A continuous and fine spray with half the pumping required by other atomizers.

Just the thing to use in the greenhouse, window garden, for rose bushes and in the poultry house.

Will handle all solutions, insecticides and disinfectants. Made throughout of stout material. Copper syphon tube, bronze ball valve, plunger rod, 1/4-inch, copper plated steel. The solution does not come in contact with the pump cylinder. The spray may be adjusted by a slight turn of the nozzle cap.

No. 25-B. Tin Pump and Galvanized Reservoir.....1.25
No. 25-C. Tin Pump and Brass Reservoir.....1.50

B. D. SIFTER

Made from heavy tin, bottom and side perforated. Can be adjusted to put on a small or large quantity of dust on potatoes or other vines. Parcel post weight, 2 pounds. **PRICE.....75c.**

DICKEY DUSTER

Parcel post weight, 2 pounds. **Price.....50c.**

LEVER BUCKET SPRAY PUMPS

Fig. 632.

Fig. 632 represents the Myers Lever Bucket Spray Pump, made of brass, and fitted with brass ball valves and patented agitator. The cylinder is 1½ inch in diameter with solid plunger. The air chamber is fifty per cent larger than the ordinary bucket spray pump, has malleable iron foot rest and malleable lever. This pump can be operated with one-half the power of the ordinary bucket spray pump, owing to the advantage of the lever handle. This pump can also be used as a barrel spray pump the head having two holes in for bolting same to the barrel.

We recommend a Bordeaux Spray Nozzle for whitewashing and painting, if you desire the Vermorel Nozzle instead of the Bordeaux, please specify.

Fig. 632, No. R 324 Lever Bucket Spray Pump, with agitator, complete with hose, Bordeaux, coarse spray and solid stream nozzle.

Our Special Price....\$6.50

No. R 324A Lever Bucket Spray Pump, with agitator, complete with hose, Bordeaux, coarse spray and solid stream nozzle and eight foot pipe extension.

Our Special Price....\$7.10

No. R 324B Lever Bucket Spray Pump, with agitator complete with hose, Bordeaux coarse spray and solid stream nozzle and eight foot pipe extension with stopcock.

Our Special Price....\$8.10

LITTLE GIANT BRASS SPRAY PUMP AND FIRE EXTINGUISHER WITH AGITATOR

Fig. 639.

Fig. 639 Spray Pump is constructed entirely of brass. They are so arranged that the labor of pumping is all on the downward stroke of the piston and nothing on the up. The effect of this operation while pumping is to hold the pump down. The foot rest steadies the pump, holding it in proper position. It is provided with a large air chamber and has brass ball valves and detachable hose; the nozzle throws a continuous spray, and is not affected by the movement of the plunger. Will throw a solid stream fifty feet, and is of unusual value in spraying trees, washing windows and buggies, extinguishing fires, spraying flowers and etc.

No. 327½, Fig. 639. Bucket Brass Spray Pump, complete with hose and combination fine, coarse spray and solid stream nozzle.

Our Special Price....\$4.25

No. 328, Fig. 639. Bucket Brass Spray Pump, complete with hose and combination fine, coarse spray and solid stream nozzle, and an eight-foot pipe extension.

Our Special Price....\$4.85

THE MYERS WHITEWASH, GOLD WATER PAINTING MACHINE AND GENERAL PURPOSE SPRAYER No. 329

This General Purpose Sprayer with patent Double Agitator is a most complete and serviceable outfit. The tank is made of heavy galvanized iron with a wide bottom so as to set steady in operation. The cover is removable, is held securely in place by two thumb nuts, one on each side, which holds the cover tight and prevents spilling or splashing of the liquid. Holds 7 gallons.

This is an excellent outfit for whitewashing chicken houses, fences and outbuildings. For spraying trees, shrubbery, plants and in fact anything where a small sprayer can be used. This outfit will be found just the thing.

The pump used in this outfit is the same as the No. 324 Sprayer as shown under Fig. 632, fitted with Bordeaux nozzle, brass ball valves and has jet and dasher agitator.

Complete with Hose, Nozzle, Agitator and Extension Rod.

Our Special Price, \$12.75

THE LEVER KNAPSACK SPRAY PUMP

Fig. 547.—No. 330

Galvanized.

Tank holds 5 gallons, is fitted with lid, and strainer, which can be removed. This Pump has lever, large air chamber, ball valves, solid plunger and agitator. Fitted with 5 feet ½-inch hose, pipe extension and Bordeaux spray nozzle; can be graduated from a fine mist to a solid stream, or shut off entirely.

Our Special Price, \$12.50

The Perfect Knapsack Spray Pump

Fig. 547.—No. 331. Copper.

Is the same as No. 330, except tank is constructed entirely of copper. Complete with hose, stop-cock, pipe extension and Bordeaux nozzle.

Our Special Price.....\$20.00

AUTO SPRAY No. 40B

Capacity, 8 gallons.
Net weight, 33 pounds.
Shipping weight, 45 pounds.

The Auto-Spray No. 40B is especially adapted for spraying whitewash, coldwater paint, as well as for spraying trees, garden vegetables, vines and plants.

Correctly designed on mechanical principles, with every unnecessary part eliminated.

The machine is equipped with 8-foot high-grade spray hose, 8-foot iron extension rod, lever shut-off and latest pattern Vermorel Nozzle.

Auto-Spray No. 40B, with 8-gallon galvanized tank equipped as described above.

OUR SPECIAL PRICE.....\$21.50

AUTO SPRAY No. 40D

The Auto-Spray No. 40D is mounted on a steel truck, with a 20-inch steel wheel with a broad tire, and is especially adapted for garden, lawn and vineyard work.

The tank is made of heavy galvanized steel with a broad, flat bottom, which rests firmly on the ground while in operation.

Plunger Brass 1½ inches in diameter, 3 to 4½-inch stroke as desired. The plunger operating in connection with the air chamber ensures greater reserve capacity than is usually found in this size machine. Plunger style pump. Graphite packing adjustable from the outside by tightening two bolts. Brass ball valves. Suction pipe fitted with brass strainer. Mechanical agitator operated from the handle.

The top casting on tank has broad flange, which prevents the solution from slopping over.

Equipped with 8 ft. ¾ heavy spray hose, 8 ft. iron extension, lever shut-off and latest pattern Vermorel nozzle.

Repair list, with formula for mixing whitewash and cold-water paint, with each machine.

Price, complete with 12-gallon galvanized steel tank, \$30.00

Double-Acting Spray Pump

MOUNTED ON SKIDS

The general construction of this Spray Pump Outfit cannot be too highly commended. This desirable outfit meets the demand for a pump that can be used in a wagon or cart. It cannot upset. One of the most desirable outfits on the market.

Outfit A—Pump, complete, 50-gallon barrel mounted on skids, with pressure gauge; one 15-ft. lead ½-in. discharge hose, 8-ft. pipe extension with lever shut-off, spray nozzle and mechanical agitator.

Price...\$50.00

Outfit B—Pump, complete, 50-gallon barrel mounted on skids, with pressure gauge; two 15-ft. leads of ½-in. discharge hose, 8-ft. pipe extension with lever shut-off, spray nozzle and mechanical agitator.

Price...\$56.00

SPRAYING TANK

We are having our Spray Tanks made of 1½-inch clear cypress, which has proven to be the best material for this purpose. The tanks are gripped with steel rods.

Style No. 2—Weight, 175 lbs.; capacity, 150 gallons; dimensions, 4 feet long, 3 feet wide, 2 feet 6 inches high.

Price, complete, without Agitator, but with Bolsters.

OUR SPECIAL PRICE.....\$32.00

Other sizes quoted on application.

Fig. 1188.
Weight, 41 lbs.

GOULD'S "Fruitall" Spray Pump

All Working Parts Bronze.

The Fruitall Sprayer is first-class in every respect. While the simplicity of its design allows it to be sold at a very reasonable price, and although lighter in weight and smaller in capacity than the "Pomona," we offer it as a thoroughly serviceable sprayer. The sprayer is held in place in the barrel by an adjustable clamp at the top fitting over the end of a stave,

and an anchor at the bottom of the barrel. The plunger is packed from the outside, so it is not necessary to take the entire pump apart to repack.

Plunger, 2 inches diameter; stroke, 4 inches.

GOULD'S POMONA Spray Pump

Plunger—Diameter, 2½ inches; stroke, adjustable to 3, 4, 5 inches; discharge, ½ inch hose.

Outside Packed Plungers. No Leather Packings.

For small orchards of a few acres; a good barrel sprayer that will meet every requirement. The factory has devoted much time to the study of practical barrel sprayers, and it is with the utmost confidence we list the "Pomona" as first in our complete line. **All of the workings part are solid bronze.**

The pump has a steel air chamber, extending from top of pump to valve chamber, making it easy to get up sufficient pressure to continue spraying for some time after pumping has stopped. It is equipped with a long adjustable handle. The pump may be placed in any length barrel, as the barrel plate is adjustable. The agitator is simple, but very effective.

All Working Parts on the Outside. Not Subject to Corrosion. Fig. 1824.

Fitted for 3/4-inch Hose Coupling and 1/4-inch Pipe.

The idea is to enable one man to do the spraying, thus saving the expense of two extra men as is the case with the ordinary spray rig using two lines of hose with bamboo extensions.

By a one-third turn of the handle the spray can be adjusted from a long distance spray reaching the top of the tree to an extremely broad spray sufficient to cover the entire tree or shut off entirely.

It is furnished with four separate spray discs designed to deliver the entire capacity of the pump, either 4, 6, 8 or 10 gallons per minute.

One-third turn of the handle adjusts the spray from a wide open nozzle to a complete shut-off of the mixture.

LIST PRICE, \$10.00. OUR SPECIAL PRICE, \$6.00.

GOULD'S FIELD CROP SPRAYER

USED IN CONNECTION WITH ANY HAND OR POWER SPRAY PUMPS

The best and cheapest crop sprayer on the market. Easily attached to tail-board of a wagon, and when not in use can be folded into small space. It is made to spray four or six rows, any distance apart, up to 44 inches, or cover a space 14 1/2 or 22 feet in width. Connection allows sprayer to be easily raised or lowered; spray to be thrown forward, backward, up or down.

Figure 1322.

Complete with four "Mistry, Jr." Nozzles and coupling for connecting to discharge hose of any barrel or power sprayer.

List Price, \$28.00. Our Special Price, \$17.50.

Same, with 6 "Mistry, Jr." Nozzles.

List Price, \$36.00. Our Special Price, \$22.50.

Connection which clamps to wagon. It is adjustable to any height.

GOULD'S "DREADNAUGHT" DUPLEX SPRAYER

Fig. 1643.—The Goulds "Dreadnaught" Duplex Spray Pump is a high grade, single-acting power spray pump, designed for pressure up to 250 pounds, and is to be direct-connected to an engine shaft without the use of a jack or extra gearing. The gear ratio is 9 to 1.

Gould's New Combination Hand and Power Sprayer

Fig. 1640

Weight, 110 lbs.

Vertical Outside Packed, Bronze Plungers, Bronze Glands, Valves, Etc.
High-Grade Sprayer for Orchard Work. Also for Whitewashing.

Fig. 1640.—Has two bronze plungers operating in two vertical cylinders, which are packed with a material unaffected by spraying solutions. This construction permits all gritty particles to pass through valves and out; does not grind the cylinder. Ports are large and direct. Valves are bronze, ground to fit their bronze seats, are accessible through hand-holes. This is the easiest operated Pump of its capacity on the market. Diameter of Cylinder, 2 inches; Suction Hose, 3/4 in.; Discharge Hose, 1/2 in.

GOULD'S "STURDY"

THE "STURDY"
Fig. 1631

1631—With Flexible Coupling.

Duplex Power SPRAYER with Worm Gear for Direct Connection to Engine Shaft.

The Gould's new "Sturdy" is a high-grade, two-cylinder, single-acting power spray pump, provided with a worm gear so it can be coupled directly to the engine shaft. No jack or extra gearing is necessary.

The gear ratio is 8 1/4 to 1, and the pump is, therefore, suitable for direct connection to engines with speeds of 400 to 600 revolutions per minute. At 50 revolutions per minute the pump has a capacity of 3.40 gallons per minute; at 60 revolutions, 4 gallons; and at 75 revolutions, 5 gallons per minute. It is good for pressures up to 250 lbs.

The plungers are heavy drawn brass tubing, outside packed. They are 2 inches in diameter, with a stroke of 2 1/2 inches. The connecting rods are malleable iron. The shaft is steel, and a steel ball thrust bearing is provided to take up the end thrust. The valves and bevel seats are cast

bronze. The suction is for 1-inch pipe or hose and the discharges are for 3/4 or 1/2-inch hose.

All gears are completely enclosed, thus reducing danger of breakage and preventing wear from foreign particles. A special flexible coupling is furnished with the pump for connection to the engine. This allows the pump to be operated even when it is not in perfect alignment with the engine shaft. The cylinders and valve boxes are cast separate, making replacements easy whenever repairs are necessary. The pump is very compact; the width over all is 14 1/2 inches; the height 19 1/4 inches, and the length to the end of the shaft is 18 1/2 inches.

AUTO-SPRAY No. 39

ONE HORSE
FOUR ROW FIELD SPRAYER
CAPACITY 50 GALLONS

The Auto-Spray No. 39 is the result of our 13 years of careful study and experience in manufacturing traction sprayers. It was designed to meet the requirements of the most particular growers of field crops, nursery stock, grapes, etc.

We guarantee this machine with 4 nozzles, large aperture, .081 inches in diameter, to maintain a pressure of not less than 150 lbs., or with 8 nozzles, holes in apertures .059 inches in diameter, a pressure of 100 lbs. or better.

The pump on the Auto-Spray No. 39 is driven by a short chain directly connected from the axle and is geared so that there is little draft from the operation of pumping.

By a convenient clutch arrangement this pump may be thrown out of gear with the wheels so that the machine may be drawn without working the pump and this also enables the operator to manipulate the pump with the hand lever while spraying trees.

IN DETAIL

Axle—Cold rolled steel, 1½-inch diameter. Tracks two rows. Wheels adjustable on the axle for various widths.

Wheels—4 feet diameter, 3-inch tire.

Pump—Double cylinder. Plunger style. Brass plungers, 2½-inch diameter.

Packing—Graphite composition, packed from the outside. Adjustable without withdrawing the plunger by simply screwing two nuts over the gland.

Valves—Brass check. Broad brass seats. Set in pump manifold. Can be easily ground or replaced.

Agitator—Revolving twin paddles.

Tank—50-gallon, new barrel, or as ordered. An extra charge will be made for 100-gallon tank.

Air Chamber—Large capacity, tested under high pressure.

Nozzles—Non-Clog Junior Nozzles or as specified. Nozzles on field attachment adjustable to correspond with track.

For barrel, 1 horse; for 100-gallon tank 2 horses are advisable.

Spray Boom may be raised or lowered on the two uprights. Each machine has a perfect valve control and is equipped ready

for going to work.

SHIPPING WEIGHT—700 lbs.

Auto-Spray No. 39A—Complete for 4 rows, 4 nozzles, iron piping, 50-gallon barrel, spray boom A..... **\$160.00**

Fig. 409

GRIFFITH & TURNER POWER SPRAYER The Best that Can be Built

This outfit consists of our Fig. 1631 "Sturdy" Power Sprayer, described on page 83, and a 150-gallon tank of 1½-inch clear cypress, mounted on 4-inch steel channels. The Fig. 1631 spray pump is fitted with our special flexible coupling so that it can be direct-connected to any of the small farm engines. The pump is mounted on a ¼-inch steel plate platform which is sufficiently large to accommodate the engine.

The cypress tank is built of tongued and grooved staves which are rounded both inside and out. The top of the tank is fitted with angle iron corners. The tank has an agitator of the propeller type which is operated by chain and sprocket from the pump shaft.

The engine cab is mounted on an angle iron frame and has sliding doors which can be pulled forward to enclose the engine.

The outfit is furnished without engine, so that in case the fruit grower already has an engine he can utilize it in connection with this outfit. Where an engine is wanted with the outfit we can furnish same, and would be pleased to quote prices. Engine can be connected up and disconnected by inexperienced help.

Overall length of rig is 8 feet. Tank is 4 feet in length with height of 30 inches.

Outfit B	Complete outfit consisting of tank and pump mounted on 4-inch steel channel as described above. Pump fitted with relief valve, pressure gauge and flexible coupling for direct-connection to engine.	Weight Lbs.	Our Special Price	Outfit BB	Same as Outfit B but, including two 25-ft. leads, No. 2 wire-wound ½-in. spray hose and couplings, two Mistry, Jr., Spray Nozzles, two 10-ft. bamboo brass-lined extension rods, with shields and brass stop-cocks. MISTY JR. NOZZLE

THE BEST NOZZLE YET.

The Misty Jr. Nozzle is made from Brass with hardened tool steel disks in discharge cap. The steel disks can be inserted under the least trouble.

This nozzle has been tested under all conditions, and found to give entire satisfaction. It produces a perfect mist and covers a wide area. This nozzle is in our opinion the best that can be had. Brass, with extra steel disk.....\$1.00

Can also supply these nozzles with 45-degree angle. Same prices as above.

Extra Steel Disks for Misty, Jr., Nozzle.....5c.

Extra Caps for Misty, Jr., Nozzle....30c.

BORDEAUX NOZZLE

The Bordeaux Nozzle can be readily changed from a solid stream to a mist-like, fan-shaped spray. Should there be any clogging of the nozzles with the spray material, it is easily remedied by turning the handle.

An excellent nozzle for white-washing.

Price...\$1.00

VERMOREL NOZZLE

This is an improvement on the old style Vermorel Nozzle spray is finer and more evenly distributed. The cap with smaller hole makes finer spray

GARDEN HOSE

Our brands of Hose are all made up to our order, experience having taught us that High-Grade Hose is the cheaper. Low-Grade Hose will not give satisfaction.

These brands of Hose are guaranteed to be as represented, and have given our trade satisfaction for years.

	Per Ft.
ORIOLE. —5-ply, $\frac{3}{4}$ -in., in 25 and 50-foot lengths (75 lbs. pressure).....	\$0.15
GRIFFITH & TURNER CO.'S EXTRA. —3-ply, $\frac{3}{4}$ -in., in 25 and 50-foot lengths (80 pounds pressure).....	.17
GRIFFITH. —6-ply, $\frac{3}{4}$ -in., in 25 and 50-foot lengths (125 pounds pressure).....	.20

GRITCO MOULDED GARDEN HOSE

The construction of this Hose is entirely different from regular Hose. Over a seamless tube of high-grade rubber is braided two plies of tightly twisted cotton yarn.

Between each ply is placed a distinct layer of high-grade rubber. The Hose is protected by a cover made of rubber specially compounded. It is vulcanized in patented moulds under very high pressure.

This Hose is manufactured in continuous lengths up to five hundred feet.

$\frac{3}{4}$ -inch, per foot, coupled, 20c.

HOSE FOR SPRAY PUMPS

We do not recommend a cheap Hose for spray work. Large sprayers handling a high pressure should use our No. 2, $\frac{1}{2}$ -inch spray hose. This Hose is made especially for this work. It is extra strong and is wire wound, adding to its strength, and insuring long life, as the wire also protects it from rough usage.

The No. 1, $\frac{1}{2}$ -inch Spray Hose will be found satisfactory for the various hand pumps.

Spray hose is made especially for spray pumps, being so constructed that spraying solutions have the least possible effect on them.

	Per Ft.
$\frac{1}{2}$ -inch Oriole.....	\$0.14
$\frac{1}{2}$ -inch Spray No. 1.....	.15
$\frac{1}{2}$ -inch Spray No. 2, wire-wound.....	.20
1-inch 3-ply Hose.....	.25
1-inch Hard Rubber Suction Hose.....	.35
2-inch Wire-Lined Suction Hose.....	.55

$\frac{1}{2}$ -inch Hose comes in 10, 15, 25, 30 and 50-foot lengths. We cannot cut other lengths. 2-inch Hose comes in 5, 10 and 20-foot lengths.

HOSE COUPLING

Fig. 504.

These Hose Couplings are made from brass, thoroughly machined, and are in perfect shape. The $\frac{3}{4}$ -inch are made from spun brass, and are very light and neat, assuring a large flow of water, as the opening is not reduced.

Monitor Cart No. 53

The Monitor Construction. The frames of the bodies are made of special carbon steel, riveted together with best Norway rivets. It is very light and strong, with durable first quality basswood box inside, and have oil-tempered half elliptical springs. The leg being V-shaped and pivoted at its two extremities to the bodies, forms an effective handle brace.

Lightness. We claim for the MONITOR Hand Cart extreme lightness. These carts weight about one-third as much as the old-fashioned wooden cart.

They are especially adapted to the uses of manufacturing or mercantile business, and are indispensable to grocers, bakers, laundries, printers, painters, plumbers, paper-hangers, carpenters, tin-smiths, gardeners and general family uses.

No. 53—Box 29x44x10 inches. 30-inch wheels. 3-16-inch spokes. Weight, 110 pounds.

OUR SPECIAL PRICE.....\$24.00

Monitor Cart No. 23

The great convenience of a three-wheel cart will be appreciated when you realize that the weight is all upon the ground and none on the party pushing it. This cart is especially designed for convenience. It is nicely made, the body is finished in green nicely striped and varnished, the gear is finished in red.

It is just the thing for printers, grocery stores, factories, and in fact its many uses would be hard to enumerate.

The frame of bodies are made of special carbon steel, riveted together, the bodies are large, giving ample room for a large load. In the construction of MONITOR CARTS we use the very best material, making this the **lightest and strongest** cart obtainable.

No. 23 MONITOR—Box 23x41Bx10 inches. Capacity, 600 lbs. 30-inch wheels. 3-16-in. spokes. Weight, 103 pounds.

OUR SPECIAL PRICE.....\$20.00

THE DESHLER R. F. D. MAIL BOX

Will last a lifetime and sells at sight. Made of 20-gauge galvanized iron, painted aluminum, absolutely storm-proof, perfect in operation, positive locking signal in either position—up or down, weather-proof slot in door for depositing the mail without unlocking the box. No rivets or bolts required to set it up.

When the patron nails the box on a post this fastens the box so that it cannot be taken apart. One half-dozen to a crate. Shipping weight, 72 pounds to the dozen.

List Price, \$2.50 each. Our Special Price, \$1.50 each.

Handy Low Platform Cart

A handy cart for Farm and Dairy use. The low-down platform makes loading and unloading easy. It will carry five milk cans, water barrel or farm produce in sacks. The parallel steel bands on the sides and wooden back rest make possible a wider range of use and permits carrying small packages or merchandise.

SIZE OF PLATFORM
27 x 30 inches.

Woodwork painted red, wheels and iron work black.

Crated for Shipment.

Shipping Weight, 100 lbs.

OUR SPECIAL PRICE.....\$14.50

Merimac Cart No. 132

This cart is built especially for country use, where there are not any pavements, and a three-wheel cart is not necessary. In the construction it is just as high-grade as other carts listed and will be found a very useful addition on every place. The running gear is made of steel, the wheels are of the bicycle pattern, steel spokes, electrically welded tires and malleable hub, this construction gives the greatest strength.

The springs are so constructed and arranged as to carry the load in a way that makes the cart easy to push.

Body is finished in green, nicely striped and varnished. The gear is finished in red.

No. 132 MERIMAC

Box 23 x 41½ x 9¼ inches.
26-inch wheels.

Capacity, 250 lbs.
Weight, 66 lbs.

OUR SPECIAL PRICE.....\$13.50

LEMON OIL COMPANY'S STANDARD SOLUBLE IN WATER INSECTICIDE

DIRECTIONS FOR USE:

FOR MEALY BUG.—½ pint Standard Insecticide to 4 to 6 cups of luke-warm water or 1 tablespoonful to 2 cups of luke-warm water. When dipping for this insect the plants should remain in the liquid from 10 to 15 seconds and kept in continual motion. When syringing use the finest sprayer and apply the liquid with force.

FOR BROWN AND WHITE SCALE ON PALMS, RUBBER PLANTS, ETC.—½ pint Standard Insecticide to 4 quarts warm water or 1 tablespoonful to 2 cups warm water, applying with sprayer or sponge.

FOR THRIP, RED SPIDER, CATERPILLAR, BLACK AND GREEN FLY.—½ pint Standard Insecticide to 2 or 3 gallons water or 1 tablespoonful to 3 or 4 cups water. Either spray or dip.

FOR DESTROYING MITES.—½ pint Standard Insecticide to 4 or 6 quarts of water. Water the plants with the liquid 2 or 3 times at intervals of 6 days.

FOR DESTROYING ANTS.—½ pint Standard Insecticide to 1 gallon water. Well water their nests and runs several times in the course of a few days.

FOR DESTROYING FLEAS, INSECTS, RELIEVING MANGE AND SKIN DISEASES ON DOGS AND OTHER ANIMALS.—1 tablespoonful of Standard Insecticide to 1 cup warm water; rub well into the hide, letting lather remain a few minutes.

FOR DESTROYING LICE AND OTHER INSECTS IN POULTRY HOUSES.—1 part Standard Insecticide to 10 parts water.

FOR DESTROYING ROACHES, ANTS AND OTHER INSECTS IN HOUSES.—1 part Standard Insecticide to 5 parts water.

POISON

KIL-WEED

NOT TO BE USED ON LAWNS

A SCIENTIFIC WEED DESTROYER. FREE FROM ODOR
By Analysis it Has Been Found There is no Stronger Weed Killer on the Market.

An unsurpassed preparation for the removal of grass, weeds, vines and bushes from paths, roadways, gutters, streets and any other place from which it is desired to remove any and all vegetable growths, thus destroying the breeding ground for mosquitoes. The work can be done in a speedy, thorough, economical and easy manner. The material has no bad effect on the ground, neither does it injure or discolor the brick, stone or marble curbing.

No more digging and disfiguring of paths and roadways. Saves expense of several men. **KIL-WEED** not only kills weeds, but destroys seed germs and roots of plants. Can be used with an ordinary sprinkling can. One gallon **KIL-WEED** will make 30 to 35 gallons treating liquid when mixed with water. One man with a sprinkling can in one hour can do as much or more than six men could in one-half day, and do the work better.

Judgment should be exercised in using **KIL-WEED**, as it is impossible to give full directions to suit every case. If the weeds are large and strong the solution should be made stronger than for ordinary grass and weeds. They should be cut down so that the solution can reach the roots.

LIME-SULPHUR SOLUTION

The universally accepted spray material for dormant use is lime sulphur solution. Chemically made lime sulphur solution has now almost entirely supplanted the home-made solution because it is better.

This material combines the great fungicidal properties of sulphur with the scale remedy, and is especially recommended for peach and plum trees which need the combined treatment in the fall and spring. In spraying this material care should be exercised to avoid getting it in the eyes, and gloves should be worn to protect the hands.

Lime-Sulphur Solution is used both as an insecticide and a fungicide. As an insecticide it is used principally against scale insects, especially the San Jose Scale. For scale insects it is applied while the trees are dormant and is diluted with 8 or 9 parts of water. As a fungicide it is used chiefly for the control of apple scab, 1½ gallons to 50 gallons of water. Lime-Sulphur may be used in combination with arsenate of lead and tobacco extracts. Paris Green should not be used with Lime-Sulphur.

B. T. S.

This is a trade name or designation for a definite chemical combination of sulphur with the mineral barium, instead of the mineral lime. In this combination practically all the sulphur is available as an insecticide and fungicide in its most active form.

By the use of barium in the place of lime it is not only possible to obtain the highest efficiency of the sulphur, but also to obtain a dry crystalline product that reduces the bulk in shipping about 75 per cent., thus saving freight and reducing losses from leakage and waste.

Results of Spraying with B. T. S.—Experiments prove it to be equal to lime-sulphur solution, both as an insecticide and as a fungicide.

Directions.—For dormant spraying to control scale, etc., use 12 pounds to 50 gallons of water. For growing period spraying on apples to control scab, etc., use 1½ to 2 pounds to 50 gallons of water.

TREE TANGLEFOOT

For protecting trees against climbing insect pests in a simple, economical and effective way, use Tree Tanglefoot—a sticky substance applied directly to the bark of trees. One application remains sticky on the trees three months fully exposed to the weather. Easily applied with a small wooden paddle. One lb. will spread 8 feet long by 5 inches wide, 1-16 inch thick. Will stay on tree three months.

INSECTICIDES—CONTINUED

ARSENATE OF LEAD

Arsenate of Lead is an arsenical poison for use against insects that chew and for such insects as the fruit-flies that lap and suck up sweetened liquids. It has also been shown to have considerable fungicidal value both when used alone or used in combination with lime-sulphur.

Arsenate of Lead is prepared in powder form. The powdered form can be used in liquid sprays. The powdered form is also used for dusting.

The principal insects for which Arsenate of Lead is used are: Apple-maggot, brown-tail moth, bud-moth, cankerworm, codling moth, fruit-tree leaf-roller, gipsy moth, tent caterpillar, pear slug, curculio, etc.

Directions: 1 to 1½ lbs. powder to 50 gallons of water.

Powdered Form.

50-lb. pkg., per lb.	37c.
100-lb. pkg., per lb.	35c.

ARSENITE OF ZINC (POWDER)

Arsenite of Zinc.—This is a combination of arsenic with zinc to form a quick acting, adhesive insecticide for use on potatoes and some other truck crops. It is much more adhesive and less caustic than Paris Green and kills quicker than Arsenate of Lead.

The great advantages of Arsenite of Zinc are:

First—It kills the bugs so quickly they do not have a chance to cause serious injury to vines.

Second—It sticks to the vines so that it is not necessary to respray after every rain.

Third—It can be used at sufficient strength to insure results without burning or injuring the vines.

DIRECTIONS:

First—Apply as soon as eggs begin to hatch. For spraying use at rate of two pounds to the acre—this may require one or two pounds or more of the powder to fifty gallons of water depending upon the quantity of liquid distributed per acre by the spraying outfit. The spray tank should be partly filled with water and the powder sifted in slowly while the agitator is running.

Second—Make second application ten days to two weeks later in order to cover new growth.

Third—Make third application ten days to two weeks after second.

1-lb. pkg., per lb.	60c.
5-lb. pkg., per lb.	55c.
10-lb. pkg., per lb.	50c.
25-lb. pkg., per lb.	45c.
50-lb. pkg., per lb.	43c.
100-lb. pkg., per lb.	41c.

ATONIC SULPHUR

This is pure sulphur treated by a special process to convert it into a very finely divided state in the form of paste, so it can be readily diluted with water and applied as a spray to coat fruit and foliage with a thin film of sulphur to prevent germination of fungous spores.

It is recommended for the control of scab on peaches, brown rot on peaches, plums and cherries and cedar rust on apples.

Directions: 5 to 7 lbs. to 50 gallons of water.

1-lb. pkg., per lb.	35c.	50-lb. pkg., per lb.	17c.
5-lb. pkg., per lb.	26c.	100-lb. pkg., per lb.	15c.

KEY BRAND CUT WORM KILLER

FOR USE AS POISONOUS BAIT AGAINST CUT WORMS AND SLUGS by placing around plants subject to attack. It has an enticing odor that worms prefer to vegetation.

NOTE: One pound is sufficient for 100 plants in hills or 75 in rows.

25-lb. packages, \$5.00.

5-lb. packages, \$1.50. 1-lb. packages, 35c.

BORDEAUX ARSENATE OF LEAD

This is a combination of Bordeaux Mixture and Arsenate of Lead, and is especially recommended for all spraying operations where it is desired to combine an insecticide for eating insects and a fungicide treatment in one spraying.

This combination is specially recommended where it is desired to include the Bordeaux treatment with the spraying for codling moth, also used for scab, canker-worm, case-bearer, bud-moth and for general use on garden vegetables and grape vines to kill leaf-eating insects and control fungous diseases.

Directions: 6 to 8 pounds to 50 gallons water.

Powdered Form.

1-lb. pkg., per lb.	60c.
5-lb. pkg., per lb.	50c.
10-lb. pkg., per lb.	45c.

100-lb. pkg., per lb.	36c.

BORDEAUX ARSENITE OF ZINC

This is a combination of Bordeaux Mixture and Arsenite of Zinc. This combination makes a quick-acting poison for spraying where an insecticide is needed in combination with a fungicide. It is especially recommended for potato and tomato spraying. It is quick in action, very adhesive and will not burn the plant.

Directions: 6 to 8 pounds to 50 gallons of water.

Powdered Form.

1-lb. pkg., per lb.	60c.
5-lb. pkg., per lb.	50c.
10-lb. pkg., per lb.	45c.
25-lb. pkg., per lb.	40c.
50-lb. pkg., per lb.	38c.
100-lb. pkg., per lb.	36c.

BORDEAUX MIXTURE

BORDEAUX MIXTURE is a combination of copper sulphate and lime. It is a standard fungicide and may be used in combination with insecticides. Its use is indispensable in the control of black rot of grapes and the blight of potatoes. It is also used for apple-scab, bitter-rot, cedar rust, leaf spot and downy mildew.

Directions: 8 to 10 pounds to 50 gallons of water.

Powdered Form.

1-lb. pkg., per lb.	50c.
5-lb. pkg., per lb.	44c.
10-lb. pkg., per lb.	43c.
25-lb. pkg., per lb.	34c.

EVERY PRATT REMEDY IS GUARANTEED TO SATISFY OR MONEY REFUNDED.

DR. HESS POULTRY AND STOCK PREPARATIONS

PRESCRIPTIONS OF DR. HESS (M. D., D. V. S.)

Dr. Hess Poultry Pan-a-ce-a

makes poultry healthy; makes hens lay; not a stimulant, but a tonic, that tones up the dormant egg organs, brings back the scratch and cackle, and compels each hen to put her share of eggs in the market basket.

It also contains internal antiseptics that counteract disease; insures a healthy, singing poultry flock. Cost but a trifle—a penny's worth enough for 30 hens per day. 1½ lbs., 25c.; 5 lbs., 75c.; 12 lbs., \$1.50; 25-lb. pail, \$3.00.

GUARANTEED.

Dr. Hess Stock Tonic

Formula printed on every package.

Every ingredient indorsed by the U. S. Dispensatory and other high medical authorities. It aids digestion, makes stock healthy, and expels worms. Helps stock convert more ration into milk, flesh, blood and muscle. Every pound backed by the Dr. Hess & Clark unqualified guarantee. Prices: Packages, 25c. and 50c.; 10-lb. pkg., \$1.00. 25-lb. pail, \$2.25; 100 lbs., \$8.00.

Dr. Hess Worm Powder

For Horses, Sheep, Cattle and Hogs. It is highly concentrated, and is an effective vermifuge. Dr. Hess' own prescription that proved effective in his practice. Price, 1½ lbs., 50c. GUARANTEED.

Dr. Hess Healing Powder

The modern Gall Cure. Cures Galls, Cuts, Wounds, Ulcers, Grease Heel. Antiseptic and soothing. Heals everything it touches by forming a coating, cleaning and closing up wounds. Comes in sifting-top cans. Price: 4-oz., 25c.; 10-oz., 50c.

ABSOLUTELY GUARANTEED.

Dr. Hess Roup Remedy

LIQUID AND POWDER

For Roup, Diphtheria, Chicken Pox and all Catarrhal Diseases. It has these distinctive features: It is antiseptic, slightly astringent, non-irritating and healing. 4-oz. cans, 25c.; 10-oz. cans, 50c. GUARANTEED.

Instant Louse Killer

Kills Lice on Poultry, Horses, Cattle, Sheep Ticks, Bugs on Cucumber, Squash and Melon Vines; Cabbage Worms, Slugs on Rose Bushes, etc. Sold in sifting-top cans—look for the word "Instant" before buying. Price: 1 lb., 25c.; 2½ lbs., 50c. GUARANTEED.

Dr. Hess Dip and Disinfectant

Non-poisonous and non-irritating and guaranteed to be absolutely uniform in strength at all times. One gallon of Dip makes from 70 to 100 gallons effective solution. Spray it on roosts. Sprinkle it over the runs and in all cracks and crevices. Spray it on cattle and horses. Make a splendid dip for hogs and sheep. It's a sure parasite and disease germ destroyer. Purifies stables, troughs, sinks, drains. GUARANTEED. 1 Qt., 60c.; ½ Gal., \$1.00; 1 Gal., \$1.75.

Dr. Hess Fly Chaser

Drives flies away. One application lasts six hours. Prevents milk slump. Keeps cattle and horses contented during the fly season. Most humane idea of the age. Its use during summer months will insure good profits. GUARANTEED.

1 Gallon, \$1.50

Dr. Hess Heave Powders

A dependable preparation for relieving horses of heaves, chronic coughs, asthma, bronchitis, etc.; with careful diet, the frequent use of this valuable preparation will afford permanent relief in the majority of cases. Price, 1½-lb. package, 50c.

Dr. Hess Colic Remedy

A reliable preparation for the treatment of Spasmodic and Flatulent Colic, Gripes, Acute or Chronic Indigestion, Impaction of the Stomach, Bowel Inflammation, etc.

Price, \$1.00. GUARANTEED.

Dr. Hess Distemper Remedy

A reliable preparation for Distemper, Acute Colds, Fever and Cough. Price, 50c. GUARANTEED.

Your Money Back If Not Satisfied

HIGH GRADE HEN FEED

THE BALANCED RATION FOR LAYING HENS.
ALL GRAIN; NO GRIT OR SHELLS.

This feed is formulated from pure, sweet grains. Only those grains are used that are of known value for producing eggs. **This is the feed for the poultryman who feeds for profit.** 5 lbs., 30c. 10 lbs., 50c. 100-lb. sacks, \$3.25. Special price in larger quantity. Regular Grade, \$3.00.

HIGH GRADE CHICK FEED

"THE FEED THAT IS ALL FEED."

ALL GRAIN; NO GRIT OR SHELLS.

This feed is **absolutely pure and unadulterated**, containing no offal or injurious ingredients, such as rice hulls, ground straw or cobs, etc. It will not hurt or scour chicks.

5 lbs., 30c. 10 lbs., 60c. 100-lb. sacks, \$3.75.

PULLET OR DEVELOPING FOOD

The demand for a food for developing young chickens has increased with the demand for young chickens for market. This food will develop a large marketable chicken in the least possible time. Just the mixture to make them grow quickly.

5 lbs., 35c. 10 lbs., 60c. 100-lb. sacks, \$3.75.

MASH FEED TO MAKE HENS LAY

This is a complete mash, containing ground grain, alfalfa meal, meat meal, and everything necessary for producing a large egg yield. **Mix with hot water, and it is ready to feed.**

5 lbs., 30c. 25 lbs., \$1.25. 100-lb. sacks, \$4.00.

BLATCHFORD'S

"FILL THE BASKET" EGG MASH

The excess nutrient taken by the hen from Blatchford's "Fill the Basket" Egg Mash causes the development of eggs so that she has to lay during the winter, while the ordinary unbalanced rations tend to produce fat hens, but lean profits.

Blatchford's "Fill the Basket" Egg Mash is made up of Blatchford's Calf Meal, the complete milk-equal, combined with the best quality meat and fish scraps and alfalfa and grain meals. This makes a perfect, balanced egg-producing mash, consisting of protein, 19 per cent.; fat, 4 per cent.; fiber, 10 per cent.

25-pound bags.....\$1.25
100-pound bags.....4.25

PURITY PIGEON FEED

The mixture contains a great variety of grain and seeds properly balanced under the direction of a successful man who has had years of study and experience with pigeons. **No grit. No shell.**

1 lb., 10c. 10 lbs., 80c. Per 100-lb. sack, \$5.50.

G. & T. CO.'S HIGH GRADE PURE BEEF SCRAP

50 TO 55 PER CENT. PROTEIN.

This Beef Scrap is the highest possible grade, and is made from Pure Beef Trimmings and cracklings, and has no pork or other materials to cheapen same. It is fully guaranteed as to quality and will keep indefinitely. **Price: 5 lbs., 50c. 100-lb. bag, \$5.50.** 45% Scrap, 100-lb. bag, \$5.00.

ALFALFA MEAL

This is a green feed all the year round. Everyone knows that alfalfa is fast supplanting clover. It is very high in protein, and furnishes the chicks a growing food which, at the same time, has a medicinal value. 5 lbs., 25c. 50 lbs., \$1.80. Per 100-lb. sack, \$3.00.

GRANULATED CHARCOAL

A little ground charcoal mixed with the soft feed in the morning, once or twice a week, is an excellent corrective for the fowls, and keeps them healthy. We carry three sizes, one for grown fowls, one for small chicks, and pulverized. 5 lbs., 50c. 25 lbs., \$2.00. 50-lb. sack, \$3.00. 100 lbs., \$5.00.

GRANULATED MILK FOR POULTRY

1 lb., 15c. 25 lbs., \$2.00. 100-lb. bag, \$7.00.

CHICK MANNA OR HEALTH FOOD (FOR LITTLE CHICKS)

Chick Manna is one of the first foods put up especially for baby chickens. It is the best thing on the market, and should be used exclusively for the first ten days. It will save many little chickens, and will repay many times its cost. The first ten days will decide whether the chick will grow into a profitable chicken.

With **Chick Manna** you are sure of a prime healthy chicken, one that will pay you to raise.

It aids digestion as well as supplying lime. No. 3 for young chicks. 5 lbs., 15c. 100 lbs., \$1.00. 500 lbs., \$5.00. Special prices in larger quantities.

MICA QUARTZ GRIT

(Poultry, Pigeon and Chick Sizes.)

5 lbs., 25c. 100-lb. sack, \$1.25. 500 lbs., \$5.00.

BLATCHFORD'S CALF MEAL

DOUBLED FARM PROFITS

Maturing or weaning all your calves rapidly on **Blatchford's Calf Meal**, at a cost of about one-fifth of what you get for your milk, then selling all the milk at a good profit, should appeal to you and to every wide-awake farmer as a good, profitable proposition. These profits, both ways, need not be guessed at; they are discernible at a glance. Another source of profit that heretofore has been overlooked by most farmers is the raising of the fall and winter calf on this same milk-substitute. Many farmers and dairymen have taken up winter dairying, reaping the extra big profits on milk and cream during the winter months, but often the calf has been immediately "murdered." Calves raised during the winter give you veal during the term of high prices and are just as easily raised then as during the summer. Fall "freshening" is greatly to be desired. With

the help of the silo or an abundance of alfalfa hay the winter feeding keeps up the milk supply until the new grass comes in the spring. The new pastures stimulate the milk-flow and keep it up through the summer. The winter milk prices more than offset the cost. When you stop to consider that this complete milk substitute costs you less than skim milk and is far better for calf-raising—made expressly for the calf—you will get some idea of its high efficiency. It is made from the several kinds of whole grains and seeds, and includes oil, sugar and albuminous compounds, pure locust-bean meal and pure flaxseed ground, with the oil left in. You cannot begin to get the results from any other method of calf-raising that you can get from feeding **Blatchford's Calf Meal**, the complete milk equal. **PRICES:** 25-lb. bag, \$1.50; 50-lb. bag, \$2.75; 100-lb. bag, \$5.00.

BLATCHFORD'S PIG MEAL

The safety route from piggery to porkage. All "baby" pigs should be weaned on this strengthening tissue-builder. They will grow continuously and rapidly, developing bone and size without taking on surplus fat.

100 pounds makes 100 gallons of milk-substitute.

HEN-E-TA BONE CO.

NEWARK, N.J. DEPT. FLEMINGTON, W.VA.

"Hen-e-ta" is entirely digestible; while oyster shells are almost entirely indigestible. Oyster shells are discarded after their sharp edges are worn smooth; "Hen-e-ta" is never discarded; it is dissolved.

Every 100 hens will need 100 lbs. "Hen-e-ta" per month, and should have it the year round; or 1 lb. "Hen-e-ta" per average fowl per month. The cost of this amounts to nothing, when compared with the results obtainable and the saving of other materials. All sizes are same price

Prices: 10 lbs., 50c.; 25 lbs., \$1.00; 50 lbs., \$2.00; 100 lbs., \$3.50. Special price in ton lots.

HOG BON

builds strong, big pigs, with large bone-frames, carrying lots of meat. The phosphoric foods in **Hog Bon** fatten and hasten maturity. Without phosphoric foods, your hogs will literally die of starvation, no matter how much protein you feed. Your first aim must be to utilize the protein fed—and you cannot accomplish this by feeding more protein. You must feed more phosphorus and less protein.

PRICES: 100-lb. bags, \$2.50; 500-lb. lots, \$12.00.

BLATCHFORD'S CHICK MASH

FORMERLY MILK MASH.
4 lbs., 50c.; 25 lbs., \$1.50; 100-lb. bag, \$5.00.

"MILKOLINE"

Made from Pasteurized Modified Buttermilk, when properly diluted with water for feeding, costs only 2c. per gallon. Hustles Heavy Hogs to Market at lowest feeding cost.

It isn't merely what **Milkoline** will do for the hogs you market, but here's the great **Money Making Feature**. Your brood sow will be in better physical condition to produce more and better pigs. **Milkoline** is the best tonic we know of for brood sows. There is no substitute for **Milkoline** and just as long as you delay feeding **Milkoline** you are sacrificing hundreds of dollars in profits every year.

Milkoline is especially recommended for Baby Chicks and Laying Hens. Results in Great Gains. Will Require Less Grain, Produce More Eggs, Increase the Profits. Price per Gallon, \$2.00; Five Gallons, \$7.50; 10 Gallons, \$12.50; 32 Gallon Half Barrels, \$32.00.

HORSE AND CATTLE REMEDY

BY USING KOW-KARE

THE GREAT COW MEDICINE

the milk. It is a medicine for cows only. 65c.; large size, \$1.30.

Watch every cow, and at the first sign of disorder in appetite, digestion or flow of milk, give a dose of **KOW-KARE**. Carefully follow the directions as given on the box, and that cow will get well.

KOW-KARE is in powder form, to be given in regular feed. It cures abortion, barrenness and scours, caked udder, removes retained afterbirth, purifies the blood, strengthens the appetite, vitalizes the nerves and prevents disease. It increases

Prices, small size,

BAG BALM

For all diseases of the cow's udder and teats there is no remedy so quick and certain in its curative powers as **BAG BALM**. It is a soothing, penetrating ointment, especially adapted for all those serious and annoying troubles known as caked bag, cow pox, chapped, cracked and sore teats, bunches, chafing and inflammation of all kinds. **BAG BALM** penetrates through the skin and inner tissues at once, reaching the glands, where it reduces the inflammation, breaks up the bunches and spreads its cooling, softening effect to all the affected parts. This remedy has met with unequalled success, and is found on the most progressive dairy farms in the country. Price, 65c.

AMERICAN HORSE TONIC

This tonic is a specific for horses, an actual medicine that goes to the root of all horse ailments and removes the cause of the trouble. A few doses will send a dull, listless horse on its way rejoicing.

Its curative power is wonderful. **AMERICAN HORSE TONIC** is the best remedy known for worms, stoppage of water, all bow complaints, inflammation of the lungs, recent founders, distemper, coughs, colds and swelling of the glands of the throat. Small size, 35c.; large size, 65c.

HORSE COMFORT

The Most Remarkable Remedy Ever Compounded for Healing Cuts and Open Sores of Every Kind. **HORSE COMFORT** is a liquid preparation which is unequalled in its power to quickly cure all kinds of open sores or abrasions of the skin. It is used by simply wetting the sore spot. No bandages or filthy rags, no rubbing or heating it in. Simply wet the spot and the cure begins. Price, per bottle, 35c. and 65c.

GRANGE GARGET REMEDY

This remedy has stood the test of twenty years as a successful remedy, and is indorsed by thousands of dairymen.

Price, Per Can. 65c.

SAL-VET

The Great
Worm Destroyer

The Great
Live Stock Conditioner

SAL-VET is a medicated salt—a safe, simple, inexpensive remedy which gives stock the medicines they need along with the salt they crave. It requires no dosing, no drenching, no starving. It goes into the stomach and intestines and loosens the leach-like hold these blood-sucking parasites have on the tender linings. It drives the robbers out—without bother or trouble to you. Your animals eat **SAL-VET** in place of common salt and thus doctor themselves.

PROTECT YOUR HERD AGAINST DISEASE

Don't pay the frightful price of worm neglect. Don't wait until cholera breaks out in your neighborhood. Fortify your stock against disease. Get rid of the blood-sucking, disease-breeding worms **now**. Put every animal on your farm in a healthy worm-free condition so they can get more good of what they eat—gain faster—make you more money.

A SINGLE WORM-INFESTED HOG IN YOUR HERD IS A CONTINUAL MENACE TO YOUR HOG PROFITS.

It is the worm-infested, half-starved animals that spread the deadly **worm curse** over your farm. They are **disease-breeders** and **disease-carriers** of the worst kind. Helpless themselves to resist contagion, they let down the bars to the cholera scourge and death stalks through your herd. They are the **danger spots** in every herd.

SO-BOS-SO

Trade KILFLY Mark

Cows will give 15 to 20 per cent. more milk if protected from the torture of flies with **So-Bos-So-Kilfly**. Kills flies and all insects; protects horses as well as cows. Perfectly harmless to man and beast. Rapidly applied with sprayer, 30 to 50 cows sprayed in a few minutes.

What is more trying to the patience than to milk a cow when she is continually stepping back and forth and lashing her tail under the irritation of a lot of flies? A moment's work with a sprayer and a little **So-Bos-So-Kilfly**, and all is quiet and serene. From 30 to 50 cows can be sprayed in a few moments.

Put up in 1-Gallon Cans. Each can bears the trade-mark seal.

PRICE—1 Gallon...\$1.50
Sprayer for applying
So-Bos-So, 50c.

KILL-GERM DIP AND DISINFECTANT

These goods represent the highest attainment in Dip Manufacture.

An official dip of great efficiency for the killing of Lice, Ticks, Scab and other Parasites and disease germs which infest the bodies and pens of Hogs, Sheep and Cattle.

One of the most powerful Disinfectants and Germicides ever produced. A powerful Antiseptic and Purifier. For sanitary purification of dwellings and tenement houses, sinks, closets, stables, public schools, railway stations, hospitals, workshops, hotels, etc., it is unequaled.

CREONOID

LICE DESTROYER AND FLY SPRAY.

Takes the worry off your hens. Protects your cattle and horses.

CREONOID means animal comfort. It effectively keeps them free from the persistent Texas and other flies. It means comfort in milking and increased yield in milk. Eliminates fretting and nervousness.

Use it freely to keep the hen-house clear of pests.

PRICE: Gallon Cans.....\$1.50

DOMINION FLY SPRAY

is an oil heavily charged with chemicals, having the peculiar property of giving off for a long time a vapor which drives away all kinds of flies. DOMINION FLY SPRAY contains about 4 per cent. Cresol, and is perfectly safe for use on all animals. If the animal licks it, no harm will result. Cows sprayed with this every morning go through the heat of the day with ease and comfort. Such cows keep up their flesh and their flow of milk; where cows are left to the ravages of flies, they fall off in flesh and the flow of milk is greatly reduced.

1-Gallon Cans...\$1.50

Sprayers used for putting on
Fly Spray, 50 cents.

COW-EASE

RELIEVES CATTLE AND HORSES FROM FLIES.

A liquid preparation carefully compounded from effective materials. It is of the right consistency for applying with a sprayer, and it will not gum the hair or blister the skin.

A SURE PREVENTIVE FOR LICE, TICKS AND VERMIN.

A light application of **Cow-Ease** will relieve cattle from lice, also prevent tick—the cause of Texas Fever.

Cow-Ease is an excellent article for spraying the interior of hen houses, also roosts and dropping board; it will prevent head lice and fleas and keep the house in a sanitary condition.

GRADE 1 CREOSOTE OIL

Grade One Liquid Cresote Oil is coal-tar cresote refined sufficiently to give the maximum efficiency to the convenient and inexpensive Brush and Open Tank methods of treatment. Briefly, Grade One Liquid Cresote Oil is superior to the commercial coal-tar cresote for use by the small consumer, because

- It is liquid.
- It is free from water.
- It has low evaporation loss.
- It has high specific gravity.
- It has low viscosity, and, being liquid, penetrates readily and deeply into the wood.
- It has increased antiseptic and decay-preventing qualities.
- It is a clean oil and imparts a pleasing, dark-brown color to the wood.
- It is uniform, standardized material.

PRAIRIE STATE INCUBATORS

THE PRAIRIE STATE SAND TRAY INCUBATOR

Prairie State Incubators contain many exclusive patented features found in no other machine. The Sand Tray models have the best reputation ever made by any incubator for high hatching results—for large chicks of extreme hardiness. Remember, profit comes from the "Chicks that Live."

The Prairie State Sand Tray

with nursery—our standard for the past eight years. It is offered now in a further improved condition, fitted with our latest type fool-proof heater and provided with a wire chick tray substituted for the bur-lap formerly used, which, testing just above the sand tray, permits this tray to remain throughout the hatch, thereby retaining uniform humidity until completion.

THE PRAIRIE STATE JR. PORTABLE HOVER

The Prairie State Jr. Portable Hover embraces in principle and construction all those original and successful features which at once establish the high reputation of the Prairie State Universal Hover. It is a Universal Hover so modified as to bring the lamp case to the floor level without sacrificing safety, economy of oil consumption, or ventilation, and involving attached lamp case and all-steel construction. It is a Portable Hover built along lines different from all others. Contrary to general practice in building Portable Hovers.

The Prairie State Jr. Portable Hover, 60 to 100-chick size . . . \$10.00

THE PRAIRIE STATE STOVE BROODER

The Prairie State Jr. Stove Brooder is built solidly of cast iron throughout. This stove is not mounted upon legs. We have learned not to use them because they afford a space under the stove where chicks may huddle and be burned to death. Therefore, the base of our stove rests squarely upon the floor. Bolted to it is a cylindrical cast iron ash pit of ample capacity, fitted with a solid door having non-heating handle and containing no opening through which hot ash or sparks may fly.

RADIO ELECTRIC HOVER

Section cut away, showing heat regenerator.

By using a Radio Hover which radiates soft, pure, clean heat without any noxious gases or fumes, you will have strong, vigorous, healthy chicks. Hover is 26 inches in diameter, made of 24 gauge galvanized steel, has an air cap of 16 inches, asbestos packed between Air cap and hover, thus securing a constant temperature of 90 degrees at the outer edge of hover. There positively cannot be any crowding as there are no corners.

Radio hover can be used on direct or alternating current, and with farm lighting plants. It comes completely wired with lamp cord and attachment plug. An ordinary 100 watt electric lamp is to be used with Radio Electric Hover.

Retail Price \$12.50.

PRAIRIE STATE UNIVERSAL HOVER

It may be attached to any form of outdoor brooder, two feet or more in height, to any size or form of colony house, shed, coop, piano, dry goods or organ box. It also enables those who wish to build their own brooders to get the best brooding device possible in an economical manner. It fills that want, felt by everyone who raises poultry, for something they can use anywhere, any time, and do the work well.

UNIVERSAL HOVER.—Price for hover, with lamp case, smoke conductors, lamp and thermometer, \$9.00.

When used indoors alone, lamp case and smoke conductors are not required. Hover and lamp, \$8.00. Hover regulator, \$2.00 extra.

THE COMBINATION COLONY BROODERS

This Brooder House is constructed of tongued and grooved boards. The brooder is full size in all dimensions, 3 feet wide, 6 feet long and 3 feet high in front and 2 feet in rear, with tin roof. No. 2—208 lbs., \$35.00 Heat Regulator, \$2.00.

QUEEN INCUBATORS

A **QUEEN** costs but little more, and the extra chicks that live and grow soon pay the difference. Remember, it is not how many chicks you **HATCH** that counts, but how many you **RAISE**. Chicks that hatch out weak and wobbly, and live but a few days, mean nothing to you but trouble and loss. They make one sick of the poultry business.

Most of the chicks you lose in the first few weeks die because they did not have, when hatched, enough strength or vitality for a good start. **Queen Incubators** are famous the country over for big hatches of strong, healthy chicks that live and grow.

PROPER INSULATION

The **Queen** is doubly insulated. First we use double walls of California Redwood, forming a dead air space. Second, corrugated strawboard is used between the wooden walls. Proper insulation adds considerable expense to the manufacturing cost. However, it is an absolute requirement of a good incubator.

QUEEN HOT WATER HEATING

The **Queen System** of hot water heating prevents the drying-out tendencies found in hot air incubators and provides a soft, uniform heat over every part of the egg chamber—a heat that is most natural for the hatching eggs. The circulation of water through the radiator prevents any moisture being added or taken away from the eggs. When it becomes necessary to remove the lamp, the hot water circulating through the radiator maintains an even heat within the egg chamber without the slightest variation.

Queen Incubators are not

cheap, but they are cheap in the long run. They will be turning out good hatches years after the cheap machines have been junked.

The **Queen** line has all copper heater and pipes.

QUEEN STOVE BROODER

This damper regulates your check draft and the direct draft to your fire.

The **Queen Colony Brooder** is a new and improved design of brooder stove. It is made of highest quality iron castings that will wear and last indefinitely.

There are no drafts on the smoke pipe of the **Queen**. The check rests on top of the stove and opens outward when fire is too warm, thus giving a gentle inflow of air to retard the heat. While the opening of the draft to increase the fire is located at the top of the stove, it opens into the fire at the base through an opening extending down the side to the bottom. This feeds the draft into the fire from underneath with no opening below the hover.

BURNS ANY KIND OF FUEL

The **Queen** stove burns any kind of fuel with equally satisfactory results. We recommend chestnut sizes in all kinds of fuel and hard or soft coal, coke or charcoal burn equally well. Of course, hard coal will not cause the pipe to become dirty as quickly as the others, but it will give no better heat.

No. 1—600-Chick Size, \$21.50 No. 2—1200-Chick Size, \$26.50

QUEEN OUTDOOR LAMP-HEATED BROODER

Queen Outdoor Lamp-Heated Brooders are designed to raise the chicks in all kinds of weather at any time of the year with insurance for success. They can be relied upon to give the little chicks the protection they need both day and night.

PARCEL POST EGG BOXES

Eggs need protection. This shipping package is so constructed that the eggs are separated by a thickness of corrugated board and the entire contents are surrounded by a double wall of air-cushioned corrugated board. Absolute protection is therefore assured, as the box possesses sufficient strength and durability to stand the usual rough handling in transit. Their extreme light weight, when compared with other packages, will, in many cases, save the postage for an extra pound. Fold flat for shipment.

Eggs—For shipment in zones each Egg must be wrapped with cotton, excelsior, newspapers, tissue paper or material of a similar nature when shipped in our boxes and box so wrapped that nothing can escape from the package. Any commercial wrapping paper is acceptable.

Eggs—For LOCAL DELIVERY our boxes are all tight without additional wrapping inside or outside.

Boxes holding 2 doz.	25c. each.
Boxes holding 3 doz.	35c. each.
Boxes holding 4 doz.	45c. each.

ANDERSON EGG BOX

FOR FANCY
EGGS FOR
HATCHING.

The Anderson Egg Box is made of corrugated paper and has double-faced corrugated paper partitions like the Eyrie, to protect each individual egg. The ability of the Anderson Egg Box to fold flat enables us to ship them in a knocked down condition, third-class freight. They take but little room in storage and are very easy to set up. By sealing the box with gummed strips which we furnish, pilfering or substitution of common eggs for fancy eggs while in transit is eliminated.

METAL EGG CRATES FOR PARCEL POST

Solve the problem of shipping eggs safely by Parcel Post. They are made for continued use, being strongly constructed but light in weight.

All crates are provided with built-in shock absorbers to give a cushion for the eggs. Fillers to hold the eggs are made for long life.

Metal Egg Crates do not require outside wrapping for mailing. A short string only is needed for tying "pin" which holds lid securely closed.

Buy your eggs direct from the producer, "strictly fresh," delivered to your door by Parcel Post. The total cost, including postage, will be less than from your grocer.

This "Safety First" egg carrier will pay for itself in a few shipments by eliminating the loss in breakage so frequent when shipped in the short-life paper cartons. It will prove itself to be a profitable investment.

Postage is no more than for other egg carriers.

APCO Egg Carrier

The APCO Patented Egg Carrier, equipped with the patented APCO fillers, in which the eggs ride suspended in a corrugated hammock and enclosed in a shock-absorbing receptacle, is the best medium for the transportation of eggs ever devised.

This carrier is built on a scientific shock-absorbing principle. The filler is manufactured of heavy material and is superbound and enclosed with three thicknesses of double-faced shock-absorbing corrugated paper, which forms a carton. This carton is protected and enclosed by a vulcanized fiber container. The material from which this container is made is manufactured under tremendous weight and pressure. This material has proven itself superior to either metal or wood for shipping containers.

By reversing the outside container the return address is brought to the top ready for reshipment.

The carrier is held assembled by a leather strap and buckle, which also acts as a handle and as a guard to the address label.

The APCO Carrier is the most scientifically constructed and the most satisfactory Carrier we have ever placed before our customers.

KEROSENE OIL FOR INCUBATORS AND BROODERS

One of the most difficult things for a poultryman to secure is a good grade of oil to use in incubators and brooders.

We have had so many complaints from this cause that we have deemed it expedient to put up a high-grade oil to assist them in this trouble. You will not be able to appreciate the difference till you have tried a can of this oil.

Put up in five-gallon shipping cans

PRICE.....\$2.50

WATER GLASS

Put up expressly for packing away eggs, when they are plentiful and cheap. During the summer months especially eggs are much cheaper than they are in the winter time. With this preparation you can pack them away, and have a supply of fresh eggs all winter. One gallon of this solution is sufficient to mix with enough water to pack away fifty dozen eggs. Use 1 part Water Glass to 9 parts of water.

At a cost of only one cent a dozen, you will be able to save anywhere from fifteen to thirty cents on the dozen, and have the satisfaction of having your own eggs.

BANNER ROOT CUTTERS

NO. 7

EXCLUSIVELY FOR POULTRY

It cuts fast and is easy running. Leaves the feed in fine brittle, ribbon-like strips that make choking impossible. Fowls large or small can safely eat the feed. The knives are adjustable and made of the very best of steel. An iron grate in bottom of hopper lets dirt and gravel escape before reaching the knives. In this cutter we offer the poultrymen a low-priced, high-grade, nicely-finished and mechanically constructed machine, and feel that anyone who desires to feed Roots and Vegetables to their flocks can well afford to own one. Two to five minutes will cut enough feed for a large flock of birds.

Banner No. 7

Price.....\$7.50

BANNER No. 28

A New Root Cutter. A Shredder. Using the Patent Banner Knife. For Poultrymen, for Sheepmen, for Stockmen.

A Root Cutter that cuts all roots and vegetables like Beets, Carrots, Potatoes, Onions, Apples, Turnips, Cabbage or anything else of the same nature into ribbons, literally shredding the material into feed cut so fine that all stock and poultry can feed without danger of choking. Built strong and stout to stand power use, and furnished with a crank so it can be used by hand also. This cutter has a large capacity, is supplied with eight steel knives. It has a heavy cast iron Platter Wheel, 28 inches in diameter to which the knives are attached by bolts. The hopper is such shape that the machine feeds itself and the roots cannot get away from the knives until they are all cut. A grate in the bottom of the hopper allows the dirt to escape before going to the knives. This cutter is designed more particularly for power use for the large Poultrymen and Sheepmen. Weight of machine complete, 150 pounds. Capacity of hopper about 2½ bushels. Speed by power 125 to 150 Rev.

Banner No. 28

Price, Complete, with Pulley and Crank, \$32.00.

BANNER No. 20

The No. 20 Banner Root Cutter. It is made for hand power. It has a capacity of 30 to 50 bushels per hour, although it will cut at the rate of a bushel a minute easily on the test.

It is well built, nicely finished, runs easily, feeds itself, separates the dirt from the cut feed.

Price.....\$22.50

Banner No. 20

Black Hawk Feed and Grist Mill

Just the thing for cracking corn, etc., for poultry. Makes best Graham flour and meal for table use.

Grinds corn, wheat, rye, rice, spices, etc. Weight, 17 pounds. Price...\$4.00

MANN'S GREEN BONE CUTTER

No. 5C.—This machine is exactly the same as the No. 5B, with a crank handle instead of a balance wheel. Capacity not quite equal to 5B. Weight, 35 lbs.\$9.50

No. 5B.—This machine is exactly the same as the No. 5BM, except that it has not the iron stand. The capacity is the same. Weight, 60 lbs.\$12.50

No. 5BM.—Intended for flocks of 15 to 25 hens. Mounted on iron stand. Cylinder 6 inches diameter, 4 inches deep. Cutter plate has 4 knives instead of 3.\$16.00

No. 7.—Intended for flocks of 40 to 100 hens. Mounted on strong iron stand with large table for box or pan to receive cut bone. Weight, 107 lbs. Cylinder, 7¼ in. in diameter, 5¼ in. deep. Capacity, ½ to 1 lb. per minute.\$19.50

No. 11.—Intended for large flocks of over 100 fowls. Capacity 100 lbs. per hour. Horse-power required, 1 to 1½. Weight, 215 lbs. Diameter of pulley, 15 inches; 3¼ inch face; speed of pulley, 300 to 350 revolutions per minute. Capacity, 100 lbs. and upward per hour.....\$40.00

No. 5BM.

POULTRYMAN'S CLOVER CUTTER

Designed for cutting, either green or dry, such growths as clover, alfalfa, vegetable tops, etc. These growths are the cheapest and most productive egg-forming poultry foods for cold weather.

With four 7-in. knives; weight K. D., 65 lbs.\$18.00

The Universal Meat Chopper

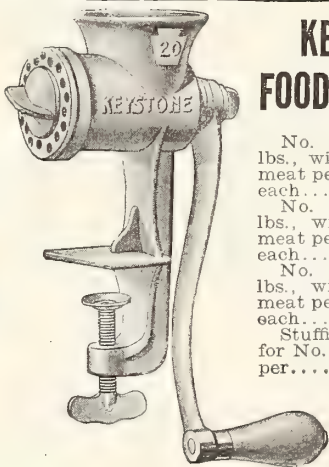

The Universal is the most perfect meat chopper on the market. The feed screw is so constructed that it feeds the meat to the knives without mashing it. The knives work against the plate giving a good clean cut, producing the best grade of chopped meat. The grinders are made in three numbers. The No. 331 has a plate that fastens to the table, as shown in illustration. The No. 333 has an arm that clamps to the table. The No. 304 has a plate like the No. 331. These grinders are all heavily tinned and will not rust.

No. 331.....	\$5.75
No. 333.....	6.25
No. 304.....	9.75
Stuffing Attachment for Nos. 331 and 333.....	1.00
Stuffing Attachment for No. 304.....	1.10

THE UNIVERSAL FOOD CHOPPER

Chops all kinds of meat, raw or cooked, and all kinds of fruits and vegetables—in fact, everything that is ordinarily chopped in a chopping bowl—into clean-cut, uniform pieces, fine or coarse, as wanted, without squeezing or mashing, and with great rapidity.

No. 0, Small Family, three cutters.....	\$2.00
No. 1.....	2.50

KEYSTONE FOOD CHOPPER

No. 10, weight 3½ lbs., will chop 1¼ lbs. meat per minute. Price each.....	\$1.75
No. 20, weight 4½ lbs., will chop 2 lbs. meat per minute. Price each.....	\$2.00
No. 30, weight 6¼ lbs., will chop 3 lbs. meat per minute. Price each.....	\$2.65
Stuffing Attachment for No. 20 or 30 Chopper.....	85c.

UNIVERSAL ALL STEEL LARD and FRUIT PRESS and SAUSAGE STUFFER

PRICES.	
No. 44—4 quarts.....	\$15.00
No. 66—6 quarts.....	17.00
No. 88—8 quarts.....	18.00

This Machine is an unexcelled Lard Press, an equally good Sausage Stuffer, and is also extensively used for pressing the juices from fruit for making jelly, etc.

The "Universal Steel Press" has many advantages over the old style cast-iron press. It is unbreakable, rigid and strong, and is more easily handled because it is lighter.

HOME CANNING BOILER

Home Canning Boiler, \$22.00

Will successfully can fruits and vegetables in either tin cans or quart glass jars.

The boiler will hold 24 tin cans or 14 Mason quart jars at one loading. The work can be done on an ordinary cook stove or range.

The complete outfit consists of boiler, steam gauge, safety valve and grate. Weight, 80 lbs. For persons preferring to use tin cans, a soldering outfit can be furnished at an extra cost of \$18.00, and consists of gasoline blast furnace, two round capping irons and two tipping coppers.

SLIDING KRAUT CUTTER

Sliding Kraut Cutter with Two, Three or Four Knives.

No. 50—2 Knives, 8x26 inches.....	\$2.75
No. 55—3 Knives, 8x26 inches.....	3.00
No. 65—3 Knives, 9x30 inches.....	4.25
No. 70—3 Knives, 12x36 inches.....	7.50
No. 80—4 Knives, 13½x40 inches.....	8.25

HORSE RADISH GRATER

This Grater is designed for hand power only. Is constructed of wood, excepting Grating Drum, the sides of which are iron bolted together over which our Patent Double Grating Drum is tivated. Besides horseradish this machine will grate equally as well the following: Coconut, Potatoes, Bread, Turnips, Carrots and vegetables of all kinds.

PRICE \$30.00

Thrift Jars and Sealer

Thrift Jars offer you the following advantages over all others:

1. Wide mouth.
2. Sealed before processing.
3. Fresh ring in each cap.
4. Entirely eliminates spoilage—if properly used.

5. No opener needed—simply tear off cap.
6. Made of clear white glass—a great advantage where product is for sale or display. Made in the following sizes:
 - No. 32—19 fluid ounces capacity.....\$1.30 per doz.
 - No. 33—1 quart capacity.....1.55 per doz.

THRIFT SEALERS, \$3.00.

COOK STOVE FRUIT DRIER

To meet the demand for a small Drier, suitable for use on any ordinary room, kitchen, cook or gasoline stove, we offer the U. S. Drier. It is a very simple, economical, efficient and convenient arrangement, and for farmers use just what is wanted, a durable drier at a reasonable price.

Dimensions, 26 in. high, and takes up space on stove, 21x15 inches.

OUR SPECIAL PRICE, \$8.00

RADIUM REFRIGERATOR

White Enameled
 Select Ash, Golden Oak Finish

Ranney Refrigerators

These Refrigerators are constructed with an inside case of odorless and tasteless lumber, matched and clamped together, well nailed and glued, and fastened to hardwood cleats, making it a thoroughly air-tight strong cabinet in itself. The outside case is of solid hardwood lumber, and is nailed and glued to the cleats which bind the outside case, thus making it one of the strongest and most durable Refrigerators ever built.

The ice rack is made of galvanized steel bars, welded together. The strongest and most common sense ice rack made. The shelves are of genuine steel wire, woven on a heavy steel wire frame and heavily tinned.

They are finished in three coats of best quality of filler and waterproof varnish, giving them a gloss finish that looks well and that will wear. The inside construction is neat and sanitary, containing many features covered by patents. These add much to the convenience of the user.

Cherry Seeders

These cherry seeders are so constructed that they can be adjusted for different size cherries. They work very rapidly and do not tear up the fruit.

The No. 2 Seeder is made as shown in the illustration. The No. 1 Seeder has four pegs which screw to the table. Each seeder is nicely finished and japanned.

PRICE No. 1.....75c.
 PRICE No. 2.....75c.

1898 TURN- TABLE APPLE PARER

A strong, rapid durable machine. Pares very close at both ends of the apple. When passing the end of the fork the knife recedes leaving ample room for placing the apple on the fork. Does not core or slice. Push-off is automatic. Price, each, \$1.50.

White Mountain Parer and Corer.....\$1.25

G. & T. BOILER AND FEED COOKER

Heavy cold rolled steel furnace; extra large feed door; wrought iron handles, firmly riveted on Kettles smooth, heavy cast iron. Door, frame and flue collar cast iron. Never buckles or warps from heat; designed to set on ground or brick foundation; especially adapted for cooking feed, rendering lard, making soap, scalding hogs, poultry, etc. Cast iron flues are constructed inside, thus retaining heat and economizing fuel. We always ship furnace for wood fuel unless otherwise specified. Also used for lime and sulphur.

We always ship furnaces without firepot for coal unless otherwise specified. For wood fuel no firepot or grate is required, but for coal it is necessary to use firepot.

STEEL HOG SCALDER AND COOKER

It takes the lead of anything on the market. When not used for scalding, can be used for feed cooker, boiling spray material, or for dipping sheep, can also be used for watering stock.

This outfit will save half of the time, and most of the hard labor in connection with Hog Killing, and will pay for itself in a very short time.

Plain Scalding does very well if placed over a ditch and fire built underneath, but most farmers prefer rack and firebox complete. Shipping weight, 425 lbs.

Plain Scalding, with legs, 6 ft. x 30 in. x 18 in deep. **Our Special Price, \$30.00.**

Fire-box with 5-in. pipe hole. **Our Special Price, \$15.00.**

Dumping Rack with lever. **Our Special Price, \$15.00.** Scalding complete.

Our Special Price, \$60.00.

IMPROVED KETTLE RANGE

This Kettle Range is made to accommodate any kettle a farmer may happen to have. Any copper or iron kettle up to 40-gallon capacity can be used.

The largest opening, when all the rings are off, is 25 inches, and the smallest is 12 inches.

The outside of the firebox is made of heavy steel plates and lined inside with cast-

iron firebacks on all sides. The size of the firebox is 12 inches wide and 24 inches long and supplied with grate and ash pit, and has ash pan so that ashes can be removed without use of shovel. Pipe opening for 6-inch pipe. Weight, 200 lbs. **Our Special Price, \$30.00.** Lighter and cheaper Range with pot hole, top and 3 rings, \$25.00.

THE GOSHEN HOG SCALDER

It is substantially built and well braced. At the corners the sides and ends are flanged and riveted between heavy bar iron, which also answers for legs.

The center is supported with additional legs of angle steel. The material used is No. 20 Galvanized Steel with the exception of bottom of tank, which is No. 18. At either side of the top is a 4-inch hardwood roller, to which chains are attached, the rollers are provided with cranks and ratchets, to hold them in any position. The fireplace is 24 inches wide and 9 inches deep.

The Scalding Vat is 30 inches wide, 68 inches long and 15 inches deep. Shipping weight, 200 lbs. **Price, complete, \$50.00.**

THE NEW SHARPLES **Suction Feed Tubular Cream Separator**

When you buy a cream separator you naturally want the best—the separator that will net you the greatest dollar for dollar returns on your investment. The **SHARPLES** guarantees greater returns than any other. It is the only cream separator in the world guaranteeing a clean skim at any speed and delivering a cream of the same density all the time. That means a far greater saving of butterfat (money) for you.

Moreover, the **SHARPLES** is the easiest to clean, to operate, and is the most reliable. The famous Sharples Tubular Bowl has only **one** piece in it—no 30 or 40 discs as you find in others; the supply tank is only knee high from the floor and you don't have to strain your back to pour in the milk. For your wife and your family it means less work and greater convenience, and for you it means the **best** separator investment you can make.

Sizes	Capacity	Shipping Weight	Prices	
1S	225 lbs. per hour	190	\$56.00	Less

4S	500 lbs. per hour	260	84.00	cash
6S	700 lbs. per hour	260	100.00	
9S	900 lbs. per hour	260	125.00	

SHARLESS SPEED GOVERNOR PULLEY

The Sharpless Governor Pulley can be attached to a Sharpless Separator in an instant—it clamps to the base of the separator, one screw is tightened and no holes need to be drilled. From this Governor Pulley a round belt runs to a small grooved pulley on the worm gear shaft.

You can belt direct from a gas engine, an electric motor, or a line shaft to the Governor Pulley. It prevents any jerks from the gas engine getting through to the gearing of the separator. Variations in the speed of the engine are taken care of by the governor weights and shoes in the pulley, so that the separator always runs at an even and proper speed.

A starting and stopping handle is provided on the Sharpless Governor Pulley, which is pushed in or pulled out to start and stop the separator.

The power can be instantly applied or shut off the separator—the engine or line shaft can be running while separator bowl is at a standstill. **Price, \$20.00.**

G. T. CO.'S PERFECTION SEPARATOR OIL

This Oil is put up expressly for the use of separators, and we recommend it to users of all hand machines, it being a light oil and having a very low cold test.

SHARPLES MILKER

Description of the Sharpless Milker

At some convenient point is placed an air pump driven by a gasoline engine or other available motor of about two or three horse-power. From this pumping outfit, which may be placed at any point within five hundred feet from the cow stables, two ordinary galvanized iron pipes are run to the cow stables and from end to end of the line of stalls, being suspended just above the cow's front shoulders high enough to be out of the way, and conforming to the style of modern barn equipment.

At every other stall a fixture is attached to the pipes for the purpose of connecting the pulsator. From this, two flexible tubes descend, one to the bucket and one connected direct to the teat-cups. **None of these tubes or attachments come in contact with the milk at any time.** With the buckets and teat-cups the above described apparatus completes the outfit.

The bucket is nothing more than a plain, round, strongly built bucket, just a seasily cleaned as any other bucket. It can be furnished either in solid Nickel Silver (absolutely non-rusting) or in Armco Metal, heavily tinned. The latter is less costly but, of course, does not last quite so long.

The cover is a flat disc with two cocks on it for attaching the tubes in the case of the single unit and four cocks in the case of the double units. The handle is made in such a shape as to conveniently hold the teat-cups when not in use.

WRITE FOR SPECIAL CATALOG AND PRICES.

THE BOSS CREAM SEPARATOR

The **Boss Cream Separator** consists of a water vessel containing one or more milk vessels fastened together with out Patent Can Attachment.

The **Water Vessel** is made of the very best quality of 26 gauge galvanized iron and is provided with a large water faucet at the bottom and over-flow pipe at the top.

The **Milk Vessel** is made of the best grade 3XXX 4AAAA Tin Plate. It is oblong and deep with a sloping bottom, milk and cream will drain off rapidly. All seams are carefully soldered both on the inside and outside, and there is no chance whatever for milk to lodge and sour. All milk vessels are coated with Aluminum which is the best rust preventative known.

No.	Height.	Width.	Weight.	
No. 1—2½ gal. milk vessel..	18 in.	13 in.	14 lb.	\$ 7.75
No. 2—4 gal. milk vessel..	20 in.	15 in.	17 lb.	8.50

No. 5—10 gal. milk vessel..	28 in.	18 in.	24 lb.	11.00

THE TWIN BOSS

The **Twin Boss** is especially adapted for farmers and dairymen who get more than 10 gallons of milk at a milking. A milk vessel that holds more than 10 gallons is hard to handle and will not produce as good results as smaller ones.

We would also recommend **The Twin Boss** to those who prefer a Separator with two milk vessels, so that one can be used in the morning and the other in the evening. This method has many advantages over the Separator with the single milk vessel.

No.	Height.	Length.	Width.	Weight.	
22 two 2½ gal. milk vessels	18 in.	24 in.	13 in.	27 lbs.	\$15.25

210 two 10 gal. milk vessels	28 in.	30 in.	18 in.	46 lbs.	22.60

THE TRIPLE BOSS

Too much can hardly be said in favor of the **Triple Boss**. It is fast getting to be our best seller and from all indications is the machine of the future. With two milk vessels, one for the mornings' and one for the evening's milk, a cream can to keep the cream in the best condition for making first class butter and room enough back of the cream can to set another vessel, in which to keep the butter during hot weather, it is certainly all that one can desire in the line of a Cream Separator.

Get another vessel in which to keep the butter during hot weather, it is certainly all that one can desire in the line of a Cream Separator.

Self Retaining Tube, 25c.

MINNETONA HOME CREAMERY

CHURNS
THE BUTTER
AND
WORKS IT.

The Minnetona process of churning is the most efficient method of agitating the cream during churning yet discovered. It works on the same principle that is used in some of the most modern and approved big creamery churns.

Style No. 1-H hand-power plant; churning capacity, 12 to 15 gallons; working capacity, up to 25 pounds butter.

The style No. 3 is a very good size for dairy farmers wanting to make butter once or twice a week by hand, and having from five to fifteen cows.

No. 1 H. P. Minnetona Home Creamery; hand and power. Churning capacity, with barrel half full, 12 gallons. Working capacity, 3 to 20 pounds. Can be belted to your gasoline engine. Pulley, 8 x 2 1/4 inches. Speed, 200 R. P. M. Floor space required, 2 ft., 8 in. x 2 ft., 7 in. Shipping weight, 210 pounds.

IT WORKS THE BUTTER PROPERLY AND QUICKLY

Cross section view of Minnetona Home Creamery, showing how the butter is worked between two rolls.

Here is another feature wherein the Minnetona is way ahead of the old-fashioned farm churn. The working is done in the barrel after the churning and washing are finished. The butter-fat particles are all gathered together and thoroughly worked between the main roll in the center of the barrel and the small idle roll at the end of the basket. The main roll revolves when the working gear is thrown into place. The whole job is done with a few revolutions of the barrel.

	Factory Number	Churning Capacity With Drum Half Full	Butter Working Capacity	Shipping Weight	Style	Price

Additional for Tight and Loose Pulley, 12x3, with attachments \$10.50.

THE STURGES STEEL CHURN

Sanitary—Easy to Clean.

They are steel (not a piece of wood about them). The Churns are mounted upon a strong welded steel base, so that with ordinary care they will last a lifetime. Being steel, they will not absorb moisture, so cannot become soaked. The inside is all smoothly and heavily tinned, so they can be easily cleaned, and there is no place for microbes to lodge. No seams to open up or hoops to drop off in the sun.

No. 1—5-gal. Churns, 1 1/2 to 2 1/2 gal.....	\$ 8.50 each
No. 2—7-gal. Churns, 1 to 3 1/2 gal.....	10.25 each
No. 3—10-gal. Churns, 1 to 5 gal.....	11.25 each

Reid's Self-Gauging Butter Printer

Prints butter very neatly and quickly. Weighs into pounds or half pounds as desired. Does it in one-quarter the time it can be done by hand, making prints of uniform weight. Moulds are square.

Both pound and half pound combined... **\$23.00**
 Either pound or half pound..... **18.00**
 Extra for initials and monograms..... **1.50**

MILK BOTTLE BASKET

These baskets are made from the best grade of flat and round steel wire. The welded joints make them the same as one piece, hence, all strain and shocks are distributed over the entire body.

No rivets being used in its construction, there is no part to get loose and at the same time is not weakened by rivet holes.

It has no crevices in which dirt can collect consequently it is easy to clean and sterilize.

6 bottles	\$1.75
8 bottles	2.00

DOMINION DAIRY AND HOUSEHOLD CLEANSER

An improved cleanser and purifier for all dairy and household purposes. Just the thing for Churns, Pails and anything used in dairies. For household use, laundry work, all kitchen use, house-cleaning, public buildings, hotels and factories.

Dissolves with greatest ease in either hot or cold water, and rinses off perfectly clean without leaving a soapy scum. **Price:** 5-lb. bag, 35c.; 25-lb. bag, \$1.50.

MILK BOTTLES

These bottles are made by a factory devoted especially to bottle making. The glass is clear flint. This makes a bottle that the milk shows up to the best advantage. They are made to stand the rough usage of the street delivery and collection on routes, and washing and sterilizing in the dairy house. These bottles are made with a long neck, and will show a deep cream line. Prices named are for bottles F. O. B. Baltimore.

If you desire name plates, same can be put on any order of five gross or more of one size, at an additional cost of \$2.50 for each name plate. Each size bottle will require a different plate. On second orders, there will not be any extra charge for lettering.

The "FROST KING" Steel Frame Single Motion Freezer

Is a single-motion freezer, and is accordingly sold at a lower price than our other makes. It is, however, of exactly the same high-grade construction. The mechanism is very easy to operate, and the can being of the narrow-model type makes the freezing very rapid. The operation of this freezer is extremely simple. The wood

scrapers on the dasher press automatically against the sides of the revolving can. These remove the frozen cream and throw it to the centre where the spoons on the beater mix it with the cream still unfrozen and return the whole to the sides to be refrozen. The "Frost King" Steel Frame freezer will produce a rich and evenly frozen

ice-cream in about three minutes.

Sizes.....	2-qt.	3-qt.	4-qt.	6-qt.	8-qt.
Retail Prices.....	\$2.80	\$3.35	\$4.10	\$5.20	\$6.90

"SNOW BALL" Freezer

Has three motions. The can revolves from right to left, the outer beater from left to right, the two wood scrapers removing the frozen cream from the sides with the unfrozen cream in the center, and throws all back to the side to be again frozen and removed by the scrapers. The continuous action of the can and two beaters

moving in opposite directions keep the cream ever changing position, producing in about three minutes a very smooth, well-beated, velvety cream. Virginia white cedar, bound with electric welded wire hoops. Fitted with new cross bar lock and reinforced cross bar.

Sizes.....	2-qt.	3-qt.	4-qt.	6-qt.	8-qt.

All Double Door Heaters measure 7 feet 11 inches from base to register, but extension pipe telescopes, so as to fit without cutting, as low as 6 feet 11 inches. Special measurements can be furnished to order, when distance from basement floor to top of first floor is given.

INTERNATIONAL ONEPIPE HEATER

THE ONEPIPE or, as termed by many manufacturers, the "pipeless" heater is the most modern development of the warm air heating system, and we unhesitatingly recommend the **INTERNATIONAL ONEPIPE HEATER** as one of the most practical, durable and efficient heaters of this type on the market.

INTERNATIONAL ONEPIPE HEATERS are adapted to many city houses as well as to country homes. They are especially efficient in bungalows and the square type two-story houses with open stairways. They are ideal for heating churches, stores, etc., because of the recirculating feature which takes the cold air from the floors. Because of their low installation cost they are frequently placed in summer camps and cottages that are occupied in spring and fall, and for week-end parties in the winter.

The **INTERNATIONAL ONEPIPE HEATER** is simply a device for heating the air and causing it to circulate through the rooms. It is essentially the same as a regular **INTERNATIONAL Warm Air Furnace**—not a stove, but a furnace, properly designed to get the greatest benefit from the fuel burned, and all parts carefully mounted and fitted. Surrounding this are two casings, an inner and outer casing, and on top you can see the register.

This heater uses only the one large register, which is divided into two parts. It is a well-known fact—as old as nature itself—that air when heated expands and rises. As the warm air pours up through the central portion of the register it goes at once to the ceiling of the various rooms and floods the whole house with warmth.

This warm air displaces the cooler air, which falls to the floor and is then drawn down through the outer portion of the same register, between the outer and inner casings, and is then rewarmed and recirculated.

As the space between the outer and inner casings is always filled with the cooled air returning to be heated, an **INTERNATIONAL ONEPIPE** positively does not heat the cellar.

These sizes have single feed door.

COLDWELL'S LAWN TRIMMER (Ball Bearing)

Coldwell's Lawn Edger has in its construction several noteworthy features, the principal of which is the ball-bearing adjustments. The adjustment of the bearings is accomplished by means of a single screw, a locking screw holding them securely in place. The large diameter drive wheel, together with the large diameter revolving cutter, cause it to run particularly easy and prevent it from choking when cutting high grass. It is equipped with fine cut gears, sliding pawl ratchet, the best tool steel bottom knife, and is made to meet the demand for a really first-class lawn trimmer.

Height of Drive Wheel, 8 inches. Number of Blades, 4. One size only—8 inches. Price, \$12.00.

TOWNSEND'S TRIPLEX LAWN MOWER

This mower is much lighter than the ordinary horse lawn mower, but cuts three times as wide a swath.

One man and one horse, with a Triplex, will cut more grass in a day than three men and three horses with the ordinary horse lawn mower, thus saving the additional extra cost.

The Triplex consists of three large mowers yoked together, two abreast in front, and one in the rear, the two in front being placed so as to leave between them an uncut swath just as wide as the rear one can cut, lapping two inches on each front mower, thus cutting a clean swath 86 inches wide.

The machine has great flexibility. There can be no cramping. Any one mower may be cutting over a knoll while the second mower may be cutting on the level and the third may be paring a hollow. On hilly ground it shows its qualities to perfection. It holds to a side hill, where the ordinary mower or the motor mower will slide down sidewise.

It is extremely light draft, and easily controlled. Three levers at the driver's right enables him to lift any or all of the cutting apparatus from the ground to avoid obstructions, or in going to and from the field.

Price.....\$425.00

HORSE LAWN BOOTS

Fastened firmly to hoof instead of around ankle, giving free action to horse's feet. Rolling toe prevents cutting of turf. Width inside, No. 2, 5½ inches; No. 4, 6½ inches; No. 6, 7 inches—the right sizes for Nos. 2, 4 and 6 horse-shoes. No. 0 Mule and No. 1 Pony. Special sizes to order. Width inside, 4 inches; 4½ inches.

Our Special Price, per set, \$15.00

BALTIMORE HORSE LAWN MOWER

The Baltimore Horse Lawn Mower is made of best material; most satisfactory adjustment of knives; strong and durable; open castor wheels which do not press down the grass; heavy roller, which is a necessity to keep the lawn in good order; simplest and strongest machine in construction on the market, and most economical as far as repairs are concerned.

It is made with shafts and seat, and also with draft rod. For hilly lawns, we recommend shafts and seat, but for level lawns with many trees and shrubbery, we recommend the draft rod, as it enables the driver to work the machine close to them. See it work, and you will be convinced that it is the most practical machine made.

LAWN MOWER REPAIRING AND SHARPENING

OUR well-equipped shop and competent mechanics, that have been repairing and sharpening lawn mowers for years, assures you of a first-class job. In a season we repair many hundreds of lawn mowers, and as most of them have to be repaired and sharpened before the first grass mowing, you will readily see the necessity of sending your mower in early. During the early season we run our repair department many times at night that we might give our patrons prompt service.

Our repair department does not confine its operation to sharpening and repairing lawn mowers only. We are in position to do general repair work and solicit your patronage in other lines of work.

For your convenience, look over your lawn mower during the winter and send it in during the late winter months. This will give our mechanics ample time to give it the attention required, and will save you the possibility of being inconvenienced by having to wait your turn later on.

WATER BALLAST LAWN ROLLER

filled with water to any desired weight. It can thus be regulated to suit soft turf, firm lawns or driveway, tennis court, etc. It can be emptied for storing away, making it light and easy to handle. The drum is high carbon steel with all seams electric welded. Edges are rounded back to prevent cutting of lawns, courts, etc.

The axle is mounted on roller bearings, making the roller run very easily.

STEEL LAND

ROLLERS

The above cut represents our **Three-Section Land Roller**. Heretofore attempts have been made to construct an all-steel roller, with the result that the steel brackets employed in this construction invariably allowed the rolls to get out of alignment, thus quickly wearing out the boxes. To avoid this tendency, we have substituted heavy iron brackets to support the bearings and which entirely surrounds them. This construction insures true alignment and eliminates constant expenditures for repairs and replacing boxes. An additional feature of this roller is the blocking in of the frame under the pole with a 4-inch hard wood block. This construction gives the roller perfect rigidity and absolutely springing of the steel frame when turning around, crossing dead furrows, etc. It is further braced with steel braces from the frame to the pole, which not only adds strength to the roller, but prevents breaking of the pole.

The Drums are 24 inches in diameter, made from extra heavy hard steel sheets and are not easily indented. The ends are made from pressed steel and fitted with heavy cast bearings which allows each roll to turn independently.

The shaft is 1B-inch high carbon steel.

WITH POLE

GRITCO DOUBLE GANG PULVERIZER

In presenting this **Double Gang Pulverizer**, we wish to call special attention to the construction of the end brackets, which are so constructed as to allow the trailer to raise and fall with the variations of the soil, thus insuring an even pressure from both gangs at all times.

The trailer is detachable, by removing four bolts, thus making a single pulverizer where lighter work is required. The trailer is so arranged that the cutting edge of each disc comes between two of the front ones, thereby pulverizing the entire ground and leaving it thoroughly packed in small ridges, thus retaining the moisture.

This pulverizer is furnished with hard maple bearings, housed in, which will not cut out by grit and oil, as do most of the so-called roller or other metal bearings.

GRITCO PACKER AND PULVERIZER

If you own a tractor, this Packer and Pulverizer will recommend itself to you. It is made like the smaller sizes, except parts are heavier and stronger. Braces are long and strong, and are bolted through the short tongue in front of the draw bolt on the clevis. A ring is provided to hitch to draw pin on tractor.

This machine will do more real work in putting the ground in order than any other machine on the farm.

ORNAMENTAL GALVANIZED LAWN FENCE

The Style F Lawn Fence is considered by us the most attractive and most practical pattern made by the factory, and we catalogue this style exclusively. The manufacturers make a number of other styles, special circulars of which we will be pleased to send you on application. The characteristic features of this Fence are the careful uniformity of the weaving, the full-gauge wires which are used, the extra deep crimping of picket wires, which adds greatly to the beauty and strength of fence, the secure manner in which these pickets are locked in the double cable wires and the general strength of the whole fabric. The wire is carefully selected and all of these features count for the extra lasting qualities of this Fence. The lawn, the yard and the home are given the appearance of comfort and attractiveness by the use of a first-class wire fence, and from a sanitary and healthful standpoint, a wire fence is far more desirable than the old style board fence.

Style F Lawn Fence is made of No. 9 heavily galvanized wire spacing between uprights at the bottom, being 1 3/4 inches, and at the top 2 1/4 inches; the cables are of heavily galvanized wire, spaced about six inches apart, except the two at top, which are spaced 2 3/4 inches apart; furnished regularly in rolls of 10 rods, or 165 feet. Any length cut to order.

PRICES OF STYLE F FENCING.

Height.	List, Per Ft.	Our Price.
30 inches.....	20c.	16c.
36 inches.....	22c.	18c.
42 inches.....	24c.	20c.
48 inches.....	28c.	23c.

These prices are for the fence fabric only, and do not include posts. For prices of complete fence see below.

ORNAMENTAL GATES **STYLE F**

The frames are made of high grade heavy steel tubing, and are regularly finished in black paint, although galvanized frames can be furnished at an additional cost. Black-painted frames are always shipped unless otherwise specified. Filling of these gates is the regular Style F Fence Fabric, described at top of page, and as shown by illustrations, the gates have ornamental scroll tops. In giving the dimensions of gates, state first the height and then the width. The width of these Gates means the distance between the posts. The factory makes proper allowance for hinges and latch.

Perfection Flower-Bed Guard and Lawn Border.

This flower-bed guard is 16 inches high. Has 4 cables, which are made of two No. 12 1/2 wires. Has No. 9 crimped uprights. All heavy galvanized pickets project for insertion in ground. Requires no posts. Can be cut to length to any bed. It provides protection against dogs and chickens.

List Price, per foot, 13c.

OUR SPECIAL PRICE, 11c.

U. S. FIELD FENCE

U. S. CATTLE AND DIVISION FENCE

The illustration at the right shows the U. S. Poultry and Garden Fence, and the U. S. Poultry Fence is built of the same grade of wire as is used in the U. S. Field Fence, but of lighter gauge and the same excellent wrap is used. It is an ideal fence against poultry and small animals. The spacing is graduated from 1 1/2 inches at the bottom to 5 inches at the top, as shown by the illustration and the distance between the stays or uprights is 6 inches. We carry this fence in stock in the styles mentioned below. It is very extensively used as a protection for poultry yards, gardens and orchards. It meets the requirements; therefore it is a great favorite. Furnished regularly in rolls containing 10 rods or 165 lineal feet.

AMERICAN CLOSE-MESH HOG FENCE.

Where a very close fence is wanted for hogs, we recommend this style. It is made with No. 10 top and bottom wires, No. 12 intermediate wires and No. 13 stay wires. It also makes an excellent barnyard fence, as the spacing of the lower wires is close enough to turn small stock and poultry, with the exception of the smallest chickens.

SAMPSON WOVEN WIRE STRETCHER

This stretcher answers perfectly the demand for a first-class woven wire stretcher of sufficient strength to sustain any pull with enough power to stretch any length of fence desired. The **SAMPSON** fits the case exactly for it is strong enough to stand any strain necessary to make the fence snug and tight.

Handle is 5 feet long, clamping bars 4 ft. 6 ins. long, both of hard wood. Eight feet of tested chain with each stretcher.

Weight, 35 pounds. Price.....\$8.00

THE "NEVERSLIP" STRETCHER

The **Never Slip Stretcher** has no teeth to cut or injure wire. Simple and strong in construction. Has hickory handle and malleable jaw. One man operates it, and both hands are left free to drive staple. Price without staple puller, \$1.00; with staple puller, \$1.25.

GALVANIZED STEEL FENCE POSTS

CHEAPER THAN WOOD AND MORE DURABLE GALVANIZED INSIDE AND OUT

These posts are neat, strong, durable and easy to erect. They will give you much more and better service than can be expected of wood posts because all being alike in size and quality of material, you get benefit of every post in the fence from year to year, while wood posts rot and decay. The line posts are strong enough to hold up any wire fencing, and furnish all necessary resistance. The end and corner posts are so strong that they will maintain any wire fence made.

GALVANIZED STEEL WIRE CLOTH

Made from heavy wire thoroughly galvanized after weaving. This insures long life, as every part of the wire is coated by the dipping process.

Used largely in corn cribs to make them mice and rat proof, also for sieves and fan screens and over windows for protection.

We carry it in stock in widths 2, 2½, 3 and 4 foot.

The word mesh means number of meshes to the inch (2x2, 2 to the inch; 4 x 4 mesh, 4 to the inch, etc. Full rolls contain 100 running feet.

	Full Rolls.	Less Than Full Rolls.
2x2 Mesh, per sq. ft.	\$0.06	\$0.07
3x3 Mesh, per sq. ft.	.06½	.07½
4x4 Mesh, per sq. ft.	.07	.08

Banner Poultry Fence

Banner Fence meets the demand for a closely woven fence heavier than the light poultry nettings. The spacing between the six line wires at bottom of fence is only 1½ inches and gradually increased to 3½ inches at top, so the essential feature of a satisfactory poultry fence—closeness of mesh—is well taken care of in this fencing. The upright wires or stays run continuously across the fence and lock firmly around the intersecting line wires in a loop knot, forming a smooth, solid joint without any sharp, rough edges. Top and bottom wires No. 15; all other wires No. 17 gauge, hard steel, thoroughly galvanized.

HOUSEHOLD LUBRICANT OIL

This very fine oil is put up in small oil cans, $\frac{1}{2}$ -pint sizes, very convenient to use. It is especially adapted for use on sewing machines, lawn-mowers, hinges, locks, in fact everything about the house that needs lubricating.

$\frac{1}{2}$ -pint cans.....	\$0.20
-------------------------------	--------

Albany Grease or Hard-Oil

Every grease cup, axle cap and ball and roller bearing on your car should be filled with Albany Grease regularly. If you want a finely running car, with no danger of bearings burning out, always use Albany Grease. In the Spring, Fall and Winter use No. 0 or No. 1.

In the Summer, use No. 3 or No. X to secure best results. Albany Grease is packed in 5-10 pound cans.

5-lb. pkgs.....	\$1.25
10-lb. pkgs.....	2.50

HARVESTER OIL

This oil is put up expressly for use on farm implements, Mowers and Binders and all tools on the farm should not be neglected, and care should be used to select an oil especially adapted to the needs of such machines. Many machines have been ruined by using oils that were too heavy or too light.

We strongly recommend the use of this oil.

1-gallon cans.....	\$1.00
5-gallon cans.....	4.00

G. & T. CO.'S PERFECTION SEPARATOR OIL

This oil is put up expressly for the use of separators, and we recommend it to users of all hand machines, it being a light oil and having a very low cold test.

Cahoon's Broadcast Seed Sower

For sowing Clover, Timothy, Millet, Oats, Wheat, Hemp, Barley, Rye, Rice, Buckwheat, etc. Standard Seeder of the World—A Model for Accuracy and Durability—Malleable Iron Frame—Steel Hopper and Gate—Brass Discharger.

The breadth of the cast will be according to the weight of the seed. Wheat and Rye, 30 to 36 feet. Oats, 21 to 25 feet. Barley, 27 to 33 feet. Clover, Millet, Hungarian Seed, 20 to 24 feet. Hemp, 27 to 30 feet. Timothy, 15 to 18 feet.

OUR SPECIAL PRICE, \$6.00. Parcel post Weight, 8 lbs.

The Original Improved Cyclone

It differs materially and very advantageously from all other Sowers in having a slope feedboard with an oblong hopper which terminates in a metal edge, on which edge oscillates a feed plate which does not allow the seed to become clogged, but makes a positive force feed and insures a uniform flow desiring a convenient, practical and an all-round first-class grain and grass seeder, a good, large sower that will meet the most exacting demands, we cannot recommend the **CYCLONE** too highly.

PRICE, \$2.50. Parcel Post Weight, 6 lbs.

Meeker Smoothing Disc Harrow

Steel Disc. A perfect Harrow and Land Roller Combined.

The frame measures 6 feet 8 inches by 6 feet, and has four sets of rollers, having 58 discs, 8 inches diameter on them. The discs grind all the lumps so fine that the seed must come up, leveling and leaving the land fine and smooth, and doing its work far better than the rake.

Our Special Price.....\$37.00

PRICES CLIMAX PLOWS.

PONY—Light, 1-horse, 7-in. cut, wood beam; very popular. Price with extra steel point; weight, 37 lbs., \$6.30.

A. O.—1-horse, 8-in. cut, wood beam. Price, with extra steel point; weight, 41 lbs., \$7.00.

B. O.—1-horse or light 2-horse, 9-in. cut, wood beam. Designed for either stubble or light sod, doing both kinds of work in the most satisfactory manner; very light draft. Price, with extra steel point; weight, 43 lbs., \$8.00.

C. O.—2-horse, 10-in. cut, wood beam. Price, with extra steel point; weight, 63 lbs., \$10.80.

D. O.—2-horse, 11-inch cut, wood beam; it turns its furrow slice perfectly. Price, with extra steel point; weight, 66 lbs., \$12.30.

Thompson's Clover and Grass Seeder

Sows 14 to 16 Feet Wide, Any Amount Desired Per Acre. Will Sow 20 to 25 Acres Per Day.

This Grass Seeder is simple, without gearing, cams or intricate machinery. It cannot get out of order.

Perfection feed is attained in making it absolutely positive, yet a non-leaking carrier, when thrown out of connection. The quantity of seed to the acre is accurately shown by the index plate.

It is strong, yet weighs but 40 pounds.

No. 1—Complete Clover and Grass Seeder, the most popular style. **14-foot, \$13.60. 16-foot, \$14.55.**

No. 5—Complete Seeder, with Double Hopper, sows Red Top, Orchard Grass, Blue Grass, Lawn Grass, as well as Clover. **14-foot, \$16.50.**

MANILA ROPE FEEDER.

GRITCO No. 9 LAWN GRASS SEEDER.

Made especially for handling Lawn Grass Mixtures. These mixtures are generally composed of different kind of grasses, and the regular seeder will not handle them.

No. 12—14 ft., double hopper.....16.50

LIGHTNING SEED SOWER

Cheap, durable, weighs only 12 oz. Simple; no repairs.

Will spread seed evenly from 30 to 40 feet. Method of sowing is by swinging tube in horizontal position from right to left which closely resembles the old method by hand. Gives control over seed on a circle of 8 feet before it leaves the tube and the wind has no chance to blow seed into bunches before it strikes the ground.

PRICE, \$1.00.

Parcel Post Wt., 1 lb.

CLIMAX STEEL PLOWS

All are made with steel standard and cap, sloping landside and adjustable slip heel.

OLIVER TRACTOR PLOWS

No. 78

No. 78—Two-Bottom Plow...\$128.75
No. 78—Three-Bottom Plow...163.50

No. 78—THREE-BOTTOM PLOW.

The Oliver No. 78 Tractor Plow is the plow which has become so popular with the tractor manufacturers because of the quality work that it does.

The Oliver No. 78 Tractor Plow is a power lift plow, having features which are found only in this plow. The No. 78 can be changed from a two to a three-bottom plow easily and quickly. When plowing conditions are hard and the tractor power limited this plow can be used with two bottoms. Under favorable conditions the third bottom can be added and maximum results obtained from the available horsepower.

The levers of Oliver Tractor Plows are within easy reach of the operator on the tractor seat. When used with a standard light tractor they make a perfect one-man outfit.

EVEN DEPTH PLOWING

A stop device on the land wheel axle controls the plowing depth. By setting the lever at the depth desired the stop will keep the plow working at that depth at all times. The bottoms cannot penetrate deeper. This is of special advantage particularly when plowing for the sowing of Fall crops because the even depth assures a better condition of the seed bed. It is an advantage from the tractor standpoint, because it keeps the plow from digging in where the soil is soft which would have a tendency to stall the tractor.

OLIVER No. 1

GANG PLOW

The beams are landed at an angle to the furrow to provide a center draft. This construction distributes the strain evenly along both beams and entitles the plow to the merited and distinguishing name of "The Center Draft Gang Plow." It gives a natural draft and makes effective every ounce of mental in the beams.

Wheels are large and the plow runs steadier in consequence. Is fitted with dust and sand-proof boxes and caps. Plows two to ten inches in depth as desired at will of operator.

No. 1—Gang Plow, Steel or Chilled Mouldboard, Chilled Shares, Combined Rolling Coulter and Jointer, Weed Hooks, Four-horse Evneer and tongue. Our Special Price **\$113.20**.

No. 1—Gang Plow, same as above, but with Jointers only. Our Special Price, **\$107.20**.

OLIVER SULKY

PLOW No. 11

Light, durable and effective. Simple and novel device for turning. Plows the most difficult soils and does it well. Can be used with or without tongues. Depth easily regulated. Turns square corners without lifting out of the ground. Made in both right and left hand.

No. 11—Sulky Plow, Steel or Chilled Mouldboard, Chilled Share, Rolling Coulter and Jointer combined, Weed Hook, less Tongue and Neck Yoke. Our Special Price, **\$60.00**.

No. 11—Sulky Plow, same as above, but with Jointer only. Our Special Price, **\$58.00**.

Oliver Reversible Sulky Plow No. 23A

This reversible sulky plow is more easy to manipulate than any other on the market and more convenient and safe for the operation in hill-side work. By means of the power lift, operated by a foot trip when riding, or a hand latch when walking, this "horse lift," which is brought into play by simply pressing forward slightly on the foot trip the operator's work is diminished by fully one-half.

Sulky with Chilled Shares, Jointers and 2 or 3-Horse Hitch. Our Special Price, **\$92.75**

The Martin Farm Ditcher and Terracer

Specifications:
Landside 10 inches x 3/4 inch x 9 1/2 feet, Bessemer steel. Rear guide fins, crucible plow steel. All steel stationary foot-board built in to center of landside. Goose-neck clogless hitch. heavy steel forging extends from draw bar to center of cutting blade. Steel rail handle to control cutting blade. Rolling coulter in front.

Model 20, Stand-ard Double Edge Cutting Blade, Steel Beam, reversible. No. seat. 2 to 4-horse, **\$65.00**.

Model 20-B, Like Model 20, but smaller; for 2 horses. Price, without seat, **\$60.00**.

Seats, extra, **\$3.50**
Road Drag and Snow Blade for any Model, extra, **\$11.00**

This distributor is designed for broadcasting lime and ashes, and it will distribute in drills or rows when supplied with an extra feed plate especially punched according to the width of the row.

The amount of lime this machine will sow to the acre depends somewhat on its weight per bushel, as well as its condition, but the 13 notches of feed opening average to spread from 250 lbs. per acre at the lowest notch to 3550 lbs. at the highest notch.

Special features make this distributor lead all machines of its kind and work where others fail.

O. K. Champion Potato Planter No. 25

Has a seed-dropping device consisting of the endless-cup system, one which is recognized as the most accurate. The seed is picked up and deposited on a dial plate which is equipped with pockets for the reception of the seed pieces, where any correction necessary can be made, insuring absolutely one piece to every hill. Tests have proven that this machine will plant absolutely 100 per cent. correct. The cups are adjustable and permit the distance of dropping

perfect planting for large or small pieces. are 12, 15 and 18 inches.

This machine can also be converted into an automatic planter. This planter embodies all requisites necessary to make it a durable machine, and in construction it is very simple.

Weights with fertilizer attachment about 600 pounds.

O. K. Champion Potato Digger

List Price, \$216.00

Our Special Price, \$125.00

Weight 600 Lbs.

Send for Special Catalogue

The O. K. Champion Digger with its many superior features commends itself to the careful buyer. It has stood the test of years and has many times proven to be the victor in the Potato Field over all competitors. Its construction empodies all the essential features which make it absolutely reliable. It is built with a view to simpleness, doing away with all unnecessary wearing parts, which accounts for its easy draught. Two horses will do the work with ease. There is no chain drive to cause friction and wear; only two gear wheels are employed on the entire machine.

The shovel is 20 inches wide, scooping up that width of ground and potatoes, depositing them on the elevator separating apron, whose links are alternately raised and lowered.

Nisco Transplanter

A Transplanter of unusual merit, that will set the plants right. Adjustable to every condition. **Our Special Price, \$125.00.**

O. K. Champion Potato Cutter

LIST PRICE, \$14.00.

OUR SPECIAL PRICE, \$8.00.

Gem Seed Potato Cutter

The construction of the Gem Seed Potato Cutter is very simple, and is built for accuracy as well as convenience. It is strong and durable; the knives are of good quality steel and are fitted to grooves in frame, making them easy to remove if necessary. It will cut any size potato in pieces uniform in size, thereby insuring more accurate planting when power planter is used.

Size, 24 inches long, 8 inches wide. Weight, 8 pounds.
List Price, \$8.00. OUR SPECIAL PRICE, \$5.00.

Master's Rapid Plant Setter

All kinds of Plants, such as Cabbage, Tobacco, Tomatoes, Cauliflower, Strawberries, Sweet Potatoes, Sugar Beets, etc. The only Hand Mechanical Plant Setter on the market; is built on scientific principles throughout. Its conical jaws are made of heavy sheet steel and the main body or water reservoir and plant tube of heavy tinned plate. The water valve is of brass with rubber packing. The valve rod and trip spring are of steel wire; thumb button and other fittings are also of brass. The machine is well put together with rivets and solder and should last for years.

Price, each.....\$6.00

Acme Tubular Hand Potato Planter

THE LIGHTEST TUBULAR PLANTER MADE.

Its spring-closed jaws are especially designed to enter the sod easily, yet open wide enough to drop the largest seed. The dropping lever or dump is adjustable for any depth of planting. The conveyor tube is galvanized iron.

OUR SPECIAL PRICE...\$2.00

Directions for Using.—Walk erect, plunge planter into the soil, press forward as you withdraw it; seed is left in moist soil, not dry, as is usually the case when seed is dropped by one man and left to be covered by another.

Bickford & Hoffman Grain Drill

WRITE FOR PRICES.

Both the grain and fertilizer are positive force feeds, and will sow with absolute regularity any kind of grain, or fertilizer in good condition. The grass seeder is also a force feed, and can be used either in front or rear of the hoes; also quantity can be changed to any amount necessary. It is fastened on the frame, and very low down, thus preventing the wind from blowing the seed away before reaching the ground. The fertilizer feed can be stopped or started at any time while the drill is in motion, which makes it convenient in case the operator does not wish to sow fertilizer while going over the ground.

GRAIN DRILL TUBES

Plain Top.

IN ORDERING TUBES it is always best to send an old tube as a sample. If that cannot be done, be sure to state name of Drill, the kind of Tube, whether ring flange or plain top, or special bell-shaped top with straps, and by all means the length and diameter at top and bottom.

Plain Tubes, each.....	.35c.
Bell Top Tubes, with strap, each.....	.60c.

Grain Drill Points

We are one of the largest distributors of GRAIN DRILL POINTS AND TUBES in the Country.

For All the Leading Grain Drills.

IN ORDERING POINTS, either send an old one or give name of Drill, length of point, and be sure to give distance from center of hole to end of point. It is always best, if possible, to send an old sample.

Price, Points, each.....	18c.
--------------------------	------

Perfection Corn Grader

NO ONE WHO PLANTS CORN CAN AFFORD TO BE WITHOUT A CORN GRADER.

over by the Experiment Stations and by thousands of farmers.

DOUBLE SCREEN,

List Price, \$28.00 Dozen. Our Special Price, \$1.50 Each.

Every farmer now knows his seed corn should be graded. No planter will drop right with ungraded seed.

Graded seed insures perfect dropping, stronger plants, and increases the yield 5 to 15 bushels per acre. This has been proved over and over by the Experiment Stations and by thousands of farmers.

Strong, light and durable. A half-dozen tools in one. Runs steadily and cannot be choked. Adjustable throughout. Broad runners of wrought T-angle iron with rib to prevent sliding on side hill. Revolving discs or furrows, with chilled hub and steel axle.

PRICE, \$27.50.

Neck Yoke and Whiffle Trees, \$6.00.

GRITCO-B

Furrower and Marker

Three Row Shovel Marker
\$15.00

The Gritco Wheel Marker

The Marker will open rows from 2 to 6½ feet. By the use of the lever they can be opened any depth desired.

The Marker is light draft and easily controlled. It can be used for laying off rows, listing or covering. The Marker is equipped with marker pole, doubletrees and neckyoke. Price.....\$40.00

Gritco Hand Corn Planter

In the Gritco there is no chance of cracking the corn, beans or other seed, because of the Chinese bristle brush cut-off. The stamped steel slide is formed on a segment of the circle, whose center is the pivot of the blades. Slide quickly adjusted for different sized seeds. Galvanized iron hopper.

List, each, \$2.25. Retail, each, \$2.00.

Acme Hand Corn Planter

ITS ROTARY SLIDE has a motion two ways—back and forth. It prevents skips. No matter how short the stroke, the pocket is pushed into the corn and back into the conveyor tube.

This motion is positive. It breaks up all bridging and fills the pocket uniformly—it counts the kernels for each drop.

List, each, \$3.50. Retail, each, \$2.50.

Check-Rower Wire

FOR ALL THE LEADING PLANTERS.

Carry in stock the following sizes:

3 ft., 3 ft. 2 ins., 3 ft. 4 ins., 3 ft. 6 ins., 3 ft. 8 ins., 3 ft. 10 ins. and 4 ft.

The above comes in 10, 20, 40 and 80-rod rolls. Per Rod, List, 10c. RETAIL, 8c.

"GRITCO" One-Horse Combined Corn & Cotton DRILL No. 4

The "Gritco" No. 4 Combined Corn and Cotton Drills are sure to satisfy the operator, because these Drills are sure drop-pers, accurate spacers, very simple, easy to operate and especially strong and durable.

The illustrations give a very good idea of the Runner "Gritco" No. 4 Drills, which can be had with or without force feed and fertilizer attachment.

A special cotton sowing device is furnished for this Drill, which handles cotton seed very accurately, being easily attached by removing the cast ring bolted to the bottom of the hopper, the corn plate and cap, and substituting the ring and plate for cotton seed. This gives a combination drill of unusual merit, since the buyer has the advantage of being enabled to use any of our special seed plates listed for the "Gritco" No. 4 Corn Planter.

Can furnish the No. 4 Planters in either Edge or Flat Drop.

Plain Planter.....
 Planter with Fertilizer Attachment.....
 Cotton Sowing Device.....

**Planter
with Fertilizer
Attachment.**

"GRITCO" Combined Disc Corn and Cotton Drill No. 5

Double Discs are used to open the furrow. Discs are mounted upon chilled journals, which are attached to the tube that receives the seed. The convex sides of the discs press open the furrow as the Drill is moved forward, making a seedbed as perfect as could be desired.

The seed after dropping from the plate in full view, is conducted down through the cast spout or tube and deposited between the discs at the bottom of the furrow. Every seed is in plain view of the operator until it reaches the bottom of the trench. The operation of the discs in opening up the furrow is very satisfactory.

**Planter with
Fertilizer Attachment
showing turn over
Fertilizer Hopper.**

The device for sowing cotton seed with the "Gritco" Combined Corn and Cotton Drill No. 5 is interchangeable with the regular corn dropping mechanism, making a combination drill of unquestioned merit. There is ample provision, by means of projecting lugs and wrought standards, for thoroughly agitating the seed in the hopper, thus assuring proper filling of the cells. **Plain Planter, Planter, with Fertilizer Attachment, Cotton Sowing Device,**

No. 11,
Steel Frame,
Price,

GRITCO CORN HARVESTER

Automatic Knife Guard gives absolute protection to operators. Simple, thoroughly effective, never fails to work instantly. Mechanism extremely simple. Front lever is connected with a plate of steel under the wing which projects beyond all parts of knife. While at work operator holds down with his foot the lever which draws the guard in.

The Wings are independent of each other; quickly raised to pass obstructions. Knives are best grade tempered steel, making an upward shear cut.

The frame is 28 inches wide; extreme width at widest point of knives, 63 inches; adapting machine to widest or narrowest rows. Frame can be raised or lowered at both front and rear.

Safety Shafts turn freely in any direction and provided with a stop which prevents horse from turning further than necessary. Seats are independent, each one being quickly raised or lowered.

Corn Planter Runner

In ordering Planter Runners always state, as near as possible, the year Planter was made; whether steel or wood frame; or, better still, a diagram showing position of hole and size of bend.

Planter Runner Shoe

Intended for use on most old worn-out runners where a new runner cannot be obtained, and it will answer the purpose, but where new runners can be had it is much preferable.

Per Pair, List Price, \$3.00. Our Special Price, \$2.00.

Twelve Reasons Why You should Use the BLACK HAWK Corn Planter

1. It has the most positive and simplest variable drop. Why? The only means necessary to impart the movement is a simple, **chilled pinion**. We have eliminated the use of springs and cams which are found necessary in many other planter drives.
2. A distinctive feature found only on the Black Hawk is the impulsive movement which allows the plate to rest over the seed spout while depositing **each grain of corn**.
3. The impulsive movement will plant 5 per cent. **more perfect** than any other drive mechanism.
4. No matching or timing necessary in changing seed plates. **Drop** in the plate which finds its own position.
5. No danger of a butt kernel remaining in seed plates; means are provided for expelling same the first time around.
6. Cone shaped plates grooves leading to all seed cells.
7. Double channel shank allows corn to accumulate three times before depositing; insures accuracy in hill dropping.
8. Nine different distances in drilling without changing plates— $7\frac{1}{2}$ to 22". Additional plates can be furnished to drill from $3\frac{1}{2}$ " to 88" apart.
9. No danger of clogging seed spout by team backing up. Seed is forced out into the ground.
10. Narrow runner scours well, plants straight line.
11. Reversible check fork.
12. Best balanced frame planter. It balances without the aid of springs.

BLACK HAWK MANURE SPREADER

SIMPLE DRIVE REDUCES WEAR

The driving mechanism—a strong chain that lowers into mesh with the main drive sprocket—is in motion only when operating the distributing device. This greatly reduces wear as the chain is lifted from the main sprocket wheel when the spreader is thrown out of gear leaving no parts running idle.

WIDE SPREAD ATTACHMENT

In the **New Black Hawk Spreader** the large, eight bar, steel beater throws the manure from the load in a regular flow. The **Black Hawk** wide spread attachment thoroughly pulverizes the manure and scatters it evenly. A simple ratchet adjustment varies the amount of the flow. This is regulated by a lever placed convenient to the operator. The flow can be controlled from the quantity required for a light top dressing for grain to a very heavy spread for run-down land. The value of this feature is appreciated by every farmer who realizes that different soils and crops require varying amounts of manure for obtaining maximum production. Correct design and simple construction assure positive action throughout the life of the spreader. **40-A—60 to 70 Bushels, \$185.00. Brake, \$12.00. Top Sides, \$5.00.**

A FEW OF THE MANY REASONS WHY YOU SHOULD OWN A BLACK HAWK SPREADER

1. The machine is made of the best materials and is properly proportioned.
2. Has no cog gears and few working parts.
3. Both front and rear axle set under the body so that weight of load is evenly distributed.
4. Rear axle is made of 2-inch high-grade carbon steel.
5. Short wheel base only 92 inches.
6. Front truck most perfect ever used.
7. No whipping or lashing of the pole.
8. Has strong and positive feed service.
9. Has large main beater with 8 bars.
10. Wide spread discs 12 gauge, twice as heavy as discs on other wide spread attachments.
11. All bearings and other essential working points are contained in a single unit and cannot change. The usual method employed by others is of boring holes in wood sides and inserting bearings.
12. Solid bottom which does away with slat trouble.

OUR SPECIAL FERTILIZER DISTRIBUTOR

This cut shows **Our Special Fertilizer Distributor**, which has become very popular. It has a positive force feed, and will sow all kinds of fertilizer. It is made of the best material, and is practical. **OUR SPECIAL PRICE, \$25.00.**

GRITCO STALK CUTTER

7-Blade, single row.....\$52.50
9-Blade, single row..... 55.00

Practically an all-steel frame machine, making it neat of construction and giving it ample strength. The wheels are all steel, with removable box and 2-inch tire. The lever is within easy reach of the operator and is connected with pressure spring which connects with the cylinder or knife heads and with which can be produced an even pressure at all times on the knives.

CELEBRATED APPLETON CORN HUSKER

This Husker will do the work. It is no experiment. It is superior to all others. We will be pleased to send anyone names of representative farmers who are using the Appleton Husker and will testify in its favor. We know that most Huskers have failed to give satisfaction. The Appleton Husker never fails to measure up to the expectation of purchaser.

Write for interesting Husker Catalogue.

We guarantee that under the same conditions the Appleton Husker will do more and better work than any other Corn Husker on market; that it is simpler and requires less power. It is easier and safer to feed.

MONARCH STEEL STUMP PULLERS

Monarch Stump Pullers embody in their construction special features which make them the strongest and most efficient machines for such work. The heavy solid one-piece main frame, the grooved drum, the drum clutch, the high-grade cable and other features place the Monarch Stump Pullers in a class to themselves. Special catalogue fully describing these features mailed free on application.

If interested in Stump Pullers, write for our catalogue of the Monarch line, which is very complete and useful; also let us know how much stumpy land you have, the kind of soil, the kind and size of stumps, how close to the ground they are cut and whether they are green or dead. This information will enable us to recommend the equipment most suitable for your work.

SPECIAL CATALOGUE ON APPLICATION.

No. 3—Steel One-Horse Stump Puller, equipped with 50 feet of $\frac{3}{4}$ -inch pull cable and 8 feet of $\frac{3}{4}$ -inch anchor cable. For ordinary stumps. Weight 450 pounds. **Our Price, \$153.25**, with 75 feet of pull cable.

No. 4—Monarch Steel Stump Puller, 75 feet $\frac{3}{4}$ -inch pull cable, 10 feet $\frac{3}{4}$ -inch anchor cable. Weight, 675 pounds. **Our Price, \$191.75**. Extra cable (to make pull cable any length you want), per foot,

No. 7—Monarch Steel Stump Puller, 75 feet $1\frac{1}{2}$ -inch pull cable 15 feet $1\frac{1}{2}$ -inch anchor cable. Weight, 1450 pounds. **Our Price, \$500.00**. Extra cable (to make pull cable any length you want), per foot, —.

No. 7—Cam Take-Up, 15 feet $1\frac{1}{2}$ -inch cable and steel cable hook. Weight, 150 pounds..... **\$88.35**

No. 7—Double Power Pulley, 20 feet $1\frac{1}{2}$ -inch cable and steel cable hook. Weight, 150 pounds..... **\$100.00**

MONARCH BESSEMER STEEL STUMP HOOKS.

Notice the sharp cutting edges on the inside of each prong and the heavy steel back of them, which counts for strength.

No. 4—Regular Mesquite Stump Hook, for use with No. 2, No. 3 and No. 4 Mighty Monarch Stump Pullers; used extensively for heavy brush hedge, palmetto, mesquite and old stumps. Weight, 65 pounds. **Our Price, \$31.75**.

No. 7—Medium Mesquite Stump Hook, for use with No. 5 and No. 6 Mighty Monarch Stump Pullers; for heavy stumps and heavy mesquite, etc. Weight, 85 pounds. **Our Price, \$43.20**.

No. 8—Giant Mesquite Stump Hook, for use on No. 7 Mighty Monarch Stump Pullers or on large double, triple and quadruple power outfits for extra heavy work where no other stump hook will stand the strain. Weight, 160 pounds..... **\$83.35**

Oliver Riding

Cultivator

The No. 26 is well constructed of steel and malleable parts, and it has all the adjustments necessary to perform the required work. When you look at the machine you will agree with us that it will do the work well, and it is amply strong to stand up under the work.

The No. 15 has a balance frame and the horse lift. The tread of the wheels can be narrowed down for cultivating rows that are planted close together, and can be widened out to give more room for steering the gangs and wheels when the rows are crooked or out of check. The frame does not project over the wheels when the wheels are set for narrow track. There is ample clearance of the arch. The No. 15 has pole adjustment up and down, so that the frame is always level, regardless of the size of the team. The Pivot axles are equipped with ball-bearings, which makes this cultivator easy to operate. The No. 15 is equipped with three levers for operating the gangs. The long lever raises and lowers both gangs. The two short levers are used to regulate the depth of each gang, or raising the gangs independently to free the shovels of trash or pass over an obstruction. The short lever directly in front of the operator is used to widen or narrow the gangs.

Oliver Walking Cultivator No. 2

There are many walking cultivators on the market whose combined merits would, if embodied in a single machine, no doubt result in a fine implement, but it is left for the Oliver No. 2 to represent the majority of existing advantages besides offering some entirely new features. The axles are continuous, and by virtue of the solid clamp and solid brace fastening below, the Oliver is the most rigid and strongest machine of the kind ever offered. Compare the construction with others where braces terminate in loose eyes around the axle, or when upper ends of axles are held in loose sockets with set screws. The tongue is perfectly balanced, the wheels are strong, fitted with 2-inch tires and dust-proof hubs. The hitch is short, and this is the only cultivator with eveners behind the point on pole where arch braces fasten. The spring lift is adjustable up and down on the arches.

Weeders and Attachments

By the use of Weeders much time and labor are saved and better crops grown. These weeders or shallow cultivators, as they are sometimes called, can be worked in dry or wet weather. They will not cut the roots of the crop, but cultivate just deep enough to retain the moisture where it is most needed. Use a weeder early and often, and you will be surprised at the results. It is a good policy to use the weeder after a heavy rain, when the ground has been beaten down, to avoid the forming of a hard crust which retards the growth and development of the crops.

List Price, with Lever, \$10.50. Our Special Price, \$6.50.

Baltimore Combined Harrow and Cultivator

The teeth have four positions—first, position shown in cut, in which case can be used for working very close to small plants. Thoroughly pulverizes, throws no dirt on plants. Second position, as a straight tooth harrow. Third position, teeth can be arranged as a smooth harrow, with sharp points down, in order to cut and level surface. Fourth position, teeth can be set with sheared end down, being less liable to injure young plants.

Can be contracted to 9 inches and expanded to 21 inches. Weight 51 pounds. 14-TOOTH.

SHOVEL PLOWS

These Cultivators can be contracted to about 9 to 10 inches, and expanded to about 26 inches.

GRITCO RUNNER SPRING TOOTH LEVER HARROW

15 TOOTH, \$22.50
17 TOOTH, \$25.00

An All-Steel, Low-Down Lever Spring Tooth Harrow with Renewable Steel Runners. 15 or 17 Teeth. Two Sections. The Frame is made of special "T" Steel forged in one piece. Renewable Steel Shoes are bolted on to the underside of the frame to take the wear, so that no wear comes on the frame itself. These shoes can be renewed at a slight expense, making the harrow practically indestructible.

The Teeth are made from the best Open Hearth Steel, finely tempered in oil and fully warranted, and can be instantly raised or lowered by means of the levers. As the point of the tooth wears, same can be lowered by adjustment on the tooth bars.

The Shape of the harrow is correct to make it run steadily and smoothly and permit the teeth always to work at a uniform depth; teeth can be easily raised or lowered, to transport from field.

Construction is simple. It is durable and does not require a man and wrench to keep it in working order.

GRITCO LEVER WHEEL HARROW

The Mail Frame is constructed entirely of double "T" steel of high carbon. The frame surrounds the teeth, and there are no projecting parts to engage obstruction. Cross Bars are 1 1/4-inch structural tubing, and have no holes drilled through them; compression clamps instead of bolts being used for fastenings.

The Arrangement of Teeth—The front bar carries four, middle bar six, and rear bar seven teeth in the 17-tooth machine. Best arrangement possible.

Teeth are of regulation size, 1 1/4 inches wide, 1/4-inch thick, are made of best quality of spring steel and fully guaranteed against imperfection.

Tooth Holders—By our method of constructing tooth holders, or clamps, teeth may be readily adjusted and kept in line.

The Carrying Wheels are constructed with broad rims and the bearing surfaces are chilled. The Lever Racks are strong and durable, being made of malleable iron. It is painted with a heavy coat of green paint.

15 TOOTH.....\$25.00 17 TOOTH.....\$27.50

GRITCO PULVERIZING HARROW

This Pulverizing Harrow will pulverize either light or heavy soil, and do it better than other harrows. The action of the blades is to pulverize the soil and at the same time put the ground in a smooth condition, thus producing an ideal seed bed.

It produces the work of a disk and spike tooth harrow. It can be adjusted by the use of the lever to any desired depth, and will not drag out the filth, but cut it up underneath where it will rot and improve the soil.

It is the lightest weight and lightest draft harrow on the market.

No. 6—12-Blade Riding Harrow, wt. 121 lbs. \$23.25

Cutaway
(CLARK)

DISK HARROW

Cutaway Single Action Harrow-Regular

The CUTAWAY (CLARK) Single Action Harrow was built up to a standard measured by actual field conditions of the most severe type. Observe in the illustrations opposite that the head is built directly on top of the gangs. Note the tongue, seat, braces and levers are all fastened to it, thereby making the disks carry the entire weight of the machine. This construction gives such a perfect balance that there is practically no weight on the horses' necks and makes the use of the tongue truck optional with the user. Without a tongue truck the hitch is placed back close to the machine and the draft is the very minimum.

The CUTAWAY (CLARK) Single Action Harrow is reversible; that is, the gangs can be swung end for end, so that the soil may be thrown either out or in. To reverse, it is only necessary to pull the cotter pins that hold the lever links, drop the links, swing the gangs around and reattach links.

Instead of having a heavy truss construction forward of the gangs with the line of draft at a considerable angle upward, the CUTAWAY (CLARK) Single Action Harrow is built on top of the gangs and the line of draft is practically horizontal. Instead of power being wasted in lifting the harrow out of the ground, it is all utilized in pulling the harrow in a horizontal direction and allows the machine to "take the ground."

16 inch Discs.

CUTAWAY SINGLE ACTION HARROW-EXTENSION

Orchard tillage should be intensive. It is common knowledge that no crop responds to thorough tillage more profitably than large fruits. It is, therefore, natural that the orchardists should demand CUTAWAY (CLARK) harrows especially built for their peculiar needs.

The CUTAWAY (CLARK) Single Action Harrow Extension is the same machine as the CUTAWAY (CLARK) Single Action Harrow-Regular, except that the head is longer so as to spread the gangs out beyond the team and under the branches of the trees. The head is built on top of the gangs. To it are attached the tongue, braces, seat and levers. Thus the entire weight of the machine is on top of the gangs and is carried entirely by the disks.

Size.	No. of Disks.	Diam. of Cut.	Hitch.	Wgt.	List Price.	Retail Price.

A-6	12	16-in.	8-ft.	320	75.55	64.25

Cutaway Single Action Harrow with Tongue Truck

This harrow is the same as the Cutaway Single Acting Harrow, except it is provided with a tongue truck, and in this instance the harrow is furnished without long tongue and neck yoke.

Four essentials of a good tongue truck are: first an axle joint, which allows either wheel to rise up and run over clods, stones and other obstacles without affecting the even, regular draft of the harrow; second, adjustable tongue attachment, which makes it possible to attach the tongue truck to a harrow of any height; third, adjustable hitch attachment, which makes it possible to set the hitch to suit the size of any team; fourth, dust-proof, oil-soaked hardwood bearings. Each of these essentials are found perfectly worked out in the CUTAWAY (CLARK) Harrow Tongue Truck. The prices are for complete harrows.

16 inch Discs.

CUTAWAY DOUBLE ACTION HARROW **REGULAR**

Cutaway
(CLARK)

DISK HARROWS

The great efficiency of Cutaway (Clark) Double Action Harrows is due more to the rigid main frame than to any other feature. All four gangs are attached to this one rigid main frame. Observe their positions in relation to one another. The rear disks cannot slue from side to side, following the course of least resistance, but cut just midway between the fore disks. Every particle of soil to the full depth to width the disks run is thoroughly stirred. Note how compactly the machine is built; how uniformly the weight is distributed; how excessively strong it is throughout. The **Cutaway (Clark)** is the original double action harrow. Its popularity spread because of its unequalled efficiency, and its efficiency is mostly due to the rigid main frame. There are substitutes, but at best they are only substitutes. Whenever there is any flexibility between the gangs the real efficiency is lost. The rigid main frame is vital.

*"X" means that the disks are 18 inches in diameter; "B," 20.

CUTAWAY DOUBLE ACTION ENGINE HARROW

The mechanical detail of this machine is shown in the illustration opposite. All four gangs are attached to the one rigid main frame. This construction is all-important—vital. Only by the **rigid** main frame can a double action engine harrow be made to do such work as to justify its existence. The gangs are held rigidly. They cannot shift and slue about, but work in correct relation to one another at all times. The fore disks throw the soil out, and the rear disks cut just midway between the fore disks and throw the soil back, so that all is thoroughly stirred and left level. In the center is an extra disk which cuts out the middle. Observe in the illustration opposite how excessively strong this harrow is built throughout. The frame is of heavy angle iron, stoutly braced with angles. Draft rods extend between the frame and axles, so that the strain from the pull is uniformly distributed. The hitch is adjustable to any engine, and a perfect line of draft can always be maintained. The gangs are easily set at any angle desired. There is a size for almost every engine, and by hitching in multiples practically any sized outfit can be rigged. Sizes and specifications are given in table.

Cutaway Bush and Bog Plow

On many farms are fields lying out as waste, simply because their owners do not know how to cheaply and quickly they may be put under cultivation. The old, expensive, hand-labor method is no longer necessary. Much work that could be done heretofore only by slow, tedious and hard labor with the ax, bush-knife and shovel can now be done with the **Cutaway (Clark) Bush and Bog Plow**.

As is shown in the illustration opposite, this machine is a big, heavy disk plow or harrow. It weighs 660 pounds. It is equipped with extra heavy 24-inch disks of standard **Cutaway (Clark)** quality, forged sharp. The bearings are dust-proof, oil-soaked hardwood, perfectly lubricated.

Additional for above, fitted with fore truck, less long tongue and neck yoke, List price \$9.56, Retail Price \$7.65.

Made in 25 and 30-tooth sections, and with $\frac{1}{2}$ -in. or 9-16-in. teeth.

Style E

GRITCO GUARDED FRAME LEVER HARROW

The U-bars, channels, oscillating bars and teeth are made of high carbon steel. The channels, being placed at the ends of the U-bars, prevent them from catching on obstructions, as is frequently the case with the open-end harrow. Strong and well made, but carrying no superfluous weight. Corner braces, oscillating castings and lever castings of malleable iron.

	List Price.	Our Price.
50-Tooth Harrow, $\frac{1}{2}$ -inch Teeth; Weight, 190 lbs...	\$28.00	\$18.00

GARDENER'S HARROW

This Harrow is similar to the Baltimore Double Hinge Harrow, noted above, only it is made in one section instead of two. It is designed to be used with one horse. We furnish this Harrow with 30 teeth, which cuts 4 feet 6 inches wide, and with 25 teeth, cutting 3 feet 8 inches wide.

	List Price.	Our Price.
25-Tooth.....	\$15.50	\$10.00
30-Tooth.....	17.50	11.00

Cutaway Ever Handy Harrow

The Cutaway (Clark) Ever Handy Harrow is primarily a one-horse machine, but has combination pole and shafts, and is easily converted from a one to a two-horse harrow or vice versa. A medium or even small horse will pull it, although for cultivating rowed crops two horses are used. It is reversible. To reverse, simply pull the cotter pin holding the two lever links, swing the gangs around and reattach the lever links. This feature permits the user to throw the soil to or from the row, to throw up or tear down beds, or to cultivate to or from trees, vines, etc. No. of Disks. Size of Disks. Width of Cut. Weight, etc.

SAXMAYER VEGETABLE TYER

The machine somewhat resembles and is but little larger than a sewing machine, requires less power to run and may be operated by treadle or driven by belt with a motor or gas engine. It may be kept in constant motion and automatically ties and releases each bundle only when it is placed in position for tying. It works so easily that a child can do more work with than a number of grown persons could do by hand in the same time. The operator sits comfortably at the machine and does his work in perfect ease.

Try it and see for yourself. It will pay for itself in three to six weeks.

Walter A. Wood NEW CENTURY GRAIN BINDER

PRICE:
 6 ft. Binder with Bundle Carrier and Transport, **\$200.00.**
 7 ft. Binder with Bundle Carrier and Transport, **\$210.00.**
 8 ft. Binder with Tongue Support, 4-H Hitch Bundle Carrier and Transport **\$235.00.**

Rigid main frame of heavy angle steel. Strong double-truss joint between main frame and platform. Great 36-inch all-steel drive wheel. "Z"-shaped finger bar. Low elevators with easy slope. Unusually deep elevator; greater capacity for heavy crops. Steep-pitched binder deck. Relief roller between elevators and deck. Automatic tighteners on all aprons. Three under-packers, assuring perfect work in short grain. Revolving discharge-arms, making perfect separation. Improved spring dropboard. Improved compression device. Unequaled knotter, grasper and tension. Binder driven from the rear.

KEYSTONE TONGUE SUPPORT

For Harvesting Machinery and Disk Harrows.

This Tongue Support is simple and light in weight. The springs are made of best 3/8-inch spring steel. The coils are 4 1/2 inches in diameter, and have arms extending 12 inches. The wheel is 11 1/2 inches high, with 2 3/4-inch tread, thus assuring a light draft. No holes need to be bored in the tongue to fasten this support, thus allowing the tongue all its strength. **Price, \$5.00.**

BLOCKI WINDROWERS AND

PEA HARVESTERS

Use the Blocki Windrower for harvesting the seed crops of red, alsyke, mammoth and alfalfa clovers. Sometimes also used for harvesting flax, buckwheat, and even short tangled grain. Is an excellent tool to harvest cow peas, beans, etc. Can be readily attached to any mower and gives the best satisfaction. The guards are strong, being made of malleable iron; the rods retain their shape because they are made out of the right kind of steel.

Blocki Pea Harvester No. 7X consists of 7 Guards, 7 Rods and Divider.

Blocki Pea Harvester No. 8X consists of 8 Guards, 8 Rods and Divider.

Blocki Pea Harvester No. 9X consists of 9 Guards, 9 Rods and Divider.

W. A. WOOD SIDE-DELIVERY RAKE

Bean, Timothy and clover Hay Rake; Gear Drive; Roller Bearings.

Gathers the hay on the ground, and delivers it at one end of the machine in a continuous windrow. It is an all-gear drive machine; heavy, strong and powerful all the way through. List Price, \$162.00. Our Special Price, \$90.00.

W. A. WOOD HAY LOADER

Has been carefully designed and embodies all of the up-to-date improvements.

By means of a simple adjustment, provided on each axle box, the rake bars can be raised or lowered to meet various conditions of the soil and the hay. This adjustment makes it unnecessary for the hitches on loader to be changed.

The rake bars are open construction, so that every part is visible.

The W. A. WOOD HAY LOADER will certainly meet the wants of every farmer that desires a machine which is free of all complicated and intricate parts. Wheels, 46 inches diameter. Weight, 1213 lbs.

Six foot with Steel Wheels, List Price, \$184.00. Our Special Price, \$100.00.

List Price, 60 c. Our Price, 40c. Special Prices in Quantities

TEDDER FORKS

Always on hand, stock of forks for leading styles of hay tedders.

When ordering tedder forks, always state name of tedder, year it was made, if possible, and whether fork is in one or two pieces.

THE SCHICK ALL STEEL BALER

This baler is a device that is so low in initial cost that the material which it conserves pays for it in a short time. It bales all kinds of material, such as paper, scrap, pasteboard boxes, excelsior, cloth clippings, old rags, tobacco stems, tin and galvanized scrap in can factories, steel shavings in machine shops, etc.

The great and increasing demand for all kinds of waste material of every description has put you in a position to change this waste into cash.

This shows the top of the SCHICK BALER. Note the solid one-piece casting supporting the geared rack.

A pressure of three tons is obtained by means of the wheel and hand lever.

There are but five working parts. All made of crucible steel, case hardened, making it easy and simple to operate.

As waste paper accumulates

it is emptied into the Schick; a turn of the wheel compresses it. When bale is compressed it is wired and ready to remove from the press.

No. 2—Open Top Schick All Steel Baler Bales, from 100 to 150 pounds. \$ 70.00
No. 3—Open Top Schick All Steel Baler Bales, from 150 to 200 pounds. 85.00

OWEN'S BEAN AND PEA THRESHER

STRONG AND EFFICIENT. (No. 4).

It will thresh all varieties of beans and peas directly from the vines as taken from the field, without splitting the grain, and at the same time shred the vines, the same as the larger size threshers. We wish to make one exception to the above, and that is in cow peas, where the vines grow very rank and heavy. You will readily see that, on account of its size, the No. 4 could not possibly be expected to handle these like one of our larger threshers, but where the vines do not grow too large and where care is exercised in feeding, it does very good work, indeed. We have shipped a great many of the No. 4 threshers to all parts of the South, and they are giving excellent satisfaction, especially with those who simply wish to save the seed and do not care for a large capacity. Capacity, 10 bushels per hour. One to three horse-power.

The No. 4 will also thresh buckwheat. Weight, 400 pounds. Price, \$175.00.

16x20 DOUBLE CYLINDER.

The machine will thresh all kinds of peas and beans, no matter what kind or variety you grow, even cow peas and soy beans, directly from the vines without splitting the seed.

The 16x20 will produce the seed in the cleanest possible manner, because of the large separating space and strong blast that we have equipped all Owens Threshers with, thus demanding the highest market prices. This machine will also thresh buckwheat, kaffir corn, cane and sorghum. Many customers successfully thresh small grain, such as wheat, oats, barley, millet, etc., but extras are necessary for one of the cranks at an additional net cost of \$2.50. Cow Peas intended for seed should be allowed to get more mature. These will unavoidably lose most of the leaves, but will still be good feed after the Peas are picked and threshed.

to give the proper speed. If you are growing peas and beans you will find the 16x20 Owens Huller a splendid all around, useful machine that will quickly pay for itself and afterwards be a source of great profit. Capacity, 14 to 20 bushels per hour. Four horse-power. Weight, 750 pounds. Without Repeat Elevator. Price, \$300.00. Repeat Elevator Extra, \$25.00.

THE No. 9 ROYAL PEA HULLER

New mode No. 9, with heavy bearings, wooden frame and box; malleable iron cylinder and concave sections. Teeth do not break. Heavy fly-wheel and two cranks. Patent revolving screen, which insures absolutely clean peas and carries the refuse through a separate outlet. Reversible hopper to allow use of machine for cleaning wheat or other small grain. Cleans and threshes the peas thoroughly without breaking them. Shipping weight, 260 pounds. Can be furnished for operation by power by substituting a pulley and heavier shaft for one of the cranks at an additional net cost of \$2.50. Cow Peas intended for seed should be allowed to get more mature. These will unavoidably lose most of the leaves, but will still be good feed after the Peas are picked and threshed.

A very successful method of handling this crop is to pick the pods and thresh the Peas, turning the vines under, thus making the Cow Pea a profitable money producer (they always bring good prices) and at the same time a soil saver. It comes nearer solving the problem of "eating your cake and having it, too" than any other proposition on the farm. The price of Seed Peas in some seasons have ranged as high as \$4.00 per bushel, and it is therefore an object for every farmer to save his own seed (and sell them, too), which can best be accomplished by the use of a ROYAL PEA HULLER.

THE ROYAL PEA HULLER will save a larger per cent. of all the Peas than any other known method. The ownership of a Royal Pea Huller represents an outlay so small in comparison to the benefits, that no successful farmer will be without one.

Special and exclusive features to be had only with these machines are covered by patent, and cannot be had in any other make.

Capacity, 8 to 15 bushels Dry Peas per hour. Price, \$55.00.

No. 9 Royal Pea Huller.

MARYLAND LEVER CUTTER

Strong, Cheap and Durable.

Knife, 11-inch. Wt., 55 lbs.
Retail\$7.50

CYLINDER TYPE HAND CUTTERS

One and Two Knife

No. 11½—"TWO-KNIFE,"—The feeding rolls on this cutter are operated by means of cog wheels and sprockets. The feed is constant and uniform, and the cutter has large capacity. The feed rolls are equipped with coil tension springs; the cutter has large heavy flywheel, large crank, chilled shear bar and hardwood frame; length of cut, $\frac{1}{4}$ inch, $\frac{1}{2}$ inch and 1 inch. Special gears for cutting $\frac{1}{8}$ inch can be furnished on order. **Our Special Price, \$30.00.**

PONY CUTTER

No. 11¼—"ONE-KNIFE," \$25.00.

Ross No. 10 Knife on Fly Wheel

Type of Cutter for Hand or Power

In the **No. 10 Ross Cutter** we are offering a very convenient machine for cutting corn fodder, hay, etc., either by hand or by power. It will be noted in addition to having a crank for hand use, it is equipped with pulley, so that it can be belted to small gasoline engine or horse-power. It can be adjusted to cut $\frac{1}{8}$, $\frac{1}{4}$, $\frac{1}{2}$ or 1 inch. It has two 11½-in. knives. All bearings are babbitted. The frame is of hard wood and strongly constructed. Weight, 300 pounds. Write for prices.

ROSS STANDARD HAY AND FODDER CUTTERS

The excellence of the Ross Fodder Cutters is well known. They are the result of over 50 years' experience in manufacturing this class of machinery. They are built strong and durable, possesses valuable features for convenience and efficiency, and are neatly finished. The manufacturers aim to construct a line of cutters which will not only do the work, but do it so well that the buyer is sure to be pleased in every way. On account of lack of space, we cannot give a full description of the exclusive patented features possessed by the **Ross Cutters**, but will be pleased to mail to anyone interested in the purchase of a cutter a special catalogue of the **Ross** line. Will mention briefly here that some of these features are: Very efficient feeding rolls, which are positive, and which are provided with a knuckle-joint arrangement to allow the rollers to readily adjust themselves to uneven feeding of the machine without binding or causing friction; a special comb bar for keeping the spiked roller clear; a four-sided reversible steel cutting plate; an improved type of safety flywheel; a practical and convenient knife adjustments; a special starting and stop lever, and the **Ross** folding feed table.

ROSS No. 30, No. 40, No. 50 and No. 60 CUTTERS and BLOWERS

The knives on flywheel type of Ross Silo Filling Machines and Blower have made a home for themselves with all their users. This is due to the fact that they possess the required strength and features to enable them to accomplish the work of filling silos in a way that brings comment from all. Realizing the fact that users of this class of goods expect more and more each year in the line of quality and quantity of work, they possess features fully described in the special catalogue, which we will be pleased to mail, namely: Four-sided reversible steel cutting plate, positive tension to the feeding rolls, special knife adjustment, self-aligning and adjustable main shaft bearings and roller shaft bearings, extra bearings for main shaft, special balanced main frame, etc.

Ross Improved Ensilage CUTTER

With Traveling Feed Table and All-Steel Blower

The illustration represents the Ross line of Silo Fillers especially designed for heavy work, such as large Plantations or by Threshermen for jobbing work.

Low Down, so that feeder stands on the ground instead of up on machine. Distance from ground to top of traveling table only 3 feet 9 inches. The most desirable machine made for convenience of Feeder.

Adjustable Bearings for Blower Shaft. The merits of the adjustable bearing are known to all practical operators of machinery. No excuse whatever for the Ross Blower Bearings heating or running hard or consuming extra power.

Blower Casing, with Swivel and Tilting Rings, Combination Toothed and Fluted Feed Rollers with Comb Bar Attachment. Steel Shear Bar with Four Cutting Edges. This feature is accountable for the class of work turned out by the Ross. **Start, Stop and Reverse Lever.** This arrangement saves many a break and prevents delays of various natures. **Traveling Feed Table.** Folds up for convenience in moving from place to place and when storing away. **Steel Cutting Cylinder.** This is a point that must not be overlooked. If saving of time and repairs is worth anything, the **ROSS SILO FILLER** is worth double the price of any other. **Steel Blower.** No manufacturer likes to hear of their "Cast Iron" Blowers exploding on large size cylinder type Silo Fillers, but it will occur as long as it is made of Cast Iron. If our example was followed, and the Blower made of **SOLID STEEL**, like **THE ROSS**, the welfare of Silo users would then be taken care of. **Capacity, Durability, Simplicity in Construction and Quality of Work** have been the principle objects in the construction of **Ross Silo Fillers**. If these claims are not convincing, order the **ROSS SILO FILLER** and give it a trial. The results will be far more convincing than out claims.

KELLY DUPLEX JUNIOR MILLS, Nos. 11 and 33

The Kelly-Duplex Junior Mills are entirely of iron and steel except the sills, solid and substantial in design and construction and are beyond question the most strongly made mills of their type on the market.

Force Feed, Wide and Strong Bearings, Double or Duplex Grinding Plates. Perfect regulation and adjustment. No end thrust on main shaft to adjust burrs for fine or coarse grinding.

These mills will grind all kinds of small grain, ear corn and cob, without husks to any desired grade, the capacity depending upon power used and speed at which mill is driven.

They are furnished with heavy fly-wheel, high carbon steel shaft, lathe-turned pulley and all perfectly balanced.

KELLY DUPLEX GRINDING MILL Nos. 1, 2, 3 and 4

These Kelly Duplex Grinding Mills are provided with our new Double Shear Cutters and all our latest improvements. They grind all kinds of small grains, ear corn and cob, with or without husks, cotton seed Kafir heads, peas with vines, sheaf oats clover and alfalfa.

These machines are constructed entirely of metal, with the exception of the sills, solid and substantial in design and construction, and are without question the strongest mill of their kind made. They have force feed, wide and strong bearings, double or duplex grinding plates. The capacity of these mills is large, and a minimum of power is used owing to the size of the Duplex grinding plates.

Kelly-Duplex Combination Cutter and Grinder MODEL 202

Grinds Ear Corn and Cob with or without Husks, all kinds of grain, separately or mixed, Alfalfa, Corn Fodder, Sheaf Oats, Pea Vines, Soy Beans with vines, Velvet Beans, Kafir Corn and Milo Maize in the head with a portion or all the stalk either alone or mixed in varied portions.

This machine is designed to fill the demand for a complete outfit which at one operation will make alfalfa meal or in fact meal or chops out of any of the various crops of farm product.

At the top is placed an especially adapted cutter for properly preparing the hay for grinding. The top is furnished with a suitable feed trough and special side table for convenient use. The cutting cylinder is furnished with four knives.

No. 202—800 to 1100 R. P. M.; 7 to 10 H. P.; Alfalfa, 2 to 4 tons a day, Ear Corn 20 to 30 bushels per hour, Corn with Shucks 12 to 20 bushels per hour; 7½ inch Burrs; 8 inch Diameter; 6 inch Face Pulley; Weight 700 lbs. Price, \$135.00.

"WILLIAMS" ADVANCE BURR MILL

The cut shows the general design of the "Williams" Advance Burr Mill. Limited space prevents us from giving a full description, but we will gladly send a special circular giving full description and information.

The Mill Body is constructed in the most workmanlike manner, from the choicest selected forest timber, all well dried and very heavy.

The Burr Stones used in these mills are the very best Burr stock that can be secured, they are well mated and will give great service without requiring frequent dressing. They are mounted on large steel spindles and perfectly trued and balanced, and are so arranged that they cannot be set too close together, and will not drift together when the grain runs out.

The grain hopper is large, with an improved feeding arrangement.

The high speed cleaning fan, latest improved folding bolter, the latest and most perfect burr adjustment, makes this the lightest running and nicest appearing mill on the market.

EXTENSION TABLE POLE SAWS

Appleton Extension Table Pole Saw

The table is so arranged as to extend nearly five feet beyond the saw blade. It makes a highly satisfactory combined pole and cord-wood saw, because the length and arrangement of the table is such as to enable the operator to handle long poles about as easily and rapidly as cord wood. To facilitate handling a roller is placed at one end of the table. 354 lbs.

With 30-inch Saw.....	55.25

New Style Tilting Table Pole Saw

With this style of saw frame the operator can saw short and long wood with facility, and can saw the longest poles into cord wood, stove wood, or any desired lengths, because the balance wheel is under the frame where it cannot interfere with the longest pole. There is a roller at one end of the tilting table which is a great help in getting long poles on the table.

This style saw required a higher speed than the others. To obtain the best results a 5-inch or 6-inch belt should be used, and when sawing a larger stick than 6 inches through, at least 6 horse-power should be used. Weight, 403 pounds.

THE AMERICAN VARIABLE FRICTION FEED SAWMILLS

American Sawmills are recognized as embodying superior design, the most advanced and up-to-date ideas, superior workmanship, and, in short, they are outfits which have been carefully thought out by designers of wide experience for the purpose of giving to sawmill operators the most practical mills possible.

WRITE FOR PRICES

A complete Standard No. 1 Mill consists of the following: Husk Frame 7 feet by 3 inches, built of $3\frac{1}{2}$ -inch by $7\frac{1}{2}$ -inch timbers, fitted with Variable Friction Feed, Polished Steel Mandrel 2 3-16 inches by 4 feet 4 inches long. Mandrel Pulley, 20 inches by 10 inches (unless otherwise specified); also Board Roll, Spreader Wheel and Saw Guide.

Carriage 16 feet long, 26 inches wide, built of timbers $3\frac{1}{2}$ inches by $5\frac{1}{2}$ inches, having Feed Rack 22 feet long. Four trucks with 6-in. wheels and $1\frac{1}{2}$ -in. steel axles. 40 feet of "V" and Flat Rolled Steel Track, fitted to way timbers framed up in sections. Two head-blocks, opening 34 inches, with Chapman Duplex Dogs. "Ideal" Set Works, with Quick Receder and 14 feet of polished steel Set Shaft; also Belt Tightener, foundation bolts, cant hook, oil can and wrenches.

AMERICAN GANG LATH MILL

Can be furnished as a lath mill only as shown by illustration or as combined lath mill and bolter. The best machine of the kind on the market, possessing valuable features not found in any other make. It is adapted to cutting lath slats or crate stock of any width from $\frac{1}{2}$ inch to 3 inches of various thickness; also small dimension stock from $\frac{1}{2}$ by $\frac{1}{2}$ inch up to 3 inches by 3 inches.

GOULD'S LOW-DOWN DOUBLE-ACTING FORCE TANK PUMP

Capacity 2000 gallons per hour, 5-in. polished-iron cylinder, 5-in. stroke, fitted for hose and 2-in. pipe. Valve seats of brass; valves are metal, faced with rubber, and are very conveniently placed, so that they can readily be reached; piston rod is 13-16, drawn polished steel, with heavy brass stuffing nut. Price, with hose nipple, hose attachment, hose band and strainer.

Our Special Price, \$15.00

COLUMBIA DRY CELL BATTERIES

These batteries have been the standard for quality for many years. Wherever dry batteries are used the COLUMBIA is known to give better service than any other make, regularly furnished in round cartons, as illustrated, but can be furnished in square cartons if desired. Where spring connections are preferred they can be furnished at the same price as the screw connections.

No. 6.

COLUMBIA IGNITOR.

It is the highest-grade battery on the market. It is unexcelled for any service. It is particularly satisfactory for ignition, or where the current drain is high.

Price, 40 cents each.

Gould's Pyramid Power Pump

A pump of high efficiency for use where water is not more than 22 feet below pump. The gearing is machine cut of hard cast iron; the crankshaft is of high carbon open-hearth steel; the bearings are lined with best-grade babbitt metal; cylinder is best quality hydraulic iron fitted with brass lining; the valves are rubber-disk type on bronze seats, convenient to get to.

Size 2½x4, suction and discharge 1¼", capacity 408 gals. per hour.

Price, \$65.00

LOW-DOWN DOUBLE-ACTING HOUSE FORCE PUMP

Very popular for pumping from cisterns or shallow wells into house tanks. They are furnished with either 2½ or 3-inch brass-lined cylinder, with 5-inch stroke. Three-inch cylinder pump at 40 complete strokes per minute has a capacity of about 12 gallons per minute, and 2½-inch cylinder pump has a capacity of a little over 8 gallons per minute. These pumps have rubber-faced metal valves, brass valve seats and brass-covered piston rod.

Fig. 1371. No. R286—3-in. cylinder. Our Special Price, \$20.00

Fig. 1371. No. R285—2½-in. cylinder. Our Special Price, 18.00

Fig. 1906—New model Hydro-Pneumatic Cog Gear Force Pump, 3x4½-inch cylinder. Our Special Price..... 21.25

FOR USE WITH PNEUMATIC TANKS

The auxiliary air cylinder is used on **Fig. 1371** Force Pump for pumping air with water into our Pneumatic Tanks. If pumps are wanted, equipped with this air cylinder, add \$3.00.

Fig. 1371, Pump— On account of ratchet of cog gear handle, the leverage is greater and a direct stroke on piston is obtained.

COLUMBIA HOT SHOT BATTERY

COLUMBIA HOT SHOT BATTERY is a unit battery in an attractive red, moisture proof cover. Soldered copper strips connect the individually tested cells, which are entirely surrounded by a water-proof insulating compound. It is only necessary to connect two wires to the binding posts. The battery is then ready to operate. **Hot Shot** is particularly useful for ignition where the variety of sizes makes it adaptable for motors of all sorts—stationary, vehicle or motor-boat. It is very satisfactory for carriage lighting outfits.

Most popular sizes—

No. 1662—9 volts; length 8 ins.; width 5¾ ins.....	3.25

Other sizes quoted on application.

FULLER and JOHNSON Farm Pump Engine

Thousands of these outfits are in daily service and giving satisfaction. The illustration shows the outfit as it comes complete ready to attach to almost any make of windmill head pump. In designating this outfit, the manufacturers had in mind a pumping engine simple, convenient and reliable and as near trouble proof as possible. Being an air-cooled engine there is no likelihood of it freezing and the way it is constructed it cools properly while doing its work. It comes complete as illustrated (pump stand not included). Engine will pump water from an ordinary well at the rate of 35 five-inch strokes per minute and has power to lift 550 gallons of water against a total lift of 100 feet or 240 gallons of water against a total lift of 200 feet. If longer stroke is desired the engine can be adjusted to 7½ or 10-inch stroke.

PRICE.....\$102.00

PORTABLE SAW OUTFIT

The frame of this mounting is strongly built of well seasoned oak and firmly braced by heavy, flat, steel bars. As regularly made the sills are 4 inches wide, 8 inches deep and 11 feet 6 inches long.

The axle is two-piece, equivalent to about 4-inch by 5-inch solid, and in addition is supported by a heavy truss rod. The skein is full 3¼x10 inches. The steel wheels are the best made and have staggered spokes and grooved tires.

The steel saw frames are so arranged that they can be securely attached to and firmly braced against the rear axle and the ends of the sills.

The engine used on this mounting is the 6 H. P. simplicity, as described on this page, Engine has Webster Magnetto.

We can furnish this outfit either with or without the engine, as prices below.

SIMPLICITY GASOLINE AND KEROSENE ENGINES

3, 6, 8, 10, 12 AND 16 H. P.

These engines are light in weight for the power they develop. All excess weight has been taken out of them and they are stronger, due to the ribbed construction of the base, than the old-style engine which had several hundred pounds of unnecessary weight in the base alone.

Simplicity engines from 6 to 16 H. P. inclusive have the cylinder and hopper cast separately, bearings at an angle of 45°, large diameter crank shafts, and forged steel connecting rods. These engines are built for hard continuous service, and with the proper care will last a lifetime.

All equipped with Webster Magnetos.

1½ H. P. SIMPLICITY ENGINE

Equipped with Webster Magnetto.

The 1½ H. P. Simplicity engine is built in the gasoline type only. Starting handle is located in the wheel, governor weights have a guard over them, and the gears are on the inside of the frame, making this little engine perfectly safe and easy for a woman to start and operate.

The location of the fuel tank and the absence of flexible copper tubing makes an absolutely leak-proof connection between the tank and the cylinder head possible, thus eliminating all danger from fire.

ADDITIONAL FOR FITTING PUMPS

We give below a table of the additional charge for fitting, and the amount stated in table has to be added to the price of the pump selected. In fitting pumps we use galvanized pipe and galvanized pump rod and a strainer four valve. For wells 26 feet deep or less we leave the cylinder 5 feet below platform. For wells deeper than 26 feet we place the cylinder close to the bottom of the well.

Fig. 1038.

Pump Jack.
Fig. 1037.

Fig. 7904—Hoosier Open Top Hand Lift Pump, with wrought set length. It has large cast head, swivel bearer top, long handle and adjustable. The Standard or Barrel is made of $1\frac{1}{2}$ in. pipe, and has the anti-freezing feature. 3 inch iron cylinder. **Price, \$10.00.**

Fig. 8113—Hoosier Windmill Force Pump, wrought set-length, anti-freezing, has detachable polished piston rod, brass stuffing box, swivel bearer top, back outlet and detachable compression cock spout. The bearer top has removable guide bushing to prevent pump rod wearing directly on bearer guide. $2\frac{1}{2}$ in. Brass Lined cylinder, 6 inch stroke, weighs 81 pounds. **Price, \$17.00.**

Fig. 8553—Hoosier Windmill Underground Force Pump, double acting, with wrought set length, anti-freezing. The pump has brass upper cylinder, positive three-way cock with union connection. Has adjustable platform base, spout fitted with union hose connection. Bearer is fitted with removable pump rod guide bushing. The pump is fitted with 1 inch goose neck spout, and 1 inch three-way discharge. By removing upper cylinder and cap, the plunger valve can be withdrawn without disturbing the pump. Suitable for wells from 25 to 125 feet in depth. $2\frac{1}{2} \times 14$ B. L. cylinder, weighs 98 pounds. **Price, \$21.00.**

Fig. 1050—Hoosier Combination Set Length Pump and Jack. For hand, windmill or belt power. For shallow or deep wells. In this pump you get a true alignment of the jack and pump, with no side strain or uneven wear on the parts. Has cast gears and strong pitmans. Tight and loose pulleys. By removing upper cylinder and cap the plunger valve can be withdrawn without disturbing the pump. Can be used with $1\frac{1}{4}$, $1\frac{1}{2}$, 2, $2\frac{1}{2}$ or 3 inch pipe. **Price, \$38.00.**

Fig. 1038—Hoosier Combination Pump Standard and Jack. Back geared 5 to 1, is designed to be operated by hand, windmill or belt power, for shallow or deep wells. This combined pump and jack is compact, strong and easy to install. Built in two sections, between which is a detachable pipe flange, the upper section being the large air chamber with flanged top to which is bolted the flange bearer, making a firm connection; the lower section or barrel and main frame of the jack are of one-piece construction. This gives a true and permanent alignment of the jack and pump. Equipped with cast gears. The pinion shaft is extra long. Pitmans are made of heavy angle steel. The pitmans, gears, pinions and all wearing parts have No-Oil-Em Bearings. Has tight and loose pulleys. Adjustable stroke 6 to 10 inches. One piece 1-16 inch piston rod, brass covered; brass stuffing box; compression cock spout with hose connection, and back outlet. The jack has sufficient clearance above floor to admit of pulley being used as large as 30 in. Suitable for wells from 25 to 200 feet. Weighs 90 pounds. **Price, \$27.00.**

Fig. 1037—Hoosier Pump Jack. Geared 6 to 1, with tight and loose pulley. The main frame of jack and tripod base are of one piece construction. The foot spread is extra wide. Designed to operate independently of pump standard. Adjustable cross head with wide range of adjustments. The arrangements of gear and pinion gives a direct even lift. Weight 95 pounds. **Price, \$17.50.**

BRASS LINED ARTESIAN WELL CYLINDERS.

No. 445.

A galvanized steel cased brass lined artesian well cylinder for deep wells. It can be used inside of cased or open wells.

It is fitted with heavy bronze ball tubular well valves.

The check valve is seated on a shoulder in a special coupling at the lower end of cylinder. The plunger and lower valve can be inserted or removed through the connecting pipe which is larger in diameter than the bore of the cylinder.

IXL GALVANIZED STEEL CHAIN PUMP

Being made of No. 24 gauge galvanized steel, this pump will not rot, rust nor accumulate filth like pumps of less desirable construction, and it makes the water clear and pure. It is anti-freezing, as the reservoir piece has a small hole, which allows the water to run out. This style of pump is practical for use in wells as deep as 40 feet. The term curb means the complete upper part of pump with fixtures.

PRICES.

I X L Curb.....	\$ 6.50
Gem Curb.....	5.75
Tubing, per foot.....	.20
Coupling.....	.50
Rubber Buckets.....	.10
Iron Platform.....	10.00
Chain, per lb.....	.12

DIRECTIONS FOR FITTING UP CHAIN PUMPS

1. Use one foot more tubing than depth of well.
2. Multiply length of tubing by two and add 3 feet 6 inches to get proper length of chain.
3. Rubber buckets should be placed 6 or 7 feet apart.
4. See that tubing is held secure—by tubing brace at bottom of curb.

No. 30 STAR WATER ELEVATOR AND PURIFIER

Similar to the No. 2 Water Elevator, except that the buckets are slightly smaller, and there is a slight difference in the way the buckets are coupled together. On account of the smaller bucket, it is considered by some better for deep wells.

Price:—Elevator and 25-foot chain and japanned bottom wheel for 10-foot cistern, \$14.75. Extra chain, per foot, 30c.

E. Z. BUCKET PUMP OR WATER ELEVATOR

The strongest bucket pump built. It is made of the best No. 24 galvanized steel, painted two coats best gray paint, and varnished. It has roller bearings, and they make the pump work easier, wear longer and run practically noiseless.

It has steel top and bottom bands. The buckets are made from the best galvanized steel, roll locked seams throughout.

Fixtures are put on the pump complete, avoiding all trouble in fitting.

"BOSS" WASHING MACHINES

When the top is down and the "BOSS" is operated, the two rub-boards oscillate in opposite directions twice to every revolution of the crank, or 180 times to every turn of the wheel—90 forward and backward strokes every minute. It is this quick double action, and the pressure to the upper rub-board that produces the action similar to the rubbing and squeezing process of washing by the hand method. The clothes, being placed between the two rub-boards, are rubbed and squeezed, rubbed and squeezed, many pieces at a time.

Made in three sizes—

CINCY HIGH SPEED WASHER FOR HAND OR MOTOR

Is operated by lever with high-speed flywheel geared to make 300 revolutions per minute—this terrific momentum creating sufficient power to practically run the washer without exerting the operator. The flywheel is grooved so a belt may be used on it, making this a hand and power washer in one. Machine can be directly belted to an engine or line shaft and can be opened or closed without shutting off the power or throwing off the belt. Large cypress tub—natural finish and all improved features.

Capacity, 8 shirts. Shipping weight, 90 lbs.
Belt Pulleys, extra, \$3.50.

OUR SPECIAL PRICE.....\$18.75

QUEEN CONVERTIBLE WASHER MOTOR

The lever can be fastened on top of the motor and used as a hand washer. This is often desirable in winter when surface drainage would result in ice.

In case of moving where there is no water pressure, it can be made into a hand-power machine and, of course, hand-power Queens can easily be changed to power washers.

Durability—While its extreme simplicity adds greatly to its durability, no expense is spared to secure the very best materials, of which the **White Cedar Tub**, which never rots, is an important item.

Malleable castings, wrought iron or steel, and bolts instead of screws, are used wherever necessary and all are made durably rust proof. **PRICE.....\$25.00**

THE R. C. W. WATER MOTOR WASHER

The R. C. W. Water Motor Washer is equipped with the Horizontal Piston Type of Water Motor, some users prefer this type of motor, which is a very good one.

The tub is made from first-grade white cedar, which is the best material obtainable for this purpose.

The construction of this machine is the best, and with proper care should last many years, and give the very best service.

PRICE.....\$21.50

**GEARLESS WATER MOTOR WASHER

OUR SPECIAL PRICE, \$7.00

2-in-1 Power Washer

GENERAL DESCRIPTION

The "2-in-1" Washer consists of tub, swinging wringer, bench and two iron stands. The wringer can be operated in four different positions and the rollers have the forward and the backward motion; the entire action of the wringer and washing machine being controlled by push buttons which are at the instant command of the user.

The tub is of regulation size, built of the best cypress that can be had for the purpose and corrugated inside and bottom, thus presenting a large rubbing surface. The dolly or clothes agitator is made of seasoned gum with hard maple pegs securely fastened. The top of the tub or the lid of the machine is so built that you can readily transfer it from the top of the machine into position on frame over any tub, thus converting any tub into a washing machine. It drains from the bottom by means of a faucet.

Complete, with Wringer \$50.00
With Wringer and Motor for Electric Power . . \$70.90

RELIEF WRINGER

Thumb-nuts and spiral springs; pressure can be adjusted quickly for either heavy or light work; rolls never over-strained; wear longer than ordinary iron frame Wringer; cog wheels. Packed four and six in a case.

Happy Day Electric Washer

IN CONSTRUCTION AND FINISH this machine is unexcelled. It is very simple and every part of the mechanism is not only carefully fitted, but of great strength. With proper care the "Happy Day" Electric Home Laundry Machine will last for many years. The tub is made of selected Southern Cypress—"the wood everlasting"—finely finished with good quality varnish. All of the mechanism and gearing, together with the motor, is placed underneath the tub on a heavy iron bracket, which also acts as a strong brace for the legs. Every metal part of this machine is sherrardized—a finish that is far more attractive than paint and as it will not peel or check, will last for a life-time and effectually prevent rust. Each one of these machines is fitted with strong, easy running casters, which allow it to be moved easily from place to place and the motor is protected from any possibility of splashing water, by a guard or cover.

No. 26—ELECTRIC WASHER, . . . \$65.00

No. 25—Happy Day Engine Power Washer. Price . . . \$40.00

The Electric Vacuum Washer and the Power Vacuum Washer are the same construction, the difference being in the power used.

THE FRAME, OR STANDARD is made of angle steel, the different pieces being securely riveted to each other, forming an exceedingly strong and rigid frame, which at the same time, is not heavy or cumbersome. The entire frame has electro galvanized, non-rust finish, and is mounted on strong steel casters which allow the machine to be readily moved from place to place.

THE STEEL EXTENSIONS for holding three extra tubs are hinged to the sides of frame, and provide substantial supports for the tubs. When not in use these extensions

are folded up close against the tub and are entirely out of the way. The complete machine then occupies no more space than the ordinary one-tub electric.

No. 29—PRICE, \$55.00. Without Extension Table, \$3.00 Less.

ELECTRIC VACUUM WASHER

No. 10—PRICE \$82.50

CHAMPION ELECTRIC WASHER

The **Champion Electric** is furnished complete with motor, as illustrated, and is ready for use by simply screwing the attachment plug into the nearest electric light socket and turning the switch. The machine needs no attention whatever while running, and is absolutely trouble-proof, but in case of emergency it can be operated by hand by simply attaching the wheel-handle furnished for the purpose.

Novelty Lawn Weeder

A Great Back-Saver.

The curved edge of the blade enters and loosens the soil; pressure on the lever then causes the toothed jaw to grasp the plant, and a slight pull will dislodge it without disturbing the surrounding sod. Price, \$1.00.

DANDELION PULLER

To Kill Dandelions You Must Get the Roots.

You slide the steel trowel-shaped blade of the puller straight down into the soil, close to weed. Then push the handle toward the weed, and pull up.

The root is caught by a patented double-tooth prong, which projects from inside of the blade, and up comes the root to the last inch, nothing left to start new growth. As the pull is directly up, the ground and lawn around the weed is undisturbed. The clog-proof prong which gets the root is the patented feature.

Besides Dandelions, it pulls plantain and other weeds. Price, 65c.

Eureka Driving Lamp

Black Japan finish with 3-inch highly polished lens in front and 2-inch Ruby lens in rear. Side bracket attachments, to fit square or round post. It is an indispensable lamp to the man on the road. Will shed a clear light.

PRICE.....\$2.25

TROLLEY ROLLER-BEARING STEEL BARN DOOR HANGER No. 20

The only difference between the No. 25 and 20 is the No. 25 has return apron, as shown in No. 25 cut below, and the No. 20 has not.

Weight, per pair, 10 lbs. Pendant, 6 inches long, $3\frac{1}{2}$ inches wide, 3-16 inch thick. These Hangers have lateral adjustments, and are suitable for doors from $1\frac{1}{2}$ to $2\frac{1}{4}$ inches thick. Hangers and track are sold separately. A pair of Hangers consists of two hangers and carriers, one right-end bracket, No. 51; one left-hand bracket, No. 50, and one center bracket, No. 52, complete with wood screws for hangers and lag screws for brackets. When ordering always give thickness of doors, the exact width of opening, and state whether for double or single doors. No. 31 track, No. 16 gauge, price, per foot, 25c. Hangers, No. 20, per pair, \$2.35.

No. 25 Trolley Roller-Steel Barn Door

Has two adjustments—vertical and lateral. Has return apron. (See cut). Pendant 9 inches long, $3\frac{1}{2}$ inches wide, 3-16 inch thick. Suitable for doors 2 to 3 inches thick and weighing from 400 to 600 pounds. Made to run on No. 31 track. A pair of hangers consists of two hangers and carriers, one right and one left-hand bracket, complete with screws for hangers and lag screws for brackets. Hangers and track sold separately. When ordering always give thickness of door, exact width of opening, and state whether for single or double door.

Per pair, \$2.75. No. 31 Track, per foot, 25c.

Bearing Hanger

Anti-Friction Barn Door Hanger No. 2

PRICE, PER PAIR, \$1.25.

Has roller bearings, which cause the wheel to roll easily and prevent wear. Frame of open-hearth steel, strength sufficient for heaviest doors; standard tread; can be used on other tracks.

The track is made of special carbon open-hearth steel, 1x3-16 stock; has heavy brackets well and substantially riveted every 12 inches. Ends made with tongue and groove to match. Track made in 4, 6, 8 and 10-foot lengths. Price, per foot, 10c.

STAY ROLLERS

For use with Barn Door Hangers. Price, each, 20c.

Extra Brackets for Trolley Track, each, 25 cents.

One Bracket should be placed every three feet.

Double Brackets, each, 75c.

No. 24

Roller-Bearing Steel Bar and Fire Door Hanger

A pair of hangers consists of two hangers, one each right and left-hand brackets, and one center bracket, complete with wood and lag screws. The only Adjustable Double Apron made Suitable for doors weighing

400 to 600 lbs. Adjustment lateral only. No. 1—For doors, $1\frac{1}{4}$ to $2\frac{1}{4}$ inches thick; weight, 12 lbs. No. 2—For doors $2\frac{1}{4}$ to 3 inches thick; weight, 12 lbs. This Hanger has return or double apron. Per pair, \$2.75. No. 31 Track, per foot, 25c.

FLEXIBLE HINGE BARN DOOR HANGER

No. 991.

The door can be swung out from the bottom at any angle. The flexible feature allows the top of the door to move away from the building at least one-half an inch. The track is heavy special high-carbon flexible steel 3-16x $1\frac{1}{4}$ inch, supported by a heavy steel bracket with square shoulder mortised through the track every 17 inches. Weight, dozen pairs, 70 lbs. Weight, track, per 100 feet, 105 lbs. Retail, per pair, \$1.50. Track, Retail, 12c.

R-W SLIDESITE GARAGE DOOR ROLLER BEARING HANGERS

Garage doors equipped with this fixture fold and slide inside building, requiring only minimum space. Recommended for doors not over three feet wide.

With this equipment, four doors hinged together in pairs make an ideal arrangement for the ordinary garage doorway, one pair folding to each side of the opening. When desired, however, three, five or six doors can be used, in which case the center doors swing free, making convenient entrance doors.

CANNON BALL BARN DOOR HANGER

The Cannon Ball Barn Door Hanger is the most widely sold hanger in America. Its heavy sales speak volumes for the merits of the hanger.

Cannon Ball Hangers are the standard by which all others are judged. They represent the height of perfection in design, construction and operation.

Special designed steel ball wheels, light running and with a wide tread, are mounted on a strong steel truss frame. The frame with wheels run completely enclosed in a tubular track; nothing exposed.

Cannon Ball Barn Door Hangers are tandem, flexible, frictionless, noiseless and built with long roller bearings, and are positively bird, water and weather proof.

Track Brackets are not included in the price of Door Hangers.

ROPE

Our stock of rope includes all sizes, from 3-16-inch up to 1 inch. These sizes we carry in stock and can furnish same in full coils or by the piece as desired. The quality of our rope is the best, and we will be pleased to name you the best possible price consistent with quality. We are unable to give prices here, as the market changes.

For Hay Forks we recommend 3/4-in., 13-16-in. and 1/2-in., according to the length of rope.

Approximate length of Manila rope per pound, 3/4-in., 6 feet to pound; 13-16-in., 5 feet to pound, and 1/2-in., 4 feet 3 inches to the pound.

Hudson Cow Stalls and Stanchions

No. 1A Stall.

many other makes of stalls. Think of the possibility of having your entire installation bolted together and standing in position, enabling you to judge of the final suitability of your layout before beginning to pour cement. For should this "size-up" indicate the desirability of a slight shift one way or the other, it can be made before it is too late.

After the cement has been poured, the stalls will never become loosened in the cement, while the anchors and tubing furnish a re-enforcement between the floor and curb. We are fully convinced by the results during the years we have used it that our method of anchoring is the very best that can be devised.

No. 1A66—One Post Stall, with No. 66 Tubular Steel Stanchion. Price.....\$8.00
 No. 1A5—One Post Stall, with No. 5 Wood Lined Steel Stanchion. Price.....\$8.00

No. 2A Stall.

No. 2A66—Stall with No. 66 Tubular Stanchion. Price....\$10.50
 No. 2A5—Stall with No. 5 Wood Lined Stanchion..... 10.50

All Hudson Stalls are furnished with long Angle Iron Base Anchors as illustrated on this page, unless otherwise ordered. When anchor is not desired a slight reduction from regular list price of stalls is allowed the purchaser.

As may be seen from the illustration, the two angle iron anchors extend the full length of the stall row. To the front one are bolted all the stall uprights and pipe anchors for stanchions, and the partitions are bolted to the one at the rear.

This makes it possible to ship the stalls in batteries of 2 or 3 stalls each all set up ready to install. The entire row can be put together and will stand without the maze of props and braces which are such a nuisance when setting up

SHOWING HUDSON STALLS AS SHIPPED.

Assembled at the factory instead of on the farm. No. chance for shortage. Job always complete.

SHOWING METHOD OF INSTALLING HUDSON STALLS.

All uprights and partitions securely bolted to angle iron anchor. Angle also acts as base to hold uprights and partitions in proper place, and reinforces the concrete.

HUDSON STANCHIONS

No. 66—Plain Tubular Steel Stanchion, improved strong malleable fittings, cow proof latch, specially designed lower hinge that does away with the necessity for lead. A serviceable stanchion of proven worth. Weight, 20 lbs.

Price.....\$3.20

No. 5—Adjustable, wood lined, chain lead stanchion with a chain lead. Weight, 22 lbs.

Price.....\$3.20

No. 66.

No. 5.

HUDSON WATER BOWL

(Quick Detachable, Automatic)

Specifications: The Bowl is 9½ inches across top, 4½ inches deep, and is made of the best quality gray iron.

The intake casting and bracket, valve housing and pressure plate are all made of malleable iron.

The Valve is Fuller Ball Type, consisting of brass plunger, brass spring and hard rubber head. The valve seat is brass bushed. Size of intake pipe, ¾ inch.

Weight, 11 lbs.

Price.....\$3.50

The Hudson Q. D. Bowl Has Never Failed Because,

It is easy to install and can be attached to either wood or steel stalls.

It is easy to operate; the slightest pressure of the cow's nose opens the valve and allows the water to flow as fast as she drinks. As soon as she raises her nose the water stops instantly. **No chance to overflow.**

The pressure plate is arranged so it can be easily removed to prevent the animal drinking.

The Q-D Bowl can easily be detached to be cleaned and scoured if necessary.

The bowl can be supplied from either top or bottom. This is important because of the varying conditions in barns.

The Hudson Q-D Bowl will solve the watering problems for your live stock. It will provide clean water at all times, reducing the work of watering the animals. It will increase the milk flow of your dairy herd at least two pounds of milk per day per cow, and will also increase the development and production of all live stock

HUDSON SANITARY STEEL PENS

No. 58A—Steel Cow Pen illustrated below is ideal for a maternity pen and can be used for a testing or feeding pen.

Specifications: The panel bars of the No. 58A Pen are 1½" O. D. High Carbon Steel Tubing, spaced not over 6" on center with strong malleable iron fittings. Corner Posts, Intermediate Posts, Gate Posts, Top and Bottom Rails and Gate Frame are 1½" O. D. High Carbon Steel Tubing. The gate is furnished with heavy malleable hinges and is supplied with a latch that has a gravity lock, which can only be opened by the operator. The Pen is 4' 9" high.

Hudson Cow Pens can be furnished with any style corner or square manger, and with adjustable stanchion built in panel if desired. Weight, 22 lbs. per lineal foot. Price, per foot, **\$2.50.**

Cow Pen Gate Fittings and Arch, per set.....\$5.75
Cow Stanchion Built in Panel, each 3.85
No. 62 Cow Pen Galvanized Tilting Manger.....18.00

The Bull Pen shown in the cut below is our No. 63 with No. 65B corner manger. Hudson Bull Pens can be equipped with high or low corner managers with or without gate, or square manger can be furnished if desired. An adjustable, wood lined, tubular steel stanchion built in the panel can be had when specified. All posts, top rail and panel bars in the Hudson Bull Pens are 1½" O. D. High Carbon Steel Tubing. The filler bars or spindles in the manger rail are 1½" O. D. tubing. Hudson Bull Pens are made only in curb construction with each filler bar running into the cement and bolted to angle iron anchor which runs the full length of panel. This construction provides a pen of unsurpassed strength. Weight, 29½ lbs. per lineal foot. Price, per foot, **\$3.30.**

Bull Pen Gate Fittings and Post to ceiling, set.....\$6.60
Bull Pen Stanchion Built in Panel. 3.85

HUDSON CALF PEN.

No. 58A

Shown above with adjustable lever operating calf stanchions built in panel. Each stanchion can be operated singly. Pen equipped if desired with head guards, etc. Specifications same as cow pen except that Hudson Calf Pens are 4' 6" high. Weight per foot, 15 lbs. Price, per foot, **\$2.40.**

Calf Pen Gate Fittings and Arch, per set.....\$5.80
Calf Pen Stanchions Built in Panel, each 1.90
Calf Pen Head Guards, each.....2.25
Calf Pen Pail Holder, each.....1.50

Hudson Chain Hoist Litter Carrier

No. 58B.—Rigid Track Only.

This Hudson Heavy Duty Back Geared Litter Carrier is the result of long years experience in the carrier business. This carrier combines great strength and rapid action. It will carry the heaviest loads with perfect ease. The hoisting chain is of special strength and is of a length to correspond with the shaft on which it winds. Longer chains furnished if specified for special jobs. Carrier is equipped with friction brake. The tub is made of heavy galvanized sheet steel reinforced around the top and ends with 1 inch angle iron closely riveted. The carrier locks at both ends, which increases the life of the carrier. The bale is constructed of 1 inch by 1½ inch channel steel strongly reinforced. The chain shaft is 1 inch cold rolled steel. Full swiveled, tandem trucks which give greater bearing on the track and ease in turning corners.

No. 58B—Tub, 44 inches long, 26 inches wide, 22 inches deep, inside measurements, capacity, 13 bu. Weight, 200 lbs. Price, \$46.00.

HUDSON FEED CARRIER

No. 40C.

The Hudson Raising and Lowering Feed Carrier has all the track operating features found in our celebrated line of litter carriers, and is furnished with a tub or a carrier box, that is made of selected materials, and shaped so that the operator can work from either end when feeding.

Equipment can be furnished for the installation of a system of trackage in connection with the litter carrier system.

Capacity, 16 bushels. Weight, 225 pounds. Price, \$50.00.

Hudson Track Equipment

No. 104.

No. 102.

No. 90A.

No. 102—I-Beam Track—This track with hangers placed two feet apart will carry many times the load it will ever be called upon to sustain. It is not necessary to have bends made at the factory, as the track can be curved to fit when being installed, extension desired.

No. 103—Two Way all Steel Mounted Switch.

No. 104—Three Way all Steel Mounted Switch.

High quality steel and malleable iron are used in the construction of these switches, insuring durability.

Mounted and ready for installation—need no assembling on the job.

Either two or three way switches, right or left hand, can be furnished. Both styles operate in same manner.

No. 102—Track per foot.....	\$.18

Hudson Floor Feed Truck

This a very convenient and durable truck, built of selected lumber well put together and strongly reinforced.

Load is evenly balanced on wheels, making truck easy to handle.

Wheels are located so that truck may be turned in its own length. Main wheels are fourteen inches high with a two inch face. Castor wheel is seven inches in diameter. Axle is one inch cold rolled steel shafting. Capacity sixteen bushels.

This truck can be furnished with or without the Hudson Scale Arch.

No. 41 Hudson Floor Feed Truck, galvanized steel bottom. Weight, 210 pounds. Price, \$41.00.

WROUGHT HAY RACKS.

Far superior to cast-iron Racks, as frequently used. Price, \$3.00.

2½-inch diamond mesh, No. 8 steel wire, with 1-inch channel iron frames.

O. G. end, oval-banded top, screw holes, bottom and end. Six feet long, 25 ins. high. Square Crimped Wire Stall Guards, used for box stalls. Write for Prices.

CRIMPED STALL GUARDS.

SPECIAL SHAPED GALVANIZED HOG TROUGH

The trough is built of 18-gauge galvanized sheet steel, ends are locked seamed, with reinforcing plates on the corners; angle iron dividers across the trough at intervals of 12 inches, riveted to the galvanized sheets.

These angle iron dividers are so strong that a man can stand on them without bending them; they not only give the trough great rigidity and strength so it cannot wrack, but they also separate the hogs, keeping any one hog from monopolizing the entire trough. Hogs cannot tip the trough.

The legs of the trough are of angle steel, fastened to the trough with heavy rivets.

The bottom of the trough is V shaped, and sides have a flare. 4-ft. length, \$8.00. 6-ft. length, \$10.50. 8-ft. length, \$13.50.

FAVORITE GALVANIZED HOG TROUGHS

Made of No. 20 gauge galvanized steel throughout. Handy, easily cleaned; light, yet very strong.

Twelve inches wide five inches deep.

BADGER TIRES and TUBES

**DOUBLE-CABLE-BASE
CONSTRUCTION.**

A patented type of construction, consisting of a "flexible bead filler" carrying unstretchable and unbreakable cables in each bead of the base of the tire. The strong double cable provides perfect "heel and toe" anchorage of the tire base to the rim makes it impossible for the bead to break or stretch, or permit the tire to blow over the rim. **Double-Cable-Base** construction is found in all Badger tires except the regular clincher type.

33x4½	6.53	38x5½	12.60
34x4½	6.75	36x6	11.70

These sizes are for Fabric Tires, for Cord tires use size larger chains.

McKay Shurout Traction Chain

A new bright-finish chain that literally lifts cars or trucks out of mud and sand. Easy to put on—merely loop buckle end around spoke of wheel, pass chain around tire and through buckle, pulling tight. No clamps or fasteners.

Buckled together in a series these chains form a strong emergency tow chain.

Used with a good lock they will safeguard the car or spare tires.

Size, up to 4½" tire, set, **\$3.00.**

Packed four chains in a good cloth bag.

This pump is nearly twice the length of the ordinary double or triple acting pumps. We can, therefore, safely guarantee it to deliver as much air to the single stroke, and besides, the operator stands erect and eliminates the tiresome "up pull" which is characteristic of the compound pumps.

Heavy brass valve connection, machined to fit any standard valve stem, malleable iron cap, long rod bearing, five-ply air hose. Test 200 pounds. Length over all 30 inches. Ball air checks and swivel stirrup.

PRICE.....\$3.00

The Springfield Tire Pump

**SINGLE ACTING
LONG BARREL**

FAN BELTS

Federal Fan Belts are made up with multiple plies of specially treated fabric, impervious to oils and grease, are practically un-stretchable and are very durable, outlasting the ordinary belts supplied for the purpose. Their comparatively low price and durability make them extremely economical.

TESTING INSTRUMENTS

COLUMBIA AMMETER

To determine the condition of batteries, or to test ignition circuits, a small reliable, low-priced meter is necessary.

The Columbia volt-ammeter shown in the cut is very accurate. Put out in a nickel-plated case, black figures on silver dial; it is a handsome instrument and one which should be in the possession of every one using dry cells.

Price.....\$1.25.

VOLT AMMETER

For testing voltage as well as amperage.

Price.....\$1.50.

SAFETY STEP MATS

Especially designed for attractiveness, quality and service. Has beveled edges with brass grommets at corners ensuring tight fit to running board to keep out moisture. Supplied in black stock, packed 6 mats to the carton. (Screws furnished.)

MINUTE WHEELS

**FOR FORD
AUTOMOBILE**

A set of Minute Wheels consists of four main hubs to fit on the axle spindles, and all the auxiliary parts for five wheels, and an extra wheel. The proposition is simple. You keep your Ford wheels, taking out only the Ford hubs and using our hubs instead, and we furnish an extra wheel with each set of hubs that is 30x3 1/2 plain clincher rim for Ford cars.

With your car equipped with the "Minute Wheel" you at once eliminate the

objectionable feature of having to change or repair a tire on the road.

In one minute you take off the wheel with the bad tire, and replace it with the "Minute Wheel" go on your journey, and when you are at home you repair the tire at your leisure, and when you can do it properly.

Regular Price Set, \$32.00; Cash With Order Price, \$30.00.

BROWN WAGON

Axles are made of dried selected hickory. Brown's Patent Extension Chilled Skeins. These Skeins support the axle where it has the greatest load to bear. Tongue Chains and Stay Chains fitted with springs. The Tongue Chains have a branch chain to prevent jerking and switching of the tongue, and eases the draft on the horses' necks. Wheels all positively soaked in hot oil. Tires never get loose. Write for special circular fully describing these Wagons.

Coil springs are applied to tongue—eases draft on team's neck when chains are forced to control tongue or hold back. They supply the place of the vibrating neck yoke. Yield to pull of chain or branch chain, saving team from jerking of tongue. Branch chains are added to each tongue, practically destroying side jerking and whipping motion. Acts same as neck yoke.

No.	Size of Cast Skein.	Height of Front Wheels.	Height of Rear Wheels.	Size of Tire.	Depth of Box.	Capacity, Pounds.

STEWART HORSE CLIPPING MACHINES — STANDARD OF THE WORLD

THE STEWART No. 1 BALL BEARING HORSE CLIPPING MACHINE.
Standard of the World.

A rigid and very durable machine. Shipped, knocked down in compact box, weighing, complete, 36 lbs. Anyone can set it up. Gears enclosed in dust-proof metal box are cut from special steel and hardened. Has six-foot easy running flexible shaft and famous Stewart clipping head.

Price, complete, \$12.00.

THE STEWART No. 2 CHICAGO HORSE CLIPPING MACHINE.

For Large Stables.
A strong and powerful machine for large stables and custom clipping. Extra rigid construction throughout. Wearing parts all hardened tool steel. Has 6½-foot flexible shaft and Stewart clipping head. The most powerful and durable clipping machine ever made. Shipped, knocked down in strong box. Weight, 70 lbs.

Price, complete, \$17.50

THE STEWART No. 8 SHEEP SHEARING MACHINE.

A high-grade, durable Shearing Machine. Made to wear and do good work. Gears all cut from solid tool steel and run in oil in dust-proof case. Turns easy and Shears fast. the well-known Stewart No. 5 Shear and four pairs of blades. Shipped knocked down in strong box. Weight, 36 pounds.

Price, \$16.00.

Sheep-Shearing Attachment

For Use on Our No. 1 or No. 2 Horse-Clipping Machines.

This attachment consists of complete No. 5 Stewart Shear Head, four sets of shearing knives, the solid core, universal jointed shaft and cogs, as shown here. Weight, boxed, 15 lbs. Price of complete attachment, as described, \$11.50.

Horse Clipping Attachment

Will fit any Stewart Sheep-Shearing Machine. Consists of eye spindle and six feet of high quality flexible shaft. Also the famous Stewart clipping head. Can be attached in a few seconds. Owners of a Stewart Sheep-Shearing Machine who have horses should have this attachment. Packed in box. **Price, \$7.50.**

Stewart Automatic Grinder

For Horse-Clipping and Sheep-Shearing Knives.

Grinds the knives in a few seconds to cut equal to new. Knives are placed in holder, so no skill is required; weight, 36 pounds.

Price:

Fitted for Horse Knives, \$16.00;
Fitted for Sheep Knives, \$16.00;
Fitted for both \$16.50.

Stewart Improved Grinder Attachment

Attaches to a No. 1 Stewart Horse-Clipping Machine or Stewart No. 8 or No. 9 Sheep-Shearing Machine. Puts a perfect edge on horse-clipping or sheep-shearing knives. Every user of a horse-clipping or sheep-shearing machine should have one. **Price, \$6.00**

The Stewart No. 9 Ball-Bearing Sheep-Shearing Machine

A very strong and durable machine, shipped, knocked down in compact case. Gears are all cut from solid tool steel, are hardened and are enclosed in dust-proof metal box. Has large balance wheel to assist in easy running. Every joint in the shaft and shearing head is fitted with ball-bearings, producing the most easy running and efficient shearing machine ever made.

This is the machine to buy. Fitted with No. 7 ball-bearing shear, four combs and four cutters. Weight, 50 lbs.

Price, \$18.50.

THE VACUUM TANK WATERER

Nos. 3, 4, 5 and 6. The simplest and most efficient Hog Waterer that can be built. Made of corrugated, galvanized steel, giving it strength to stand the hard knocks which hogs will give it.

Tank is reinforced with heavy strap iron braces. A full bottom in the casing makes a lamp chamber that cannot be disturbed by the rooting of the hogs, and also permits a center support of the inner tank.

THE CAPITOL HOG OILER

You may see by the picture that the **Capitol Hog Oiling Machine** is very simple and that there is no possible chance for waste of oil nor is there any chance for dirt to interfere with the working principles of this machine. You will notice there are three rubbing bars, making it possible for two or three hogs to rub on the Oiler at the same time.

As soon as the hog starts to rub on the bar this will open the feed allowing the oil to run down the bar placing oil on the infected part. The bars are held firmly in place by guides and the opening which gauges the feed is governed by a spring, which prevents all possible chance for waste of oil.

DON'T TAKE CHANCES.

For years the successful hog raisers have been looking for an Oiler that would work perfectly. There have been a large number of Hog Oilers placed on the market, each and every one has its merits, while at the same time there are with a great many of them a host of disadvantages which the manufacturers cannot avoid.

In considering the advisability of purchasing the **CAPITOL HOG OILER** we want you to feel perfectly satisfied before placing your order that you are giving your patronage with the right concern, and that you may confidently expect in return the best of service.

Made of Cast Iron—
Weights 45 Pounds.
PRICE OF HOG OILER COMPLETE.....\$10.00

6-Step... 3.60	10-Step... 6.00

These ladders are stiff, strong and well built. Have improved patent spring locks attached to traveling sections, and are automatic in action. These locks are fastened securely to the inner sides of upper section, and made of the best malleable iron. They are also provided with a durable spring, which keeps the hook thrown forward and grasps each round of the stationary ladder as the traveling ladder passes upward. A tripper forces the hook back, allowing it to pass the rounds when descending.

8 feet extends to 14 feet.	\$9.00

Gritco Combination Extension Ladder and Trestle

This is a first-class ladder, with rope and pulley attachment above 18 feet. Has automatic Hooks, and can be used as an Extension Ladder, or can be converted into a Trestle, which also serves as a Stepladder. Can be taken apart. Always made in equal sections; 12 to 28 feet. **Price, per foot, 45c.**

Above 24-ft. we prefer the Rope and Pulley Extension.

Gritco "Security" Step Ladder

WITH ALL-STEEL LOCK.

Made from strictly clear seasoned wood. Extra wide steps and top. Has very strong, full-looped, galvanized steel hinge or ear, with right angle flange to which top is riveted. **Every step is rodded and trussed**, so that it is constantly being drawn together when there is weight upon the steps; cannot get rickety. Braces are all-steel bound; secure in every point.

4 to 10 ft., per ft., 70c. 12 to 14 ft., extra heavy, per ft., 75c.

GRITCO PULLEY EXTENSION LADDER

There is not a finer ladder on the market.

White spruce sides; 1 1/4-inch straight, air-dried **First-Class Hickory** rounds.

Spread at base: 6 to 10 inches more than regular width of ladder.

Has Automatic Hooks and is operated by the rope. It can be easily and quickly taken apart and put together.

20 to 30 ft., per ft., 40c.

32 to 40 ft., per ft., 45c.

42 and 44 ft., 60c.

Allow 2 feet for lap on ladders 32 feet and under, and 3 feet on ladders over 32 feet.

TILLEY LADDER HOOK

This old reliable and well-known ladder hook needs very little explanation. The cut explains all its merits and utility for a roof ladder. It can be quickly attached or detached.

Price, per pair, \$1.50

Gritco "Winner" Step Ladder

An excellent ladder at a low cost. This ladder will last a long time. It is strong, stiff and durable. Has solid board shelf. **Sizes: 4, 5, 6, 7, 8, 10 steps, 60c. per step. 12 steps 65c. per step.**

TILLEY IMPROVED SECTIONAL LADDERS.

Sections 6 feet 5 inches long. Either plate and pin lock or lock nut fastening.

Per Section, \$3.50.

ROOF AND GUTTER HOOKS

For Hanging Swing-ing Stages or can be used for many other purposes, strong and durable.

Price, per pair, \$8.00

Pronounced "RU" as in RUBY RU-BER-OLD ROOFING COSTS MORE - WEARS LONGER

FOR OVER 23 YEARS THE STANDARD.

RU-BER-OLD is the original ready-to-lay roofing, and was for several years the only roofing of its character. Different from and superior to all other prepared roofing, in that RU-BER-OLD compound or gum, an exclusive combination of high-grade, water-proof, acid and fire-resisting ingredients is used in its manufacture. This gum is used in no other roofing. That the first roofs of RU-BER-OLD applied in 1892 are still giving satisfactory service is indisputable evidence of unequalled durability. RU-BER-OLD contains no rubber. It contains no tar. It contains no paper. It contains no asbestos. It is not an asphalt roofing. RU-BER-OLD is tasteless. It is odorless. It can be used on roofs from which drinking water is conserved. RU-BER-OLD is fire-resisting. Hot coals thrown on a roof covered with it do not set fire to the fabric, nor to the boarding underneath. RU-BER-OLD is a non-conductor of heat. It keeps the heat in in winter, and the heat out in summer. RU-BER-OLD will outlast tin, iron or shingles. It has outlasted its upwards of 300 imitations, variously known as "rubber" roofings, "asbestos" roofings, etc. Put up in rolls 36 inches wide, containing 108 square feet.

Medium (1-ply), 108 sq. ft.; weight, 35 lbs. Price.....\$3.00

Heavy (2-ply), 108 sq. ft.; weight, 45 lbs. Price..... 3.50

Extra heavy (3-ply), 108 sq. ft.; weight, 55 lbs. Price... 4.00

RU-BER-OLD STRIP SHINGLES

A Shingle of Unusual Merit

Enduring quality, economy, low application cost, attractive appearance—these are the chief attributes of the Ruberoid Strip-shingle. You have in this shingle all that you can ask.

Ruberoid quality, the quality that has been tested on thousands of roofs during the past thirty years, is reflected in this shingle. Otherwise it would not bear the name Ruberoid.

Economy in material is obtained in the Ruberoid Strip-shingle through a patented feature involving a saving in manufacturing cost—a saving that we gladly pass on to you. As a result, you get true Ruberoid quality at an unusually low price. The application of Ruberoid Strip-shingles is quick and simple. Spacing is automatic. No chalk lines are necessary.

Greater safety is imparted by the very design of the shingle. The corners are cut away—hence there are none to turn up. Only five nails are used to a strip, but each strip is actually secured by nine nails due to the tabs on the upper edge. It will not curl. It will not warp. It is approved by the Underwriters Laboratories, Inc., and bears their label.

In appearance Ruberoid Strip-shingles leave nothing to be desired. Unusual thickness, coupled with a pleasing surface of red or green crushed slate, imparts massiveness and character to the roof on which this shingle is laid.

PRICE, PER SQUARE.....\$7.00

CERTAIN-TEED ROOFING

When you want a smooth surfaced Roofing for your House, Barn, Garage, Factory, Warehouse, Sky-scraper, Church, Apartment Building, or Farm Building, get

CERTAIN-TEED

—guaranteed 5, 10 or 15 years for 1, 2 or 3-ply respectively—backed by the responsibility of the World's greatest and biggest Roofing and Building Mills. The **Certain-teed** label on this Roofing stands for a definite guaranteed service—a protection for you. Why try to save a dollar or two by putting on a cheap Roof that is not guaranteed when you can buy **Certain-teed** for just a little more money and get much longer service on your Roof. In the long run it's less expensive to buy **Certain-teed**.

2-ply—108 square feet..... 2.50

3-ply—108 square feet..... 3.00

REX STRIP SHINGLES

RED AND
GREEN

SURFACED
SLATE

These shingles possess all the durability, attractiveness, weather protection and fire-resisting qualities of the modern asphalt shingle—plus 50 per cent. or more saving in the cost of application, because they can be laid so quickly.

Five shingles laid at a time—no spacing—no chalk line—one-half less nails—one-half less nail holes—four-fifths less cracks—no painting—no repairs.

REX STRIP SHINGLES are water-proofed, with pure refined asphalt. The wearing surface is natural chipped slate in handsome red and green colors. The colors are absolutely permanent.

Price, per square.....\$7.00

This material is also put up in rolls of 108 square feet. Nails and cement furnished.

Price, per roll (heavy).....\$3.00

Price, per roll and standard weight..... 2.75

REX FLINTKOTE ROOFING

This material has a continuous service record of over fifteen years. It has proved its remarkable durability, weather-protecting and fire-resisting qualities on all kinds of buildings throughout practically the entire world, and under the severest conditions.

The way to buy roofing is not on claims of what it will or may do—but on the service it has shown, and the record of **REX FLINTKOTE** is your assurance of having a roof that meets every requirement.

Packed in rolls 36 inches wide, containing 108 square feet. Nails, patent caps, cement and directions for laying furnished free with every roll.

Prices: One-Ply, \$2.75. Two-Ply, \$3.25. Three-Ply, \$3.75.

Genasco Roofing

THE STRIKING FEATURES OF GENASCO SMOOTH SURFACE READY ROOFING

are great durability and reasonable cost. These are the advantages that count most whenever you roof a building, yet no where are they combined as in **Genasco Ready Roofing**.

WHY IT IS DURABLE

The asphalt with which **Genasco** is water-proofed comes from the source that produces asphalt of the highest grade and most uniform quality in the world—Trinidad Lake.

It is the most effective water-proofing and wear-resisting material known.

With our knowledge of asphalt, covering over a third of a century's experience we combine this natural product by a scientific process with high-grade felt, to make **Genasco Smooth Surface Ready Roofing**.

Trinidad Lake Asphalt, which has withstood the scorching sun and terrific storms of the Tropics for centuries, gives **Genasco** its lasting life.

Upon a foundation of densely compressed felt, thoroughly saturated with the natural asphalt, a heavy coating of asphalt is applied to both sides, making **Genasco** a pliable, smooth-surface roofing that retains its life through years of sun, rain, snow, wind, heat and cold.

WITH KANT LEAK KLEETS

1-Ply, \$3.00; 2-Ply, \$3.50; 3-Ply, \$4.00. With nails and cement, 25c. less per roll.

Gritco Roofing

GRITCO is an exceedingly high-grade roofing, made especially for us, and fully guaranteed. It does not possess the exclusive features found in the Rex Flintkote, although climate conditions will not affect it for many years. The ingredients used in the **GRITCO** are especially selected for their chemical adaptability, and in manufacture the utmost care is used to produce a uniform and dependable article.

Sufficient nails and cement packed in each roll.

Prices: One-ply, \$2.10. Two-ply, \$2.60. Three-ply, \$3.10.

108 Square Feet to Roll.

Turco Roofing

Turco is a reliable roofing, but cannot be expected to give the same service as the Rex Flintkote or Gritco, because its price is less; but for temporary buildings and small buildings, where conditions are not severe, **Turco** will give you good service.

The materials used in the manufacture of **Turco** are selected with care, and are put together with care, and are carefully examined before shipped.

Sufficient nails and cement packed in each roll.

Prices: One-ply, \$2.00. Two-ply, \$2.50. Three-ply, \$3.00.

108 Square Feet to Roll.

Galvanized Steel Corrugated Roofing

1¼ and 2¼-inch corrugations, standard 29 gauge open hearth steel thoroughly galvanized. Made in sheets 26 inches wide; 6, 7, 8, 9 and 10 feet long. Can also furnish same in 27 gauge.

Genasco Asphalt Putty

This material is especially adapted for closing openings around chimneys, skylights, side walls, etc., as well as for filling cracks and repairing leaks in metal roofs, valleys and gutters—in fact, all metal surfaces which have partially rusted out.

For making repairs to felt or composition roofs no better material is obtainable. Leaks frequently occur by reason of expanding seams or the roofing pulling away from fire-walls. These conditions can be overcome and leaks immediately and effectively stopped by applying **Genasco Asphalt Putty** at the source of the trouble.

Genasco Asphalt Putty can be applied quickly by anyone, thus providing a remedy for leakage without delay, and before excessive damage results.

Genasco Asphalt Putty can be spread easily with a trowel or putty-knife, and absolutely seals against water. It does not become hard and brittle, nor dry out and go to pieces, but retains its life and cementitious qualities indefinitely.

Genasco Asphalt Putty is always ready for immediate use; no heating nor mixing necessary. Easy to apply; economical and efficient—therefore, the ideal product for repair work.

FERTILIZERS FOR THE FARM LAWN and GARDEN

The application of Fertilizers has been a topic much discussed among farmers generally. The quality and requirements of the soil are so varied, some land being deficient in Potash, Phosphoric Acid or some other ingredient, that it is frequently very difficult for the farmer to determine just what mixture he needs. We give below a line of fertilizers best adapted to the various soils and crops.

Ammoniated Alkaline Plant Food

Our old stand-by for summer crops; is used largely on Potatoes, Corn, Tobacco and other summer crops; stands the hot, dry weather particularly well.

Price Per Bag, \$3.25
Price Per Ton, \$32.50

Ammoniated Butchers' Bone Phosphate

Is made largely from slaughter-house stock; used principally for Wheat and Grass, as well as by growers of Corn and Tomatoes for canning purposes. A good article at a low price.

Price Per Bag, \$3.65
Price Per Ton, \$36.50

Animal Bone Phosphate

Made from Animal Bone, Potash and Ammoniates in proper proportion. A complete manure always gives good results. Specially adapted to the growth of Peas, Cabbage, Wheat and Grass. It contains the ingredients necessary to supply what may be lacking in the soil for almost any crop.

Price Per Bag, \$4.50
Price Per Ton, 45.00

Dried Blood

Dried Blood is a quick acting fertilizer. Running high in Nitrogen or Ammonia. Fine for greenhouse, potted plants and garden use.

Price Per Bag of 100 Lb., \$5.00
Price Per 5-Lb. Package, .50

Hydrated Lime

For Improving the Soil

Hydrated Lime is a soil sweetener and is free from injurious qualities. It is cheaper than any other lime product which can claim to be at all competitive, and is more easily handled.

There has been an enormous increase in its use in recent years, keeping pace with the growing of clover and alfalfa.

Hydrated Lime while an indirect plant food is as essential to the maximum production of some crops as is direct plant food.

In addition to producing chemical changes Hydrated Lime also has mechanical effects, making clay soils more friable and more open to both air and water and so less susceptible to extreme dry and wet weather. In sandy soil the action is practically reverse; Lime in such soil has a cementing tendency and helps the soil to retain moisture.

We recommend the free use of Hydrated Lime on lawns.

Per Bag of 50 Pounds, 50c
Per Bag of 10 Pounds, 25c

Write for prices in larger lots. Special inducements offered for car lots.

Special Potato Fertilizer

Made especially for potatoes, running high in Potash and containing Ammonia and Available Phosphoric Acid in proper proportion for good results on this crop.

Price Per Bag, \$3.95
Price Per Ton, \$39.50

Land Plaster

In bags, 200 lbs. each.
Per Bag, \$2.25 Per Ton, \$18.50

Fine Ground Fish Ground Tankage High-Grade Acid

Phosphate

Kainit, Muriate of Potash

Nitrate Soda

Sulphate of Ammonia

Agricultural Lime

Write for Prices

Soft Ground Bone

Made from softer material than the regular "Ground Bone," and contains some little meat and blood. The great objection to the use of Pure Bone (the price) no longer prevents its use by anyone wanting to restore worn-out land. Try it and be convinced.

PRICES

5-lb. package, 30c. 10-lb. package, 50c.
Price Per Bag, \$4.25
Price Per Ton, \$42.50

For those that need only a small quantity of Fertilizer we put up the following brands in small packages:

GROUND BONE

10-pound Packages.....	.40
50-pound Packages.....	1.50
100-pound Packages.....	2.50

NITRATE OF SODA

5-pound Packages.....	\$.50
-----------------------	--------

PULVERIZED SHEEP MANURE

The ordinary manure, which is so necessary to plant life, has many objectionable features when used close to the dwelling. It is unsightly, has a disagreeable odor, draws flies and insects, etc.; likewise it is too bulky to be used to the best advantage.

In its place we offer you a highly concentrated, pulverized, natural animal manure, packed in sacks, light, dry, odorless, free from seeds and all foreign matter, with a plant-food value many times that of ordinary manure.

Realizing the demand for such fertilizer, we have been conducting experiments for many years, and finally by taking a proper mixture of manure from animals fed on cottonseed meal and cake and alfalfa hay (highly nitrogenous foods), and storing and ageing this material for several years under climatic conditions that remove the moisture and prevent leaching and fermentation, we have a natural manure which we pulverize.

PULVERIZED MANURE HAS NO RIVAL

Remember that Pulverized Sheep Manure is aged for several years and will not burn your plants, no matter in what quantities you use it—but as it is highly concentrated, a little goes a long way.

Used for top dressing, mulching, etc.

Valuable in a run-down city garden, as it adds humus and vegetable matter which are essential for all vegetation.

It may also be used at the rate of 20 to 50 pounds to every 1000 square feet in a dry form, or 500 to 1000 pounds per acre.

Makes the richest and safest liquid manure, using 1 pound to 5 gallons of water once a week.

For Greenhouse Plants mix one part to about 10 parts of soil.

5 lbs., 25c; 10 lbs., 50c; 25 lbs., \$1.00; 50 lbs., \$1.75; 100 lbs., \$2.75.

Special price in one-half ton, tons and carload.

GRIFFITH & TURNER CO.

FARM AND GARDEN SUPPLIES

LEMON OIL CO'S. INSECTICIDE

IS RECOMMENDED AND IN USE BY THE LEADING SEEDSMEN AND FLORISTS.
